THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CHANIA MATAARA SMALL-HYDROPOWER STATION IN MATAARA LOCATION, GATUNDU NORTH DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Chania Mataara Small-hydropower.

The proposed small-hydropower plant is projected to supply power to the Kenya Tea Agency, Power Company.

The proposed plant will be developed along River Chania which is located in Thika District, Gatanga Constituency, Kariara Division, Kiarutara Sub-Location, Kamukobini village. The proposed Small-Hydropower project is located about 0.5Km from Mataara Tea Factory.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Biological diversity	<ul style="list-style-type: none"> Planting of grass and trees species that would be destroyed, flowers and grass within the proposed Small-Hydropower station site. Planting trees, grass and flowers has been done and will continue to be done to improve on the landscape quality of the small-hydropower station compound and also acts as windbreakers. Special attention paid to propagation of the endangered tree species especially <i>Prunus Africana</i>. Tree species to be planted to rehabilitate the site and improve the aesthetic value of the small hydropower station compound.
Land degradation due to increase soil erosion	<ul style="list-style-type: none"> Terraces to be constructed at appropriate places at the site and suitable plants and grass species planted. Extra roads to be constructed as narrow as possible and along the contour in consultation with Kenya forest. Service (KFS) and Ministry of Roads and Public Works as necessary. Rip-off compacted for planting of trees. Footpaths to be protected with appropriate grass species, stones or appropriate environmentally friendly measures that would prevent soil erosion. Avoid use of heavy machinery. Use water bowsers to minimize dust pollution. Control earth works.
Siltation	<ul style="list-style-type: none"> Ensure de-silting is done regularly at a minimal rate.
Physical environmental destruction (land scarification)	<ul style="list-style-type: none"> Avoid use of heavy machinery. Use water bowsers to minimize dust pollution Control earth works. Roads rip-off and re-vegetation after construction.
Wastes disposal	<ul style="list-style-type: none"> Waste disposal containers will be placed at strategic places where wastes are sorted out into biodegradable, and non-biodegradable. Solid wastes such as plastics, papers, and bottles will be collected for recycling. While papers and other wastes that cannot be recycled are burnt in the compost pit or incinerator.

Possible Impact	Mitigation measures
Environmental pollution through oil, petrol and diesel spillage.	<ul style="list-style-type: none"> Wastes such as green leaves will be used to produce compost manure for flower gardens to improve soil fertility and also planting trees and flowers later at the small-Hydropower station site. Waste water to be disposed into water sanitation system and exhausted for disposal as need arises.
Occupational health hazards or issues during construction and after	<ul style="list-style-type: none"> Minimize accidental spillage of oils, petrol and diesels. Where they occur, immediate collection and treatment of site is recommended. Dispose wastewater using environmentally sound methods. Dispose machinery pollutants using environmentally sounds methods. Ensure machinery and equipment are well serviced to reduce leaks. Construct storage fuel tanks away from regular activities in compliance with Energy bill, 2003. Provision of adequate personal protective gear/equipment to workers such as gloves and gum boots to workers during construction work. Use of water to reduce effect of dust on workers and the environment. Erect warning signs. Fence where necessary HIV and AIDS, VCT and Health Support Clinic within the small-hydropower station area.
Personal safety such as workforce accidents by unsafe working practices	<ul style="list-style-type: none"> Guard all moving parts of machines; provide personal protective clothing and ensure they are used; Display for all to read health, safety and environmental management policies Compliance to the provisions of the EHS management plan to safeguard workers. Prepare and print safety manual for distribution to workers. Contract an EHS Consultant to police workers with the view to ensure provisions of the EHS regulations are adhere to. Provide protective gear for example overalls, hard hats (helmets), and safety boots among others.
Air, dust and noise pollution	<ul style="list-style-type: none"> Dust masks to be provided to workers to limit 42 inhalation of the dust. Contractor will give prior notice of activities and time durations to neighboring households. Watering dusty ground before excavation begins. Measures will be put in place to ensure use of serviced and greased equipment and earmuffs by operators. Switch off engines when not being used. Generators to be well insulated or placed in enclosures to minimize noise levels. Sprinkling of water on graded routes to reduce dust. Provide earmuffs to workers.

Possible Impact	Mitigation measures
	<ul style="list-style-type: none"> Use of appropriate devices to filter toxic emissions from the smoke before released to the atmosphere. Screening/fencing the site to avoid spread of dust and ensuring all noisy work is done during daytime to avoid disturbance to neighbours.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIROMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED IRARU SMALL HYDROPOWER STATION IN KIUNGONE LOCATION, SOUTH IMENTI IN IMENTI SOUTH DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Iraru Small-hydropower.

The proposed small-hydropower station is expected to supply energy within Kenya Tea Development Agency (KTDA) factories while enabling them to achieve self-reliance.

The proposed Small-Hydropower station is about 15 Kilometres from Nkubu town. It is located at Lower Kiungone Sub-location, Kiungone Location, Abogeta West, South Imenti South District. The proposed Small-Hydropower station is located 4 kilometres from Mt. Kenya forest, 5 kilometres from Kionyo tea factory.

The following are the anticipated impacts and proposed mitigation measures:

Possible impacts	Mitigation Measures
Biological diversity (flora and fauna)	<ul style="list-style-type: none"> All trees uprooted to pave way for canal construction should be replanted Planting of grass and tress species that would be destroyed, flowers and grass within the proposed small-hydropower station site. Planting of trees, grass and flowers has been done and will continue to be done to improve on the landscape quality of the small-hydropower station site and also acts as windbreakers.

<i>Possible Impact</i>	<i>Mitigation measures</i>	<i>Possible Impact</i>	<i>Mitigation measures</i>
	<ul style="list-style-type: none"> • Special attention paid to propagation of the endangered tree species especially <i>Prunus Africana</i>. • Tree species to be planted to rehabilitate the site and improve the aesthetic value of the small hydropower station site. • Promote the development of community nurseries and educate on need of planting trees to mitigate impact of global warming in the region. 		<ul style="list-style-type: none"> • Construction of Iko toilets OR flush toilets to be designed and sited.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR
THE PROPOSED EXPANSION OF MOMBASA CEMENT
LIMITED (MCL)-ATHI RIVER CLINKER GRINDING PLANT,
ATHI RIVER

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the proposed expansion of MCL, Athi River clinker grinding plant.

The proposed expansion of the clinker grinding plant will comprise of four major components namely: raw material storage sheds; cement mill; storage, packing and loading sections; and associated infrastructural developments.

The proposed project site for the proposed expansion will be alongside the existing clinker grinding mill. This is located in Athi river district, Mavoko division, mavoko location on plot number 27159. The land measures approximately 50 acres.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Dust pollution	<ul style="list-style-type: none"> • Development of dust management plan for construction and operation phases. • Installation and maintenance of bag filters within the grinding mill; Restricting vehicle speed on service lane. • Installation of emission monitoring devices. • Establish a greenbelt around the factory perimeter wall. • Use of enclosed crusher conveyors belt systems. • No burning of solid waste on site; and • Regular wetting of service roads.
Noise and vibration	<ul style="list-style-type: none"> • Noise surveys / monitoring at the plant and equipment to maintain/check noise emissions.

Possible Impact

Mitigation measures

Public and occupation Safety and Health	<ul style="list-style-type: none"> • Where possible use of silenced air compressors on-site. • Use of PPEs. • Auditory testing of exposed staff • Administrative controls—that is, shift system and signages. • Regular maintenance of equipment to keep it in good working condition. • Operators of construction equipment to be made aware of the potential noise issues and how to minimize noise emissions. • Proper personal protective equipment i.e. safety boots, helmet, goggles, respiratory equipment and gloves shall be used at all times on the site during quarrying or as condition warrant and workers trained on the proper use of tools. • Contractors and the management shall use barriers and guards as necessary to protect employees and visitors from physical hazards. • Signage -danger warning or CAUTION will be put at strategic places. • The contractor and management shall adhere to the provisions of environmental health and safety plan (EHS). • Ensure that the operational manuals are available and accessible for every equipment /machinery. • Dust suppression. • Development of occupational safety and health guidance plans; and • Form a safety and health committee to coordinate safety and health issues at workplace.
Traffic management	<ul style="list-style-type: none"> • Engagement of a traffic marshal to coordinate vehicle movement in and out of the facility. • Alternative internal parking for the vehicles awaiting clearance to offload or load cargo. • Erection of an public information board on the service road; and • Erection of appropriate road & warning signs.
Waste	<ul style="list-style-type: none"> • Waste segregation at source. • Waste reuse, reduce and recycle; and . • Contract a NEMA certified waste collection firm to collect solid waste for disposal. • Construction of storm water drainage system. • Install oil traps on waste oil drainage. • Servicing of machinery and equipments to be done at a designated place with a paved surface and oil interceptors.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR
THE STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA) FOR
THE PROPOSED TATU CITY-PRESENTATION OF STRUCTURE
PLAN AT TATU FARM, KIAMBU COUNTY

PURSUANT to regulation 42 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental strategic assessment report for the proposed Tatu City.

The Tatu development covers an area of 1,035 hectares owned by the proponent.

The proposed city will constitute a Primary:-

Primary Urban Node i.e. city centre comprising of mixed development (shops, offices, government buildings, community facilities and urban residential developments);

Secondary Urban Node comprising of public spaces, leisure and entertainment, small offices and community facilities around public spaces;

Business Corridor which is mainly high profile or corporate businesses;

Technology Park for businesses involved in research, development and technological innovations; and

Activity Spines to provide premises for small, local entrepreneurs who won't necessarily be able to afford rental or property prices in any of the other more high profile business area.

Tatu is located approximately 16km north east from the centre of Nairobi, directly west of and bordering on the outskirts of Ruiru town and about 6.5km to the east of Kiambu town.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental/Social Issue</i>	<i>Management and Mitigation and /or Enhancement Measures</i>
Employment	<ul style="list-style-type: none"> • Tatu City Management to ensure contractors give Ruiru community the first priority for available job opportunities, subject to qualifications and needs of the job. • Contractors to develop a database of all the jobs that are anticipated, their qualifications and make it public.

Environmental/Social Management and Mitigation and /or

<i>Issue</i>	<i>Enhancement Measures</i>
Possible Immigration and Emigration leading to disruption of social cohesion, social relationships, social institutions, and expanded urbanization	<ul style="list-style-type: none"> • Contractors to consider, within reason, opting for manual and labour intensive practices rather than automobile to encourage job creation and cut on green gases and dust emissions. • Compliance with national laws on employment to protect employees and vulnerable groups. • Tatu City Management to constitute clear procedures and guidelines for handling community complaints. • Kiambu County and the Ruiru Municipal Council to monitor the trend of migration during the project implementation and use the statistics to assist in planning county developments and social amenities. • The government to encourage similar development in the larger Nairobi metropolitan to ease possible population influx. • Tatu city to assist the government in providing adequate social services to meet the anticipated population demand.
Potential growth of informal settlements	<ul style="list-style-type: none"> • Tatu Project Management to ensure that staff employed by the Contractor mainly casual and semi skilled personnel are from the local community (Ruiru area) where possible to avoid development of makeshift settlements around the project site. • Tatu City Management/Contractors to put up decent construction camps to host technical employees attached to the project. • Municipal Council Planning Department to enforce the Ruiru Municipal Council Development Plan in line with the Tatu Structure Plan • Ruiru Municipal Council to develop capacity to enforce legal provisions against illegal squatting
Improved local socio-economy	<ul style="list-style-type: none"> • Inform the local community of the available small business opportunities in the city. • Plan and facilitate small and medium local business ventures within the city.
Social Deviance, HIV/AIDS and STD's	<ul style="list-style-type: none"> • Promote good behaviour skills among the youth through youth groups to avoid social deviancy e.g. drug abuse, immorality, etc • Education and sensitization of workers and the local communities on STIs. • Provision of condoms to the project teams and the public in conjunction with local NGO's dealing with HIV/AIDS sensitization.
Workers and community health and safety	<ul style="list-style-type: none"> • A detailed Health and Safety Management Plan (HASp), which will include a health and safety risk assessment for the planned construction and maintenance works be prepared by Contractors and certified by Tatu City Environmental Officer before any works begin.

Environmental/Social Management and Mitigation and /or

<i>Issue</i>	<i>Enhancement Measures</i>
Road safety and accidents	<ul style="list-style-type: none"> • Ensuring road safety during road design and construction phases. • Monitor all operations during construction and ensure proper signage of the roads during operation. • Road contractors to enforce traffic regulations during construction to minimize related impacts on traffic.
Changes in land-use patterns	<ul style="list-style-type: none"> • Ruiru Municipal Council to ensure upcoming neighbouring developments are consistent with the established standards and Ruiru Municipal Council Zoning Plans. • In principle adhere to the approved Tatu City Structure Plan. • Upcoming developments to embrace planning to drive needed development in Kiambu County.
Way leave acquisition & maintenance (e.g. loss of residential land, farms and businesses)	<ul style="list-style-type: none"> • The client to follow the Way Leave Rules governing the triggered sectors of development (Water, Power, Road etc)
Loss of biodiversity; destruction of habitat and ecologically sensitive areas	<ul style="list-style-type: none"> • Conserve and enhance all the areas delineated and zoned to be of high conservation value. • Comply to the approved Tatu City Structure Master Plan and observe the proposed green zones. • Observe delineated buffer zones as presented in the ecological sensitivity map. • The infrastructure design should as much as possible avoid areas that have been zoned as environmentally sensitive. • Restrict vegetation removal and ecosystem disturbance to areas marked for construction. • Areas zoned as microhabitat, breeding sites and bird nesting grounds be conserved. • Any developments within the ecological sensitive areas should be subjected to an environmental screening process. • After completion of each construction process, the sites should be rehabilitated and re-vegetated with locally occurring grasses, shrubs and trees or other fast growing trees and grass as recommended by the Tatu City Landscape Architect in consultation with the District Forest Office and the Kenya Forestry Service; • Undertake awareness and education programmes for local residents, immediate neighbours and would be workers on the need to promote and practice environmental conservation.
Building Material	<ul style="list-style-type: none"> • Tatu Environmental Officer to ensure that contractors get raw material from NEMA approved quarrying sites and comply with the regulation for the extraction of construction materials; Maximise the re-use of excavated materials in the works as fill.

Environmental/Social Management and Mitigation and /or

<i>Issue</i>	<i>Enhancement Measures</i>
Environmental Noise and Vibration	<ul style="list-style-type: none"> • Tatu Environmental Officer to undertake regular environmental monitoring and audit of the quarries during project implementation. • Tatu Environmental Officer to ensure contractors procure and use environmentally friendly and sustainable materials. • Tatu Environmental Officer to ensure compliance of the development with the Environmental Management and Coordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009.
Air Quality; Green gases and Excessive dust emissions due to construction activities	<ul style="list-style-type: none"> • The City Management to plan their activities in line with the draft National Air Quality Standards and where possible develop customised Tatu City air quality bylaws to control emissions and guard against pollution generating activities. • The Resident Engineer or the Tatu Environmental Officer shall monitor earthworks operations and if necessary suspend operations wherever visible dust is unduely affecting neighbouring properties. • The removal of vegetation shall be avoided until such time as clearance is required and exposed surfaces shall be re-vegetated or stabilised as soon as practically possible. • Ensure wet construction to suppress dust during dry and windy periods as far as possible and programme permitting. • Ensure supervision and enforcement by the contractor in the provision of vehicles delivering construction materials to site have tarpaulin covers to reduce spills and windblown dust. • Any complaints received by the Contractor regarding dust should be recorded and communicated to the Project Environmentalist for action • All construction machinery be maintained and serviced in accordance with the manufacturer's standards • Maintain air quality within permissible limits and undertake frequent air quality monitoring around the light industrial zone.
Water Quality, Supply and Flooding	<ul style="list-style-type: none"> • Abstract Water only from permitted sources • Undertake wetland monitoring and quality assessments every quarter. • Monitor water consumption and utilisation in co-ordination with the contractor through strict supervision of construction works involving water use. • Sensitize construction workers on the importance of water conservation and management. • Liaise with immediate stakeholders and develop a comprehensive water use and monitoring program for implementation during construction, this includes monitoring of local surface water and groundwater resources abstraction related to construction activities.

Environmental/Social Management and Mitigation and /or

Issue	Enhancement Measures
Construction waste	<ul style="list-style-type: none"> All wetlands in the area be buffered as outlined in the structure plan and the ecological sensitivity map. Stockpiles must be located at a reasonably safe distance from wetlands. Return waters from membrane bio-reactors (MBR) must be analysed at the point of discharge into wetlands to ensure compliance with the Environmental Management and Co-ordination Act (Water Quality) Regulations, 2006. Plan, design and enforce suitable runoff control measures to guard against flooding. Ensure proper siting and construction of temporary waste holding/storage places. Commission a NEMA accredited waste management and handling company to manage construction waste that has no further use on site. Undertake waste segregation at convenient locations on site. The contractors' tender documents and property lease documents should specify conditions for proper solid waste handling as will be provided in the waste management plan during site preparation, construction and operation.
Solid waste (Commercial, industrial, processing, domestic etc.)	<ul style="list-style-type: none"> All the waste generated (during construction and operation and decommissioning phases) should be segregated at their point of source/individual premises. Reuse and recycle where possible. Handling and transportation of waste should be done by a NEMA registered waste handler who will take it to a NEMA approved dumpsite. Commission waste studies to inform detailed designs that will recommend the most suitable option. This option should meet the National Waste Management Regulations.
Liquid waste	<ul style="list-style-type: none"> All liquid waste should be directed to the MBR. Hazardous liquid wastes should undergo specialized treatment/scrubbing before being released to the MBR treatment plant.
Wetlands	<ul style="list-style-type: none"> All identified and mapped wetlands should be conserved. The recommended and delineated buffer should be established; Any developments within the buffer zone or wetland areas should be subjected to environmental screening.
Risk of invasive species	<ul style="list-style-type: none"> Materials such as sand and stone should, wherever possible, be sourced from areas which are free of alien plants; The proposed open green areas and the buffer zones should be landscaped with
	<ul style="list-style-type: none"> indigenous flora as recommended by the District Forestry Office; Existing alien species, like the eucalyptus should be removed during construction and replaced with local indigenous trees. Designated transport routes to be used regularly over the duration of the proposed construction works will be adopted and communicated to the contractors and other road users; Schedule construction vehicle movements to ensure there are no any interruptions resulting to traffic delays of public vehicles during peak hours. Model anticipated traffic and plan adequately. Find and recommend alternative routes, and provide for adequate diversion to accommodate traffic movements. Undertake careful infrastructure and landscape planning. Factor engineering solutions during design stage and implement them.
	<p>Increased traffic congestion on classified roads passing through the site during construction.</p>

ALLOCATION OF FUNDS AND DISBURSEMENT CRITERIA FOR 2011/2012 FINANCIAL YEAR

PURSUANT to regulation 15 of the Local Authorities Transfer Fund Regulations, 1999, the Deputy Prime Minister and Minister for Finance publishes the following in criteria:

Allocation of Funds

1. For the financial year ending on 30th June, 2012, the amounts set out in the First Schedule are allocated from the Local Authorities Transfer Fund to the local authorities indicated.

Disbursement Criteria

2. The amounts set out in the First Schedule have been allocated on the basis of the disbursement criteria set out in the Second Schedule.

General Conditions on Disbursement from Fund

3. As required under regulation 14, no amounts shall be disbursed to a local authority unless the local authority submits the following, by 5th June, 2011, to the Office of the Deputy Prime Minister and Ministry of Local Government—

(a) annual estimates in accordance with section 212 of the Local Government Act, approved by the council of the local authority, and certified by the respective Regional Local Government Officer as having been discussed and recommended for approval by the Deputy Prime Minister and Minister for Local Government; and

(b) information sheets for all capital expenditures projects as specified in the budget circular:

4. (1) As required under Regulation 17, no amounts shall be disbursed to a local authority from the service delivery account unless the local authority demonstrates, in the submissions described in paragraph 3, that—

(a) at least sixty-five percent of allocations from the Service Delivery Account has been budgeted for capital expenditure;

(b) expenditure on personnel does not exceed fifty percent of the total expenditures of the local authority;

(c) the authority has paid all statutory charges that became payable in the 2010/2011 financial year.

(2) The amounts allocated to each local authority from the service delivery account shall be disbursed as follows—

(a) the first seventy-five percent on or after the 30th September 2011; and

(b) the remaining twenty-five percent, on or after the 31st January, 2012.

Disbursement from Performance Account

5. (1) As required under regulation 27, the local authority shall submit the following documents—

(a) a statement of revenues, expenditure, cash and bank balances for the 2010/2011 financial year, as specified in Form 3 of the Schedule to the Regulations, ready to be duly certified as a true record by an auditor appointed under regulation 25;

(b) a statement of debtors and creditors as at 30th June, 2011, as specified in Form 4 of the Schedule to the Regulations, together with;

(c) a Local Authority Service Delivery Action Plan (LASDAP) setting out the local authority's plans for improvement of local services for the 2012/2013 financial year;

(d) a full abstract of the accounts of the local authority for the 2010/2011 financial year, ready for auditing by the Controller and Auditor General; and

(e) a revenue enhancement plan for the 2012/2013 financial year, in Form 5 of the Schedule to the Regulations, showing the means by which the local authority intends to enhance its policies and administration of revenues.

(2) As required under regulation 27, the documents described in subparagraph (1) are due:

(a) for the documents described in subparagraphs (1) (a) and 1 (b), on or before 30th September, 2011;

(b) for the document described in subparagraph (1) (c), on or before 30th November, 2011;

(c) for the document described in subparagraph (1) (d), on or before 31st December, 2011; and

(d) for the document described in subparagraph (1) (e), on or before 28th February, 2012.

(3) A local authority shall be entitled, as follows, to the indicated percentage of the amount allocated to the local authority from the performance account—

(a) after submission of the documents described in subparagraph (1) (a), twenty percent;

(b) after submission of the documents described in subparagraph (1) (b), twenty percent;

(c) after submission of the documents described in subparagraph (1) (c), twenty percent;

(d) after submission of the documents described in subparagraph (1) (d), twenty percent; and

(e) after submission of the documents described in subparagraph (1) (e), twenty percent.

(4) The amounts allocated to each local authority from the performance account shall be disbursed as follows—

(a) the percentage of the amount indicated in subparagraph (3) (a), (3) (b), (3) (d) above, on or after 31st January, 2012; and

(b) the percentage of the amount indicated in subparagraph (3) (c) and (3) (e) above, on or after 30th April, 2012.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
