#### GS 10 DRILLING CONTRACT

As part of an important programme of groundwater resource exploration and evaluation, contractors' enquiries are invited concerning the drilling of an estimated 10 – 15 cored boreholes to a maximum depth of 250 metres in Kalahari and Karroo formations. Wireline coring equipment capable of obtaining a continuous core of 75 mm minimum diameter and producing a borehole which on completion is not less than 100 mm I.D. throughout its depth will be required. The equipment should also be capable of rotary *airflush* coring down to depths of 60 metres for uncontaminated sampling. The work will involve the knowledge and use of biodegradable drilling fluids and borehole completion and development techniques.

The area of operations is in the fringe Kalahari zone around Serowe in the Central District and around Letlhakeng in the Kweneng District and the contractor will be required to work for several distinct hire periods during 1977-78.

Detailed contract specifications and further information is available on request from Deputy Project Leader, GS 10 Department of Geological Survey, Private Bag 14, Lobatse. Telephone: Lobatse 327/8.
