Bill No. 19 of 1993

NATIONAL REGISTRATION (AMENDMENT) BILL, 1993

(Published on 26th November, 1993)

MEMORANDUM

A draft of the above Bill, which it is proposed to present to the National Assembly, is set out below.

The Bill seeks to amend the National Registration Act to remove constraints encountered during implementation of its provisions.

Section 3 of the Act is to be amended to enable the Registrar to delegate certain of his powers to public officers where pressure of work so requires or where there is a shortage of district registrars. It is further proposed that the requirement to register non-citizens is removed, since they can be identified by other documents, such as passports. This also entails other incidental amendments to remove several other references to non-citizens.

The present period of validity of national identity cards is 10 years. But since a child may have dual nationality until he reaches the age of 21 years, it is proposed that a Botswana identity card issued to a child having dual nationality shall not be valid after his 21st birthday, when he will have to decide whether or not he will retain his Botswana citizenship.

The proposed amendment of section 7 is intended to enhance the power of the Registrar to obtain information about applicants for registration from persons reasonably likely to have such information. The proposed amendment to section 20 also seeks to enable specified Departments to have access to information obtained under the Act.

P. K. BALOPI,
Minister of Labour and Home Affairs.

An Act to amend the National Registration Act

Date of Assent:

Date of Commencement:

Short title

"(4) In addition to his powers under subsection (3), the Registrar may, for areas where there is no district registrar, or where the pressure of work so requires, delegate such of his powers as he may specify, to such public officers as are available and whom he considers suitable to exercise such powers."

Bill No. 20 of 1993

FIRE SERVICE BILL, 1993
(Published on 26th November, 1993)

MEMORANDUM

A draft of the above Bill, which it is proposed to present to the National Assembly, is set out below.

The purpose of the Bill is to replace the existing Fire Services Act, which proved to be too impracticable for the purposes of Botswana. The Bill provides for a Fire Service for Botswana, but divided into fire brigades to meet the needs of individual towns or cities, with personnel recruited by, and the responsibility of, the Unified Local Government Service. The Director of the Fire Service will be a public officer and will have overall control and direction of the various brigades.

This will help to ensure standardization of equipment (including fire engines and fire hydrants), uniforms, training and practices, and simplify promotions and transfers between fire brigades.

C.J. BUTALE,
*Minister of Local Government,
Lands and Housing.*

An Act to provide for the creation of a Fire Service for Botswana

Date of Assent:

Date of Commencement:

ENACTED by the Parliament of Botswana.

Short title

1. This Act may be cited as the Fire Service Act, 1993.

Interpretation

2. In this Act, unless the context otherwise requires —
“Council” means a district council established under the Local Government (District Councils) Act, or a town or city council established under the Townships Act, as the case may be, and shall also include a township authority;
“Council area” means the area for the administration of which a Council is responsible.

Establishment
of Fire
Service

3. (1) There shall be a Fire Service for Botswana, which shall be part of the Unified Local Government Service, and shall be comprised of such fire brigades as shall be necessary or desirable for the prevention and control of fires in Botswana.

(2) There shall be a Fire Service Director, hereinafter referred to as “the Director”, who shall be a public officer and whose duties shall include the organization, co-ordination and regulation of fire brigades throughout Botswana.

Establishment
of fire
brigades

4. (1) When the Director is of the opinion that a fire brigade should be established in any Council area, he shall so advise the Council concerned and the Establishment Secretary, at the same time making such recommendations regarding the size of the brigade, its situation, the equipment required, the training to be provided, and any other matters that he considers relevant.

(2) Upon receipt of the advice and recommendations of the Director, the Council concerned shall proceed to take whatever steps are necessary to provide a suitable site for a fire station, housing for personnel, whatever vehicles and equipment are necessary for the proper operation of the fire brigade, and to deal with any other matters required under this Act, or referred to or recommended by the Director, and the Establishment Secretary shall make the necessary appointments of personnel to constitute the fire brigade.

(3) Promotions within the Fire Service, transfers between brigades, schemes of service and training, and conditions of service shall be made or determined by the Establishment Secretary, in consultation with the Director, and with the senior officer of the brigade concerned.

Provision of
adequate water
supplies

5. (1) Each Council shall be responsible for ensuring that adequate supplies of water are available and secured for use when required in case of fire, and for this purpose may enter into agreement with the relevant water authority appointed under the provisions of the Waterworks Act, and the water authority shall not unreasonably refuse to enter into such an agreement.

(2) Any question as to whether a water authority has unreasonably refused to enter into such an agreement shall be determined by the Minister, after consultation with the Minister for the time being responsible for water affairs.

(3) The relevant water authority shall, at the request of the Director, or of the senior officer of the fire brigade concerned, and in accordance with any regulations made under section 14 —

- (a) fix fire hydrants, capable of providing adequate supplies of water, on its mains at such places as may be most effective or convenient for providing water necessary to extinguish fires within the Council area, and when necessary replacing such hydrants:

Provided that the fire brigade of the area concerned may carry out such regular standard tests of such hydrants as it considers necessary to ensure that they are maintained in good working order and capable of providing adequate supplies of water in case of fire;

- (b) cause such fire hydrants to be plainly indicated by notice or distinguishing sign placed adjacent thereto or on any wall or fence near by.

(4) The cost of maintaining such hydrants shall be met by the Council concerned:

Provided that —

- (a) where an area is to be or is being developed, the cost of supplying and fixing fire hydrants shall be borne by the body responsible for the development; and
- (b) where any hydrant is damaged as the result of any use made of it, with or without the consent of the water authority, other than for fire-fighting purposes or for any other purpose of a fire brigade, the person responsible for such damage shall be liable for the cost of repairing or replacing the hydrant concerned.

(5) Any person who uses a fire hydrant, other than for fire-fighting purposes or any other purpose of a fire brigade, or other than for any purpose authorized by a water authority or by any person to whom the hydrant belongs, and any person who damages or obstructs any fire hydrant otherwise than in consequence of its use for such an authorized purpose, or any person who makes an unauthorized connexion to a fire hydrant, shall be guilty of an offence and liable to a fine of P3 000 and to imprisonment for three years.

(6) The Director may take whatever steps are necessary to ensure that water supplies and fire hydrants will be adequate to cope with any fire that may occur, that fire hydrants are strategically placed and that they and other fire fighting apparatus and equipment are standardised and suitable for the purpose.

(7) A Council may, on the advice of the Director, by agreement —

- (a) secure the use, in case of fire, of water under the control of any person other than a water authority;

- (b) improve access to any such water; and
- (c) lay and maintain pipes and carry out other works in connexion with the use of such water in case of fire.

(8) In case of any fire —

- (a) a fire brigade may use for fire-fighting purposes any convenient and suitable supply of water, but shall be liable to replace any water used, or to pay compensation therefor;
- (b) a water authority shall, on being required by the most senior fire brigade officer present to provide a greater supply and pressure of water for extinguishing a fire, take all necessary steps to comply with such requirement, and may for such purpose shut off water at the mains or in any pipes in any area; and no authority or person shall be liable to any penalty or claim by reason of any interruption of the supply of water occasioned by any compliance with such a requirement.

Notice of
proposed works
likely to affect
water supply

6. (1) Where any person proposes to carry out any works for the purpose of supplying water to any part of the area of a Council, he shall give notice in writing thereof to the fire brigade of the area concerned not less than four weeks before the works are begun.

(2) At least seven days before any works are begun which affect or are likely to affect any fire hydrant, the person by whom such works are to be executed shall give written notice thereof to the fire brigade of the area in which hydrant is situated:

Provided that where, in an emergency, it is not practicable for notice to be given at the time required under the provisions of this subsection, it shall be sufficient if such notice is given at the earliest practicable opportunity.

(3) Any person who contravenes or fails to comply with the provisions of this section shall be guilty of an offence and liable to a fine of P1 000 and to imprisonment for six months.

Duties of
fire officers

7. (1) Every fire officer shall be liable for duty at all times and may at any time be detailed for duty in any part of Botswana, as the Director may reasonably authorize or require.

Withdrawal
from college

18. (1) (a) Where a principal is satisfied that there are good grounds for requiring a student to withdraw from a college on account of his lack of academic ability, ill health or continued or frequent absence, he may make a recommendation to this effect to the Permanent Secretary.

(b) The principal shall not require the student to withdraw from the college under this subregulation unless or until he is authorized by the Permanent Secretary to do so.

(2) A student who has not attended classes at the college at which he is enrolled for as many as thirty consecutive college days, or a total of sixty days in any one academic year, shall be required to withdraw from such college unless the principal is satisfied that there are reasonable grounds for such non-attendance, or unless the Permanent Secretary otherwise directs.

(3) Any student who has not attended classes at the college at which he is enrolled for two consecutive college days, by reason of any strike, boycott or any act of serious indiscipline, shall be deemed to be withdrawn forthwith from such college, unless the Permanent Secretary otherwise directs.

19. (1) If a student at a college discovers herself to be pregnant, she shall immediately inform the principal of the college of such pregnancy and as soon thereafter as possible produce to him a medical certificate from a registered medical practitioner giving his opinion as to the approximate date of delivery.

(2) If at any time a principal has reason to believe that a student at the college may be pregnant, he may require the student to produce a medical certificate from a registered medical practitioner certifying whether or not, in his opinion the student is pregnant, and if so the approximate date of delivery, and failing production of such medical certificate within seven days immediately after the requirement is made, the principal may presume that the student is pregnant and act accordingly.

(3) The principal shall, after consultation with the pregnant student or, if the student is a minor, her guardian, plan a pregnancy leave of not less than one year, taking into account the following factors in determining the starting date of the leave and the return date of the student back into college —

- (b) the general health of the student;

- (a) require the student to produce a certificate of medical fitness from a registered medical practitioner;
- (b) reconsider the plan for pregnancy leave and, if necessary, take steps to amend it; or
- (c) suspend the student from college, if the student or her guardian omits or fails to fulfil any of the requirements of this regulation.

(6) The principal shall obtain approval of the plan from the student and her guardian, and the student shall be required to abide by the plan, and the student or, if the student is a minor, the guardian shall indemnify the Government against any liability arising out of the student's continued stay at the college during her pregnancy.

(7) Notwithstanding anything contained in this regulation, the principal shall not readmit a student to the college after completion of her pregnancy leave unless a vacancy exists in the class in which she would be re-admitted.

(8) Any student who becomes pregnant for a second time and requires a second pregnancy leave whilst still enrolled at a college, may be granted such leave provided that it is taken or occurs not less than two years after the end of her first pregnancy leave, and that she has been able to progress to the next grade or year, but in any other case such student shall be withdrawn permanently from the college.

(9) Any student whose pregnancy ceases whilst she is still enrolled at a college shall not be allowed to re-attend studies at the college or resume her stay in a hostel unless or until she has been certified fit by a registered medical practitioner.

Taking of
examinations

20. (1) A student shall not be permitted to sit for any examination at a college during any period when he or she is suspended or expelled from the college, or is on pregnancy leave in accordance with the provisions of regulation 19, unless the Permanent Secretary has authorized the taking of such examination.

(2) A student who has not attended classes at the college at which he is enrolled for as many as thirty consecutive college days, or a total of sixty college days in any one academic year, shall not be permitted to sit for any examination during such year unless the Permanent Secretary directs otherwise.

Breaking
of bond

21. A student who breaks his course of study without such cause as is, in the opinion of the Permanent Secretary, reasonable and acceptable, shall be required to refund to the Government, in terms of the conditions of his bond, such sum as may be determined by the Permanent Secretary, subject to the approval of the Minister.

PART V — *Safeguards for Health of Students*

Health of
students

22. (1) If a student, while present at a college, becomes ill or sustains an injury, and in the opinion of the principal such illness or injury is serious, the principal shall take every reasonable step to inform the student's guardian thereof as soon as possible.

(2) If on admission to a college a student appears to be medically unfit, the principal may require that the student should produce a medical certificate of fitness issued by a registered medical practitioner within 7 days, failing which he may suspend the student from the college for such period as he may stipulate, or until the student produces such a certificate of fitness.

(3) If a student is discovered to be suffering from an infectious or contagious disease, the principal may require that he withdraws from the college forthwith, and may be allowed to return only on production of a certificate issued by a registered medical practitioner certifying that the student is no longer suffering from an infectious or contagious disease.

(4) If three or more cases of an infectious or contagious disease are found in a college at any one time, the principal shall report the fact as soon as possible to the Permanent Secretary and to a Government medical officer, who may take such action as the situation requires.

(5) The principal may arrange for a student accommodated in a hostel who becomes ill, to be isolated during the period of his illness.

(6) A student accommodated in a hostel shall not be permitted to remain ill in bed for more than 2 days without medical attention from a registered medical practitioner or nurse.

(7) If a student accommodated in a hostel repeatedly refuses or avoids medical treatment, the principal shall as soon as possible report the matter to his guardian and the Permanent Secretary.

(8) It shall be the responsibility of the principal of a college to ensure that any student accommodated at the college hostel who needs medical treatment receives it, at his own expense or that of his guardian, so long as that student remains under the control of the college.

(9) If a student is not accommodated at a hostel, it shall be the responsibility of the student or his guardian to ensure that the student, when ill, receives appropriate medical attention.

(10) If a principal has reason to believe that a student is ill, and the college is not able, in the opinion of the principal, to provide reasonable or adequate care for him, the principal may require the guardian to withdraw the student from the hostel on leave, and the student's return to the hostel may be made conditional on his producing a medical certificate of fitness from a registered medical practitioner.
