### SMALL TO MEDIUM DAMS IN EASTERN BOTSWANA FEASIBILITY STUDY AND PRELIMINARY DESIGN

THE GOVERNMENT OF BOTSWANA wishes to develop a number of small to medium dams on rivers in Eastern Botswana for conjunctive use with groundwater resources. A feasibility study and preliminary design (where appropriate) for possible dam sites in three drainage basins – Makgadikgadi, Limpopo and Orange – are to be undertaken. Several studies in the past have identified possible dam sites in these drainage basins. These studies will form the basis of this current feasibility assessment. The assessment will include conventional and non-conventional dam sites such as haffirs, rock catchments, off-river storage and sub-surface reservoirs. In addition, existing small and medium dams in these drainage basins will also be assessed with a view to determining whether the yields can be increased by redesigning them.

The terms of reference (TOR) for the study will be available from Monday 1st November 1999 at the venues specified below:

Office No. 109, Block C, Department of Water Affairs, Gaborone, Telephone (267) 3607325, Fax (267) 303508 or Scott Wilson Kirkpatrick, Kudumatse Road, Gaborone, Telephone (267) 324710, Fax (267) 322886. Contact Person: Professor Francis Sefe.
