## INTERNATIONAL ATOMIC ENERGY AGENCY

## VACANCY FOR SECOND OFFICER, P-3

*Post, title and grade.*—Second Officer, P-3\*

*Division.*—Joint FAO/IAEA Division of Atomic Energy in Food and Agriculture (Laboratory) Department of Research and Isotopes.

*Type of Appointment.*—Fixed term—two years

*Duty Station.*—Vienna.

*Duties and Responsibilities.*—

In general:

To assist the Division Director, under the supervision of the Head of the Soil Fertility, Irrigation, and Crop Production Section of the Joint FAO/IAEA Division and the Head of the Agriculture Section, IAEA Laboratory, Seibersdorf, in carrying out the Division's programme on the use of isotope and radiation techniques in research on soil-plant relationships.

In particular:

- To organize and supervise the routine analysis of stable and radioisotopes in soil and plant samples from laboratory, green house, and field experiments with special references to the mass and emission spectrometric analysis of N-15;
- To carry out research on the fate of nitrogen fertilizers in soil, especially in relation to the production, transport, and loss of nitrate and gaseous nitrogen compounds under field conditions;
- To be responsible for the supervision of Fellows undergoing training at the Seibersdorf laboratory on the use of isotopes and radiation in research on soil-plant relationships;
- To assist in the planning of co-ordinated research programmes, especially in those which involve the services of the Seibersdorf laboratory;
- To assist in the development of improved techniques involving isotopes and radiation in research on soil-plant relationships;
- To perform other duties related to his speciality as required such as evaluating proposals for technical assistance and research contracts, assisting in training courses, preparing technical reports, etc.

*Qualifications.*—University background in soil science (Ph.D. or equivalent) and experience in research on salt, water and gas transport processes in the soil-plant system. The candidate should also have had practical experience in the use of isotope and radiation techniques in soil-plant research, particularly in the use of N-15 and its analysis by mass or emission spectrometry. Fluency in English, French, Russian or Spanish is essential; working knowledge of German is desirable.

*Emoluments* are based on US \$ equivalents and are deemed to be exempted from national income tax. Salaries and allowances are payable in the currency of the duty station and, on request, partially in the currency of the home country.

*Salary per annum* .. .. . Net—\$14 585.50

*Dependency Allowances per annum* (subject to eligibility) .. .. . Spouse—\$400  
Child—\$450

*Post Adjustment* per annum variable according to cost of living and to dependency status .. .. . At present—Single rate—\$5 136  
Dependency rate—\$7 704
