2 In these Rules —

"Holder of a licence" includes the grantee and the assignee of a licence

"Conservator" means the Conservator of Forests

Other expressions shall have the same meanings as are given in the Forest Ordinance, 1911

3 No licence shall be granted except with the consent of the Governor

4 Applicants for the consent of the Governor to a licence shall forward to the Conservator a statement in writing, giving so far as they are able, the full names, addresses and occupations of the proposed grantees and their financial position, the species of timber to be cut, and the estimated area, positions and boundaries of the lands to be included in the licence

5 (1) The Conservator as soon as he has received an application, shall forward such application, with his recommendations respecting the same, to the Provincial Commissioner of the Province in which the forest area is situate. If applications have been received from other applicants for licences relating to the same area or any portion thereof, he shall call attention to the fact, and shall state his reasons for recommending that the licence be granted to the one applicant in preference to the others

(2) The Provincial Commissioner as soon as possible shall return the application to the Conservator, and shall state the political reasons, if any, why the licence should not be granted, and the Conservator shall forward it to the Chief Secretary for submission to the Governor

6 (1) A licence shall, subject to these Rules and to any Native rights, confer the sole right to fell and carry away the trees named therein, but shall not confer any exclusive right to the occupation of the forest area included in the licence or to the use of roads, water ways or river frontages, or into or over any other matter or thing

(2) The grant of a licence shall not preclude the grant to any other person of a licence to fell, collect and remove any tree or forest produce other than the tree or trees in respect of which the licence shall have been granted

(3) The grant of a licence shall not preclude the Governor from authorising any Department of the Government or any Contractor carrying out any public work to fell and remove any tree the subject of the licence which it may be deemed necessary to fell or remove in the construction of any public work within a forest area, or from authorising any Department of the Government to cut, fell and utilise any trees which may be required for timber to be used in the construction or maintenance of any public work in or near the forest area and the licensee shall not in any such case be entitled to any compensation beyond the refund of the royalty (if any) which has been paid by him in respect of any tree which shall have been felled and utilized under such authority

(4) The grant of a licence shall not preclude the granting of a mining lease under the law for the time being in force relating to mining to persons other than the holders of the licence. Provided, however, that in any mining lease granted in any forest area the subject of a licence there shall be inserted a covenant by the lessee to pay to the Government for and on behalf of the licensee the fair value as standing timber of any tree, the subject of the licence cut by the lessee within such forest unless the amount which would have been due and payable to the Government as Royalty on such timber. In the event of the licensee and the lessee failing to agree as to the value of any tree cut, the value shall be determined by the Conservator whose decision shall be final and binding on all parties

7 Subject to the provisions of this Rule, licences shall be granted for five years with a right to renew for further periods of two years. Such renewal may be granted on a certificate from the Conservator that the holders of the licence have substantially complied with the conditions subject to which the licence is granted.

The refusal of the Conservator to grant a certificate shall be subject to appeal to the Governor.

Applications for renewal shall be made to the Conservator in writing nine months before the date on which the licence would elapse but for such renewal. The order for the renewal shall be endorsed upon the copy of the licence filed in the Conservator's Office, and a copy of such endorsement shall be sent by the Conservator to the holders of the licence.

If the applicants or the holders of a licence desire that their licence shall be granted for a longer period than above-mentioned in order that they may construct tramways, or other works for working the timber to be included or included in their licence, they may apply at any time to have such period fixed by the Governor.

8 If the Governor grants his provisional consent to an application for a licence, the fact shall be forthwith notified to the Conservator for information of the applicant. Unless otherwise stated the Governor's provisional consent shall mean that the licence shall be drawn in accordance with these rules. The Governor may, however, decide not to give his consent unless the licence contains special clauses in modification of or supplemental to these rules.

9 All expenses connected with the delimitation of the lands included in a licence, the marking off of the boundaries, the preparation of the plan of the area of the lands aforesaid and the preparation of and registration of the licence shall be borne by the applicants. The Conservator may require the applicant to deposit with him such sum as he may deem proper to cover or towards the payment of such expenses, and if the applicant shall fail to deposit such sum within such time as the Conservator shall think reasonable his application shall be deemed to be withdrawn.

10 The limits of the lands included in the licence shall, when not, in the opinion of the Conservator, adequately shown by natural boundaries or by recognised roads, be marked out in the joint presence of the Conservator or other person appointed by him for the purpose and of the applicant or his agent.

Such limits shall be marked out by placing on trees at the limits of the lands the mark to be shown on the licence.

11 As soon as practicable after the Governor has given his provisional consent to the licence, the Conservator shall settle with the applicant what mark is to be shown in the licence.

12 In addition to the mark referred to in the preceding Rule the Conservator shall also settle with the applicant what hammer marks are to be made on all timber coming from forests included in the licence.

A register of all such hammer marks shall be kept by the Conservator.

Distinctive hammer marks shall be settled in respect of each licence. In settling such hammer marks the Conservator shall take care that no mark shall resemble the marks of any other holder of a licence.

13 A plan of the lands included in the licence shall be attached to the licence.

14 The licence shall be settled by the Conservator. If the Governor has not decided that the licence shall contain special clauses supplementing or modifying the effect of the rules, the licence may be made out in duplicate (each copy having a plan endorsed thereon or attached thereto) in the office of the Conservator. When the licence has been made out as aforesaid the Conservator shall forward both copies to the grantee to his last known address in the Protectorate for execution and shall at the same time demand payment of the expenses mentioned in, and not covered by any deposit made by him under, Rule 9 and of the fee payable for the licence and shall require the grantee to give the security required by these Rules. If the grantee fails to execute the licence and pay the expenses and fee aforesaid and to provide the security within such time the Conservator shall consider reasonable, the application shall be deemed to be withdrawn, but without prejudice to the right of the Conservator to sue for the recovery of any expenses payable by the applicant under Rule 9.

Subject as aforesaid the Conservator shall, after the execution of the licence by the grantee, execute the same for and on behalf of the Governor.

If the licence has to contain special clauses, a draft licence only shall be settled as aforesaid, and this draft shall be sent to the Chief Secretary for approval of such clauses. After such approval has been obtained the Chief Secretary shall return the draft, and further action shall be taken by all concerned as in the case of an ordinary licence.

15 Every licence shall specify the species of trees which the holders of the licence are authorised to fell. Such description shall include the vernacular name of each species in the local dialect.

16 The grantees and the subsequent holders of every licence shall be required to give security for the payment of the royalties and the performance of the conditions contained in these Rules and in the licence either (1) by a Bond with two sureties to be approved by the Conservator or (2) by deposit of a sum of money in the Treasury.
