When a nuisance order has not been complied with or has been infringed, the Health Officer or any person or persons authorised by him shall be admitted at all reasonable times into the premises where the nuisance exists in order to abate the same. If admission to premises for any of the purposes of this rule is refused, any Magistrate on application by the Health Officer may by order in writing require the person having custody of the premises to admit the Health Officer or any person authorised by him into the premises during the hours aforesaid, and if no person having custody of the premises is found, the Magistrate shall authorise the Health Officer or any person authorised by him, if necessary, to break and enter on such premises. Any such order shall continue in force until the nuisance has been abated or the work for which the entry was necessary has been done.

3. Any person who refuses to obey an order of a Magistrate for admission of the Health Officer or any person or persons authorised by him, or who obstructs such officer or other person in any act authorised under these rules shall be liable to a fine not exceeding seventy five rupees or to imprisonment of either description for a term not exceeding one month.

- (2) When the person causing the nuisance cannot be found and it is clear that the nuisance does not exist by the act or default or sufferance of the owner or occupier of the premises, the Health Officer may abate the same and do what is necessary to prevent the recurrence thereof.

the Health Officer shall make a complaint to a Magistrate and the Magistrate hearing the complaint may make on such person a summary order, in these Rules referred to as a nuisance order.
- (2) A nuisance order may be an abatement order, a prohibition order, or a closing order or a combination of such orders.
- (3) An abatement order may require a person to comply with any of the requisitions of the notice, or otherwise to abate the nuisance within a time specified in the order.
- (4) A prohibition order may prohibit the recurrence of a nuisance.
- (5) An abatement order or prohibition order shall, if the person on whom the order is made so requires or the Magistrate considers it desirable, specify the work to be executed by such person for the purpose of abating or preventing the recurrence of a nuisance.
- (6) A closing order may prohibit a house or building from being used for human habitation.
- (7) A closing order shall only be made when it is proved to the satisfaction of the Magistrate that, by reason of a nuisance, a house or building is unfit for human habitation, and if such proof is given the Magistrate shall make a closing order.
- (8) The Magistrate, when satisfied that the house or building has been rendered fit for human habitation, may declare that he is so satisfied and cancel the closing order.
- (9) If a person fails to comply with the provisions of a nuisance order with respect to the abatement of a nuisance, he shall, unless he satisfies the Magistrate that he has used all due diligence to carry out such order, be liable to a fine not exceeding ten rupees a day during his default, and if a person knowingly and wilfully acts contrary to a prohibition or closing order he shall be liable to a fine not exceeding ten rupees a day during such contrary action; moreover the Health Officer or some person authorised by him may enter the premises to which a nuisance order relates, and abate or remove the nuisance or do whatever may be necessary in execution of such order, and recover as a civil debt recoverable summarily the expenses incurred from the person on whom the order is made.

9. When the occupier of any premises prevents the owner thereof from obeying or carrying into effect the requirements of any notice or order under these Rules, a Magistrate, on complaint, shall by order require such occupier to permit the execution of any works which appear to the Magistrate to be necessary for the purpose of obeying or carrying into effect the requirements of the notice or order, and if, within twenty four hours after service on him of the order, such occupier fails to comply therewith, he shall be liable to a fine not exceeding fifteen rupees for every day during the continuance of such non-compliance.

10. Every notice or order required or authorised by these Rules to be served on any person may be served:—

- (a) By delivering the same to such person.
- (b) By delivering the same at the usual or last known place of abode of such person, or to some adult member or servant of his family.
- (c) A notice or order required or authorised to be served on the owner or occupier of any premises shall be deemed to be properly addressed by the description of the "owner" or "occupier" of such premises without further description.
- (d) Such notice may be served by delivering the same or a true copy thereof to some adult person on the premises, or if there is no such person on the premises to whom the same can with reasonable diligence be delivered, by fixing the notice on some conspicuous part of the premises.

11. The occupier of any premises shall, if required by the Health Officer or any person acting with the authority of the Health Officer, give his name and the name and address of the owner of the premises if known.

### **The Stage Plays and Cinematograph Exhibitions Ordinance, 1912.**

Rules issued by His Excellency the Governor under the Stage Plays and Cinematograph Exhibitions Ordinance, 1912.

Mombasa,

H. C. BELFIELD,

Dated this 25th day of October, 1913.

*Governor.*

### **General.**

1. No building shall be used as a Theatre within the meaning of the Ordinance, unless it be provided with an adequate number of clearly indicated exits so placed and maintained as readily to afford the audience ample means of safe egress.

The seating in the building shall be so arranged as not to interfere with free access to the exits; and the gangways and the staircases and the passages leading to the exits during the presence of the public in the building shall be kept clear of obstructions.

2. All persons responsible for or employed in or in connection with the play or exhibition shall take all due precautions for the prevention of accidents and shall abstain from any act whatever which tends to cause fire and is not reasonably necessary for the purpose of the play or exhibition.

### **Fire Appliances.**

3. Fire appliances adequate for the protection of the building shall be provided and shall include at least the following, namely a damp blanket, two buckets of water and a bucket of dry sand. In a building used habitually as a theatre they shall also include a sufficient number of hand grenades or other portable fire extinguishers. The fire appliances shall be so disposed that there shall be sufficient means of dealing with fire readily available for use within the enclosure. Before the commencement of a cinematograph exhibition the cinematograph operator shall satisfy himself that the fire appliances intended for use within the enclosure are in working order, and during the performance such appliances shall be in charge of some person specially nominated for that purpose who shall see they are kept constantly available for use.

**Cinematograph Exhibitions.****ENCLOSURES.****Rules applying in all cases and to all classes of buildings.**

4. (1) (a) The cinematograph apparatus shall be placed in an enclosure of substantial construction made of or lined internally with fire-resisting material and of sufficient dimensions to allow the operator to work freely.
- (b) The entrance to the enclosure shall be suitably placed and shall be fitted with a self-closing door constructed of fire resisting material.
- (c) The openings through which the necessary pipes and cables pass into the enclosure shall be sufficiently bushed.
- (d) The openings in the front face of the enclosure shall not be larger than is necessary for the effective projection, and shall not exceed two for each lantern. Each such opening shall be fitted with a screen of fire-resisting material, which can be released both inside and outside the enclosure so that it automatically closes with a close-fitting joint.
- (e) The door of the enclosure and all openings, bushes and joints shall be so constructed and maintained as to prevent, so far as possible, the escape of any smoke into the auditorium. If means of ventilation are provided they shall not be allowed to communicate direct with the auditorium.
- (f) If the enclosure is inside the auditorium, either a suitable barrier shall be placed round the enclosure at a distance of not less than 2 feet from it, or other effectual means shall be taken to prevent the public from coming into contact with the enclosure.
- (g) No unauthorised person shall go into the enclosure or be allowed to be within the barrier,
- (h) No smoking shall at any time be permitted within the barrier or enclosure.
- (i) No inflammable article shall unnecessarily be taken into or allowed to remain in the enclosure.

**Rules applying only to specified class of buildings.**

- (2) In the case of buildings used habitually for cinematograph exhibitions, the enclosure shall be placed outside the auditorium; and in the case of permanent buildings used habitually as aforesaid, the enclosure shall also be permanent.

Provided with regard to the foregoing requirements, that if the licensing authority is of opinion that compliance with either or both of them is impracticable or in the circumstances unnecessary for securing safety and shall have stated such opinion by express words in the licence, the requirement or requirements so specified shall not apply.

5. Lanterns shall be placed on firm supports constructed of fire-resisting material, and shall be provided with a metal shutter which can be readily inserted between the source of light and the film-gate.

The film-gate shall be of massive construction and shall be provided with ample heat-radiating surface. The passage for the film shall be sufficiently narrow to prevent flame travelling upwards or downwards from the light-opening.

6. Cinematograph projectors shall be fitted with two metal film-boxes of substantial constructions, and not more than 14 inches in diameter, inside measurement, and to and from these the films shall be made to travel. The film-boxes shall be made close in such a manner, and shall be fitted with a film slot so constructed, as to prevent the passage of flame to the interior of the box.

**NOTICE.****Nauhria Ram & Co.**

In consequence of a Notice having been inserted in the newspapers and certain misunderstandings having arisen as to the position of the firm of "Nauhria Ram & Co." I take this opportunity of letting the public know the actual position.

I was the original proprietor of the firm.

In the year 1904, Mr. G. S. Nair joined me in my business, and in the year 1905 I sold him my share in the business while I took on the position of manager at a fixed salary, authorizing Mr. Nair to carry on the business in my name while I remained connected with the firm.

In the month of July of this year, my connection with the firm ended and my business is now carried on in Government Road, Nairobi, under the style of "Nauhria Ram & Sons."

Yours faithfully,  
NAUHRIA RAM.
