WHEREAS by subsection (1) of Section 4 of the Air Navigation Act, 1920, it is provided that His Majesty may, by Order in Council, extend, with any necessary modifications and exceptions, any of the provisions of the said Act to any British possessions other than those mentioned in the Schedule to the said Act and (save as therein provided) to any territory under His Majesty's protection:

And whereas it is expedient to extend certain provisions of the said Act to certain British Colonies and Protectorates:

Now, therefore, His Majesty, by virtue of and in exercise of the powers on this behalf by the Air Navigation Act, 1920, or otherwise in His Majesty vested, is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

1. This Order may be cited as "The Air Navigation (Colonies and Protectorates) Order in Council, 1922."

2. In this Order and its schedules

"Colony" means one of the British possessions or protectorates mentioned in the second schedule hereto;

"The Act" means the Air Navigation Act, 1920.

3. The provisions of Sections 7, 8 (1), 9, 10, 11, 12 and 18 of the Act with the necessary modifications as set forth in the first schedule hereto shall be and hereby are extended to the Colonies mentioned in the second schedule hereto.

4. This Order shall come into operation on the 1st day of April, 1922.

Almeric FitzRoy.

FIRST SCHEDULE.

1. Section 7—(1) In time of war, whether actual or imminent, or of great national emergency the Governor may, by order, regulate or prohibit, either absolutely or subject to such conditions as may be contained in the Order, the navigation of all or any descriptions of aircraft over the Colony or any portion thereof, or the territorial waters adjacent thereto; and, without prejudice to the generality of this provision, any such order may provide for taking possession of and using for the purposes of His Majesty's naval, military or air forces any aerodrome or landing ground, or any aircraft, machinery, plant, material or things found therein or thereon, and for regulating or prohibiting the use, erection building, maintenance or establishment of any aerodrome, flying school, or landing ground, or any class or description thereof.

(2) The Order may provide for the imposition of penalties to secure compliance with the Order, not exceeding imprisonment for a term of six months and a fine of two hundred pounds and may authorize such steps to be taken in order to secure such compliance as appear to the Governor to be necessary.

(3) Any person who suffers direct injury or loss, owing to the operation of an Order of the Governor under this section, shall be entitled to receive compensation from the Governor from such public funds as he may lawfully apply for the purpose, the amount thereof to be fixed, in default of agreement, by an arbitrator to be agreed upon or failing agreement to be appointed by the Chief Justice or other Chief Judicial Officer of the Colony.

Provided that no compensation shall be payable by reason of the operation of a general Order under this section prohibiting flying in the Colony or any part thereof.

(4) An Order under this section may be revoked or varied by a subsequent Order made by the Governor.

2. Section 8—(1) The Governor shall have power to establish and maintain aerodromes (including power to provide and maintain roads and approaches, buildings and other accommodation and apparatus and equipment for such aerodromes) and to acquire land for that purpose by agreement or in accordance with the provisions of the law in force in the Colony relating to the acquisition of land for public purposes.

3. Section 9—(1) No action shall lie in respect of trespass or in respect of nuisance, by reason only of the flight of aircraft over any property at a height above the ground, which, having regard to wind, weather, and all the circumstances of the case is reasonable, or the ordinary incidents of such flight, so long as the provisions of this Order and any other Order made under the Act and extended to the Colony are duly complied with; but where material damage or loss is caused by an aircraft in flight, taking off, or landing, or by any person in any such aircraft, or by any article falling from any such aircraft, to any person or property on land or water, damages shall be recoverable from the owner of the aircraft in respect of such damage or loss, without proof of negligence or intention or other cause of action, as though the same had been caused by his wilful act, neglect or default, except where the damage or loss was caused by or contributed to by the negligence of the person by whom the same was suffered.

Provided that, where any damages recovered from or paid by the owner of an aircraft under this section arose from damage or loss caused solely by the wrongful or negligent action or omission of any person other than the owner or some person in his employment, the owner shall be entitled to recover from that person the amount of such damages, and in any such proceedings against the owner the owner may, on making such application to the court and on giving such undertaking in costs as may be prescribed by rules of court, join any such person as aforesaid as a defendant, but where such person is not so joined he shall not in any subsequent proceedings taken against him by the owner be precluded from disputing the reasonableness of any damages recovered from or paid by the owner.

(2) Where any aircraft has been *bona fide* demised, let, or hired out for a period exceeding fourteen days to any other person by the owner thereof, and no pilot, commander, navigator, or operative member of the crew of the aircraft is in the employment of the owner, this section shall

have effect as though for references to the owner there were substituted references to the person to whom the aircraft has been so demised, let, or hired out.

4. Section 10—(1) Where an aircraft is flown in such a manner as to be the cause of unnecessary danger to any person or property on land or water, the pilot or the person in charge of the aircraft, and also the owner thereof, unless he proves to the satisfaction of the court that the aircraft was so flown without his actual fault or privity, shall be liable on summary conviction to a fine not exceeding two hundred pounds, or to imprisonment with or without hard labour for a term not exceeding six months, or to both such imprisonment and fine.

For the purposes of this section, the expression "owner" in relation to an aircraft includes any person by whom the aircraft is hired at the time of the offence.

(2) The provisions of this section shall be in addition to and not in derogation of any general safety or other regulations prescribed by Order in Council made under Part I of the Act, and extended to the Colony.

5. Section 11—The law of the Colony relating to wreck and to salvage of life or property, and to the duty of rendering assistance to vessels in distress shall apply to aircraft on or over the sea or tidal waters as it applies to vessels, and the owner of an aircraft shall be entitled to a reasonable reward for salvage services rendered by the aircraft to any property or persons in any case where the owner of a ship would be so entitled.

Provided that provision may be made by Order by the Governor with the approval of a Secretary of State or making modifications of and exemptions from the provisions of such law as aforesaid in their application to aircraft to such extent and in such manner as appears necessary or expedient.

6. Section 12—(1) The Governor may make regulations providing for the investigation in the Colony of any accident arising out of or in the course of air navigation and occurring in or over the Colony or the territorial waters adjacent thereto, or to British aircraft occurring elsewhere and likely in the absence of such provision to remain uninvestigated.

(2) Without prejudice to the generality of the foregoing provision, regulations under this section may contain provisions:—

(a) requiring notice to be given of any such accident as aforesaid in such manner and by such persons as may be specified in the Order;

(b) applying, with or without modification for the purpose of investigations held with respect to any such accidents any of the provisions of any law in force in the Colony relating to the investigation of deaths or accidents;

(c) prohibiting, pending investigation, access to or interference with aircraft to which an accident has occurred, and authorizing any person, so far as may be necessary for the purposes of an investigation, to have access to, examine, remove, take measures for the preservation of, or otherwise deal with any such aircraft;

(d) authorizing the Governor, in regard to cases where it appears to the authority conducting an investigation that a licence or certificate granted under the Act or any Order made thereunder ought to be cancelled, suspended, endorsed or surrendered, to transmit any recommendation to that effect made by the said authority for such action thereon as the Secretary of State for Air may consider just, and also authorizing the

Governor pending the decision of the Secretary of State in any such cases provisionally to suspend the licence or certificate and providing for the production of any such licence or certificate for the purpose of being so dealt with.

Provided that nothing in the section shall limit the powers of any authority under sections five hundred and thirty to five hundred and thirty-seven inclusive of the Merchant Shipping Act, 1894, or any enactment (including the Act) amending those sections.

(3) If any person contravenes or fails to comply with any regulations under this section, he shall be liable on summary conviction to a fine not exceeding fifty pounds or to imprisonment with or without hard labour for a term not exceeding three months.

7. Section 18—(1) This Order shall not apply to aircraft belonging to or exclusively employed in the service of His Majesty.

Provided that His Majesty may, by Order in Council, apply to any such aircraft, with or without modification, any of the provisions of this Order or of any Orders or regulations made under the Act and extended to the Colony.

(2) Nothing in this Order or in any regulations thereunder shall prejudice or affect the rights, powers, or privileges of any general or local light-house authority.

GENERAL NOTICE No. 323.

NOTICE.

TENDER FOR BAMBOO CUTTING RIGHTS FOR THE MANUFACTURE OF PAPER-PULP.

AS a result of experiments conducted with the East African Bamboo (*Arundinaria alpina*) to ascertain its value for the manufacture of paper-pulp and paper, the Government have decided to offer for tender two areas of bamboo forest on the Kikuyu and Mau Escarpments respectively and more particularly described in the schedule hereto.

Tenders for the areas are invited; the basis of tender to be a royalty payment per ton of air-dry pulp and no tenders of less than two shillings a ton will be accepted.

The successful tenderers will be granted licences under the Forest Ordinance, 1911, for periods of 20 years with the options for renewal for further periods of 20 years on terms to be agreed between the Conservator of Forests and the licensees. Such option to be exercised by notice in writing six calendar months before the expiration of first-mentioned licences.

The following main conditions will be embodied in each of the licences.

1. The Licensee will be given the exclusive right for twenty years to cut bamboos for the manufacture of paper-pulp over an area to be selected by him in conjunction with the Conservator of Forests within five years of the date of the licence and in the event of dispute the Conservator of Forests' decision shall be final. The respective areas are estimated to be capable of yielding 40,000 tons and 20,000 tons respectively of paper-pulp annually.

2. No royalty will be charged on any bamboo cut for the purposes of pulp manufacture for a period of 5 years from the date of the licence; thereafter a royalty per ton of air-dry unbleached pulp, as tendered.

3. An annual licence fee of £100 in respect of each area shall be paid for the first five years, the first payment to be made on the issue of the licence; and thereafter for each succeeding year in advance on the corresponding date, and thereafter a licence fee of £500 to be paid as aforesaid in respect of the sixth and seventh years; £1,000 to be paid as aforesaid in respect of the eighth and ninth years, and £2,000 to be paid as aforesaid for each succeeding year provided that the Licensee shall be entitled to set off against the licence fee paid in any one year the royalties payable for the same year but in no case shall a less sum than the licence fee be paid to the Government.

4. The Licensee shall erect and complete a factory and subsidiary buildings for the manufacture of paper-pulp within two years from the date of the licence and such factory shall thereafter be worked for not less than 120 days in each year in the manufacture of paper-pulp. From and after the expiration of five years from the date of the licence the Licensee shall produce an annual out-turn from the said factory of at least 10,000 tons of paper-pulp and from and after the expiration of ten years from the same date an annual out-turn of at least 20,000 tons of paper-pulp.

5. The Government if so required by the Licensee shall lease to the Licensee a suitable site to be selected by the Licensee out of such sites as are at the disposal of the Conservator of Forests within or without the area the subject of the licence for the erection of factories, store-houses, sheds, depots, houses, offices and other buildings of a like nature *bona fide* required for the purpose of the business connected with the manufacture of paper-pulp such lease to be rent free and for a term co-terminous with that of the licence and subject to an option for renewal on terms to be agreed upon between the Conservator of Forests and the Licensee.

6. Subject to such restrictions as may from time to time be imposed by the Conservator of Forests the Licensee shall during the continuance of the licence have the right to use any lands, roads or streams outside the area the subject of the licence which are under the control of the Forest Department for the purpose of having free ingress and egress to and from the area the subject of the licence and also the like right to use all such lands, roads or streams within the area the subject of the licence.

7. The Conservator of Forests will undertake to reserve for the use of the licensee an area of forest as conveniently near to the site of the factory as possible, sufficient to supply such reasonable quantity of wood fuel as may be required for the factory. Royalty will be payable on all fuel at the rate of two shillings per hundred stacked cubic feet during the currency of the licence; in the event of the licence being renewed for a further period the royalty on fuel will be based on the market rates current at the time of such renewal.

8. If possible a sufficient area of grass land will be included in the licence to provide grazing for cattle used in connection with the operations of the licence free of rent.

9. The area the subject of the licence will be divided by the Conservator of Forests into cutting series and blocks and the Licensee shall completely work over each block of one cutting series before he starts work in another block of the series. The system of the cutting series will be based on a 10 years rotation.

The order in which the said blocks shall be worked will be laid down by the Conservator of Forests in consultation with the Licensee in a plan of operations so that the whole area may be worked over systematically. The Licensee shall not be at liberty to deviate from the plan of operations so laid down without the previous sanction of the Conservator of Forests.

The Licensee shall supply maps showing the area cut over in each year to the Conservator of Forests on such date as the Conservator of Forests may fix.

To prevent the culms of bamboos diminishing in size and deteriorating in quality the Licensee shall give each block which has been worked over a rest of ten years before he works over it again.

10. The Licensee in conducting his operations on the area the subject of the licence shall not in any way interfere with the surface of the land save and so far as may be necessary for the immediate purpose of carrying on the necessary operations in connection with his said business.

11. The Licensee shall keep full and true accounts of the number of bamboo culms brought into his factory, of the quantity of paper-pulp manufactured and in the process of manufacture and exported and of the quantity of fuel used and shall on the fifteenth day of each month send to the Conservator of Forests in such form as he may prescribe a true analysis thereof for the month immediately preceding.

The royalty appearing by such statement to be due in respect of the paper-pulp manufactured and the fuel used each month shall be due and payable on or before the last day of the next succeeding month.

The licensee shall allow the officers deputed in that behalf by the Governor to have full inspection of all such accounts and account books and to take all such steps as in the opinion of such officers may be necessary for ascertaining by enquiries, inspection and measurement or weighing the correctness of the same and of the said analysis.

12. Nothing contained in the licence shall be deemed to relieve the Licensee his agents and servants from the duty of complying with any Ordinance and rules thereunder for the time being in force applying to the locality in which the area the subject of the licence is situated.

13. No rights other than those specified in the licence, shall be granted and more particularly the rights to all mines, minerals, mineral oils and precious stones within or under the premises will be reserved.

14. The licence shall be absolutely null and void in the events following and subject to the conditions set out below, that is to say the following conditions, namely:—

(a) If the Licensee shall fail to commence and effect substantial operations in the terms of the licence within a period of 18 months from the date thereof such licence shall *ipso facto* be absolutely void and of no effect.

(b) Subject as aforesaid in the event of the breach by the licensee of any of the covenants, conditions, stipulations or provisions contained in the licence, including the provisions for the payment of licence fees and royalties then and in every such case the Conservator of Forests may give the Licensee notice of the breach complained of and call upon the Licensee to remedy the same, and in the event of the Licensee not doing so within six calendar months thereafter the Conservator of Forests may cancel and determine the licence and all the Licensee's privileges and powers thereunder.

15. The Licensee shall not assign sublet or otherwise part with the benefits of the licence or any part thereof without the previous consent of the Conservator of Forests in writing.

16. The Licensee shall be at liberty to determine the licence by giving to the Conservator of Forests six months notice in writing so to do.

Tenders must be forwarded to the Conservator of Forests, Nairobi, Kenya Colony, on or before the 1st April 1923 and should be marked on the outside of the envelope "Tender for Bamboo."

The highest of any tender will not necessarily be accepted.

Tenders from Companies must be accompanied by full information as to their constitution and directorate.

In the event of a successful tenderer not taking up his licence within one year from the date of notice of acceptance all claims to or in respect thereof shall be deemed to have lapsed absolutely.

A pamphlet embodying the results of experiments conducted in England and of measurements in the bamboo forests, may be obtained at the offices of the Crown Agents for the Colonies, 4, Millbank, London, S.W.1 or at the offices of the Forests Department, Nairobi. Samples of the pulp and paper manufactured from the bamboo may be seen by arrangement with the Director, Imperial Institute, South Kensington, London, S.W. 7 or at the offices of the Forest Department, Nairobi.
