LOCUST REPORT TO 30-10-29

FLYING SWARMS

During the last three months, six small scattered swarms have visited the Rongai and Lower Molo Districts. Some damage has been done to beans and peas and, in certain cases, maize

On the 24th October a small swarm of locusts, just turning yellow, were seen at Pesi, Rumuruti and continued their flight in a north easterly direction, whilst another small swarm passed over Nanobi on 28th October, proceeding east. No damage reported

The large swarm of yellow and red locusts that passed over Meru on the 17th and 18th October, have apparently turned their direction of flight from north east to south-east, as they are now reported at Mbere, in the Embu District. A Locust Scout is proceeding to the Kitui area, in order to watch for flying, etc. A red swarm entered the Kitui District at Musoya. They came from the Kikuyu Reserve, and departed eastwards

Wireless reports from the Northern Frontier Province state that small swarms of pink locusts have been seen in the vicinity of Mandera and Wajir. A large swarm of red and yellow locusts is reported as having passed over Maragat, in Baringo, on the 19th October. The swarm was flying high, in an easterly direction

Tanganyika reports a small swarm of red locusts near Mbulu. No further information has been received

Throughout the Colony the situation is well in hand, and the movements of locusts swarms is being carefully watched by scouts
