2. Section 79 of the Principal Ordinance is hereby amended by repealing sub-section (5) thereof and by re-numbering the remaining sub-sections thereof accordingly.

(4) Where a charge is created in the Colony but comprises property outside the Colony, the instrument creating or purporting to create the charge may be sent for registration under this section notwithstanding that further proceedings may be necessary to make the charge valid or effectual according to the law of the country in which the property is situate.

(7) The holding of debentures entitling the holder to a charge on immovable property shall not for the purposes of this section be deemed to be an interest in immovable property.

Provided that, where more than one issue is made of debentures in the series, there shall be sent to the registrar for entry in the register particulars of the date and amount of each issue, but an omission to do this shall not affect the validity of the debentures issued.

(9) Where any commission, allowance or discount has been paid or made either directly or indirectly by a company to any person in consideration of his subscribing or agreeing to subscribe, whether absolutely or conditionally, for any debentures of the company, or procuring or agreeing to procure subscriptions, whether absolute or conditional, for any such debentures, the particulars required to be sent for registration under this section shall include particulars as to the amount

(e) the expression “showcard” means cards containing or exhibiting articles dealt with, or samples or representations thereof.

## OBJECTS AND REASONS.

This Bill is designed to amend the Companies Ordinance, 1933, in two respects—

- (a) by repealing sub-section (5) of section 79 of the Ordinance which deals with charges comprising property situated outside the Colony. The provisions of sub-sections (3) and (4) as to these charges make the retention of this sub-section unnecessary;
- (b) by altering the requirements of section 146 as to the printing of the names of directors of companies on the companies' stationery, etc. Power is given to the Registrar to grant exemption from the provisions of the section, and to a Judge in chambers to hear appeals from the Registrar's decision on such matters.

No expenditure of public moneys will be involved if the provisions of this Bill become law.

## GENERAL NOTICE No. 512

## LOCUST REPORT, 12TH APRIL, 1934.

## KENYA.

*The Red Locust.*

*Coast Province.*—Scattered swarms are still present in the Ngao-Kao neighbourhood while the principal infestation is at Golbanti, where the locusts have remained for a month and are reported to be laying. Though this oviposition will, if normal conditions prevail, be flooded in April the hatchings will merely be delayed by such flooding, as submergence for any reasonable period will not destroy the eggs.

It is reported that during the north-easterly flights from Kau to Garsen, previously reported, maize was young and entirely stripped or at least the tassel was eaten; the buds and flowers of green gram were consumed and bananas stripped.

From the Voi-Taveta region it is reported that flyers are thickest at the moment in Western Teita and that many are in the laying stage. Some of the earlier layings have failed to hatch out, though emergences have occurred on a small scale. The hoppers are being systematically destroyed as they appear by beating and burning.

*Masai-Machakos Area.*—As mentioned in my report of the 29th March, an officer was despatched to Machakos to investigate the whole position on the spot. The officer now reports that hatchings have taken place over a large area, notably in the vicinity of Mataliko where several hundred acres of hoppers have emerged, it is expected that further hatchings of considerable extent will occur in this district during the next few weeks.

A destruction campaign has been organized and is now in operation in the Emali-Mukaa-Nzani portion of the reserve. The assistance by co-operation of the neighbouring Ukamba chiefs has been obtained, and a European officer appointed to supervise the work. The operations will consist of beating and the distribution of poison bait.

Some opposition on the part of the natives to the use of poison was encountered, owing to

rumours of serious cattle losses during previous campaigns, but this prejudice was overcome by means of a personal demonstration of the correct methods of using and laying poison bait, which was carried out in the presence of the assembled native chiefs. After witnessing the demonstration it was agreed by all concerned that no danger to their stock need be feared.

Small swarms of flyers are still present in the Machakos reserve and layings are taking place.

*Sotik-Kisii Area.*—Considerable emergences are reported, principally in Kiss-Sotik-Masai border area, during the last few days. As hatchings are not yet complete it is difficult to estimate the size of the infestation, but though it would appear to be larger than previously reported it is anticipated that the hoppers should be fairly easy to control. At present they are being satisfactorily dealt with on European farms and the local administrative officers are dealing with native areas. The necessary steps for the organization of a more intensive campaign, should such be required, have been taken and will be put into effect as soon as the necessity arises.

*The Migratory Locust.*

No reports of any movements have been received during the past week.

## TANGANYIKA TERRITORY.

The following is extracted from the Tanganyika report for week ending 7th April:—

*Northern Province.*—The emergence of hoppers in the Moshi and Arusha districts follows the scattered showers of rain, and is no longer attractive as the hoppers prefer green grass. Taveta-Jipe infestation has been brought under control and is reported free of hoppers, staff and equipment have been moved and are operating at Himo. Reports from Masailand indicate hatchings in widely separated localities, and there is a heavy hopper hatching at Ndarumu.
