(b) broken seeds of the kind of which the parcel purports to consist so far as they are incapable of germinating,

(c) foreign matter, sand, grit, soil, fragments of roots, stems or flowers, sprouted seeds (except in the case of cereal seeds), single glumes, single pales, pales without a kernel, smut, ergot and other sclerotia, broken cones, scales and seed wings, and

## MEMORANDUM OF OBJECTS AND REASONS

This Bill seeks to improve the standard of the internal seed supplies of the Colony, to protect seed buyers from being supplied with seed of unknown origin and quality and to build up a reputable export trade of seeds, which experience shows can be satisfactorily produced in the Colony. Many of the provisions of the Bill are based on the United Kingdom Seeds Act, 1920.

The Bill has the support of the Seeds Advisory Committee which was appointed under Government Notice No. 764 of 1st September, 1945, to inquire into the advisability of introducing legislation to cater for the requirements of the seeds industry.

Clause 3 seeks to provide for the establishment of one or more Government seed-testing stations.

Clause 4 seeks to authorize the Director of Agriculture to appoint official seed-testers.

Clause 5 contains provisions restricting the places of entry of seeds into the Colony and providing for their detention and examination. Similar provisions are already in force by virtue of an Order (G.N. No. 688 of 1937) under the Plant Protection Ordinance, 1937. This clause seeks also to provide for the destruction of seeds containing specified noxious weed seeds.

It is desired, however, to give the Director of Agriculture powers of exemption from the provisions of this Clause.

Clause 6 seeks to provide that no vegetable or agricultural seeds shall be exported from the Colony unless they have been tested in respect of purity and germination.

Clause 7 seeks to prohibit the buying, selling or sowing of seeds containing specified noxious weed seeds.

Clauses 8, 9 and 10 seek to establish standards of quality with regard to purity, germination and trueness to variety. Seed producers or seed sellers will be able to submit seed to Government seed-testing stations for testing and be issued with statements or certificates specifying the standard of the seeds.

Clause 8 seeks to provide that seeds, which will be known as Government-tested seeds, will be those which have been tested and in respect of which a statement has been issued specifying the actual standard of the seeds in respect of purity and germination. It is not proposed that Government-tested seeds should necessarily reach any prescribed standard, but the legislation seeks to enable a buyer to ask whether seeds have been tested and in that case to be provided with a statement containing the result of the test.

Clauses 9 and 10 provide for the issue of Government certificates in respect of seed which has not only been tested but has been found to reach certain prescribed standards. If on being tested any seed is found not to reach the prescribed standards no Government certificate will be issued. Such certification will guarantee that the seed is of a high standard.

Clause 11 seeks to provide that growers, who wish to produce Government-certified seed, will have to submit themselves to a measure of Government control to the extent that they will have to register themselves as seed-growers, their crops will be open to inspection and any departmental requirements aimed at ensuring the purity and trueness to variety of the resultant seed will have to be observed.

Clause 12 seeks to provide for the voluntary registration of seed-growers and for the publication in the Official Gazette, from time to

time, of the names of registered seed-growers and particulars of the crops they are growing

Clause 13 seeks to provide for the inspection of a registered seed-grower's crop and for the carrying out of instructions given by an inspector to ensure the purity and trueness to variety of the resultant seed

Clauses 14 and 15 seek to protect the growing seed crops of registered seed-growers from cross-pollination and consequent ruin, by enabling an inspector to order the destruction of plants dangerous from this point of view within prescribed limits of the growing seed crops and whether on the registered seed-grower's own land or on neighbouring land. This compulsory protection is necessary as, owing to local conditions, it would be impracticable to introduce any voluntary zoning scheme such as exists in the United Kingdom for the express purpose of preventing cross-pollination

Clause 16 seeks to authorize an inspector to enter premises where seeds are sold, stored or cleaned, and to take samples for testing and to require the owner of seeds to furnish to an inspector, on demand, particulars with regard to the origin and kind of seed found on the premises

Clause 17 seeks to empower the Director to require the purchaser to disclose the name of the seller of seeds which, on test, fail to correspond with the statement or certificate delivered to the purchaser with the seeds

Clause 18 seeks to protect an inspector from legal proceedings for anything done in good faith and without negligence in the course of his duties

Clauses 19 and 20 seek to define the evidential value of statements, certificates and reports

Clause 21 seeks to give the Member for Agriculture power to make Rules

Clause 22 seeks to specify offences under the Ordinance and the penalties which may be imposed

It is not possible to state what expenditure of public money will be incurred if the provisions of this Bill become law, but it is hoped that a considerable proportion of the expenditure will be recovered in the form of fees for seed-testing and for the issue of statements and certificates

## GOVERNMENT NOTICE No 816

(G Cer 13/13)

## HONOURS AND AWARDS

IT IS notified for general information that the Secretary of State has caused the following Press notice to be published in the United Kingdom Press—

*Central Chancery of the Orders of Knighthood Investitures*

The lack of skilled craftsmen has caused delay in the manufacture of Insignia. Consequently it has not been possible to summon to Investitures many of those who have been appointed to the second and third Classes of the Order of the British Empire, that is to say, the KBE and CBE or to other Orders. Steps have been taken to increase the rate of manufacture in the course of the next few months. Those qualified will be summoned to Investitures as soon as practicable.

Those awarded the DSO who are no longer serving and have not received the Insignia should apply to the appropriate military department in the manner suggested below. Similarly, those awarded the DCM who are no longer serving and have not received it should apply to the War Office.

*Issue of Insignia by Post*

The Grants of Dignity which accompany the OBE and MBE are filled in by hand in script similar to that of the documents. Owing to the scarcity of skilled writers there have been delays in issue. Steps have been taken to increase the number of writers. Owing to lack of other staff there have also been difficulties in the dispatch of Insignia generally by post. Some improvements have now been made, and it is hoped that issues will be considerably expedited.

Officers and other ranks no longer serving who have been awarded the distinctions shown below should apply by post card to the appropriate address, giving the following information in block capitals: (a) Applicant's surname, underlined, followed by full Christian names, (b) Number, rank, regiment, corps or service, (c) Award claimed, (d) Date of award or publication in the *London Gazette*, (e) Address to which award should be sent.

OBE MBE and BEM Military Division

The Secretary, Central Chancery of the Orders of Knighthood, St James's Palace, S W 1

DSC, MC DFC AFC DSM MM DFM AFM

The Secretary of the Admiralty (Honours and Awards Section) Queen Anne's Mansions, London, S W 1

or

The Under-Secretary of State, the War Office (C 2 Investitures), Whitehall, S W 1

or

The Under-Secretary of State, Air Ministry (S 7 (d)), Admiralty House, Kingsway, W C 2

Officers and other ranks still serving should apply through their Commanding Officers in accordance with instructions already issued.

OBE MBE and BEM Civil Division

If there has been a change of address since the award was made, a notification should be sent to the Central Chancery of the Orders of Knighthood. Otherwise no applications are necessary.
