THE ELECTRIC POWER ORDINANCE

PUBLIC NOTICE of an application to be made for a licence to authorize the construction of a hydro-electric generating station on the Maragua River (near the Fort Hall railway viaduct) for the purposes of Local Generating Licence No. 2 dated the 24th day of March, 1922.

Notice is hereby given to all whom it may concern that on the 15th day of June, 1948, The East African Power & Lighting Company, Ltd. (a limited liability company incorporated in the Colony and Protectorate of Kenya, and having its registered office at Nairobi in the said Colony) will make application to His Excellency the Governor in Council for a licence authorizing the construction of a hydro-electric generating station for the purposes of Local Generating Licence No. 2 dated the 24th day of March, 1922, on a piece of land comprising 25 acres or thereabouts which is situated on the left bank of the Maragua River some 1,000 yards down-stream of the Fort Hall railway viaduct and between that river and the railway reserve as more particularly delineated and described on the plan marked 494 deposited at the offices of Messrs. Hamilton, Harrison and Mathews, advocates, Nairobi, and at the office of the District Commissioner, Fort Hall, and thereon bordered yellow.

The said piece of land at present forms part of the Kikuyu Native Reserve, but the applicant has reached a basis of agreement with the Fort Hall Local Native Council and other appropriate authorities for setting aside thereof under the provisions of Ordinance XXVIII of 1938.

The object and reason of the application is to supplement the supply of electrical energy available for the purpose of Local Generating Licence No. 2 dated the 24th day of March, 1922, which serves Distributing Licences No. 2 dated the 24th day of March, 1922, No. 5 dated the 20th day of February, 1926, No. 6 dated the 20th day of May, 1926, and No. 7 dated the 2nd day of October, 1930.

The machinery to be installed in the proposed generating station will be a water-turbine or water-turbines of a capacity or aggregate capacity not less than 6,000 kilowatts. All such machinery will be installed in strict compliance with section 50 (1) of the Electric Power Ordinance. It will be operated continuously or as may be required.

The works proposed for operation of the said generating station, when constructed, include—

(a) a weir on the Mathioya River, at some point within 1½ miles down-stream from the junction of the Northern and Southern Mathioya Rivers; with a canal and tunnels thence to the penstock of the generating station on the site described above;

(b) a weir on the Maragua River, in the vicinity of the Fort Hall railway viaduct; with a canal thence to a head pond above the generating station;

all as more particularly delineated and described on the said plan marked 494 and thereon marked green.

All works will be of the descriptions and types required by, and will be carried out in accordance with, the Electric Power Ordinance, and the necessary application to construct the said weirs and to divert water for power purposes will in due course be made to the Water Board.

No generating stations equipped with similar machinery for the purposes of general supply, other than those already belonging to the applicant, exist at any place nearer than the Sagana River Falls power station.

Copies of the draft of licence now being applied for, and of the licence when granted, will be deposited at the office of Messrs. Hamilton, Harrison & Mathews, aforesaid, and at the office of the District Commissioner, Fort Hall.

The public or local authorities, companies, persons or bodies of persons affected by this application are the following:—

- The Provincial Commissioner, Nyeri; by reason of the proposed generating station and works being within his jurisdiction.
- The District Commissioner, Fort Hall; by reason of the proposed generating station and works being within his jurisdiction.
- The Fort Hall Local Native Council, Fort Hall; in so far as the proposed works are within its jurisdiction.
- The Kenya and Uganda Railway; in so far as the proposed works will cross the Railway Reserve.
- The Water Board; by reason of the proposed diversions from the waters of the Mathioya and Maragua Rivers.
- The Nairobi District Council; in so far as the proposed works will cross any District Council roads.
- Messrs. Swift, Rutherford & Co., Ltd.; in so far as any proposed works will cross their land known as L.O. No. 3934.

PLANNING FOR COLONIAL DEVELOPMENT

IN VIEW of the continued shortage of capital goods of all types a working party on Colonial Development has been established in the United Kingdom under the aegis of the Central Economic Planning Staff to review colonial requirements for capital equipment and to make proposals for determining relative priorities in existing and new projects.

2. The working party require estimates of requirements of capital goods for each of the colonial territories over the period 1948-1950 inclusive, together with statements of the purposes for which the goods will be used. It is of extreme importance to the capital development of the Colony that detailed and accurate estimates should be made available to the working party, for failure to supply satisfactory estimates might result in the requirements of this Colony being given a low priority; it is scarcely necessary to stress the importance to a developing colony such as Kenya that it should obtain its proper share of the capital equipment available for the colonial empire generally.

3. Requirements of capital goods for private enterprise during the next three years are in many cases not known to Government. In order that a proper estimate of these requirements can be made any firms or individuals proposing to embark on a new project requiring capital equipment or materials in any of the categories given in paragraph 5 (3) below, or to extend an existing project, are requested to furnish the information indicated in paragraph 5 below to the Member for Finance, P.O. Box 621, Nairobi, marking the letter "Capital Requirements".

4. Information is only required in respect of projects estimated to cost individually £10,000 or over; firms are particularly requested not to submit returns covering miscellaneous items, even if the total of these adds up to £10,000 or over. Information is not required in respect of the following types of project, as returns of requirements under these headings are being compiled separately:—

1. Agricultural projects of any type.
2. Mining projects.
3. Electricity undertakings.

5. Returns should be made in the following form:—

- (1) Nature of project.
- (2) Rough estimate of total cost, separating estimated value of material and capital equipment to be imported. (Where it is difficult to estimate total costs, some other indication of magnitude of project should be given; for example, in the case of an industrial undertaking estimated productive capacity to be created.)
- (3) Types of main materials and major capital equipment to be imported by following categories:—
 - (i) Tonnage of iron and steel.
 - (ii) Tonnage of rails.
 - (iii) Tonnage of cement.
 - (iv) Approximate quantities or value of machinery, industrial, earth-moving, general agricultural, locomotives, rolling stock, generating equipment, etc. (only rough indications of principal items are required, e.g. kilowatts of generating capacity, numbers of locomotives, etc.).
- (4) Brief description of object it is hoped to achieve by investment.

 25th March, 1948. *Kenya Supply Board.*
