- (d) the U.K. High Commissioner, Canberra, Australia;
- (e) the U.K. High Commissioner, Pretoria, South Africa;
- (f) the U.K. High Commissioner, Wellington, New Zealand.

It must be realized that boundaries and areas shown on the plans are approximate only, and the exact total rent, purchase price and value of development, will therefore be adjusted to suit the surveyed area.

The area is suitable for ranching and dairy ranching, which is being successfully carried out on the adjoining land.

The rainfall of Rumuruti, the nearest township, averages 25.61 inches. The lowest since 1906 has been 13.35 inches and the highest 39.61 inches. Some of the land has a higher and some a lower rainfall than Rumuruti. The soil varies in quality and in density of bush cover. In accordance with these variations, the undeveloped carrying capacity is estimated to be from ten acres to the beast to thirty acres to the beast. Grants, if approved, will stipulate for the expenditure of not less than Sh. 3/50 per acre on permanent development, half of which will have to be effected within the first three years of the commencement of the grant, and the remainder within the subsequent three years to the satisfaction of the Commissioner of Lands, and in addition, will contain provision for stocking of the land.

No subdivision or transfer of the land will be permitted for a period of ten years from the commencement of the grant except in special circumstances by permission of the Governor.

Applications should be submitted to the undersigned on forms obtainable from—

- (a) the undersigned;
- (b) the East African Dependencies Office, Trafalgar Square, London;
- (c) the U.K. High Commissioner, Canberra, Australia;
- (d) the U.K. High Commissioner, Pretoria, South Africa;
- (e) the U.K. High Commissioner, Wellington, New Zealand,

not later than 30th September, 1949, and should specify the block desired and the amount of money the applicant is prepared to spend on the improvement and stocking of the land. Evidence as to financial resources should be submitted.

The applicant should detail his proposals for the supply of water (at several well-distributed points), the construction of fencing, dips, buildings and other permanent development, as well as his intentions regarding the stocking of the land. Permanent personal accommodation by the applicants or by their European representatives will be required.

Such small permanent development as already exists on some of the blocks will be paid for by the successful applicant at valuation.

FOREST DEPARTMENT

TENDERS FOR THE RIGHT TO MILL CYPRESS THINNINGS IN KERITA
AND SOUTH KINANGOP FOREST DISTRICTS

TENDERS are invited for the right to install a mill and convert cypress thinnings marked by the Forest Department in the Kerita and South Kinangop forest districts.

The period of the right licence will be for five years. During this period it is estimated that approximately 4,000 tons of millable thinnings will be available from the two districts mentioned, but while every effort has been made to estimate the yield of thinnings correctly no guarantee of quantity can be given and payment will be made only for the actual quantity of logs obtained. Only trees marked by the Forest Department may be felled.

The basis of tender will be a royalty per cubic foot and tenderers must state the royalty which they are prepared to pay. All logs cut will be measured by the Forest Department by quarter girth (Hoppus) over bark, and payment will be made on these measurements. Only logs five inches diameter and over will be charged for. Logs below this size and lop and top will remain the property of the Forest Department.

All thinnings marked shall be felled and removed systematically from the plantations in accordance with the directions of the Conservator of Forests or his representative, and failure to do so may result in cancellation of the licence.

The site, layout and equipment of the mill shall be to the satisfaction of the Conservator of Forests.

Applicants may be called upon by the Conservator of Forests to install milling equipment embodying a minimum loss in conversion, e.g. gang, band or other small saws to minimize loss in kerf during manufacture.

The installation of the mill shall be begun within three months of the acceptance of tender and substantial production shall be begun within six months.

Applicants will be required to submit to the Conservator of Forests monthly returns of input and sawn outturn on prescribed forms.

The licence may be cancelled for any breach of the licence conditions or of the Forest Ordinance or if, in the opinion of the Conservator of Forests the mill is not being operated diligently and efficiently, consideration being given to market conditions at the time.

Tenderers are advised to inspect the areas concerned and they may do this by arrangement with the Assistant Forester, South Kinangop, address P.O. S. Kinangop, Naivasha, and the Assistant Forester, Kerita, address P.O. Matathia, respectively.

The successful tenderer will be required to provide satisfactory evidence regarding his financial resources and capability to undertake the work. He will also be required to deposit with the Conservator of Forests the sum of Sh. 1,000 as minimum licence fees which will be deducted from royalties which become due.

Tenders clearly marked "Cypress Milling" on the cover should reach the Divisional Forest Officer, Nairobi Division, P.O. Box 337, Nairobi, not later than noon on 30th April, 1949.

The highest or any tender will not necessarily be accepted.

J. C. RAMMELL,
Conservator of Forests.
