3. Applications should be submitted to reach the undersigned not later than 25th November, 1953.

(a) Conditions of Licence

1. The licence shall be for a term of nine months from the first of the month next following notification to the applicant that his application has been successful.

2. The licence shall be restricted to the purpose of enabling the successful applicant to investigate the whole area comprising approximately 40,000 acres with a view to proving the water supply available, and the selection of a suitable area or areas, not exceeding 15,000 acres in all, for specified agricultural development and shall confer no other rights whatsoever upon the licensee.

3. The licence will contain an option giving the licensee the right, exercisable, on or before the expiration of the licence, subject to satisfactory compliance with Condition No. 4 below, to obtain an agricultural lease from the Crown upon the terms and subject to the conditions set out at 4 below of one or more blocks not exceeding in total 15,000 acres to be selected out of the whole area of 40,000 acres, excluding sea frontage, but with provision for a limited number of residential plots on the sea front which shall be the subject of a separate application.

(a) The licensee submitting full and adequate proposals for the development of the area selected to the satisfaction of the Commissioner of Lands, whose decision as to the adequacy or otherwise of the development proposed shall be final.

(b) The licensee satisfying the Commissioner of Lands as to his financial status and his ability to carry out his development proposals and supplying such Bank guarantees or other security as the Commissioner of Lands shall reasonably require.

5. In the event of the licensee not obtaining a grant of 15,000-acre block or blocks owing to non-compliance with the provisions of Condition No. 4 (a) and (b) above, he shall be at liberty, on the expiration of the licence by efflux of time, to remove any machinery or any structures of a temporary nature which may have been brought on to the land or erected and constructed by him for the purposes of the said licence, making good all damage done and leaving the land in a clean and tidy condition to the satisfaction of the Commissioner of Lands or such person as he may appoint. Provided that in the event of the sinking of a successful borehole which, in the opinion of the Government Hydraulic Engineer yields potable water, the Government shall have first option to purchase the same at a valuation. If any difference of opinion shall arise as to the valuation aforesaid, the matter shall be referred to arbitration under the provisions of the Arbitration Ordinance (Cap. 22, the Revised Edition of the Laws of Kenya).

6. The boundaries of the block or blocks up to a total of 15,000 acres when selected by the licensee shall be subject to the approval of the Commissioner of Lands, in order to ensure that the land is not selected in such a manner as to render the remainder an uneconomic unit.

7. The licensee shall not be permitted to cut, damage, remove or sell any millable timber, coconuts or other produce of any nature whatsoever from the area the subject of the licence, and this shall include mangrove poles, coconut palms, etc.

8. The Government, its officers, agents and contractors shall have access to, from and over the area for any purposes whatsoever at all reasonable times during the continuance in force of the licence.
