THE INDUSTRIAL COURT

CAUSE NO. 55 OF 1973

Parties:—

Kenya Plantation and Agricultural Workers' Union
and
D.C.K. (E.A.) Ltd.

Issues in dispute:—

1. Reporting early for roll call.
2. Working hours for stockmen, herdsmen and watchmen.
3. Gazetted public holidays.
4. Annual leave.
5. Transport on leave.
6. Maternity leave.
7. Housing.
8. Acting appointment.
9. Wages.
10. Effective date.
11. Duration.

1. The Kenya Plantation and Agricultural Workers' Union shall hereinafter be referred to as the Claimants and D.C.K. (E.A.) Ltd. shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on 12th February, 1974, and relied on their written and verbal submissions.

On 4th April, 1974, the Judge and the members of the Court visited the Respondents' production area at Masongalani Estate and saw the conditions under which the employees work. The Court also made an extensive tour of the housing estate in which the Respondents' workers are housed. The parties' representatives accompanied the Court members on this visit.

AWARD

3. The Notification of Dispute Form "A" dated 15th October, 1973, was received by the Court on 15th November together with the certificate from the Labour Commissioner under section 9 (9) (e) of the Trade Disputes Act.

The Respondents have established a Horticultural Industry in Kenya at the invitation of the Kenya Government. The Danish Government also agreed to participate in the project through I.F.U., a Danish Industrialization Fund for Developing Countries.

The four most important factors which made the Respondents choose Kenya for the selection of a production area were:—

- (a) Optimal climatic conditions.
- (b) Adequate supply of labour.
- (c) Frequent and efficient air freight connexions to Europe.
- (d) Political stability.

The Respondents are engaged in commercial production and export of three different plants, namely:—

Chrysanthemum cuttings.
Asparagus Plumosus Fern.
Carnation flowers.

The Respondents have built production areas on Masongalani Estate at Kibwezi and at Lake Naivasha employing a total number of 4,000 persons.

On 22nd December, 1971, an agreement relative to recognition and negotiating procedure was signed between the parties. This was followed by a collective agreement setting out the terms and conditions of the Respondents' employees, signed on 8th May, 1972, with effect from 1st March, 1972, and expiring on 31st May, 1973.

The Claimants did not approach the Respondents until 15th August and that also only after a reminder from the Respondents.

The Claimants' main submissions in brief are that there is now in Kenya no reason why the agricultural workers should not be brought in line with other wage earners in the country. They called for an end to the exploitation of the agricultural workers.

They asked for the daily rate to be abolished in agricultural industry and submitted that a start could be made in this dispute.

The Claimants pointed out that of the 4,000 workers the majority had attained the educational standard of C.P.E. and were therefore entitled to special consideration. The standard and quality of labour was high and instructions were generally given to them in English which they understood.

The Claimants referred to some documents which they had received from International Federation of Plantation, Agricultural and Allied Workers in support of their demand that the Kenyan workers should be remunerated at the same level as the Respondents' employees in Denmark and added that the Respondents enjoyed a monopoly in this field in Europe.

The Claimants rejected the Respondents' contention that their profitability was nil at present as they enjoyed a billion dollar market in Denmark with products which were produced in Kenya at half the normal Danish price.

The Claimants stressed that priority should be given to lower paid workers in respect of whom they asked the Court to award a 100 per cent increase while agreeing that the workers may be paid at hourly rate. For the others there could be a sliding scale as at present. This would be in conformity with the Guidelines.

The Claimants questioned the wisdom of relating wage increases in the whole country to the Nairobi Wage Earners' Index.

The Respondents reminded the Court that they were still in infancy and their future development depended on a reasonable level of wages. They had already given employment to several thousands in an area where previously paid employment barely existed.

The Respondents indicated that in another year they would have about 5,000 workers in their employment.

The Respondents stated that the turnover and profitability were two entirely different things. They stressed that their profitability at the moment was nil.

They asked the Court to bear in mind that the Respondents needed every assistance so that they may develop and help the country by creating more jobs. It was hoped that the establishment of this industry in that area would lead to the creation of a new town and since there was no local authority at present to give any assistance the Respondents had to do everything there.

The Respondents denied that they were exploiting labour and referred to wages and terms and conditions in the other agricultural sectors for comparison. The Respondents did not deny that their level of wages may be considered low in some quarters but the fact remained that they were still developing and establishing themselves. High wages would force them to mechanize but they wanted conditions which would enable them to expand.

The Respondents posed a question: What should be given priority—do we create more jobs in Kenya or leave the workers unemployed?

The Court forwarded the parties written submissions to the Employment Promotion Division of the Ministry of Labour for a detailed analysis to be carried out in consultation with the parties for the benefit of the Court. The Court and the parties had the analysis prepared by the Principal Economist before it during the hearing.

The Court has fully taken into consideration the factual information which has been compiled by the Principal Economist along with his comments which appear in his report. The Court notes that he feels that if the new agreement is not backdated too far in 1973 in his opinion the maximum permissible increase in labour cost as a whole would then be 24.3 per cent.

The Court must place proper weight on the fact that the Respondents have in a matter of two-three years created 4,000 new jobs in the country and have indicated that in another year's time this figure would go up to 5,000. This is indeed most encouraging and is directly consistent with the Government policy of creating new jobs with adequate remuneration to enable the workers to meet their needs. The Court would never be a party to a situation, and for that matter neither would the Government, whereby a foreign enterprise or a local undertaking are allowed to operate under conditions which would amount to exploitation of the labour force in Kenya.

The Court was informed that prior to the first collective agreement between the parties the wages and the terms and conditions of service in this industry were geared to the sisal industry in that area. These were then subject matter of the collective agreement which is before the Court for revision. In

formulating the Court award on the various issues in dispute due emphasis has been placed on the Respondents' plea that they are still developing and establishing themselves and that conditions should be created to allow them to expand to create more jobs and also the Claimants' strong submission that the workers should not be allowed to be exploited.

1. *Reporting early for roll call.*—The agreed hours of work per week at present are 46 spread over not more than six days per week. The Claimants' complaint is that the employees are forced to report at work at 6.45 a.m.—15 minutes earlier than the actual time of work and if an employee fails to report at this time he is not allowed to work the whole day and forfeits his pay. They demand that the Respondents should follow the standard practice of clocking system like other industries and the time consumption during roll call should be the employers' time. Alternatively the workers should be paid for the extra 15 minutes when they have to report for duty at 6.45 a.m. instead of 7 a.m.

The Respondents stated that previous experience proved that if the employees passed the gate at 7 a.m. the majority were not at their place of work and actually working before 7.20 to 7.30 making a total working hours of $7\frac{1}{2}$ hours only. This loss of half an hour of actual production time by 3,300 employees would amount to 1,650 hours or 206 man days lost per day.

The Court has carefully considered the submissions on this issue and keeping in mind the special working conditions in this industry whereby 3,300 employees work in an area of 200 acres only but doing many different jobs in different areas the Court feels that the Claimants' demand should be rejected for the time being.

The Court, however, would strongly advise the parties to apply their minds seriously to this problem so that the workers' complaints can be eliminated between now and the next revision of the collective agreement.

2. *Working hours for stockmen, herdsmen and watchmen.*—The Claimants want the working hours for these categories of employees to be reduced to 48 hours of work per week spread over not more than six days instead of the present 60 hours per week.

The Respondents pleaded that their working hours in respect of these employees were in line with the other sectors in the agricultural industry.

The Court rejects the Claimants' demand and makes a nil award.

3. *Gazetted public holidays.*—The Claimants' demand is that all the ten gazetted public holidays in Kenya should be allowed to all the employees. At present the workers get eight gazetted public holidays per year and the Claimants did not want the plantation workers to be discriminated against in this respect.

The Respondents submitted that it was only this year that the agricultural industry had decided to increase the number of paid gazetted public holidays to eight and that the Wages Council for the agricultural workers had increased it only now from six to eight.

The Court, after careful consideration, rejects the Claimants' demand and makes a nil award.

4. *Annual leave.*—During the hearing the Claimants accepted the Respondents' offer of increasing the present entitlement to 18 days' paid leave but asked the Court to grant the senior employees 21 days' leave.

Since there does not seem to be much seniority in the employees in this industry the Court fails to see the logic in the Claimants' demand for 21 days' leave for the employees. Accordingly, the Court awards that all workers should get 18 days' paid leave after each period of 12 months' service.

5. *Transport on leave.*—The main difference between the existing agreement and the Claimants' proposal is that they wish transport on leave by way of bus or train fares to be provided for a worker, his wife and children while the Respondents wish the payment to be restricted to payment within Kenya to the man and his wife.

The Respondents submitted that at present the annual expense for transport on leave amounted to Sh. 98,000 per year and the Claimants' demands would double this amount.

The Court awards that the existing clause on this item should be varied to provide a maximum of three full fares to enable two children under 12 or one child over 12 to benefit.

6. *Maternity leave.*—The present agreement provides unpaid maternity leave to the maximum of three months. The Claimants demand that such leave should be paid. During the hearing the Claimants referred to a statement made by the General Secretary of the Kenya Civil Servants' Union after a delegation had called on H.E. the President Mzee Jomo Kenyatta in which it was stated that His Excellency had given an indication that the civil servants should go and negotiate on this issue. The Claimants read that to mean that His Excellency had ordered that female employees should be granted paid maternity leave.

The Respondents on the other hand submitted that a directive to negotiate on this issue did not mean that paid maternity leave would be granted automatically. In any case they maintained that the issue of paid maternity leave in the agricultural industry was entirely different from that of the civil service or other sectors of the economy.

The Respondents maintained that this was a matter of social security and that in countries like the United Kingdom such benefits are granted to females by the Government and not by the employers and that the issue was being discussed with the National Social Security Fund at present.

The Court, after careful consideration of all the submissions, rejects the Claimants' demand for the time being.

7. *Housing.*—The present position of housing is that the Respondents have constructed huts for their employees and each hut is shared by three workers. These huts are 10' x 10'. In case of families, each family is housed in one hut.

The Respondents maintained that although their level of housing at present was better than accommodation offered on other plantations, they were actively engaged in a building programme under which they are building much better standard of houses at four and a half times the capital cost of the original huts. They stated that by the end of this year they will have completed 1,000 of these new houses and very soon intended to reduce the occupancy of the huts from three to two persons.

The Claimants' demand is that one employee should be accommodated in one room instead of the present practice of four to one room. This they felt was an uncivilized manner of living and inconsistent with the modern society. They alleged that in some cases two families have been housed in one such small room which had resulted in couples leading very unhappy lives because of quarrels and disagreements between the families. According to the Claimants' estimate the cost of putting up these huts is about Sh. 100 per hut and they insisted that if nothing else the Respondents should allow the workers to build their own huts.

The Respondents were strongly opposed to any such move as this would lead to the destruction of the forest in the vicinity. In any case they could not allow the workers to build housing in any haphazard manner that they wanted. On the question of overcrowding the Respondents blamed the employees themselves for creating such conditions by bringing in their relatives and friends to live therein.

At present the clause on housing has six subclauses and it is clearly stipulated therein that the housing allowance shall be divorced from wages and the employees allocated houses shall be charged rent which at the moment is Sh. 10 p.m. in respect of all categories of unionizable employees. Further where an employee is offered accommodation on the estate and prefers to live his way he shall not be entitled to receive house allowance.

The Claimants submitted during the hearing that it was unfair that the Respondents should charge Sh. 10 per head from the workers when more than one of them was housed in one hut. They wanted the Court to rule against that and also to award in respect of those employees who are not housed by the Respondents the house allowance as stipulated in the relevant Wages Council Order.

The Court has had the benefit of visiting the estate and having seen the housing provided and the living conditions of the workers at close quarters. The Court feels that under the circumstances and in view of the declared housing development plan by the Respondents in respect of their employees that the conditions are not unreasonable although there is room for a lot of improvement.

The Court has in previous disputes made comments on issues of this nature which involve capital expenditure of huge amounts and the Court has stated that where it is satisfied that an employer was taking reasonable steps to improve housing for his employees that was a step in the right direction and

which needed to be encouraged. The Court has also stipulated in the past that until such time as all employees are housed in better standard type of houses their living conditions in the existing accommodation should be improved as much as possible.

In the present dispute the Court rules that these huts should be allocated to two bachelors only and in the case of a family, to one family only. This issue will no doubt be reviewed again when the next collective agreement comes up for negotiations in the light of progress made by the Respondents towards building a higher standard of houses.

8. *Acting appointment.*—The present wording in the agreement has made provisions for acting allowance to be paid for a period in excess of 21 days and although the Claimants wished to have this reduced to 10 working days, the Respondents are willing to make an amendment reducing the 21 days to 18 days. During the hearing the Claimants indicated that they were prepared to accept the offer and the Court accordingly awards in terms thereof.

9. *Wages.*—The Court notes that the Claimants agreed to continue with the present method of wage payment based on the existing job descriptions. After a careful consideration of all the submissions the Court awards the following rates for the jobs listed hereunder in accordance with the existing job descriptions:—

	Present Rates	
	Sh.	cts. per day
Large grader driver	16	00 "
Drivers of earth moving equipment, heavy tractor, combine harvester and similar equipment	12	00 "
Tractor drivers	8	00 "
Senior lorry drivers	16	00 "
Assistant lorry drivers	12	00 "
Drivers of cars and other mobile plant	6	75 "
Immobile plant operators	5	75 "
Learner tractor driver	5	50 "
Artisan with Trade Test Certificate Grade II	11	00 "
Artisans with Trade Test Certificate Grade III	7	50 "
Ungraded artisans	5	50 "
Medical attendants	5	50 "
General clerks	11	00 "
Record clerks	6	25 "
Headmen	6	50 "
Domestic servants including cooks under training	110	00 p.m.
Domestic servants including cooks after training and on confirmation	160	00 p.m.
Unskilled labourers	3	75 per day

The Court awards that the above rates should be increased by 15 per cent with effect from 1st January, 1974, and the resultant wages shall be further increased by another 10 per cent with effect from 1st January, 1975.

10 and 11.—*Effective date and duration.*—The parties have agreed to the duration period of the new collective agreement to be two years but are in deadlock on the effective date.

The Claimants are asking for the effective date to be 1st June, 1973, and the Respondents are suggesting 1st January, 1974, for two years as agreed because they contended that there had not been any delay on their part.

The current clause on duration reads as follows:—

"The agreement shall run without amendment for 15 months and shall continue in force until amended. Notices of amendment shall be submitted by either party, in writing, and joint negotiations shall commence within three weeks of such notice."

In awarding the effective date to be 1st January, 1974, the Court has taken this point very much into consideration in formulating the new wage rates as specified hereinabove. Accordingly the Court awards that the effective date be 1st January, 1974, and that the agreement should remain in force for a period of two years from that date.

GAZETTE NOTICE NO. 1313

THE INDUSTRIAL COURT

CAUSE NO. 9 OF 1974

Parties:—

Kenya Union of Commercial Food and Allied Workers
and
Doshi & Co. Ltd.

Issue in dispute.—Gratuity payment to Mr. Said Ali.

1. The Kenya Union of Commercial Food and Allied Workers shall hereinafter be referred to as the Claimants and Doshi & Co. Ltd. shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on the 21st day of March, 1974, and relied on their written and verbal submissions.

AWARD

3. The Court received the Notification of Dispute Form "A" dated 9th November, 1973, together with statutory certificate dated 2nd January, from the Labour Commissioner on 4th February, 1974.

Although the dispute before the Court relates to the issue of gratuity payment to Mr. Said Ali, some important principles are at stake in that the Court has been asked to give a ruling on whether or not the provisions of section 42 of the National Social Security Fund (hereinafter referred to as N.S.S.F.) Act, 1965, are of automatic application to the collective agreements and to other social security schemes in force in the country without requiring a formal amendment of such collective agreements or the rules of such schemes.

In the instant case the parties signed a collective agreement on 19th September, 1967, which agreement was effective from 1st April, 1967, and was to remain in force for a period of five years but due to the Tripartite Agreement the duration period was extended to six years. In this agreement clause 11 on gratuity reads as follows:—

"After the completion of three years' continuous service an employee who leaves the service of the employer shall be paid a gratuity equal to one month's pay for each completed year of service, the rate of pay being that received by the employee at the time the employment is terminated. This section of the agreement is valid in respect of service after the 1st of January, 1959, in the case of Mamujee Brothers, and 1st March, 1973, in respect of Doshi & Co."

It is common ground that prior to the signing of the said agreement the interpretation of section 42 of the N.S.S.F. Act was referred to Mr. L. O. Musiga who is the Director of the Fund. Mr. Musiga's conciliation report and his conclusions were made available to the Court by the Claimants in which the conclusion reads as follows:—

"The Union does not object to employers' right of applying the provision contained in section 42 of the National Social Security Fund Act, 1965. The Union's objection was solely over the manner in which the employers introduced the clause referring to the said section 42 into the memorandum of agreement. The employers' representative appreciated this observation and I am in a position to report that the conciliation came to a successful conclusion.

I recommend that employers withdraw the clause which they had inserted in the agreement referring to section 42 of the National Social Security Fund Act, and follow the procedure of amending the Rules as provided for by the agreement."

Notwithstanding the above report from Mr. Musiga the parties signed the aforesaid collective agreement with the gratuity clause as reproduced hereinabove although it is alleged that the Respondents had introduced a clause to give effect to the provisions of section 42 of the N.S.S.F. Act, but on Claimants raising strong objection to such clause being added they withdrew it and proceeded to sign the agreement without it. It is on record that soon after Mr. Musiga's report the Respondents, along with another firm called Mamujee Brothers Ltd., wrote to the Claimants on 27th July, 1967, pointing out that in view of the recorded fact that they conceded that they had no objection to the Respondents exercising their rights under section 42 of the N.S.S.F. Act; it was not now necessary to amend the negotiated agreement and indicated that in these circumstances they were willing to sign the agreement without reference to this clause. The Respondents had to write this letter as the Claimants had objected to signing the aforesaid collective agreement containing a clause giving effect to section 42 of the

N.S.S.F. Act. As is obvious the Respondents dropped this clause and proceeded to sign this agreement.

On 20th September, 1967, the Executive Officer of the Federation of Kenya Employers wrote the following letter to the Claimants:—

"I have been instructed by my members to give you formal notice under section 42 of the National Social Security Fund Act that it is their intention to set off against their obligations under clause 11 of the agreement all payments made by them to the National Social Security Fund."

Further letters were exchanged between the parties on the subject which show that both the parties had adopted different stands on this issue.

Subsequently Mr. Ali left the Respondents' employment and it came to the knowledge of the Claimants that the Respondents had set off against his gratuity dues the payment which they think the Respondents had made on Mr. Ali's behalf to the N.S.S.F. The Claimants objected to this and reported the matter to the Senior Labour Officer, Coast Province. The Senior Labour Officer's recommendation was that the Respondents should fully implement clause No. 11 of the collective agreement and advised the Respondents that they were free to follow the normal procedure to amend the same clause or any other clause of the agreement if they so wished. The Respondents did not accept the recommendation and the Claimants had to report a formal trade dispute to the Minister for Labour but further conciliation meetings failed to resolve the dispute.

The Claimants' main submission is that the Respondents have no right in the absence of a specific provision in the current collective agreement, to set off their contributions made to the N.S.S.F. against a worker's entitlement under clause 11 on gratuity. They pointed out that whereas they were in agreement as to what section 42 meant, they could not accept the Respondents' contention that section 42 applied automatically and they insisted that until such time as the collective agreement was amended no set off could be allowed. They disclosed that if and when the Respondents tabled the necessary amendment to this effect they had certain counter proposals to make and therefore it would be very unfair to accept the Respondents' submission.

The Respondents referred the Court to Mr. Musiga's conciliation and the Claimants' acceptance that they had no objection to the Respondents exercising their rights under section 42 of the N.S.S.F. Act and submitted they were entitled to set off their contributions to the Fund against the gratuity benefits. In any case they maintained that they had given a formal notice to the Claimants' Branch Secretary on 20th September, 1967, which has been reproduced hereinabove.

The Court has carefully considered the provisions of the N.S.S.F. Act and the parties' submissions which were presented during the hearing of this dispute and has come to the conclusion that section 42 (1) while giving the discretion to an employer as put forward by the Respondents requires that the rules or other provisions of the existing scheme should be amended. The relevant part of section 42 reads as follows:—

"That employer may, by virtue of this subsection where the rules or other provisions of the scheme do not already so allow, amend the rules or other provisions of the existing scheme, in so far as they apply to that member of the Fund, so as—

- (i) to reduce any contribution payable in respect of that member by that under the scheme for any period by an amount not exceeding one-half of the amount payable in respect of that member under this Act by way of standard contribution for the same period;
- (ii) to reduce any contribution payable in respect of that member by that employer under the scheme for any period, not being a contribution that is recoverable by him from that member, by an amount not exceeding one-half of the amount payable in respect of that member under this Act by way of standard contribution for the same period; and
- (iii) to reduce accordingly the value of the benefits payable under the scheme."

The Court is satisfied that the set off comes into operation after an employer amends the rules or other provisions of an existing scheme. In the present dispute the evidence shows only that the Respondents did attempt to amend the collective agreement but in the face of opposition from the Claimants they withdrew that amendment and relied on the proposition that since the Claimants knew what section 42 meant its provisions

applied automatically to the collective agreement. The Court cannot accept this proposition as the wording of section 42 is quite clear which requires that when an employer decides to exercise the option that has been given to him under section 42 of the N.S.S.F. Act in setting off his contributions against any other scheme he is required to amend the rules or provision of such scheme. It is quite clear that section 42 does not automatically apply.

There is no doubt that when an employer decides to set off his contributions to the N.S.S.F. against his other retirement schemes provided he does so by amending the rules as required or amends the collective agreement to give effect to section 42, then there is very little that the Claimants can do about it. They will have no option but to accept the set off but the fact remains that an employer has got to amend the rules or the collective agreement which in this case does not seem to have been done.

In these circumstances the Court finds that Mr. Said Ali is entitled to payment of gratuity as laid down in clause 11 of the collective agreement without any set off as claimed by the Respondents.

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form T.M. No. 6 (in duplicate) together with a fee of Sh. 50.

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.
