GAZETTE NOTICE No. 1194

VACANCY OFFERED BY UNITED NATIONS

APPLICATIONS containing detailed curriculum vitae should be sent to the Permanent Secretary/Director, Directorate of Personnel Management, P.O. Box 30050, Nairobi.

Post title.—CONSULTANT IN GEOPHYSICS.

Duration.—Three months.

Date required.—July, 1985.

Duty station.—Hanoi, Ho Chi Min City and project areas, as requested by the project.

Duties.—In co-operation with the chief technical adviser, personnel and counterparts of project VIE/81/004 and the personnel of the general department of geology in Hanoi and Saigon, the consultant will:

- Familiarize himself with the hydrology and hydrogeology of the Mekong Delta from project documents, field data, field excursions and discussions with project personnel.

VACANCY OFFERED BY UNITED NATIONS—(Contd.)

(2) Familiarize himself with the relevant data available in libraries and archives of ESCAP and the Mekong Secretariat.

(3) Identify and design the geophysical and hydrogeologic parameters that can be mapped in the Mekong Delta with electrical resistivity methods: these may include sea water—fresh water relationships along levees, canals and in the plain of reeds, location of faults, etc.

(4) Design a field programme using electrical resistivity to map the parameters identified and give preliminary field assistance with this programme and with field techniques in general.

(5) Assist geophysical counterparts with interpretation procedures (in order that the upper 100 metres of recent alluvium or the Holocene Delta complex is the result of a previous marine transgression. It is only partially flushed and hosts a discontinuous water table aquifer in most regions.

(6) Assist the geophysical counterparts with planning, preparation and presentation. It is believed that each locality worked should be the subject of a separate job report.

(7) Prepare a short mission report which should include recommendation on equipment suitability, problems likely to be encountered (equipment and terrain), ordering requirements to keep the geophysical programme functional and future programmes, etc.).

(8) Be prepared to give one or two formal topical lectures on geophysics and its application to hydrogeologic matters to project personnel and counterparts.

(9) Prepare a final report, setting out the findings of his mission, and his recommendation to the government on further actions which might be taken.

Qualifications.—University degree in geology and geophysics and considerable experience in dealing with hydrogeological matters and problems. Although this assignment deals principally with electrical resistivity, advice may be sought on seismic infraction techniques and their application in the Mekong Delta, also on electric well logging and airborne magnetic and EM methods.

Language.—English.

Background information:

As a part of massive efforts launched by the government for agricultural rehabilitation and reconstruction of rural, urban and industrial areas, a large programme of ground water reconnaissance is being implemented.

The two projects, phase I (VIE/76/004) and Phase II (VIE/81/004) form a continuous programme of ground water exploration, with phase I covering work in the lower Red River Valley, delta and adjacent coastal sandbeds, and phase II covering the western Mekong Delta region, together with uncompleted work from the previous phase I.

Detailed exploration of the aquifers required different works, such as geological and geophysical survey, exploration drilling and interpretation of relevant data.

Additional information has thrown new light on the hydrogeological conditions of these areas. Particular attention is given to the existence of saline waters in the Red River Valley and Mekong Delta, which demands a reassessment of potential and careful analysis of the data obtained.

The eventual possibility that ground water will not satisfy all requirements in the project areas demands a professional approach to the problem with an orientation to possible development strategies.

Based on all information, a project terminal report with maps and supporting data covering the two project areas will be prepared.

The United Nations would welcome the participation of suitably qualified male and female candidates in the technical co-operation programmes. The recipients of this job description are, therefore, urged to make every effort to locate and nominate suitable candidates both female and male, for this vacancy. It should be emphasized in this connection that experts are engaged in duties which consist in the transfer of knowledge, techniques and aptitudes. Success in their assignment depends as much on their expressive skills, their empathy with and sensitivity to the needs, particularities and values of the host country, as on their academic background and professional competence.

Nominations should be submitted before 17th April, 1985.

THE TRADE MARKS ACT

(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the class may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified, it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

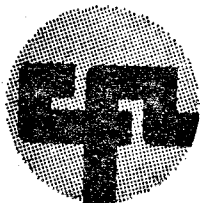

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Applications for part B are distinguished by the letter B prefixed to the official number.
