By-laws, 1993 (No. 2)" which, if and when approved, will revoke the current Methods of Charge (K.P.L.C.) By-laws, 1991 (No. 2) and the Methods of Charge (K.P.L.C.) By-laws 1993, that will be effective from 1st August, 1993.

The Kenya Power and Lighting Company Limited (K.P.L.C.) purchases electrical power from the Kenya Power Company Limited (K.P.C.) and Tana River Development Company Limited (T.R.D.C.). The price which K.P.L.C. pays represents the total financial requirements of K.P.C. and T.R.D.C. comprising their operating and maintenance costs, the cost of debt service in respect of their existing generating and transmission facilities and the local costs relating to their power development projects. In addition to these costs of power purchases K.P.L.C. has to meet the costs relating to operation and maintenance and debt service of other existing generating, transmission and distribution facilities. The bulk of the K.P.L.C. costs, which comprise mainly debt service and system expansion costs, are contracted in hard currencies.

The steep devaluation, this year, of the shilling against the hard currencies, coupled with the high rise in the rate of inflation, has significantly increased the cost of the operations of the power industry to the extent where the revenue generated would be less than the cost of supplying a unit of electricity. The increases in average electricity prices by 15 per cent effected on 1st April, 1993, and by 16 per cent due to be effected on 1st August, 1993, would partly reduce this financing gap but still result in the price charged being much less than the cost of supply. Whereas the Company is exercising other cost reduction measures it is necessary to further strengthen the industry's financial base to enable it meet the increased financial obligations on operation, maintenance and debt servicing.

The object of and reasons for the application are, therefore, to achieve an overall increase in revenue by a further 25 per cent to partially meet the above increases in the cost of the power industry operations. The effect of the minister's approval of our application will be an increase in average electricity charges, ranging from 8 per cent to 30 per cent on all categories of consumers. The lowest average increases of up to 15 per cent will apply to small domestic consumers, social facilities and informal sector consumers. These include, dispensaries, health centres, schools, jua kali sheds, kiosks, water pumping and bore holes. Details of the proposed tariff structure are contained in the proposed "Methods of Charge (K.P.L.C.) By-laws 1993 (No. 2)". These have been deposited at the offices of the licensee and are open to public inspection during normal office hours without payment. Copies of the proposed by-laws may be purchased at the offices of the licensee at a price of KSh. 5 per copy.

(Any public or local authority, company, person or body of persons desirous of making any representation on or objection to the application must do so by letter addressed to the Minister for Energy and marked on the envelope "Electric Power Act", on or before the expiration of fourteen (14) days from the date of the application and must forward a copy of such representation or objection to the applicant.

Dated the 25th June, 1993.

S. K. GICHURU,
Managing Director.
