ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED GAS TURBINE GENERATOR

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed gas turbine generator.

The proposed project will involve installation and operation of a gas turbine generator (GTG) to generate electricity. The GTG plant will consist of two train equipment generating a total of 25mW of electricity and 50 tonnes per hour of steam.

The project will be located at Kenya Petroleum Refineries Limited (KPRL) premises in Changamwe Location of Changamwe Division, Mombasa District.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation measures
Contamination of water	<ul style="list-style-type: none"> • Installation of oil separators. • Inspection/monitoring. • Schedule maintenance. • Emergency maintenance. • Limit usage of water. • Store water in metal containers. • Waste-water handling system is already in place. • Pre-hire inspection. • Collect waste in metal containers or channel to refinery collection system and treatment system.
Air pollution	<ul style="list-style-type: none"> • Proper servicing of trucks. • Periodic all-over wash in proper car wash facilities. • Use of lead free fuels. • Statutory inspection and certification. • Cleaning of vehicles. • Proper construction and maintenance of roads. • Sprinkling of water. • Put ballast and sand to reduce dust.
Noise from ship, cranes, trucks and the plant	<ul style="list-style-type: none"> • Proper operation and maintenance. • Adhere to NEMA and DOHSS rules.
Occupational health and safety	<ul style="list-style-type: none"> • Training: Technical and HSE. • Provide and enforce use of protective gear. • Design for fire regulations. • Install detection, alarm and suppression system. • Fire training and drills. • Fence project area. • Post warning signs. • Post security personnel.
Solid waste (wood material, paper, scrap metals, plastic, soil)	<ul style="list-style-type: none"> • Excavated soil will be used for backfilling.

Possible Impacts

Mitigation measures

- Dispose excess soil to KPRL shamba.
- Disposal to registered recycling firms.
- Accumulate all materials in fire proof containers.
- Dispose to registered recycling suppliers.
- Limit quality by proper planning.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED BIOMASS POWER GENERATING PLANT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Biomass power generating plant.

The proposed project will involve establishment of a power generating plant for Timsales limited whereby the company wants to generate 1 MW of electricity for own use from biomass. The proposed power generating plant will have the following components: biomass furnace, ash silo, filtration pond, sedimentation tank, power plant control room, cooling towers, gas tank, cooling and cleaning system.

The proposed project is located on land parcel LR No. 530/325, within the existing lumbering factory of Timsales in Elburgon Division, Molo District in the Rift Valley Province.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation measures
Occupational health and safety hazards	<ul style="list-style-type: none"> • Provide personal protective equipment such as dust masks, hand gloves, helmets to the employees working at the site during construction. • Measures to prevent accidents and fire should be put in place e.g. Installation of fire extinguishers and water hydrants.
Accidents and insecurity	<ul style="list-style-type: none"> • Workers at the power plant should be trained on safe working procedures.

<i>Possible Impacts</i>	<i>Mitigation measures</i>
Waste generation	<ul style="list-style-type: none"> The security team at Timsales limited should be reinforced. Construction wastes will be crashed and used for either landscaping the compound or carpeting the roads within the premises. Waste water will be re-used for cooling after pre-treatment is done thus no water will go into waste. Human wastes will be connected to toilet and septic tank facilities will be in a capacity to handle the extra workforce in the factory.
Air quality	<ul style="list-style-type: none"> All the workers involved in site preparation should be provided with dust masks and other appropriate safety gadgets. The site should be sprinkled with water during the entire construction process.
Loss of aesthetic value of the site	<ul style="list-style-type: none"> All distributed areas should be rehabilitated satisfactorily by landscaping and levelling on completion. Excavations at the proposed site should be controlled such that the land is left intact. Soil erosion prevention measures should be put in place during the entire process.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P. O Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FUEL STORAGE FACILITY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed fuel storage facility.

The proposed project will involve construction a fuel facility for internal consumption within the factory. The proposed fuel storage will consist of both petroleum and diesel underground storage tanks. The tanks will incorporate four diesel tanks holding a total capacity of 94,000 litres (two 20,000 litres diesel tanks, one for 10,000 and another holding 44,000 litres). The tanks will be fitted with suction pipes, a dipping pipe, a filling pipe and breathers.

The proposed project is located on land parcel LR No. 530/325, within the existing lumbering factory of Timsales in Elburgon Division, Molo District in the Rift Valley Province.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation measures</i>
Dust, noise pollution and vibrations	<ul style="list-style-type: none"> Sprinkle the site with water to reduce dust and provide dust masks to the workforce. Provide and enforce the use of dust masks by workers at the proposed site. Adherence to machine's manual specifications and use of modern technology machines. Noise abatement can also achieved through sensitizing construction workers and drivers.
Occupational health and safety	<ul style="list-style-type: none"> Train workers on Occupational Health and Safety. Install first aids kits within the gas station. Workers should be given Protective attire. Ensure adherence to provisions of the Factories and Other Places of Work Act Cap. 514. The station should also be insured against fire and other accidents. Install fire extinguishers and fire hydrants at high risk zones at the gas station. Formulate fire evacuation procedures. Come up with a fire assembly point. Conduct regular fire drills. Emphasize on switching off of engine while at station and posting of signs on the same. Post "No smoking" warning signs.
Poor drainage	<ul style="list-style-type: none"> Maintain drainage systems by putting the channels with concrete.
Waste generation	<ul style="list-style-type: none"> Come up with proper waste management strategies such as incineration of waste papers, recycling of waste water and composting of vegetative wastes. Adhere to the provisions of Environmental management and co-ordination (Waste Management) Regulations of 2006.

FOR THE PROPOSED GAMMA RAY DEVICE INSTALLATION
FOR TIMSALES LIMITED

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Gamma Ray Device installation.

The proposed project will involve installation of a Gamma Ray device which will consist of source housing, source gate, handle, bottom plate and hook.

The proposed installation of Gamma ray device will be located on land parcel LR. No. 420/5 within the existing lumbering factory of Timsales in Elgurgon Division, Molo District in the Rift Valley province.

The project anticipates the following impacts and mitigation measures:

- Operation of the device to be left only to trained & qualified operator.
- Adherence to machine's operational manual specifications.
- No one should be in the area of one metre range from the ray coming out from the source opening.

Spill and leak control

- Alert everyone in the area.
- Confine the problem or emergency (includes the use of absorbent material).
- Clear the area.
- Summon Aid.

Damage to sealed radioactive Source holder

- Evacuate the immediate vicinity around the source holder.
- Place the barrier at a safe distance from the source holder (minimum 5 meters).
- Identify area as a radiation hazard.
- Contact emergency number posted on local warning sign.

Noise pollution and vibrations

- Obtain construction/installation materials from known sustainable and licensed sources and have control on the procurement of the same.
- Adherence to machine manual specifications directions on installations procedures.
- Installation to be approved by national governing body on environment.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
