GAZETTE NOTICE NO. 11114

THE ANTI-CORRUPTION AND ECONOMIC CRIMES ACT
(No. 3 of 2003)THE THIRD QUARTERLY REPORT FOR THE YEAR 2009 COVERING THE
PERIOD 1ST JULY, 2009 TO 30TH SEPTEMBER, 2009

Preamble:

The Kenya Anti-Corruption Commission is required under section 36 of the Anti-Corruption and Economic Crimes Act, 2003, to prepare quarterly reports made to the Attorney-General under section 35.

Section 35 provides that:

(1) Following an investigation, the Commission shall report to the Attorney General on the results of the investigation.

(2) The Commission's report shall include any recommendation the Commission may have that a person be prosecuted for corruption or economic crime.

Section 36 provides that:

(1) The Commission shall prepare quarterly reports setting out the number of reports made to the Attorney General under section 35 and such other statistical information relating to those reports, as the Commission considers appropriate.

(2) A quarterly report shall indicate if a recommendation of the Commission to prosecute a person for corruption or economic crime was not accepted.

(3) The Commission shall give a copy of each quarterly report to the Attorney General.

(4) The Attorney General shall lay a copy of each quarterly report before the National Assembly.

(5) The Commission shall cause each quarterly report to be published in the Gazette.

This report is therefore made pursuant to section 36 of the Anti-Corruption and Economic Crimes Act, 2003. The report covers the second quarter of the year 2009 and is for the period commencing 1st July, 2009 to 30th September, 2009.

INVESTIGATIONS COVERING THE PERIOD 1ST JULY TO 30TH SEPTEMBER, 2009

KACC/FI/INQ/59A/07

Inquiry into allegations of conflict of interest against the then District Works Officer, Narok District. Following allegations that some Government officers based in Narok District had formed some companies through which they were trading with their employer, the Commission carried out investigations and confirmed the allegations to be true in respect of some of the officers. One of the officers was the District Works Officer who was found to have personal interest in a construction company. It was further established that he had voted in favour of the company in his official capacity and had drawn the tender documents on the basis of which the company submitted its bid for the contract for the construction of Narok Law Court building.

The file was forwarded to the Attorney General on the 28th August, 2009 with a recommendation that the suspect be charged with failure to disclose a private interest to his principal and knowingly holding a private interest in a contract connected with a public body contrary to sections 42(1) and 42(3) of the Anti-Corruption and Economic Crimes Act, No. 3 of 2003. The recommendation for prosecution was accepted by the Attorney General on 8th September, 2009.

KACC/FI/INQ/24/2009

Inquiry into allegations that the trustees of the Strategic Grain Reserve Fund (SGR) had allocated 1.2 million bags of maize from the SGR, whereas the Cabinet approval was only for 700,000 bags. The investigation confirmed that the Cabinet met on 27th November, 2008 and approved the release of 700,000 bags of maize from the Strategic Grain Reserve to alleviate the maize shortage being experienced in the country at the time. It was further established that the Cabinet also set up an *ad hoc* Food Security Committee with the mandate to critically analyze the food situation in the country and to negotiate reasonable prices of maize flour with the millers. It was in furtherance of this mandate that the committee reached a decision for the release of 1.2 bags of maize from the SGR by the trustees. Thereafter, the National Cereals and Produce Board complied with the guidelines given by the trustees as regard the allocation of the maize to the millers and the allocations were well documented. Thus, no wrongdoing or irregularity was unearthed by the investigation.

The file was forwarded to the Attorney General on 14th August, 2009 with the recommendation that the inquiry file be closed. The recommendation for closure was accepted by the Attorney General on 5th October, 2009.

KACC.CR.255/80/2009 – COURT FILE NO. NYERI ACC. 4/2009

The proposed project entails construction of the following:

- (a) 19 primary trunk sewers of total length of 16.9 km. of diameters ranging from 150 mm to 600 mm and slope ranging from 1.5 to 11.24‰. The sewers will be of flexible joint precast concrete type. They will be laid at a minimum depth of 0 to a maximum depth of 6.86 m at pumping stations and varying depths above Wajir shallow aquifer of 1.2m to a maximum of 5m.
- (b) 2 No. sewage pumping stations consisting of a wet well, storage area and the pumping equipments.
- (c) 3 series of wastewater stabilization ponds with each consisting of 1No. anaerobic pond, 1 No. facultative pond and 3 No. maturation ponds.

The sewerage system is designed to cover 70% of Wajir town comprising the Central Business District and parts of the peri-urban area.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impact</i>	<i>Proposed mitigation Measures</i>
Pollution of wajir shallow aquifer	<ul style="list-style-type: none"> Line the Wastewater Stabilization ponds (WSPs) with Geotextile material as designed or use of grouting as directed during construction. Lay the Sewers above the aquifer level as designed or instructed during construction Gradual excavation and use of trial pits during construction of the sewer lines and pumping stations. Tap permanent wells for Brackish Water Source. Build manholes 0.5m above the ground level in known flood zones and 0.2m in other areas. Use Precast Concrete pipes bedded and covered by concrete.
Depleting of Wajir shallow aquifer in extreme droughts	<ul style="list-style-type: none"> Establish monitoring wells prior to the development of brackish Water Supply System. Tap wells known to be permanent in centre of town for brackish water system Implement the drilling of 14 boreholes in Merti aquifer and conveyance system for potable water to Wajir Town soonest. Return the treated effluent to percolate back to the aquifer
Noise pollution	<ul style="list-style-type: none"> Provision of appropriate protective equipment. During construction period carry out works at day time.

<i>Possible Impact</i>	<i>Proposed mitigation Measures</i>
Risk of drowning and exposure to waste stabilization ponds and pumping stations	<ul style="list-style-type: none"> • Fence off the Waste Stabilization Ponds and the two sewage pumping stations to prevent accessibility by un-authorized people, livestock and wildlife to the ponds • Provide adequate lighting system at the Waste Stabilization ponds.
Occupational hazards	<ul style="list-style-type: none"> • Provide operation and maintenance manuals for all system components • Provide protective gear to staff during the construction and operation phases. • Train Sewerage system staff on potential risks and enforce safety measures in their work environment.
Conflicts (human-human)	<ul style="list-style-type: none"> • Sensitize the community on the importance of the sewerage system and proper use of the facility.
Flooding of the waste stabilization ponds	<ul style="list-style-type: none"> • Build 1m high wall in the direction of runoff to prevent siltation and flooding of the ponds.
