THE ENERGY ACT

(No. 12 of 2006)

APPLICATION OF A POWER GENERATION LICENCE

NOTICE is given that the Kenya Petroleum Refineries Limited (KPRL) a limited liability company incorporated in Kenya and having its registered office at Refinery Road, Changamwe, Mombasa, Kenya (the "Applicant") will, within a period of not less than fifteen (15) days from the date of publication of this notice pursuant to the provisions of section 27 of the Energy Act, 2006, apply to the Energy Regulatory Commission for a licence to generate electrical energy primarily for own consumption at KPRL, and supply of surplus to the Kenya Power and Lighting Company Limited (KPLC).

The purpose for which the licence is required is to enable the applicant to generate electrical energy to meet KPRL's needs and to supply the surplus power to KPLC for general supply. The generating stations and associated works will be located on L.R. No. 12223, Changamwe, Mombasa. The land is owned and occupied by the

applicant. The generation system will comprise medium speed diesel engine running on heavy fuel oil, and electrical generator and associated auxiliaries, which will be capable, when completed, of generating a gross electrical output of up to 9.2 MW.

A copy of the application will (subject to confidentiality considerations) be available (once lodged) for inspection by the public during business hours at the registered office of the applicant at Refinery Road, Changamwe, P.O. Box 90401-80100, Mombasa, Kenya, and at the offices of the Energy Regulatory Commission at Eagle Africa Centre, Longonot Road, Upper Hill, P.O. Box 42681-00100, Nairobi.

Any person, body of persons, public or local authority desirous of making any representation on or objections to the application or to the grant of the licence should do so by letter addressed to the Energy Regulatory Commission, Eagle Africa Centre, Longonot Road, Upper Hill, P.O. Box 42681-00100, Nairobi and marked on the outside of the cover enclosing it "Electrical Power Licence Objection" on or before the expiration of thirty (30) days from 17th May, 2010. A copy of such representation or objection must be forwarded to the applicant at its registered office as aforesaid.

Dated the 21st April, 2010.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF A GATED
COMMUNITY COMPRISING OF 569 LUXURIOUS
APARTMENTS AND ASSOCIATED AMENITIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed construction of residential apartments and associated amenities.

The proposed project entails construction of 569 luxurious 3 bedroomed apartments with associated parking spaces, common Masjid with Madrasa, recreational area and drilling of a borehole.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil erosion and siltation	<ul style="list-style-type: none"> Site excavation works to be planned such that a section is completed and rehabilitated while another section begins Apply soil erosion control measures such as leveling of the project site to reduce run off velocity and increase infiltration of storm water in to the soil
Noise Pollution	<ul style="list-style-type: none"> Construction works will entirely be planned to be during day time. No construction shall be undertaken at night Ensure that all generators and heavy duty equipment are insulated Workers operating noisy machinery should be provided with ear muffs or plugs

Possible Impacts

Mitigation Measures

	<ul style="list-style-type: none"> Noise hazard signs should be put displayed where necessary Iron sheets or other suitable means should be used to reduce noise exposure to neighbours or passersby Noisy machinery should be modified or replaced with better machinery, well lubricated and serviced Construction should take shortest time possible
Solid and Liquid waste generation	<ul style="list-style-type: none"> Provide waste collection bins, segregate at source and ensure NEMA licensed transporter collects the waste for appropriate disposal Make provisions for sanitary facilities Construction debris and materials to be disposed off at sites approved by the City Engineer and in accordance with the Waste Management regulations of 2006 The building designs provide for sanitary facilities which will be connected to NCWSC sewage system Use tamper proof and good quality fittings Open drains adjacent to site will be used Construction of water storage tanks to collect storm water for construction purposes and gardening
Blockage of Access Road	<ul style="list-style-type: none"> Alternative access for vehicles and pedestrians passing by the site can be arranged with the City Council of Nairobi Transportation of construction materials to and from the site should be done during weekends and off peak hours
Air / Dust pollution	<ul style="list-style-type: none"> Set maximum on-site speed at 10Km per hour Ensure strict enforcement of On-site speed limit regulations Avoid excavation works in extremely dry weather Sprinkle water on graded access routes each day to reduce dust generation by construction vehicles Provide appropriate dust screens to reduce dust exposure Provide dust masks to workers in extreme dust producing operations Maximize the use of manual labour and hand tools Avoid spillage of loose soil to the road where it will be disturbed and blown away by traffic
Oil Spills	<ul style="list-style-type: none"> Ensure that all transport and construction equipment are in good serviceable condition and no service is carried out on site Ensure that no fuels or oils are stored on site but procure them when needed
Occupational health and safety	<ul style="list-style-type: none"> Provide suitable PPEs to all workers

Possible Impacts	Mitigation Measures
	<ul style="list-style-type: none"> • Reserve each PPE for one worker to avoid sharing • Provide adequate sanitary convenience and in a clean state • Provide wholesome drinking and bathing water and facilities for workers • Minimize soil disturbance and sprinkle water regularly to reduce dust generation • Provide an insurance cover for all workers • Provide first aid facilities
Traffic Management	<ul style="list-style-type: none"> • Adhere to the Traffic Management Plan – establishment of deceleration and acceleration lanes, provision of adequate driveways and parking spaces, erection of traffic signage, limiting traffic speed, prohibiting hooting within estate, provision of pedestrian and cyclist lane and clearly marked pedestrian crossing

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RENOVATIONS, EXTENSIONS AND INSTALLATION OF SALT REFINING PLANT FOR KRYSTALLINE SALT LTD

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed renovation, extension and installation of a salt refining plant.

The Proposed project entails renovation one of the Godowns in Gongoni, put up three additional godowns, also construct an office block. In one of the godowns they intend to install a salt refining plant.

The proposed project is to be carried out in an already established plot no. 10755 opposite Gongoni shopping center off Malindi- Lamu road about 22 kilometers from Malindi town. It has an area of 1026 hectares.

The project anticipates the following impacts and mitigation measures:

Possible Impact	Mitigation Measures
Occupational Health and Safety	<ul style="list-style-type: none"> • Staff to be trained and be conversant in fire fighting skills • Connection to emergency alarm systems of the local fire brigade, police and hospitals. • Provision of safe drinking water for all workers at the construction site. • Provision of separate clean toilets facilities for ladies and gentlemen • Security to be provided on 24 hours basis to guard both life and property for employers and employees alive. • Serviced fire extinguishers to be placed at strategic locations within the residential project. • The fire extinguisher should be of various types to fight the different kinds of fire which may arise. • Contracted security personnel to be trained in fire fighting skills and to do regular fire drills. • Entrance to be kept clear and without any obstacle at all times. • Provision of personal protective equipment. • Medical support for any worker who fall sick. • Provision of first aid kit. • Recruitment of some personnel trained in first aid management. • Group insurance cover/workmen compensation scheme for all workers. Hoarding the site during construction. • Employment of security guards to guard life and property. • Immediate access to hospital in case of emergency. • Joint security arrangement with neighbor.
Solid waste Management	<ul style="list-style-type: none"> • Segregate solid waste. • Arrange to recycle possible solid wastes • Store solid waste then transport in NEMA registered vehicles to official dumping site.
Liquid Waste	<ul style="list-style-type: none"> • Use NEMA registered exhauster • Monitoring quality of water at the wells and dunes in the plant area.
Noise Pollution	<ul style="list-style-type: none"> • Reduce noise generation activities • Provide PPEs to workers

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED 2 BEDROOM LOW COST HOUSING
SCHEME ON L.R. NO. 12715/290 WITHIN SYOKIMAU FARM
LIMITED, MAVOKO MUNICIPAL COUNCIL,
MACHAKOS DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed 2 bedroom low cost housing scheme.

The proposed development will comprise of 360 housing units which will be multi-storied with four floors each with 10 houses, per floor on a land parcel area of 2.024ha. Common facilities will also be constructed i.e. sewerage treatment plant, a parking area and a community hall.

The project site is located on L.R. No. 12715/290 within Syokimau Farm Limited, Mavoko Municipal Council.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Hydrology and Water supply quality Degradation	<ul style="list-style-type: none"> Hazardous substance control and emergency response plan that will include preparation for quick and safe clean up of accidental spill Hazardous materials handling procedures to reduce the potentials for spill during construction Identify areas where refueling and vehicle maintenance activities and storage of hazardous materials, if any, shall be permitted Make sure the project is at least fifteen metres away from the centre/ highest flood point of the river touching on one site of the project
Dust and exhaust emission	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles Personal protective equipment to be worn Alternatively fueled construction equipment shall be used where feasible; equipment shall be properly tuned and maintained.
Noise pollution and vibration:	<ul style="list-style-type: none"> Sensitive construction vehicle drivers machinery operators to switch off vehicle or machinery not being used Ensure that construction machinery are kept in good condition to reduce noise generation

Possible Impacts

Mitigation Measures

Incidents, accidents and dangerous occurrences

- Trees around the site shall provide some buffer against noise propagation
- The noisy construction works shall entirely be planned to be during day time when most of the neighbours shall be away at work
- Ensure that provisions for reporting incidents and dangerous occurrences during construction using prescribed forms obtainable from the local occupational health and safety office (OHSO) are in place.
- Enforcing adherences to safety procedures and preparing contingency plan for accidental response in addition to safety education and training shall be emphasized
- Ensure that the premises are insured as per statutory requirements (Third party and workman's compensation)
- Develop, efficient, clean well-lit and adequate sanitary conveniences have been provided for construction workers

Oil spills

- A designated garage section of the site fitted with trapping equipments to be planned for changes, such an area shall be well protected from contaminating the soil

Solid waste generation

- Use of an integrated solid waste management system i.e. recover, recycle and reuse
- Through accurate estimation of the sizes and qualities of materials required, order materials in the sizes and qualities they will be needed, rather than cutting them to size or having large quantity residual materials
- Ensure that damaged or wasted construction materials are recovered for refurbishing and use in other projects
- Donate recyclables /reusable or residual materials to local community groups, institutions, and individual local residents or home owners.
- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure.
- Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste
- Reuse packaging materials such as cartons, cement bags, empty metals and plastic containers to reduce waste at the site.
- Dispose waste more responsibly by dumping at designated dumping sites or landfills only
- Waste collection bins to be provided at designated points on site.
- Running educational campaigns amongst residents, e.g. through use of posters, to encourage reuse or recycling of the solid waste.

Increased Storm water runoff and soil erosion

- Roof water to be harvested and stored in underground reserves for use in cleaning and in the toilets. The tanks shall have a capacity of at 100,000 litres. To ensure the use of such water for the stated purposes, the building shall be fitted with a dual distribution system

Possible Impacts	Mitigation Measures
	<ul style="list-style-type: none"> A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and /or retention with graduated outlet control structure shall be designed Apply soil erosion control measures such as leveling of the project site reduce run-off velocity and increase infiltration of storm water into the soil. Ensure those construction vehicles are restricted to existing roads to avoid soil compaction within and around the project site. Ensure that any compaction areas are ripped to reduce runoff. A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and /or retention with graduated outlet control structure shall be designed
Generation of wastewater	<ul style="list-style-type: none"> Provision of means for handling sewerage generated by construction workers (there are toilets connected to septic tanks on the site) Conduct regular checks for sewage pipe blockages or damages since vices can lead to release of the effluent into the land water bodies Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.

(c) Provincial Director of Environment, Eastern Province.

(d) District Environment Office, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed housing development.

The proposed housing development will be comprised of 96 three bed roomed units with servant quarters. The site is 2.023 hectares on L.R. No. 7149/28 Mlolongo, 1km from Mlolongo Weigh Bridge along the Mombasa road.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil erosion	<ul style="list-style-type: none"> Control earthworks Install drainage structures properly Ensure management of excavation activities Landscaping
Air pollution	<ul style="list-style-type: none"> Stockpiles of earth should be sprayed with water or covered during dry seasons. Provide dust masks for personnel in dust generation areas Sensitize construction workers
Noise pollution	<ul style="list-style-type: none"> Sensitize workforce including drivers of construction vehicles Put up signs to indicate construction activities. Maintain equipment. Workers in the vicinity of high level noise to wear safety & protective gear.
Dust generation	<ul style="list-style-type: none"> Spray stock piles of earth with water. Avoid pouring dust materials from elevated areas to the ground. Provide dust screen where necessary
Water Sources	<ul style="list-style-type: none"> Management of water usage. Avoid unnecessary wastage of water. Avail storage tanks. Harvesting of rain water
Site cleanliness and sanitary facilities.	<ul style="list-style-type: none"> Special attention shall be paid to the sanitary facilities on site. Garbage shall be disposed off periodically Long drop toilets to be constructed
Water resources	<ul style="list-style-type: none"> Management of water usage. Avoid unnecessary wastage Recycling of water at the construction phase where possible Make use of roof catchments to provide water i.e. for general purpose
Road safety	<ul style="list-style-type: none"> Road signs on main road Enforce speed limits for construction vehicles
Public health and occupational safety	<ul style="list-style-type: none"> Ensure proper solid waste disposal and collection facilities. ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KAREN COUNTRY CLUB BULK WATER SUPPLY PROJECT, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed Karen country club bulk water supply project.

The Karen Country Club, (the Proponent), is proposing a Bulk Water Supply for the Karen Country Club facility in Karen, Nairobi. The proposed project scheme involves the abstraction and storage of flood water from the Mbagathi River,

The project anticipates the following impacts and mitigation measures.

Possible Impacts	Mitigation Measures
Noise generation and vibration	<ul style="list-style-type: none"> • Install portable barriers to shield compressors and other small stationary equipment where necessary; • Use of quiet equipment (i.e. equipment designed with noise control elements); • Limit pickup trucks and other small equipment to a minimum idling time and observe a common-sense approach to vehicle use, and encourage workers to shut off vehicle engines whenever possible; • Provision of appropriate personnel protective equipment; • Construct mainly during the day; and • Consider labour based construction methodologies

Possible Impacts Mitigation Measures

Dust emission	<ul style="list-style-type: none"> • Minimizing the number of motorized vehicles in use; • Rehabilitate disturbed areas; • Provide scour checks on over -15% slopes or when working in loose soils; • Manage erosion agents including water by channeling it into predetermined areas; • Use predetermined tracks; • Avoiding machinery working in seasonally marshy areas; pans and floodplains. • Wet all active construction areas as and when necessary to lay dust; • Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction sites; and • Undertake staff training and allocate roles to trained/responsible staff members.
Disposal or excavated soil	<ul style="list-style-type: none"> • The excavated soil will not be disposed off from the way leave. Instead the soil will be re-spread in areas to be landscaped to enhance aesthetics along the way leave area.
Increased water demand	<ul style="list-style-type: none"> • The Proponent through the Contractor shall ensure that water is used efficiently at the site by sensitizing construction staff to avoid irresponsible water use. • Any water handling equipment, facility and systems shall be appropriate for the intended use. • Any water handling equipment, facility and systems shall be appropriate for the intended usage.
Workers accidents and hazards during construction	<ul style="list-style-type: none"> • The Proponent will develop and commit the contractors to Site Occupational Health and Safety rules and regulations as stipulated in the Occupational Safety and Health Act, 2007 • Workers accidents especially in trenching operations shall be mitigated by enforcing adherence to safety procedures and preparing contingency plan for accident response. • Safety education and training shall be emphasized.
Solid water generation	<ul style="list-style-type: none"> • Sourcing of construction materials such as sand and hard core from registered and approved quarry and sand mining firms whose projects have undergone satisfactory environmental impact assessment/audit and received NEMA approval. • Construction waste to be recycled or reused as much as possible; • Ensure that materials that would otherwise be disposed of as waste are diverted for productive uses. • The Proponent shall put in place measures to ensure that construction materials requirements are carefully budgeted and to ensure that the amount of construction materials left on site after construction is kept minimal; • Use of durable, long-lasting materials that will not need to be replaced often, thereby reducing the amount of

- Interference with flora and fauna
- construction waste generated over time.
 - Clearance of part of the vegetation (mainly grass and trees) in the Project area will be inevitable. However, the Proponent will ensure proper demarcation of the Project area to be affected by the construction works;
 - In the same vein, there will be strict control of construction vehicles to ensure that they operate only within the area to be disturbed by access routes and other works;
 - Furthermore permission and easement shall be sort form the various owners and institutions concerned with each section of the route where vegetation has to be disturbed in order to allow for any development including the laying of pipes, construction of weirs and sump and other temporary work.

The full report of the proposed project is available for inspection during working hours at:

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed Malindi service station.

The proposed project entails the construction of a retail petrol station to satisfy the ever increasing demand for motor fuels in Kenya, especially in Malindi area. The proposed service station will be in Malindi town, along Cassuarina Rd. on four plots, numbers Malindi 2113, 2114, 2115 and 2116.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Security on Site	<ul style="list-style-type: none"> • Site hoarding (fencing) as start of construction to secure and isolate the site from public. • Put up sign board showing construction

	<ul style="list-style-type: none"> • of service station. • Control entry and exit to the site. • Safety training of all workers on site. • First Aid training for all workers. • First Aid Kit to be provided on site when construction starts. • Register kept of all workers, on site and all injuries recorded by contractor. • In case of flooding access to the site should be restricted by security guards and flood water pumped out.
Accident excavation	
Dust in atmosphere	<ul style="list-style-type: none"> • Fencing of the site shall reduce dust being blown by wind beyond the site. • Watering the excavated soil on the site and access roads would suppress the dust particles going into the atmosphere
Vibrations and noise	<ul style="list-style-type: none"> • Vibrations being transmitted by land on the ground being transferred to neighbours residential buildings. • If severe, consider trenching to isolate vibrations. • Vibration free rollers and compactor may be considered or non-motorized rollers. • Drilling of short periods and limited to day time only. • Ear plugs will be provided for workers on site.
Water Quality and Pollution	<ul style="list-style-type: none"> • Oil interceptor shall be constructed to provide oil/water separator. • Lubes bay effluent to pass through the interceptor.
Soil erosion siltation into the sea	<ul style="list-style-type: none"> • Developing the site will reduce soil erosion potential
Soil contamination with oil-hydrocarbons	<ul style="list-style-type: none"> • Oil interceptor will be built to separate oil form water before disposal
Air quality	<ul style="list-style-type: none"> • Fencing of the site to retain the dust within the site. • Spray water on site and site access/exits including roads to and from the site. • Water spraying to continue after excavation even during the building construction. • Petrol tanks and fuel dispensers are designed to have hydrocarbon emission cap fitted on vent pipes recovery from the vent pipes and these will be installed to mitigate any emission.
Fire hazard	<ul style="list-style-type: none"> • Provide portable fire extinguishers – CO₂, Foam, etc at suitable locations. • RHS practises. • Train all contract workers on site on the use of fire extinguishers. • Train all workers on fire prevention after construction.
Possible Impacts	Mitigation Measures
	<ul style="list-style-type: none"> • Install alarms for security and fire during operational phase. • Install notices and warning signs about fire i.e. "No Smoking", Switch Off

Engine", etc.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
