RULES 2010
(L.N. 52 of 2010)

IN THE INTERIM INDEPENDENT CONSTITUTIONAL
DISPUTE RESOLUTION COURT AT NAIROBI
CONSTITUTIONAL PETITION CASE NO. 3 OF 2010

ANDREW OMTATAH OKOITI & 5 OTHERS—(Petitioners)

VERSUS

THE ATTORNEY GENERAL—(First Respondent)

THE COMMITTEE OF EXPERTS—(Second Respondent)

THE INTERIM INDEPENDENT ELECTORAL COMMISSION—
(Third Respondent)

NOTIFICATION

Under Rule 22 (1) and (2) of The Interim Independent Constitutional Dispute Resolution Court (Practice and Procedure) Rules, 2010.

NOTIFICATION is given that a Petition has been presented to this Court by Andrew Omtatah Okoiti & 5 others of P.O. Box 60286–00200 Nairobi through Muma & Kanjama & Co. Advocates, P.O. Box 528–00100, Nairobi.

The Petitioners herein have filed the Petition under the following provisions of the law.

- (1) Section 1, 1A, 3, 41A, 47A, & 60A of the Constitution of Kenya.
- (2) Section 4, 6, 10, 23, 26, 27, 30, 32, 33, 34, 35 and 42 of the Constitution of Kenya Review Act (No. 9 of 2008).
- (1) The National Assembly and Presidential Act (Cap 7).
- (2) The Public Officer Ethics Act (No. 4 of 2003).
- (3) The Public Procurement and Disposal Act (No. 3 of 2005).

The particulars of relief sought are that:

- (a) A declaration be issued to declare that the Petitioners and all other adult Kenyans have a sovereign right to replace this Constitution with a new Constitution, and whether this right includes the component rights to be wholly involved in the constituent power of enacting a new Constitution through (i) popular consultation; (ii) fully consultative inclusive and democratic framing of proposals; and (iii) a free and fair national referendum.
- (b) A declaration be issued to declare that the Committee of Experts as constituted failed to adequately reflect the competencies required by the Review Act, to adequately engage the public and collect their views in identifying, articulating and resolving the contentious issues, and to impartially and fully comply with the requirements of the Review Act.
- (c) A declaration be issued to declare that section 34 of the Review Act is inconsistent with section 47A of the Constitution, and is therefore null and void to the extent that it permits the Attorney General to effect any alterations on the constitutional bill approved by the National Assembly.
- (d) A declaration be issued to declare that the Proposed Constitution of Kenya, as published by the 1st Respondent on 6th May, 2010 with purportedly editorial alterations, is unconstitutional, null and void, and no further constitutional acts can be founded upon it.
- (e) A declaration be issued to declare that section 37 of the Review Act is inconsistent with section 47A of the Constitution, and is therefore null and void to the extent that it restricts the framing of the referendum question to a binary ratification-rejection question without the possibility of a multiple-style referendum to deal with contentious issues in the proposed constitution.
- (f) A declaration be issued to declare that section 44 of the Review Act is inconsistent with section 47A and 60A of the Constitution, and is therefore null and void, to the extent that it may be interpreted to limit the unfettered right of access of the Petitioners to this Honourable Court to challenge the conduct of the referendum at any time whatsoever prior to or after the referendum but before the effective date of the proposed constitution.
- (g) A declaration be issued to declare that the Committee of Experts and/or the Interim Independent Electoral Commission violated the unfettered rights of the Petitioners and other Kenyans to participate collectively in the review of the Constitution by failing to design a referendum in a manner that would help to resolve the contentious issues either via a multiple-choice referendum on contentious issues or a vote on an addendum of contentious issues that can automatically amend the Proposed Constitution at the referendum.
- (h) A declaration be issued to declare that the Committee of Experts violated the rights of the Petitioners and other

Kenyans by failing to facilitate impartial and lawful civic education without showing preference for either the Yes or the No side.

- (i) A declaration be issued to declare that the Interim Independent Electoral Commission violated the rights of the 6th Petitioner and of the other adult Kenyans in the diaspora by failing to allow adult Kenyan citizens in the diaspora the facilities and right to register for voting in the referendum, and to cast their voters in the referendum scheduled to replace the Constitution.
- (j) A declaration be issued to declare that the failure of the Attorney General, the Committee of Experts and the Interim Independent Electoral Commission to ensure a fair, balanced and level electoral playing field during the referendum period, including by allowing the use of state resources, functions and/or officers in partisan political campaign for the proposed Constitution, has violated the constitutional rights of the Petitioners as well as other adult Kenyans.
- (k) A declaration be issued to declare that this Honourable Court has supervisory jurisdiction over each and every organ of the review process, including also the Respondents herein, and has the concomitant power to issue various final reliefs as well as conservatory and/or interim, intermediate or interlocutory orders stopping, postponing and/or varying the manner of performance of the review and referendum process prior to the referendum currently scheduled for August 4th, 2010.
- (l) This Honourable Court do order that the 1st, 2nd and 3rd Respondents do provide a full account of all public funds and resources utilized in the constitution review and referendum process and a justification for the same.
- (m) This Honourable Court do order that the 1st Respondent (and all state officers he is answerable for) and the 2nd Respondent cease to engage in any or any partisan civic education and/or political campaign, and give an accounting and/or refund of any funds improperly utilized in contradiction of the law.
- (n) This Honourable Court do order that the 3rd Respondent reopen the electoral register and provide a reasonable opportunity for Kenyans in the diaspora to register and to facilitate their voting in the referendum to replace this Constitution.
- (o) This Honourable Court do order that the 2nd Respondent make accessible to the Petitioners all verbatim recordings of its meetings, including particularly the meetings conducted after receipt of the Parliamentary Select Committee draft to date.
- (p) This Honourable Court do issue an order directing the cancellation and/or postponement of the August 4th 2010 referendum until the Respondents have complied with the orders of this Honourable Court until a level electoral playing field is re-established.
- (q) This Honourable Court do issue an order directing that the review and/or referendum process be indefinitely postponed and/or cancelled until all the contentious issues in the draft constitution as identified in this Petition have been specifically revisited and addressed taking into account the concerns of the Petitioners.
- (r) This Honourable Court do issue an order directing that the review and/or referendum process be indefinitely postponed and/or cancelled until the illegal and unconstitutional amendments of the 2nd Respondent to the Parliamentary Select Committee draft are reversed. Including in particular the right to have no international legislation without representation.
- (s) IN THE ALTERNATIVE this Honourable Court do issue an order directing that the Respondents and all state officers they are answerable for cease to utilize public funds, or resources or functions for any further civic education, or any further partisan civic education, until the national referendum scheduled for 4th August, 2010.

- (t) IN THE ALTERNATIVE this Honourable Court do issue an order directing the Respondents to permit the Applicants to frame the remaining Contentious Issues in an Addendum on Proposed Resolution of Contentious Issues to the proposed constitution to be voted for along with the vote on the proposed constitution, and to be immediately thereafter incorporated into the proposed constitution if approved.
- (u) The costs of the Petition be borne jointly and severally by the 1st, 2nd and 3rd Respondent in any event.

The summary of matters in issue are:

- (a) The Petitioners state that under section 47A of the Constitution of Kenya, the sovereign right to replace the Constitution with a new Constitution vests collectively in the people of Kenya and shall be exercisable by the people of Kenya *inter alia* through a referendum in accordance with this section.
- (b) The Petitioners further state that under sections 47A and 60A of the Constitution of Kenya, the sovereign right to replace the Constitution *inter alia* through a referendum shall be exercisable under the direction of the Interim Independent electoral Commission and shall be subject to the supervision and exclusive original jurisdiction of the Interim Independent Constitutional Dispute Resolution Court.
- (c) The Petitioners state that their rights to participate in replacing the Constitution have been violated by the actions of various state officers and public bodies, including the 1st, 2nd and 3rd Respondents, and other officers of Government for whom the 1st Respondent is legally answerable for.
- (d) The Petitioners also state that their rights to effectively participate in replacing the Constitution have been violated by the Constitution of Kenya Review Act, No. 9 of 2008 (hereafter "the Review Act") to the extent that it is inconsistent with section 47A of the Constitution of Kenya, and will request for declarations upholding the Constitution against the inconsistent provisions in the said Act.
- (e) The Petitioners state that their aforesaid rights have been violated.

Any person who considers that they have sufficient interest may apply to intervene in the proceedings, in accordance with the Rules, within seven days.

Dated the 29th June, 2010.

EDWARD MURIITHI,
Registrar.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED CONSTRUCTION OF A TEA
FACTORY ON L.R. NO. 18539 IN NANDI HILLS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed construction of a tea factory.

The proposed project will include:

A factory building; Stores; Boiler room; Wood shed; Parking; and waste water treatment dam.

The project is located on L.R. No. 18539 in Nandi Hills, Rift Valley Province.

The Project anticipates the following impacts and mitigation measures:

Impact	Mitigation Measures
Soil erosion	<ul style="list-style-type: none"> Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. Construction of soil- galleys on sloppy sections. Sprinkle site to control erosion via dust
Noise pollution	<ul style="list-style-type: none"> The noisy construction works will occur during daytime. Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. Avoid unnecessary gunning of engines. Switch off engines not in use. Ensure personal protective gear are used.
Storm water management	<ul style="list-style-type: none"> Open drains connected to storm water drains will be provided on site. Construction of water storage tanks to collect storm water for landscaping and cleaning purposes.
Excavation of soil	<ul style="list-style-type: none"> Ensure excavated materials are loaded into trucks and be transported to designated disposal sites.

Impact Mitigation Measures

Solid waste management	<ul style="list-style-type: none"> Design and implement an appropriate landscaping program to help in re-vegetation of part of the project area after construction using the excavated soil. Reuse of the top soil in landscaping.
	<ul style="list-style-type: none"> Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed off Provide facilities for proper handling and storage of construction materials. Minimize waste through accurate estimation of the sizes and quantities of materials required.
	<ul style="list-style-type: none"> Ensure strict enforcement of on-site speed limit regulations. Avoid excavation works in extremely dry weathers. Sprinkle water on graded access routes whenever necessary to reduce dust generation by vehicles. Use of scrubbers, catalytic reactors to mitigate air pollution from the factory.
Air pollution	<ul style="list-style-type: none"> Due to loss of some fauna and flora species, landscaping and revegetation with indigenous species will be encouraged. Use of solar energy and generation of biogas should be encouraged to minimize use of wood fuel in boiling chambers. Planting of trees will also be encouraged to act as carbon sink for emissions from the factory. Efficient and sustainable energy use.
	<ul style="list-style-type: none"> Removal of tannin and other chemicals from waste water by use of Reverse Osmosis (RO) system by anaerobic method at the ponds. Construct a waste treatment dam to treat all liquid wastes from the factory. Encourage efficient use of water, re-use and recycling of domestic waste water and factory treated waste water. Hot water from the boilers should not be let into the environment.
	<ul style="list-style-type: none"> Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises.
Loss of biodiversity	<ul style="list-style-type: none"> Adapting Occupational Health and safety measures to mitigate accidents by provision of first aid kits and training on emergency Conducting risk assessment regularly Enforcing use of personal protective gear Provision of ambulances to be on stand-by for emergency Sensitization of people on HIV/AIDS and STDs and other societal moral values.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED RESIDENTIAL ESTATE
DEVELOPMENT ON PLOT L.R. NO. 12422/21 LOCATED IN
MUTHAIGA NORTH, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed residential estate development.

The proposed development will comprise construction of 183 residential units each with a ground floor containing Guest bedrooms, Lounge, Kitchen, Dining, Servants Quarter, vehicle parking, Bathrooms, cloaks and cooking space and the first floor containing 1 Master bedroom, 2 other bedrooms, lobby, balcony, bathrooms and other partitions.

The plot to be developed which is approximately 7.953 hectares is located in Muthaiga North, Nairobi Province.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Noise Pollution	<ul style="list-style-type: none"> • Use of ear protectors by workers • Ensure engine exhaust systems are reconditioned • Ensure the engines are tuned-up • Establish inspection program for equipment. • Have construction activities carried out between 8.00am to 5.00 pm
Air Pollution	<ul style="list-style-type: none"> • Ensure the ground is watered before excavation; • Provide dust nets at high levels; • Avoid exaction during windy times; • Ensure workers use respirators; • Recondition engine exhaust systems and have engines tuned-up • Establish inspection program for equipment

Impact

Mitigation Measures

Spills of oil and other hazardous chemicals from construction equipment	<ul style="list-style-type: none"> • Ensure spill prevention procedures & response plan are adhered to; • Off-site maintenance of fuel powered equipment and vehicles; • Ensure spill control kit is available on site; • Ensure all the staff are trained on spill response plan and procedure.
Sewage and Waste water disposal	<ul style="list-style-type: none"> • Ensure sewage & waste water is discharged into the sewer line; • Ensure all blockage incidences are reported to by Nairobi Water and Sewerage Company (NWSC).
Solid Waste disposal	<ul style="list-style-type: none"> • Provide suitable solid waste containers; • Temporary storage at the solid waste cubicles; • Contract a licensed solid waste transporter.
Piped Water wastage	<ul style="list-style-type: none"> • Implement appropriate water conservation measures • Ensure water conservation measures are implemented
Fire Outbreaks	<ul style="list-style-type: none"> • Establishment of site fire prevention plan; • Have an emergency response plan; • Provide for fire equipments on site; • Ensure workers/staff are training on firefighting techniques; • Have an equipment inspection & service programme; • Have posters on fire emergency evacuation procedures placed strategically; • Have a designated emergency assembling point.
Occupational Health and Safety	<ul style="list-style-type: none"> • Have an establishment of site safety procedures; • Train staff/workers on site safety procedures; • Provide personal protective equipment(PPE) • Ensure frequent servicing of equipments and machinery; • Ensure hazardous materials are contained; • Minimize use of earth moving equipment.

209/5533/1, AT THE JUNCTION OF BONDO STREET AND
NGIYA ROAD, OFF JOGOO ROAD, SHAURIMOYO
ESTATE, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed construction of low cost housing project.

The proposed project activities will include construction of a gated community of low cost housing project comprising 20 blocks of 10 floors each, containing a total 800, two-bedroomed Low cost apartments with associated parking spaces, recreation area and borehole. The plot size is 7.56 acres.

The proposed project will be located on plot L.R. NO. 209/5533/1 (currently bat village) at the junction of Bondo Street and Ngiya road, off Jogoo road, Shaurimoyo Estate, Nairobi

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil erosion and siltation	<ul style="list-style-type: none"> Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
Noise Pollution	<ul style="list-style-type: none"> The construction works will entirely be planned to be during day time. No construction shall be undertaken at night. Ensure that all generators and heavy-duty equipment are insulated or placed in enclosures to minimize ambient noise levels. Workers operating noisy machinery should be provided with ear muffs or plugs. Noise hazard signs should be put displayed where necessary. Iron sheets or other suitable means should be used to reduce noise exposure to neighbours or passersby. Noisy machinery should be modified or replaced with better machinery, well lubricated and serviced. Construction should take shortest time possible
Collapse of loose soil and other materials on workers; fall of persons	<ul style="list-style-type: none"> All excavations, shafts, pits or openings more than two metres deep should be covered or barred by suitable means when access is not needed. No materials should be stored near such excavations.

Possible Impacts Mitigation Measures

Building materials waste scattering and associated pollution and blockage of drainage channels leading to flooding.	<ul style="list-style-type: none"> All excavation wall over 1.2 metres deep should be reinforced with timber to prevent collapse to persons working inside. Supervision of such works should include collaboration with safety supervisors. Ensure that construction materials left over at the end of construction are used in other projects rather than being disposed off. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements Minimize waste through accurate estimation of the sizes and quantities of materials required, Order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials. Ensure that drainage channels are reinforced to prevent damage by construction equipment.
Waste generation and scattering by workers	<ul style="list-style-type: none"> Provide waste collection bins, segregate at source and ensure NEMA licenced transporters collect the wastes for appropriate disposal. Make provisions for sanitary facilities/accommodation for workers during construction. Construction debris to be disposed off at sites approved by the city engineer and in accordance with the waste Management Regulations 2006.
Traffic Management	<ul style="list-style-type: none"> Alternative access for vehicles and pedestrians passing by the site can be arranged with the City Council so that vehicles may be diverted to other roads when major works are ongoing. Transportation of construction materials and construction debris to and from site should be done during weekdays, off peak hours. Develop and Adhere to the Traffic management plan
Air /Dust pollution	<ul style="list-style-type: none"> Set maximum on-site speeds at 10 kilometres per hour or less. Ensure strict enforcement of on-site speed limit regulations Avoid excavation works in extremely dry weather. Sprinkle water on graded access routes each day to reduce dust generation by construction vehicles. Provide appropriate dust screens to reduce dust exposure. Provide dust masks to workers in extreme dust producing operations. Use only critical number of workers to reduce exposure. Maximize the use of manual labour and hand tools. Avoid spillage of loose soil to the road where it will be disturbed and blown by traffic.

Possible Impacts Mitigation Measures

- | | |
|---|---|
| Oil spills | <ul style="list-style-type: none"> • Ensure that all transport and construction equipment are in good serviceable condition and no service is carried out on site. • Ensure that no fuels or oils are stored on site but procure them when needed. |
| Storm-water drainage | <ul style="list-style-type: none"> • Open drains adjacent to site will be used • Construction of water storage tanks to collect storm water for construction purposes and gardening. |
| Occupational diseases due to excessive dust, noise, contact and poor sanitation | <ul style="list-style-type: none"> • Provide suitable PPE to all exposed workers. • Reserve each PPE for one worker to avoid sharing. • Provide adequate sanitary conveniences and in a clean state. • Provide wholesome drinking and bathing water and facilities for workers. • Minimize soil disturbance and sprinkle water regularly to reduce dust generation. • Ensure that all workers obtain an insurance cover. • Appoint qualified safety supervisors. • Involve the Directorate of Occupational Health and Safety Services in inspections/audits. • Ensure that all lifting equipment have undergone statutory inspections and are well maintained. • Provide side netting and sheets to protect workers, pedestrians and motorists from falling objects. • Provide and enforce the wearing of personal protective equipment such as helmets, hand gloves and overalls where needed. • Provide first aid facilities under trained first aid attendants and contract ambulance and hospital services. • Employ only experienced workers and only in critical numbers to avoid unnecessary overcrowding. • Road signs should be displayed to warn motorists of heavy vehicles and equipment turning. • All electrical equipment should be handled and fitted by qualified persons and serviced regularly. • Use of live electrical equipment should be closely supervised. |

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED NANYUKI-MERU, ISHIARA-KIENI, MWINGI-KITUI-WOTE-SULTAN HAMUD 132 KV TRANSMISSION LINE

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed Nanyuki-Meru, Ishiara-Kieni, Mwingi-Kitui-Wote-Sultan Hamud 132 KV Transmission Line.

The project will entail construction of power lines comprised of electrical conductors supported on 27metre high pylons constructed of stainless steel metal. Close to 1000 steel towers (pylons) comprising both angle towers and line towers will be constructed for purposes of mounting the conductors on which the 132kV power supply will be transmitted. The project will require a 30-metre wide Right of Way (ROW) corridor along the entire routes of traverse implying that about 792 ha of land will be acquired for the project. Further, all physical structures and trees growing above 7m height will be cleared in line with requirements of the KPLC.

The Proposed site starts at the boundary of the Rift Valley Province at Nanyuki in Laikipia East District and traverses a total of 14 Eastern Province Districts to end at Sultan Hamud Town on the boundary of Rift Valley Province.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Occupational Health & Safety	<ul style="list-style-type: none"> • Adhere to requirements of the Occupational Health and Safety Act, EMCA 1999, Cap 376, Forest Act etc. • Use sober & competent staff, with proper tools and under competent supervision • Apply workmen compensation
Solid & Liquid Waste Management	<ul style="list-style-type: none"> • Minimize and recover all waste • Arrange for sanitation facilities plus proper sensitization • Recycling and safe disposal
Noise & Air Pollution	<ul style="list-style-type: none"> • Restrict construction to school holidays but shorten activity to reduce nuisance
Site Disturbance	<ul style="list-style-type: none"> • Restrict clearing of ROW • Enhance conservation outside the ROW • Create new habitat by pylons • Arrange with relevant sectors to mount an outreach programmed targeting reforestation to conserve & restock lost biodiversity • Use existing tracks to access sites of interest to avoid crop damage
Human disturbance	<ul style="list-style-type: none"> • Compensation packages to facilitate smooth relocation without occasioning burdens and suffering to the owners
Infrastructure disturbance	<ul style="list-style-type: none"> • Align new Transmission Lines to the local physical development plans
Exposure to Electro-Magnetic Fields (EMF)	<ul style="list-style-type: none"> • Have the horizontal distance to the nearest part of a building be 30m from 132 voltage lines • Consider underground cabling • Realignment in places favorable

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FUEL SERVICE STATION IN GARISSA TOWN ON LR/NO: GARISSA TOWN/BLOCK 111/430

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed service station.

The proposed Project will comprise of service station, restaurant, mini-mart, station office, lubricants/spare parts shop, store and a service pit. In addition, such facilities will go along with waste water system- septic, soak pit, and storm water drain. Toilets for both genders will be availed and shower room as well. There will be three pumps, two for diesel and one for petrol.

The proposed service (fuelling) station will be located in Garissa Town on plot LR/No; Garissa Town/Block III/430.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Spillage and Leakage from tanks	<ul style="list-style-type: none"> Use properly maintained hoses and fittings. Make the cement screeds in all the chambers using water proof material Construct a monitoring well next to the tanks to monitor leaks Inspect products before off-loading Use water finding paste on dipstick and or a hydrometer to confirm density/specific gravity
Risks of fire	<ul style="list-style-type: none"> Powder fire extinguisher to be provided. Frequent inspections of safety valves by suppliers/ qualified personnel

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION ON L.R. NO. BLOCK
3/14/15/16 NYAMBERA, KISII TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed petrol station.

The proposed development will comprise of a petrol station with the following facilities:

Four underground fuel tanks; a pumping bay of four pumps and three pump islands; a main office which has a shop, sales area, store, drop area, gas cage and compressor room; toilet facilities with a changing room; a car wash; an oil interceptor; tyre centre; service bay; a mini- supermarket; a cafeteria and a parking area.

The proposed 1.06 acres development site is located on the industrial area of Kisii Town along Daraja Moja –Nyambara–Daraja Mbili road.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil and Geology Disturbance	<ul style="list-style-type: none"> • Ensure minimum area required for construction shall be cleared of vegetation. • Top soil shall not be disturbed more than it is absolutely necessary but not below the first impermeable layer. • Stockpiled soil will be re-used for rehabilitation purposes during decommissioning. • A minimum amount of storm water will be allowed to flow on the site and control measures like paving and bunding to avoid storm water damage. • Denuded areas shall be surfaced as soon as feasible after construction and during decommissioning stage. • At closure, the site will be restored to a suitable land use capacity, • Re-vegetation to control potential soil erosion. • Prevent soil contamination through oil spills/leaks from construction machinery and vehicles from the proposed project do not reach the water course through bunding with a wall.
Air Pollution	<ul style="list-style-type: none"> • Ensure the design, monitoring and safety system installed for the facility must comply with established industry standards and national and international best practice. • Use machinery and equipment that are appropriate and fit to prevent fugitive emissions as per national standards and international practices. • Ensure regular maintenance of the equipment. • Implement effective measures for minimize of dust during construction.
Occupational Health and Safety	<ul style="list-style-type: none"> • Regular repair and maintenance program for all equipment. • Electrical installation should be carried

out by a competent and licensed electrician.

- Compound should be kept clean and free from fire hazards and litter.
- Implement leakage detection mechanism.
- Plan and prepare for all conceivable emergencies and disasters related to their business and work environment.
- Strive to continually improve in their EHS management through well defined training and audit procedures.
- Fence off construction site from members of the public.
- Provide adequate PPEs to construction workers.
- Provide first aid facilities to construction workers.
- Employees should undergo regular medical check-ups.
- Vehicles should be switched off to minimize emissions.
- Proper aeration within the premises.
- Ensure adherence to standards as per water quality regulations of 2006.
- Construct proper drainage system.
- Treatment of water through oil interceptors prior to discharge into the environment.
- Ensure proper waste collection, handling and disposal of waste for all the project phases.
- Ensure gas cylinders are kept in an open area (not inside a building) and conduct daily leakage check.
- Ensure safety measures are observed e.g. Use of mobiles, lighting, notices etc.
- Avoid naked fires (Post notices to prohibit smoking within the station).
- Install fire control appliances (portable for extinguisher; Both CO2 and water type, and sand buckets) and employees be adequately instructed periodically in the use of the vicarious fire appliance and conduct regular drills.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the proposed construction of petroleum depot.

The Proposed project will entail development of a Petroleum depot which will include installation of five above ground tanks with a capacity of 90M3 each for Automotive Diesel and Illuminating Kerosene only, a loading gantry, offloading area, fire fighting system and related offices. The project is located on L.R. Nos. Nairobi/Block 97/49, 50, 51, & 105, along Outer Ring Road Nairobi.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities • Ensure effective wastewater management • Design of sewerage system should be as provided in the plans and as per MOH guidelines • Provide First Aid Kits on the site • Sensitize residents/workers on environmental management • Ensure there is no ponding to eliminate breeding of mosquitoes during construction • Workers should be trained on occupational health & safety and first aid administration • Train staff on petroleum product handling • Sensitize workers on HIV and AIDS.
Fire safety training / Emergency response procedures (ERPs)	<ul style="list-style-type: none"> • Install an automated fire fighting system • Train workers on fire fighting especially during operational phase • To enhance health and safety preparedness among stakeholders • Ensure fire equipment is in good working condition. • Put up emergency response contacts • Put up ERP notification instructions • Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links leading to the site
Possible Impacts	Mitigation Measures
	<ul style="list-style-type: none"> • Provide bill boards at the site/entrance to Notify motorists about the development. • Ensure entry and exits are done as per Roads Engineer approval

Water resource/water quality/waste Management	<ul style="list-style-type: none"> • Management of water usage. Avoid unnecessary wastage especially at the car washing bay • Recycling of water at the construction phase where possible • Use of water conservation signs at the wash rooms and install water conserving taps • Follow the NEMA regulations on water quality and waste management.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles • Prohibit idling of vehicles • Water should be sprayed during the construction phase of excavated areas • Regular maintenance of construction plant and equipment • Engage sensitive construction workers. • Proper use of PPEs
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes • Maintain plant and equipment to avoid leaks • Maintenance of construction vehicles should be carried out in the contractors yard (off the site) • Provide oil interceptors along the drains leading from loading, offloading areas and parking areas
Changes in hydrology / impended drainage	<ul style="list-style-type: none"> • Proper installation of drainage structures • Install cascades to break the impact of water flowing in the drains • Ensure efficiency of drainage structures through proper design and maintenance • Provide gratings to the drainage channels • Regular checks o any sludge along drainage channels • Visual checks of oil interceptors and drainage channels for any leaks.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
