THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT

FOR THE PROPOSED DESNOL SERVICE STATION
PROJECT AT KISIAN JUNCTION ON KISUMU-BUSIA ROAD,
KISUMU

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Desnol Service Station.

The proposed development entails construction and operation of a Service Station at Kisian Junction along Kisumu-Busia road in Kisumu North District. The project will deal with sale of petroleum fuel products, liquefied petroleum gas (LPG) sales, tyre sales and repair, vehicle servicing and car washing.

The proposed Desnol Service Station project will be located on land parcels L.R. NO KISUMU/OJOLA/ 3927, 4116 & 4393 at Kisian Junction on the Kisumu-Busia Road.

The following are the anticipated impacts and mitigation measures;

Possible impacts	Mitigation measures
Contamination of surface water resources by fugitive or large scale fuel spills and improper disposal of used oil	<ul style="list-style-type: none"> Monitor the quality of waste water annually. Comply with water quality regulations of 2006 Pre-treatment of waste water through an oil/water separator (OWS) Provision of spill response kits for timely and effective management of large scale fuel spills

Possible impacts Mitigation measures

Solid wastes

- Contracting a NEMA licensed company for waste collection and onward disposal at relevant landfills. Segregate waste at source.

Accidents related to fire

- Purchase of fire fighting equipment and contracting a Fire Services Company for regular maintenance of equipment. Display safety warning "no smoking, no naked flame"
- Purchase of PPE e.g. goggles, helmets, masks, hand gloves, ear muffs, safety boots, overalls for protection against body contact with petroleum products.
- Construction crew at the site shall be sensitized on social issues such as alcohol and diseases. Construction crew at the site shall be sensitized on social issues such as alcohol and diseases.

Public health and sanitation

- Drainage of all stagnant water.
- Provide sanitary facilities for construction workers.
- No burning of any chemical and plastic containers.

Traffic hazards

- An emergency contacts poster or laminated card be developed and rolled out to the service station employees in order to receive appropriate emergency response.
- It is further recommended that an emergency response procedures book be developed, rolled out and implemented at the service station to mitigate against potential emergencies such as fires, spills, product contamination, armed robberies etc during construction and operation phase of the project.
- Signpost all emergency exits.
- Provide ample entry and exit points.
- Contractor to plan traffic to avoid movement during human movement peak hours.

Increased water demand

- Encourage water re use, recycling during construction and operation phases.
- Roof catchments shall provide rainwater harvesting system to enhance collection and storage of water.

Occupational health and safety

- Carrying out annual EHS audits in order to maintain environmental and staff safety standards.
- Adequate sanitary facilities shall be provided and standard cleanliness provided.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Nyanza Province.
- District Environment Officer, Kisumu North District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ONSHORE OIL AND GAS EXPLORATION
IN BLOCK 1-WAJIR AND MANDERA REGION

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed onshore oil and gas exploration.

The seismic survey technique that will be used for the proposed project is a two dimensional seismic survey (2D). The seismic program is expected to take 3 months each to complete depending on the preparation programme.

During onshore seismic surveys, an energy source will cause vibrations producing echoes from each of several geologic boundary layers below surface. The results will show geologically significant information as deep as 4km below the surface. The images recorded are built (processed) into a depth profile showing potential hydrocarbon containing structures. The proposed oil and gas exploration will be in Block 1-Wajir and Mandera Region.

The following are the anticipated impacts and mitigation measures:

Possible Impact	Mitigation
Disruption of pastoralist activities by noise from explosives	• Alert local administration to notify pastoralists of area of operation.
Dust from vibroecis	• Ensure and enforce use of protective gear.
Soil erosion from bush clearing	• Minimize camp size to absolute requirement. • Avoid making equipment tracks downhill.
Change of scenic aesthetics	• Rehabilitate the camp compound on decommissioning.
Waste accumulation from base camp	• Ensure all waste is segregated, organics are put in decomposition pit, non-organics are burnt. • Solid waste: Segregate waste, compost organic waste, deliver recyclable waste to recyclers, reduce and repair equipment. • Liquid effluent: Ensure septic tank is constructed for wastewater and a soak pit for grey water. • Biomedical waste incinerate biomedical waste.
Borehole operations conflicts	• Ensure water for the base camp is also available for local community.
Security	• Ensure adequate security preparation by a security firm and local Govt. Admin.
Conflicts with locals	• Employ local labour where possible, have conflict social officer on standby
Cultural/religious conflicts	• Ensure minimum interaction with local communities.
Machinery operations	• Ensure machines are well maintained to reduce noise and emissions.
Auditing, Monitoring and Reporting	• Ensure regular monitoring and evaluation of activities to avoid conflicts and ensure not environmental degradation takes place due to operations.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DESIGN AND CONSTRUCTION OF
LANET-NAIVASHA 2ND 33KV BAYS AND LINE

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Lanet – Naivasha 2nd 33kV Bays and Lines.

The project entails development of 81 kilometers of 33 kV distribution line connecting Lanet Substation to Suswa Substation. The project starts at Lanet in the County Council of Nakuru within the outskirts of Municipal Council of Nakuru in Nakuru District and ends up in Suswa substation located in Municipal Council of Naivasha in Naivasha District.

The project will entail construction of power lines comprised of electrical conductors supported on 14 to 15 metre high concrete poles. Close to 360 concrete poles will be erected for purposes of mounting the conductors on which the 33 kV power supply will be distributed. The project will require a 5-metre wide Right of Way corridor along the entire routes of traverse implying that about 40 ha of land will be acquired for the project. The design of the project has however been done to use the existing road reserve along the main Nairobi-Nakuru Highway. Further, all trees growing above 7m height will be cleared in line with requirements of the KPLC.

The following are the anticipated impacts and mitigation measures;

Possible Impact	Mitigation Measures
Community engagement	Develop a grievance handling mechanism
Occupational health and safety	Proper sensitization and supervision Ensure compliance to OSHA, 2007 Provide relevant PPEs
Loss of Biodiversity	Avoid felling of trees if not necessary to do so Compensate through CSR by planting trees outside RoW
Loss of Carbon	Work jointly with KWS when undertaking construction works within the KWSTI boundary Recreate sink through reforestation. Minimise the numbers of trees to be felled

Possible Impact	Mitigation Measures
Obstruction of traffic	• Schedule pruning / tree felling and tasks

flow	involving crossing of cable across the road to off-peak hours.
Solid waste	<ul style="list-style-type: none"> Minimise waste generation and avoid accumulation as advised by KPLC Dispose waste as per NEMA requirements.
Socio-economic / cultural impacts	<ul style="list-style-type: none"> Sensitise workers on dangers and prevention of HIV/AIDS. Minimise the size of the crew camp by employing, where available, local crew.
Existing and planned infrastructure	<ul style="list-style-type: none"> Avoid damage to existing infrastructure by consulting with relevant agencies, Kenya Railways, KeNHA, Ministry of Roads, water organisations, communications and apply the relevant protection measures.
Water Pollution	<ul style="list-style-type: none"> Provide sanitation facilities for the construction crew Avoid contamination of surface and ground water by storing liquids in bunded areas.
Health Risks	<ul style="list-style-type: none"> Need to apply pre-cautionary measures and advise residents along the traverse route on the minimum distance to the distribution line.
Emergency preparedness and response	<ul style="list-style-type: none"> Prepare a campaign and publicise for safety of drivers and vehicles occupants in event of accidents involving electric poles.
Disincentive on use of other energy sources e.g. RETs	<ul style="list-style-type: none"> Policy measures to develop and promote RETs.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PLACE POA TOURIST CAMPING SITE
PROJECT IN KONGONI AREA WITHIN NAIVASHA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed place poa tourist camping site.

The proposed Place Poa Campsite will involve several facilities such as two washrooms with a septic tank for handling waste water, a store, car park, an office block with a kitchen, dining area and a

service store, three timber houses to serve as alternative accommodation for those who would not want to use tents and a fence around the project area.

The project is located on one decimal six sixty-two (1.662) hectares on Plot L.R No. 20951/43 in Moiben Location, Kongoni Division of Naivasha District.

The following are the anticipated impacts and proposed mitigation measures.

Possible impacts	Mitigation measures
Vegetation disturbance	<ul style="list-style-type: none"> Ensure proper demarcation and delineation of the project area to be affected by camp site development works. Specify locations for trailers and equipment, and areas of the site which should be kept free of traffic, equipment, and storage Designate access routes and parking within the site Introduction of vegetation (trees, shrubs and grass) on open spaces and their maintenance Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction
Increased storm water, runoff and soil erosion	<ul style="list-style-type: none"> A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. Ensure that construction vehicles are restricted to existing graded roads to avoid soil compaction within the project site Ensure that any compacted areas are ripped to reduce run-off. Open drains all interconnected will be provided on site
Solid waste generation	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Composting and reuse 4. Combustion 5. Sanitary land filling Through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed rather than cutting them to size, or having large quantities of residual materials Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed off. Ensure that damaged or wasted construction materials including cabinets, doors, plumbing and lighting fixtures, marbles and glass will be recovered for refurbishing and use in other projects Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or homeowners.
Possible impacts	Mitigation measures
	<ul style="list-style-type: none"> Use of durable, long-lasting materials that will not need to be replaced as

	<p>often, thereby reducing the amount of construction waste generated over time</p> <ul style="list-style-type: none"> • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements • Purchase of perishable construction materials such as paints should be done incrementally to ensure reduced spoilage of unused materials. • Use construction materials that have minimal or no packaging to avoid the generation of excessive packaging waste • Use construction materials containing recycled content when possible and in accordance with accepted standards. • Reuse packaging materials such as cartons, cement bags, empty metal and plastic containers to reduce waste at the site • Dispose waste more responsibly by dumping at designated dumping sites or landfills only. • Waste collection bins to be provided at designated points on site • Private waste disposal company to be contracted to transport and dispose the solid waste from site • Running an educational campaigns amongst employees, e.g. through use of posters, to encourage reuse or recycling of the solid waste
Dust emission	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations • Avoid excavation works in extremely dry weathers • Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles • Personal Protective equipment to be worn
Exhaust emission	<ul style="list-style-type: none"> • Vehicle idling time shall be minimized • Alternatively fuelled construction equipment shall be used where feasible equipment shall be properly tuned and maintained • Sensitise truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points
Noise and vibration	<ul style="list-style-type: none"> • Sensitise construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. • Sensitise construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals • Ensure that construction machinery are kept in good condition to reduce noise generation • Ensure that all generators and heavy-duty equipment are insulated or placed in enclosures to minimize ambient noise levels
Possible impacts	<p><i>Mitigation measures</i></p> <ul style="list-style-type: none"> • The noisy construction works will entirely be planned to be during daytime

	<p>when most of the neighbours will be at work.</p> <ul style="list-style-type: none"> • Comply with the provisions of Noise Prevention and Control Rules 2005, Legal notice no. 24 regarding noise limits at the workplace
Waste water generation	<ul style="list-style-type: none"> • Provide means for handling sewage generated by construction workers • Conduct regular checks for pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies • Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated
Minimization of health and safety impacts	<ul style="list-style-type: none"> • Implement all necessary measures to ensure health and safety of workers, housing units occupants and the general public during operation of the residential units as stipulated in the Occupational Safety and Health Act, 2007.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.

(c) Provincial Director of Environment, Rift Valley Province.

(d) District Environment Officer, Naivasha District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RESIDENTIAL DEVELOPMENT IN KITENGELA ON L.R. NO. KJD/KAPUTIEI NORTH/31441

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed residential development.

The proposed residential development entails construction of 100 units comprising of basic 3 bedroom house constituting a master bedroom and 2 other bedrooms, kitchen, dining lounge, 2 parking lots per unit, veranda, landscaped grounds and lawns with beautiful gardens and playing fields. The facility shall observe eco friendly principals, green infrastructure features being incorporated. The project will have storage water tanks to supply water for each unit. Effluent will be managed through the construction of recommended sewer pipes and septic tanks.

The proposed development will be on a 5.22 ha piece of land located on L.R. No. KJD/Kaputiei North/31441 which lies within Kitengela town in Kajiado District.

<i>Possible impacts</i>	<i>Mitigation measures</i>
Occupational hazards and fire risks	<ul style="list-style-type: none"> • Install fire fighting unit; • Sensitize workers on use of machinery;

Dust generation	<ul style="list-style-type: none"> Equip the first aid box as per Cap. 514; Have a trained fire fighter on site; Provide a car to take the injured to clinic of hospital; Provide PPE for workers and enforce the use during work hours.
	<ul style="list-style-type: none"> Regular watering of unpaved roads or exposed soils ground; Remove soil/mud from tires of trucks equipment before leaving the area; Hauling trucks shall be covered equivalent materials to avoid contamination; Construction of perimeter wall/live fence around the construction area to minimize dust.
	<ul style="list-style-type: none"> Use dust screens.
	<ul style="list-style-type: none"> Set-up temporary silt trap/ponds to prevent siltation.
Sedimentation/siltation of drainage or waterways	<ul style="list-style-type: none"> Proper stockpiling of spoils (on flat areas and away from drainage routes); Spoils generated from civil works be disposed as filling materials;
Loss of vegetation due to land clearing	<ul style="list-style-type: none"> Limit land clearing as much as possible. Provide temporary fencing to vegetation that will be retained. Use of markers and fences to direct heavy equipment traffic in the construction site and avoid damage to plants. Re-plant/plant indigenous and exotic tree species and ornamental plants.
Noise generation	<ul style="list-style-type: none"> Schedule noisy construction activities during day time. Undertake proper maintenance and use mufflers. Noise levels shall be maintained within the acceptable levels of 75dB. Provide mufflers for the workers.
Disposal of excavated materials	<ul style="list-style-type: none"> Used for back filling. Carting away in proper manner. Institute a solid waste management strategy.
Generation of solid and liquid waste	<ul style="list-style-type: none"> Construction of septic tanks to manage effluent. Segregate of recyclables materials. Proper house keeping and waste shall be instituted. Paper waste shall be collected and dumped in dump site in Kitengela or sold to waste collectors.
Landscape and visual impacts	<ul style="list-style-type: none"> There shall be programs to replant trees along the fences and internal access ways. Therefore the impact on landscape shall be negligible. There shall be moderate level visual obstruction on the area residents, travellers along the road. These shall be reduced to slight level in the long term with the application of the proposed mitigation measures.
Increased consumption of electric power	<ul style="list-style-type: none"> The contractor shall pursue alternative sources of energy e.g. solar. If there is need for additional power the contractor shall ensure that additional power is installed.
Possible impacts	<p><i>Mitigation measures</i></p> <ul style="list-style-type: none"> The project shall ensure that efficient resources (water/power) is enforced to

make savings for the project.

- The project shall register a way leave with KPLC for the line that crosses the plot.
- The sewage quality and efficient of the septic tank systems shall be determined on daily basis in line with Regulation 14 of the Legal Notice No. 120.
- Percolation into ground water shall be indicated above.
- The system shall undergo adequate maintenance by qualified personnel in which case any accidental burst shall be promptly addressed.
- Have sign post to direct and caution drivers on the on going construction activities.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Rift Valley Province.
- District Environment Officer, Kajiado District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
