THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

STRATEGIC ENVIRONMENTAL ASSESSMENT STUDY REPORT FOR
MASINDE MULIRO UNIVERSITY OF SCIENCE AND TECHNOLOGY
(MMUST) INFRASTRUCTURE DEVELOPMENT

i) PROPOSED MASTER PLAN

The proposed developments include:- Administration Block, Student Dormitories, Staff Houses and Amphitheatre Block, parking, swimming pool, handball pitches (2), sports complex building, rugby pitch, and a hockey pitch, Show room and Shopping Malls, Multi-purpose Hall, Schools Block, Centres Institute Block, Education and Social Science Block, Natural Science Block, Architecture and Civil Engineering Block, Mechanical Engineering Block, and LBB Phase II, and A Science Technology Park (Export Processing Zone). Apart from accommodation of tenants, the park is intended to have support and core facilities, including:

- local area IT networks, video conferencing facilities and internet access;
- market analysis, business and marketing support;
- help in recruitment and business mentoring/incubation.

ii) ALTERNATIVE OPTIONS

The Strategic Environmental Assessment considered the following alternatives were carefully:-

- Waste Water Management Alternatives: Use of stabilization ponds/lagoons, Use of septic tanks and Waste water treatment plant
- Water Supply Alternatives: Rain water harvest and storage, maintain Western Water Company (WWC) water use, and Borehole water use.
- Siting of Facilities (Spatial Distribution of Structures)
 - Science and Technology Park - to enhance mass production of industrial goods
 - University population expansion: open up more satellite campuses to cater for the ever increasing university population.

(a) Analysis of alternative construction materials and technology

The proposed project will be constructed using modern, locally and internationally accepted materials to achieve public health, safety, security and environmental aesthetic requirements.

(b) Solid waste management alternatives:- Source reduction, Recycling, Reuse and compositing of the waste, Combustion and Sanitary Land filling

iii) AFFECTED PARTIES CONSULTED

The following list outlines the parties that are affected and interested in the proposed infrastructure development for MMUST

- Government institution/ officials and NGOs
- Academicians from MMUST and Students
- Ordinary citizens
- Local community representatives (Community leaders and community members)

iv) AFFECTED AREAS

- Existing Indigenous Forest – Expansion of the University may lead to clearing of the existing indigenous forest affecting the rich biodiversity within the land.
- Rivers and Wetlands:-
 - Expansion of the University may affect the Omubhira (WECO) Stream which originates from MMUST through pollution, making the water unfit for domestic use in the downstream.
 - Encroachment in the wetland supporting the river is foreseen, then the wetland may be drained and the river may end up drying affecting the ecosystem depending on them.

v) Environmental impacts and mitigation measures.

Possible Impacts	Mitigation Measures
Air pollution, Dust generation and Noise pollution	<ul style="list-style-type: none"> • Sprinkle water during construction work • Control speed and movements of construction vehicles noting that access to the project site is off busy roads • Use of low sulphur diesel for diesel operated machinery • No unnecessary hooting by the project and tenants vehicles • Restriction of construction activities to day time • Use of equipments designed with noise control elements • Adequate shielding of noisy machinery such as vibrators • Comply with the Environmental Management and Coordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009 regarding noise limits at the workplace

Clearing Vegetation

- Planting of ornamental trees along perimeter fence within the site
- Establishment of flower garden within the project site
- No disturbance to areas not affected by the project so as to minimize impacts on environment.
- Ensuring proper demarcation of the project area to be affected by the construction works.
- Ensuring that any disturbance of flora and fauna is restricted to the actual project area and avoid spillover effects on the neighbouring areas.

Generation of solid waste

- Re use of construction debris and other wastes
- Proper containment and disposal of solid waste at all project phases
- Contracting a licensed waste collection and disposal company
- Awareness raising on proper solid waste disposal
- Re use of timber off cuts and wooden supports for fuel
- Waste to be properly segregated and separated to facilitate re-use

Generation of solid waste

- Ensuring that there are adequate means for handling the large quantities of sewage generated at the facilities.
- Ensuring that sewage pipes are not blocked or damaged so that the waste can be directed to the sewer line.
- Waste water shall be disposed in compliance with the provisions of the Environmental Management and Coordination (Water Quality), Regulations 2006.

Increase demand for water

- Conserve(wise use) of water
- Provision of adequate water storage facilities
- Installation of water storage facilities
- Re-use of water where possible
- Installing water conserving taps

Increase demand for electricity

- Use of energy saving bulbs within the buildings
- Make use of natural lighting
- Energy conservation measure be practised

Occupational health and safety risks

- Use of suitable personal protective equipment(PPE)
- Insurance of all workers
- Site to be sprinkled with water to minimize dust
- Use of stable ladders and other climbing/support structures
- Sensitize workers on construction safety measures
- Cleanliness and organization at the construction sites
- Fencing or covering of risky areas such as deep pits
- Safety signage
- Use of permit-to-work authorizers for risky jobs
- Engagement of skilled labourers
- Food handlers to be monitored for hygienic practices

- Fire hazards and accidents
- Acquire firefighting equipment
 - Sensitize workers on fire safety
 - No storage of inflammables at the sites
 - Keep well stocked first aid box
 - Proper handling and use of tools and machinery
 - Have a trained first aider on site
 - Adequate road warning signs to traffic regulations
 - Erection of speed bumps
- Security
- Guarding of sites and estate by a reputable security firm
 - Constant site patrol
 - Adequate screening of visitors to the site & estate
 - Collaboration with existing security machinery
 - Partnership with neighbours and police in community policing

The full report of the proposed project is available for inspection during working hours at:

- Director General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Western Province.
- District Environment Officer, Kakamega District.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA, to assist the Authority in the approval process of the project.

CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE
PROPOSED ESTABLISHMENT OF JATROPHA PLANTATIONS IN GARSEN
DIVISION, TANA DELTA DISTRICT, KENYA

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed establishment of Jatropha Plantations.

The proposed project entails establishment of a series of Jatropha plantations on six ranches (Ida-sa Godana, Giritu, Haganda, Kibusu, Kitangale and Kon-Dertu) in the Tana Delta District of Kenya's Coast Province, approximately 100 Kilometers north Malindi and 300 kilometers south of Garissa. The land reference numbers for the six ranches are as follows;

- Ida-sa-Godana (L.R No.13597);
- Giritu (L.R No 13598);
- Haganda (L.R No. 13599);
- Kibusu (yet to get LR number);

- Kitangale (L.R No. 28304)
- Kon-Dertu L.R No. 17601/1).

An estimated area of 64,000 hectares will be developed into plantation. Phase 1 of the project is to commence on 10,000 hectares in the Kitangale Ranch. Phase 2 will see the development of a further 30,000 hectares on the other four ranches, and phase 3 will complete the development with approximately another 24,000 hectares.

The following are the anticipated impacts and proposed mitigation measures

Possible impacts	Mitigation measures
Storm water management	<ul style="list-style-type: none"> • Design drainage system that conform to natural gradient and minimize slope length • Identify suitable site for earth dams
Relocation or accommodation of squatter communities	<ul style="list-style-type: none"> • Initiate dialogue with squatters to result settlement or accommodation of squatters • Identify all affected villages and other settlements, carry out squatter census, and map out extent of cartilage • Site project activities to minimize immediate adverse effects and impacts on squatter population. For areas likely to be affected, give adequate notice to allow squatters to voluntarily move out of the project area • Formulate a detailed re-settlement plan and implement using participatory approaches with affected squatters • Employ squatter when possible
Safety and security strategies	<ul style="list-style-type: none"> • Display project map in work places • Clearly and permanently mark project area boundary • Prepare incident management plan for fire emergencies • Construct firebreaks between project area and neighbouring properties • Ensure that firefighting equipment is strategically located in project sites and staff trained in its use
Modification of hydrology	<ul style="list-style-type: none"> • Develop drainage systems that conform to natural gradient and minimize slope length • Fill undesired ponds and depressions • Maintain drainage systems
Soil erosion	<ul style="list-style-type: none"> • Retain bands of native vegetation between plantation blocks and within paddocks to act as temporary windbreaks • Ensure clearing is staged, so that only those areas to be planted in the following wet season are cleared • The areas disturbed by placement of soil material are to be monitored and kept to minimum • Rehabilitate areas susceptible to soil erosion (e.g. planting grass and trees in disturbed sites) • Monitor sites of bare soil and carry out restoration works, such as re-shaping the ground and planting grass and trees
Solid waste generation	<ul style="list-style-type: none"> • Provide compartmentalized litter bins in strategic places to allow sorting of the rubbish stream • Recycle wastes that can be used again • Designate certain areas as dumping sites • Ensure all organic waste is composted

<i>Possible impacts</i>	<i>Mitigation measures</i>
	<ul style="list-style-type: none"> • Provide compartmentalized litter bins in strategic places to allow sorting of the rubbish stream • Recycle wastes that can be used again • Manage dumps to minimize vermin and odours or outsource municipal waste disposal service • Implement purchasing policy to minimize waste generation
Waste water generation	<ul style="list-style-type: none"> • Construct septic tanks and soak pits, and ensure these are not affected by storm water
Risks of oil spills and leakages	<ul style="list-style-type: none"> • Oil should be immediately be cleaned • Provide spill kits in strategic places and train staff in their use
Generation of exhaust emissions	<ul style="list-style-type: none"> • Avoid using old inefficient smoking machines and equipment
Noise pollution	<ul style="list-style-type: none"> • Undertake measures to minimize noise impacts on adjacent communities. • -vehicles, earth moving machines and tractors should idle as little as possible; • -noisy activities will be scheduled to occur only during day time • All generators and heavy duty equipment is to be muffed or placed within insulated enclosures to minimize noise levels
Dust emissions	<ul style="list-style-type: none"> • Water roads under construction • Construct speed pumps to minimize speeds on dirt roads through work sites • Stop ploughing and clearing works on windy days • Provide workers with appropriate protective clothing
Workers' exposure to accidents and health hazards	<ul style="list-style-type: none"> • Induct workers on how to use machinery, vehicles and equipment. • Provide operating manuals and guidelines • Ensure any contractors operating on project site have completed and trained their staff in safe work methods. • Develop and implement a Health and safety Plan • Monitor use and need for 2-way radio communication system in absence of suitable alternative (radio system may not be required if adequate mobile phone services are introduced)
The full report of the proposed project is available for inspection during working hours at:

The proposed project shall have five storey blocks with 210 units of 3 bedrooms, lounge, dining, kitchen and balcony each. The project shall also have security walls all round, driveways, green areas with appropriate landscaping and a car park with a capacity of 213 vehicles for the occupants and visitors.

The project area is situated on plot number L.R. no. 9042/128, Embakasi, Nairobi East district. The plot is approximately 1 Km. off the main Embakasi Road. It is in the midst of a developed area and in the neighbourhood of Nyayo Highrise Embakasi.

The following are the anticipated impacts and proposed mitigation measures

<i>Possible impacts</i>	<i>Mitigation measures</i>
General occupational Health and Safety	<ul style="list-style-type: none"> • Provision of PPEs to workers • A permanent security fence already in place • Erect scaffolding and dust screens • Install safety signs • Document and display on site emergency procedures • Create health and safety awareness • Switch of equipment not in use • Carry out activities with high noise and vibration levels during the day • Water the ground and access roads adequately on a need basis and ensure no dust is generated at any time. • Develop and implement health and safety plan • Provide on site first aid capacity
Inappropriate Solid domestic waste disposal	<ul style="list-style-type: none"> • Provision of first aid facilities • Ensure only authorized persons shall use the risky equipment • Provide onsite waste bins • Ensure waste is collected daily by a registered waste handler • Connect project to city council sewerage system and ensure all ablution waste to be channeled into the system
Storm water drainage	<ul style="list-style-type: none"> • Authority to improve the storm water drainage in the neighbourhood has already been given by the city council. • Construct both interior and exterior drainage systems and ensure only storm water flows. • Clear drainages at least ones every 6 months

<i>Possible impacts</i>	<i>Mitigation measures</i>
Inappropriate sanitary waste disposal	<ul style="list-style-type: none"> Waste handlers shall provide sanitary bags ones a week Sanitary waste shall be collected, stored and disposed off separately.
Failure to use personal protective gear	<ul style="list-style-type: none"> Provision of protective gear and ensure used at all appropriate times
Fire risk and other emergencies	<ul style="list-style-type: none"> Install an alarm system that is accessible on each floor and test condition every 2 months Provide adequate fire extinguishers and hose reels Ensure exit routes are clear all the time Establish and train a formal safety team Conduct emergency preparedness verification every 6 months
Poor Construction Quality	<ul style="list-style-type: none"> Confirm the quality of all materials before use. Conduct scheduled site inspection visits and maintain records Facilitate statutory site visits as required.
Air transport related safety concerns	<ul style="list-style-type: none"> Facilitate site inspection by Kenya Civil Aviation Authority and get approval
Compliance to environmental and other requirements	<ul style="list-style-type: none"> Conduct annual environmental self audits and submit report to NEMA

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) Provincial Director of Environment, Nairobi Province.
- (d) District Environment Officer, Embakasi.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

PROPOSED NORTHERN CORRIDOR TRANSPORT IMPROVEMENT
PROJECT (NCTIP) OF THE BEST ALTERNATIVE ROUTE LINKING
LAKESIDE NORTHERN TANZANIA TO NAROK TOWN

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed best alternative route linking lakeside Northern Tanzania to Narok town.

The best alternative route has been identified for the proposed Best Alternative route linking lakeside Northern Tanzania to Narok Town. The assessment process examined the corridor through two main alternatives (Alternative 1 & 2).

- Alternative 1: 134km traversing from Kaboson – Kilgoris – Osinoni – Kehancha.
- Alternative 2: 131km and to pass from Kaboson – Muntekur – Lolgorien – Kehancha.

Alternative 1 has been identified as the best alternative route. The proposed main trunk road is being designed for class “A” road, the highest in Kenya since it is an international connection. It is generally a 2x2 carriageway with an average right of (Row) of 60m, apart from section that call for climbing lanes or off side parking spaces. In addition to the trunk road, the project will also comprise of link roads that are being designed as they are, i.e. class C for Kabason – Kiongon (C14) Kilgoris – Lorgorian (C17), Lorgorian – Kenhacha – Suna – Muhuru Bay (C13). Class “D” is being provided for Kilgoris – Awendo (D203), and Awendo – Kenhacha (D 202). Other classified earth road sections that constitute the main trunk road will automatically be upgraded to class “A” road.

<i>Possible impacts</i>	<i>Mitigation measures</i>
Siltation of surface water sources, dust emissions, soil erosion	<ul style="list-style-type: none"> Close supervisory mechanism for excavations near sources of water. Watering the road surfaces and diversions at all times during construction.
Water pollution	<ul style="list-style-type: none"> Provide safe abstraction points for construction water away from the river banks, Ensure no interference with wildlife and livestock watering areas Avoid abstractions from or near sensitive community water points
Waste management	<ul style="list-style-type: none"> Ensure acceptable sanitation at construction workmen operations camp sites, Develop procedures for construction waste disposal and final destinations, Ensure approved spoil dumping practices and destinations.
Noise and vibrations,	<ul style="list-style-type: none"> Information flow to the communities on unavoidable aerial emissions, noise and vibrations
Smoke and hydrocarbon residual emissions	<ul style="list-style-type: none"> Keep inevitable dusty and/or emissions as short as possible.
Route clearing	<ul style="list-style-type: none"> Minimise disruption of vegetated zones and livestock/wildlife zones. Establish a programme for re-vegetation of the road reserve and material sites. Confine on existing road reserve to the extent possible.
Re-channeling of surface runoff,	<ul style="list-style-type: none"> Integrate micro-hydrology trends and design to the area with natural drainage,
Damages from culverts outflow,	<ul style="list-style-type: none"> Integrate soil erosion control in the construction work (check dams and silt trap measures on the higher road reserve sections),
Outfalls onto private land,	<ul style="list-style-type: none"> Consider involving the landowners on maintenance and clearing of culverts and drains near their farms,
Cause of landslides, Drainage	<ul style="list-style-type: none"> Maintain runoff cascades and silt check dams in the higher side of road reserve.
Health and safety	<ul style="list-style-type: none"> Disseminate information and awareness on health and safety to all workers and neighboring community.

- Liaise with KWS on safety from wildlife and poachers
 - All workers be provided with PPEs and enforce application.
 - Maintain all provisions for road safety including signage, information, speed bumps and condition of the road,
 - Ensure road reserve is identified and respected by all respective land owners,
 - Institute necessary clean-up regulation for polluting spills within the road reserve,
 - Comply to parks rules (if the road traverses the parks)
- Land acquisition and resettlement
- Carry out land survey of the route to establish extent of expansion or realignment,
 - Identify affected social and economic facilities along the route,
 - Undertake comprehensive Resettlement Action Plan for all victims of the project.
 - Enhance valuation of affected landed property.
- Wildlife interference
- Maintain adequate signage and information furniture specific to wildlife safety along the affected sections,
 - Investigate suitable and safe speed reduction devices along the same sections,
 - Direct larger wildlife species to specific crossings into the dispersal areas. An electric fence could be used to achieve this plan,
 - Consider overhead crossings (at least 5 No.) for monkeys along the Kilgoris – Lorgorian road section,
 - Ensure speed limit within wildlife activity zones (e.g. Muntekuar-Lorgorian section, Osinon-Moita section).

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE
PROPOSED FUEL STATION, GUEST HOUSE AND SHOPS IN MUTARAKWA
LIMURU ON PLOT NO. LIM/KAM/817/8

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed fuel station, guest house and shops.

The proposed development will contain the following main facilities: - two fuel tanks, fuel pumps, office, a hotel, shops, guest rooms and an ablution block among other facilities.

The proposed project site will be at Mutarakwa along Mai Mahiu/Narok Road about 3km off the Nairobi-Naivasha highway on plot No. LIM/KAM/817/8.

The following are the anticipated impacts and proposed mitigation measures

Possible Environmental Impacts	Suggested Mitigation Measures
Health and safety and fire risk	<ul style="list-style-type: none"> • The station shall be kept clean and free from fire hazards and litter • Install fire control appliances including a portable fire extinguisher • Conduct regular fire drills • Implement fuel leakage detection mechanism • Avoid naked fires within the station (post notices to prohibit smoking) • Electrical installations to be carried out by competent and licensed personnel • Hazard communication through signage, • Ensuring safety measures are adhered to and having safety meetings, hazards awareness, • Use of PPE, reporting near misses, incidents and accidents. • Medical certificates for workers in the café, first aid kit and first aider. • Changing room for staff should have lockers and be kept tidy
Oil spills/spillages	<ul style="list-style-type: none"> • Train and supervise staff to ensure minimal spillage of fuel • Interceptor management/oil water separator to be installed • Storage of waste oil in drums, • Ensure proper oil collection and disposal • Surveillance and reporting any signs of leakage • Use only approved fuel tanks and monitor fuel quantities to detect leakages • Fuel tanks should also be properly treated and installed
Solid waste management	<ul style="list-style-type: none"> • Ensure proper waste collection, handling and disposal • Sorting of waste, • Storage of waste in closable dustbins, • Regular disposal of waste by NEMA licensed waste handlers,
Waste water	<ul style="list-style-type: none"> • Construct proper drainage system • Treatment of waste water through oil interceptors prior to discharge to the septic tank

- Ensure adherence to standards as per water quality regulations 2006
- The proponent shall ensure adherence to Environmental Management and Coordination (Noise and Excessive vibration pollution Control) Regulations 2009.
- Area to be planted with trees/vegetated to act as carbon sinks and windbreakers to minimise raising of dust
- Drivers to put off engines when vehicles are not in motion
- Use clean energy in the kitchens

The full report of the proposed project is available for inspection during working hours at:

- Director-General, National Environment Management Authority, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Central Province.
- District Environment Officer, Kiambu West District.

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE
PROPOSED COBRAS CORNER LUXURY LODGE TRANSMARA/ENKU/
27703 – MARA TRIANGLE TRANSMARA DISTRICT

PURSUANT to regulation 21 of environmental (impact assessment and audit) regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Tourist Lodge.

The proposed project will consist of:

- 27 Cottages divided into three intimate camps (Safari camp, Bush camp, and Mountain camp). In addition, each camp will have an attached lounge for breakfast, lunch and dinner. This will also serve as meeting places. There will also be a small library attached;
- Central reception area;
- Heated swimming pool;
- Wine cellar;
- Spa facility;
- Campfire site;
- Gift shop;
- Vehicle parking and minor service area;
- Staff quarters;
- Walkways and
- Septic tanks and waste water management areas.

The proposed site is about 6Km to the east of the Ngiro Area security outpost and about 1Km to the south from the main road along the Siria escarpment. The site is accessible by road from both Kilgoris through Lorgorian and Olololo gate or from Narok town through Aitong and Olololo gate, Transmara District.

The project anticipates the following impacts and mitigation measures:

Possible Impact Mitigation measures

- | | |
|-----------------------------|---|
| Soil Disturbance | <ul style="list-style-type: none"> • Restrict use of heavy machinery for only the necessary activities and encourage use of manual labour and light machinery; • Restrict vehicular movement to prescribed access routes; • Reduce excavation to necessary areas only |
| Water Pollution | <ul style="list-style-type: none"> • Construction of adequate and up-to-standard septic tanks; • Regular maintenance checks on septic tank system; • Treatment and recycling of water. |
| Water wastage | <ul style="list-style-type: none"> • Installation of water meters to monitor amount use • Installation of water saving tap models |
| Air Pollution | <ul style="list-style-type: none"> • Installation of dust screens • Regular watering of access routes to reduce dust • Provision of dust masks to workers • Use low sulphur diesel • Use of mufflers on heavy equipment and vehicles • Reduction in use of machinery to necessary requirement only |
| Noise Pollution | <ul style="list-style-type: none"> • Ensure construction activities are undertaken during daylight hours; • Regular repair of silencers • Use of modern low noise emitting generators • Isolate and locate generators in a confined environment • Provision of ear muffs to site workers |
| De-Vegetation | <ul style="list-style-type: none"> • Minimal excavation to areas that are necessary for the construction. • Re-vegetation (planting of new grass and indigenous trees) of bare areas • Establish concealed animal observation points |
| Petrochemical Contamination | <ul style="list-style-type: none"> • Have fuel storage facility located away from other activities and fire sources; • Have fuel tanks constructed from standard globally accepted materials; • Pay attention to soil types when locating fuel tanks to ensure they are not sited where corrosion could easily occur; • Restrict movement around this facility by providing a perimeter fence and putting in place signage on facility use and safety procedures. |

Possible Impact Mitigation measures

Solid and Liquid Waste Management	<ul style="list-style-type: none"> • Segregate and categorize into reusable, those for resale and those for disposal; • Protect the designated disposal area from elements to reduce chances of them being carried away by wind or rain; • Use domestic biodegradable wastes will be used in the farm either as manure or as pig feed; • Waste oil from machinery and generator will be used in other activities such as the incinerator or wood preservation or returned back to supplier for appropriate disposal; • Ensure ash from incinerator is buried in pits; • Use septic tanks and soak away pits to dispose of liquid waste; • Use oil/grease interceptors to trap oily contents from wastewater from the kitchen.
Workers and Public Health	<ul style="list-style-type: none"> • Restrict vehicles and machinery movement to slow speeds both within the project site and its surroundings; • Have signage posted within the project site and along the transportation route; • Provide workers with Personal Protective Equipment (PPE) • Have workers work in shifts to reduce incidence of loss of concentration while attending to machines; • Proper supervision to ensure equipment and machinery are only operated by qualified and appointed personnel. • Have adequate first aid kits placed at easily accessible points; • Have at least one first aid personnel and fire marshall in every project component area • Erecting dust screen during construction

Possible Impact Mitigation measures

Security	<ul style="list-style-type: none"> • Fencing of the project site and limiting movement and attraction of unwanted characters

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
