(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED HOUSING DEVELOPMENT ON L.R. NO.
MACHAKOS TOWN/BLOCK II/280, MACHAKOS DISTRICT

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed upgrade of a petrol station

The proposed project entails upgrading the canopy over the pumps, upgrading the sales office, rehabilitating the drainage system, replacing the underground fuel tanks, repairing the drive ways, walkways,

acceleration and deceleration lanes, installing the Interceptor Tank and upgrading the washrooms.

The project is located at Machakos town, a few metres from the junction of Machakos turn off and Ngei road directly opposite the newly opened Naivas supermarket. The plot measures approximately 0.1189 Ha. The Land reference number is L.R No Machakos Town/Block 11/280.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Air pollution	<ul style="list-style-type: none"> Control speed and operation of construction vehicles. Prohibit idling of vehicles. Spray water on excavated areas. Maintenance of construction plant and equipment. Sensitize construction workers. All bare areas should be landscaped after construction. Workers should be provided with dust masks if working in sensitive areas
Noise pollution	<ul style="list-style-type: none"> Maintain plant equipment. Construction should be carried out only during daytime i.e 0800 – 1700 HRS. Workers to wear ear muffs if working in noisy section. Management to ensure that noise from the station is kept within reasonable levels.
Traffic density	<ul style="list-style-type: none"> Proper signage put in place to notify neighbours of the activity and presence of heavy vehicles and to direct traffic. Presence of boards directing patrons to the site. Strict adherence to traffic rules.
Soil erosion & compaction	<ul style="list-style-type: none"> Provide soils conservation structures on the areas prone to soil erosion to reduce impact of erosion. There should be designated pathways and driveways for movement to avoid unnecessary compaction. All bare areas should be well landscaped after completion.
Solid waste	<ul style="list-style-type: none"> Construction debris should be collected by a licensed private contracted waste collection company. Excavation waste should be re-used or backfilled. Waste generated should be collected by a privately contracted waste collection company and the contractor should ensure the construction of a central waste collection point with bulk storage facilities. The site should have waste receptacles with bulk storage facilities at convenient points to prevent littering during occupation.
Oil leaks and spills	<ul style="list-style-type: none"> Machinery should be well maintained to prevent oil leaks. Contractor should have a designated area where maintenance is carried out and that is protected from rain water. All oil products should be stored in a site store and handled carefully.

<i>Possible Impact</i>	<i>Mitigation measures</i>
Loss of vegetation	<ul style="list-style-type: none"> Designate access pedestrian routes and parking zones that are cabro paved. Provide signs marked do not Walk/ Park on the grass. The flora and fauna should be restored after construction by landscaping and maintaining the introduced plants.
Occupational Health and Safety	<ul style="list-style-type: none"> Provide Personal Protective Equipment. Train workers on personal safety and how to handle equipments and machines. Report any accidents / incidences and treat and compensate affected workers. Provide sufficient and suitable sanitary conveniences which should be kept clean. The site will be fenced off using iron sheets during renovation.
Security	<ul style="list-style-type: none"> The site will be fenced off using iron sheets during renovation. Demolish all temporary kiosks on site. Round the clock security for the facility. Adequate lighting and an alarm system installed at strategic points.
Oil leaks and spills	<ul style="list-style-type: none"> Machinery should be well maintained to prevent oil leaks. Contractor should have a designated area where maintenance is carried out and that is protected from rain water. All oil products should be stored in a site store and handled carefully.
Fire preparedness	<ul style="list-style-type: none"> Fire fighting drills carried out regularly. Fire fighting emergency response plan. Ensure all firefighting equipment is regularly maintained, serviced and inspected. Fire hazard signs and directions to emergency exit, route to follow and assembly point in case of any fire incidence.
Disturbed Physical environment	<ul style="list-style-type: none"> Undertake a complete environmental restoration programme. Landscaping and introducing appropriate vegetation.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Eastern Province.
- District Environment Officer, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ONE STOP BORDER POST (OSBP) AT
NAMANGA IN KENYA AND TANZANIA

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed one stop border stop (OSBP).

The proposed project involves the following

- Cordoning and fencing an area, approximately 6.5 hectares, which will be designated as the border control zone (BCZ), within which access, will be to those persons crossing the border or offering services;
- Construction of roads to bypass the BCZ, approximately 1.5km long;
- Construction of parking areas for trucks crossing the border within the BCZ;
- Construction of an office complex, verification sheds and warehouses;
- Construction and installation of an incinerator for disposal of impounded goods and animals and also solid waste;
- Installation of support mechanical, electrical and security devices and services;
- Construction of civil engineering services including water supply and waste treatment plants;
- Construction of other minor buildings and infrastructure to support the operation of the border post.

The project is situated at Namanga border between Kenya and Tanzania, a distance of approximately 136km on the Kenyan side. On the Tanzanian side, the border is approximately 106km from Arusha. The proposed project is located in Namanga town, Namanga division of Kajiado district.

The following are the anticipated impacts and proposed mitigation measures;

<i>Possible impacts</i>	<i>Mitigation measures</i>
Land Acquisition and Resettlement	<ul style="list-style-type: none"> • The Full Report of land acquisition and resettlement and related socio-cultural impacts and mitigation measures to the community has been presented in Resettlement Action Plan (RAP) Report. • Land acquisition and resettlement will be carried out in accordance with Kenya's, AfDB and JICA Resettlement laws. The compensation and resettlement will be guided by the principle objectives that the Project Affected Persons (PAPs) will have their former living standards and income-earning capacity improved or at least restored. The PAPs must be provided with adequate support during the transition period.
Spread of Communicable Diseases	<ul style="list-style-type: none"> • The contractor shall abide by the waste management regulations and rules described in Legal Notice No. 121 of the Kenya Gazette Supplement No. 69 of September 2006; • Treating affected local and migrant populations shall also be used in controlling the movement of disease vectors (through contaminated water and between people);

Possible impacts

Mitigation measures

Sexually Transmitted Infections and HIV / AIDS

- Accomplished through a comprehensive health awareness campaign will include preventive measures such as immunizing the vulnerable population, and educating people about diseases and how they are contracted, and how to avoid them by using treated water and keeping living areas cleaner.
- Deposit of segregated refuse in pits should be accompanied by daily covering with a firm layer of earth. These sites should be out of site, downwind and in a dry and properly drained site;
- Provision of personal hygiene facilities in good condition with adequate water supply;
- Awareness raising on proper sanitation and personal hygiene to promote proper health;
- The Resident Engineer should ensure that management of STIs occurrences due to social interaction between immigrant workers and local populations is conducted through:
 - Selecting appropriate locations for construction camps;
 - Education and sensitization of workers and the local communities on STIs including provision of condoms to the project team and the public;
 - Formation of peer groups from among the project staff to ensure continuity in training and awareness raising;
 - The contractor has to institute HIV/AIDS awareness and prevention campaign amongst workers for the duration of the contract e.g. erect and maintain HIV/AIDS information posters at prominent locations as specified by the Resident Engineer;
- The contractor has to ensure that staff are made aware of the risks of contracting or spreading sexually transmitted diseases;
- The contractor shall ensure that the project workers are sensitized on the local culture;
- The contractor shall ensure the mobilization and sensitization of the general population on reproductive health and STIs;
- During the operation period KRA and Ministry of Immigration should work closely with various HIV/AIDS organizations working in the project zone of influence in order to achieve the best results. The following should also be done:
 - Establishment of training and awareness campaigns at the project site;
 - Establishment and maintenance of peer counseling groups to ensure constant awareness and support groups among the staff both during the operation period.
- Where possible conduct regular sensitization campaigns and monitoring and evaluation of the modes used during the two year course of the project;

Spread of the phenomenon of adultery

<i>Possible impacts</i>	<i>Mitigation measures</i>	<i>Possible impacts</i>	<i>Mitigation measures</i>
	<ul style="list-style-type: none"> • Formation of peer groups from among the project staff to ensure continuity in training and awareness raising; • Establishment of training and awareness campaigns at the project site; • Establishment and maintenance of peer counseling groups to ensure constant awareness and support groups among the staff both during the operation period. 		<ul style="list-style-type: none"> • The Contractor shall ensure that adequate warning is provided to the local communities immediately prior to all blasting. All signals shall also be clearly given; • The Contractor shall use blast mats for cover material during blasting. Topsoil shall not be used as blast cover; • A soil conservation programme, including measures for storm water and flooding control, will be implemented as a part of the EMP. Pre-construction and construction activities should take place in the dry season in order to avoid storm water and flooding.
Land capability and potential	<ul style="list-style-type: none"> • Compensation for landowners should be done according to the RAP Report. 		
Solid waste generation	<ul style="list-style-type: none"> • Contractor shall consult with Olkejuado County Council on suitable location for disposal of waste that can't be recycled • Diligence on the part of the Contractors during construction activities will minimize the amount of debris, and also will ensure that debris is disposed of in a sensible manner, at a specified and approved dump. • All solid waste generated during construction and operation should be carefully monitored, collected, stored, and taken out of the site for disposal. • Waste generated during the operation of the facility must be segregated at source, inventorised and appropriate methods of disposal determined. • The development and rehabilitation of spoil areas shall include the following activities: <ul style="list-style-type: none"> • Stripping and stockpiling of topsoil; • Removal (to a nominal depth of 500mm) and stockpiling of subsoil; • Placement of spoil material; • Contouring of spoil site to approximate natural topography and drainage and/or reduce erosion impacts on the site; • Placement of excavated subsoil and then topsoil over spoil material; • Contouring and re-vegetation; • The Contractor shall ensure that the placement of spoil is done in such a manner to minimize the spread of materials and the impact on surrounding vegetation and that no materials 'creep' into 'no-go' areas. 	Wastewater pollution	<ul style="list-style-type: none"> • No grey water runoff or uncontrolled discharges from the site/working areas (including wash down areas) to adjacent River Oldonyo Rok shall be permitted; • Water containing such pollutants as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site. This particularly applies to water emanating from concrete batching plants and concrete swills; • The Contractor shall also prevent runoff loaded with sediment and other suspended materials from the site/working areas from discharging to adjacent river; • Potential pollutants of any kind and in any form shall be kept, stored and used in such a manner that any escape can be contained and the water table not endangered; • Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas (including groundwater) are not polluted; • The Contractor shall notify the RE of any pollution incidents on site.
		Noise emission and vibration	<ul style="list-style-type: none"> • Provision of PPE's to the workers; • Noise levels shall be kept within acceptable limits and construction activities shall, where possible, be confined to normal working hours; • Contractor shall cordon-off work areas; • Any complaints received by the Contractor regarding noise will be recorded and communicated to the RE.
		Surface water (nearby river) contamination	<ul style="list-style-type: none"> • During construction, spills shall be contained and a rapid clean-up process should occur to prevent any potential contaminants from entering the river. Standard Operation Protocols should be strictly adhered to in order to prevent and minimize spillages, • The Resident Engineer and the contractor shall ensure that there is always a supply of absorbent material such as saw dust on site during construction, readily available to absorb/breakdown spill from machinery or oil storage; • No construction materials shall be stockpiled within areas that are at risk of flooding; • All temporary and permanent fill used adjacent to the river bed shall be of clean sand or larger particles. Silts and clays shall not be permitted in the fill;
Geology and Topography	<ul style="list-style-type: none"> • The Contractor shall ensure that appropriate pre blast monitoring records are in place (i.e. photographic and inspection records of structures in close proximity to the blast area); • The Contractor shall ensure that emergency services are notified, in writing, a minimum of 24 hours prior to any blasting activities commencing on site; • The Contractor shall take necessary precautions to prevent damage to special features and the general environment, which includes the removal of fly-rock. Environmental damage caused by blasting/drilling shall be repaired at the Contractor's expense; 		

Possible impacts	Mitigation measures
Air quality degradation	<ul style="list-style-type: none"> Plastic sheeting, sandbags or geofabric approved by the RE shall be used to prevent the migration of fines through the edges of the fill into the river; The Contractor shall not modify the banks or bed of a watercourse other than necessary to complete the specified works. If such unapproved modification occurs, the Contractor shall restore the affected areas to their original profile; The Contractor shall preserve all riparian vegetation; The Contractor shall not pollute the watercourse through any construction activities.
	<ul style="list-style-type: none"> All construction machinery shall be maintained and serviced in accordance with the manufacturers specifications; The contractor shall water dusty areas during construction; Dust generating activities shall not be carried (excavation, handling and transport of soils) during times of strong winds. The Resident Engineer shall suspend earthworks operations wherever visible dust is affecting properties adjoining the work site; Vehicles delivering soil materials shall be covered to reduce spills and windblown dust.
Groundwater contamination	<ul style="list-style-type: none"> Blasting should be avoided near boreholes supplying portable water used for agricultural purposes; Berms should be constructed on site to ensure all rainfall runoff remains onsite and is diverted to oil/water separator.
Handling of environmentally hazardous chemicals	<ul style="list-style-type: none"> The contractor will have to prepare a Waste Management Plan before start of construction activities; During operations all the hazardous waste from all Departments must be incinerated as proposed in the Design.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FILLING STATION ON L.R NO KERICHO/CHESENENDE/234 IN KIPKERION DIVISION, KERICHO DISTRICT

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment study report for the implementation of the proposed filling station.

The project will involve the construction of a filling station comprising of ; 3 dispensing pumps (1 for petrol, 1 for diesel and 1 for kerosine), 3 udergrond storage tanks, a canopy, tire centre, office block (lubricants shop, reception, office and toilets).

The proposed project will be located along Nakuru –Kericho Highway at a place called Chesinende on L.r no kericho/chesinende/234 in kipkerion division, kericho district

The following are the anticipated impacts and proposed mitigation measures;

Potential Impact	Mitigation measures
Waste generation and disposal	<ul style="list-style-type: none"> Solid waste should be managed according to the waste management regulations. The proponent should contract a licensed waste collector.
Air and Noise pollution	<ul style="list-style-type: none"> Contractor will give prior notice of activities and time durations to neighboring building occupants. Dust masks should be provided to workers to limit inhalation of the dust. Switch off engines when not being used Most of the construction work to be done manually to reduce noise impact Fencing the site to avoid spread of dust Employees likely to be exposed to high noise levels to be provided with ear protectors The contractor should obtain a noise permit from NEMA. Measures will be put in place to ensure use of serviced and greased equipment and earmuffs by operators Sprinkle water on dusty surfaces Place the concrete in well ventilated area Ensure the workers wear proper PPEs (including dust masks)
Accidents	<ul style="list-style-type: none"> Workers should be provided with the necessary PPEs such as helmets Warning signs should be provided at the site warning people of potential/possible accidents. Materials like iron bars should be properly lowered and not thrown or shot down from heights liable to cause damage, harm or injury to workers or passers-by.
Blockage of storm drainage system	<ul style="list-style-type: none"> Ensure that storm drainage system remains clear during construction Soil from the site which is not in use should be properly disposed

Potential Impact	Mitigation measures
Noise and vibrations	<ul style="list-style-type: none"> • Construction activities must be carried between 0800hrs and 1700hrs. • Use light vibrators • Regular servicing of machines and equipment • Lubrication of machines • Compliance with noise and Vibration regulations
Occupational health and safety	<ul style="list-style-type: none"> • Provision of PPEs to workers during construction time • The PPEs should include Overalls/Aprons, helmet, dust masks, welding shield/goggles, ear muffs or plugs (where necessary), and appropriate footwear • Provide first aid facilities emergency plan at the site • Fencing off the developing project to avoid risks to the general public • Supervision of the project should be done throughout the project implementation period
Fire risks	<ul style="list-style-type: none"> • Install fire extinguishers at the filling station • Clearly mark fire exit points and the fire assembly area • Provide sand buckets at strategic locations • Workers should be trained on fire fighting skills by a qualified trainer • Fire drills should be conducted at least once a year • A fire fighting team should be established • Warning and informational signs should be displayed appropriately • Conduct fire audit once a year • Formulate and bring to the notice of all workers and clients fire safety policy and rules • Regular testing and servicing of fire-fighting equipment and appliances. • Full compliance with the Fire Risk reduction Rules, 2007
Oil spills	<ul style="list-style-type: none"> • Pumps should be inspected regularly • Pump valves should be well fitted • Dispenser pipes and underground tanks should be of approved quality standard • Regular monitoring to detect leakages from tanks and pipes • Install an oil interceptor in the drainage system • Recovery of waste oil for proper disposal by authorized agent • Use oil absorbent material to clean oil spills especially at the service bay • Regular checking/monitoring of the drainage lines, interceptor and the water pump to ensure that are working effectively without any overflow or failures. • Ensure that the underground tanks are compliant with Kenya standards (KS2000:2002) • Conduct pressure tests before commissioning of the station to ensure that the product lines (pipe works) comply with KS 1969:2006, KS 1967: 2006 and 1968:2006.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CHANIA MATAARA SMALL-HYDROPOWER STATION IN MATAARA LOCATION, GATUNDU NORTH DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Chania Mataara Small-hydropower.

The proposed small-hydropower plant is projected to supply power to the Kenya Tea Agency, Power Company.

The proposed plant will be developed along River Chania which is located in Thika District, Gatanga Constituency, Kariara Division, Kiarutara Sub-Location, Kamukobini village. The proposed Small-Hydropower project is located about 0.5km from Mataara Tea Factory.

The following are the anticipated impacts and proposed mitigation measures:

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED IRARU SMALL HYDROPOWER STATION IN KIUNGONE LOCATION, SOUTH IMENTI IN IMENTI SOUTH DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Iraru Small-hydropower.

The proposed small-hydropower station is expected to supply energy within Kenya Tea Development Agency (KTDA) factories while enabling them to achieve self-reliance.

The proposed Small-Hydropower station is about 15 Kilometres from Nkubu town. It is located at Lower Kiungone Sub-location, Kiungone Location, Abogeta West, South Imenti South District. The proposed Small-Hydropower station is located 4 kilometres from Mt. Kenya forest, 5 kilometres from Kionyo tea factory.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible impacts</i>	<i>Mitigation Measures</i>
Biological Diversity (Flora and Fauna)	<ul style="list-style-type: none"> • All trees uprooted to pave way for canal construction should be replanted • Planting of grass and tress species that would be destroyed, flowers and grass within the proposed small-hydropower station site. • Planting of trees, grass and flowers has been done and will continue to be done to improve on the landscape quality of the small-hydropower station site and also acts as windbreakers. • Special attention paid to propagation of the endangered tree species especially <i>Prunus Africana</i>. • Tree species to be planted to rehabilitate the site and improve the aesthetic value of the small hydropower station site. • Promote the development of community nurseries and educate on need of planting trees to mitigate impact of global warming in the region.

<i>Possible impacts</i>	<i>Mitigation Measures</i>
Land degradation due to increase soil erosion	<ul style="list-style-type: none"> • Terraces to be constructed at appropriate places at the site and suitable plants and grass species planted. • Extra roads to be constructed as narrow as possible and along the contour in consultation with Kenya forest. • Service (KFS) and Ministry of Roads and Public Works as necessary. • Rip-off compacted for planting of trees. • Footpaths to be protected with appropriate grass species, stores or appropriate environmentally friendly measures that would prevent soil erosion. • Avoid use of heavy machinery. • Use water bowsers to minimize dust pollution • Control earth works.
Siltation	<ul style="list-style-type: none"> • Ensure de-silting is done regularly. • Divert storm water from canal to reduce siltation. • Construction of recommended silt traps.
Physical environmental destruction(land scarification)	<ul style="list-style-type: none"> • Avoid use of heavy machinery. • Use water to minimize dust pollution Control earth works. • Construction of embankment especially around the powerhouse to control soil erosion. • Storm water drainage to be properly managed. • Roads rip-off and revegetation after construction.
Wastes disposal	<ul style="list-style-type: none"> • The proposed small-hydropower station is addressing the problem as follows: A waste management plan will be put in place, waste disposal containers will be placed at strategic places where wastes are sorted out into biodegradable, and non-biodegradable. • Solid wastes such as plastics, papers, and bottles will be collected for recycling. • While papers and other wastes that cannot be recycled are burnt in the compost pit or incinerator. • Wastes such as green leaves will be used to produce compost manure for flower gardens to improve soil fertility and also planting trees and flowers later at the small-hydropower station site. • Waste water to be disposed into water sanitation system and exhausted for disposal as need arises. • Construction of Iko toilets OR flush toilets to be designed and sited.
Environmental pollution through oil, petrol and diesel spillage	<ul style="list-style-type: none"> • Minimize accidental spillage of oils, petrol and diesels. • Where they occur, immediate collection and treatment of site is recommended. • Dispose wastewater using environmentally sounds methods. • Dispose machinery pollutants using environmentally sounds methods.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
