THE ANTI-CORRUPTION AND ECONOMIC CRIMES ACT

(No. 3 of 2003)

THE KENYA ANTI-CORRUPTION COMMISSION

THE QUARTERLY REPORT FOR THE YEAR 2011 COVERING THE PERIOD OF 1ST APRIL TO 30TH APRIL, 2011

Preamble

The Kenya Anti-Corruption Commission is required under section 36 of the Anti-Corruption and Economic Crimes Act, 2003, to prepare quarterly reports setting out the number of reports made to the Attorney-General under section 35.

Section 35 provides that:

1. Following an investigation, the Commission shall report to the Attorney-General on the results of the investigation.
2. The Commission's report shall include any recommendation the Commission may have that a person be prosecuted for corruption or economic crime.

Section 36 provides that:

1. The Commission shall prepare quarterly reports setting out the number of reports made to the Attorney-General under section 35 and such other statistical information relating to those reports, as the Commission considers appropriate.
2. A quarterly report shall indicate if a recommendation of the Commission to prosecute a person for corruption or economic crime was not accepted.
3. The Commission shall give a copy of each quarterly report to the Attorney-General.

4. The Attorney-General shall lay a copy of each quarterly report before the National Assembly.

5. The Commission shall cause each quarterly report to be published in the Gazette.

This report is therefore made pursuant to section 36 of the Anti-Corruption and Economic Crimes Act, 2003. The report covers the second quarter of the year 2011 and is for the period commencing 1st April, 2011 to 30th June, 2011.

INVESTIGATIONS COVERING THE PERIOD 1ST APRIL TO 30TH JUNE, 2011

KACC/AT/INQ/01/2010

Inquiry into allegations of irregular procurement of chromatography columns for the National Quality Control Laboratory (NQCL) by the Ministry of Medical Services. The investigations established that whereas the user department had requisitioned for 30 pieces of the High Performance Liquid Chromatography (HPLC) columns valued at KSh. 1.8 million; the quantities were subsequently changed from "pieces" to "sets" during the procurement process, thereby causing the excess supply of 30 sets valued at KSh. 66,780,000. The investigation further established that whereas the written contract with the supplier of the goods was not duly executed as provided in the Public Procurement and Disposal Act, 2005; a Local Purchase Order was issued to the supplier, in breach of the procurement regulations.

The file was forwarded to the Attorney-General on 4th April, 2011 recommending that the two suspects namely; the Biomedical Engineer and Head of the Biomedical Engineering and Maintenance Division, and Senior Principal Procurement Officer and Head of the Procurement Unit of the Ministry of Health be charged with the offences of deceiving principal, contrary to section 41(2) and wilful failure to comply with the law relating to the tendering of contracts under section 45(2)(b) of the Anti-Corruption and Economic Crimes Act, 2003.

On 29th June, 2011, the Director of Public Prosecutions accepted the recommendation for prosecution.

KACC/INQ/FI/142A/2010

Inquiry into allegations that a Senior Education Officer, Ministry of Education embezzled KSh.480,000 received by him as imprest while conducting a Capacity Building Workshop on Management of Instructional Materials for Secondary Schools at Kaimosi Teachers College. The investigations revealed that the officer purported to have paid a sum of KSh.150,000 for accommodation of resource persons and KSh.330,000 for the hire of laptops and LCD projectors, yet no such services were rendered. The evidence obtained further showed that the Education officer colluded with two business persons to provide false receipts purporting that payment had been made after services had been rendered. The payment made was later channelled back to the Education officer. He used the false documents to surrender an imprest that he had not expended for the purposes that it was issued.

The file was forwarded to the Attorney-General on 11th April, 2011 recommending that the suspects be charged as follows; the Senior Education Officer be charged with fraudulent acquisition of public property contrary to section 45(1) (a) as read with section 48(1) of the Anti-Corruption and Economic Crimes Act, 2003 and both the Senior Education Officer, and the two business persons be charged with conspiracy to commit an economic crime contrary to section 47(A) (3) as read with section 48(1) of the Anti-Corruption and Economic Crimes Act, 2003.

On 29th June, 2011, the Director of Public Prosecutions accepted the recommendation for prosecution.

KACC/FI/INQ/186/2010

Inquiry into allegations that two Provincial Administration Officers in Makindu District fraudulently acquired 500 bags of famine relief maize intended for distribution to the vulnerable residents of Makindu District. Investigations established that the Ministry of State for Special Programmes approved the allocation of assorted foodstuff to Makindu District for distribution to the needy residents of the District. A further provision was made in the form of Authority to Incur Expenditure (AIE) to cater for the logistical issues. Investigations established that, the District Officer collected the 1000 bags of maize from the National Cereals and Produce Board, and transported the same to Makindu. There were no documents obtained to show how 500 bags of maize had been distributed. The evidence obtained also showed that 500 bags of maize had initially been misappropriated, but restored by the District Commissioner after

intervention by KACC. It further emerged that the District Commissioner and the District Officer alleged to have used 200 bags of maize as payment in kind for transport services. This was in spite of the fact that an AIE had been provided to cater for the logistics of transport and distribution of the food. Whereas the two officers ultimately restored and accounted for all the maize they had received, they had taken steps towards fraudulent disposal of 500 bags of maize. They were therefore culpable for an attempt to commit an economic crime.

The file was forwarded to the Attorney-General on 14th April, 2011 with the recommendation that the two suspects be charged with an attempt to commit an offence involving economic crime contrary to section 47A(1) as read with section 45(1)(b) of the Anti-Corruption and Economic Crimes Act, 2003.

On 1st July, 2011, the Director of Public Prosecutions directed that administrative action be taken against the two officers, in lieu of prosecution.

KACC/FI/INQ/39/2010

Inquiry into allegations that a Senior Education Officer at the Ministry of Education misappropriated KSh.4,942,000/ of World Bank Funds given to the Ministry of Education under the Kenya Education Sector Support Programme. The money was intended for the conduct of training of representatives of Primary Schools on HIV/AIDS Prevention and Life Skills at Shanzu and Kamwenja Teachers Training Colleges. The training took place concurrently between the 31st May, 2009 and 20th June, 2009. Investigations established that the Education Officer did not expend the imprest for the purpose it was given. Instead at the time of surrender of the imprest, the suspect submitted false and forged documents in respect of transport reimbursement to participants and for the purchase of stationery in an attempt to account for the imprest.

The file was forwarded to the Attorney-General on 21st April, 2011 with the recommendation that the suspect be charged with the following offences: Fraudulent Acquisition of Public Property contrary to section 45 (1) (a) as read with section 48 of the Anti-Corruption and Economic Crimes Act, 2003, Deceiving Principal contrary to section 41(2) as read with section 48(1) of the Anti-Corruption and Economic Crimes Act and an alternative charge of False Accounting by a Public Officer contrary to section 331(1) and (2) of the Penal Code .

On 29th June, 2011, the Director of Public Prosecutions accepted the recommendation for prosecution and recovery of the sum embezzled.

KACC/FI/INQ/153/2011

Inquiry into allegations that two plots LR. Nairobi/Block82/4324 & 1093 belonging to Harambee Cooperative Savings and Credit Society Ltd (SACCO) were fraudulently sold by two Central Management Committee Members. Investigations revealed that Harambee Sacco in the course of business engaged in the purchase of several properties in various towns up to the early 1990's when such purchases were stopped by the government. Amongst the properties that the Sacco had already purchased for onward sale to its members was LR. No Nairobi/Block 82/4324. The investigations did not reveal any irregularities or fraud in the allocation of the said plot. The requisite fees for the plot was paid contrary to the allegations that the two members of the Central Management Committee had fraudulently sold the property, the evidence revealed that at the time of the allocations, the two were not officials. Therefore no culpability on the part of the two was disclosed to warrant any criminal or administrative action against them.

The file was forwarded to the Attorney-General on 28th April, 2011 with the recommendation that the inquiry file be closed. On 29th June, 2011, the Director of Public Prosecutions accepted the recommendation for closure.

KACC/FI/INQ/103/2010

Inquiry into allegations of conflict of interest and abuse of office against the National Project Co-ordinator of the Pan African Tsetse and Trypanosomiasis Eradication Campaign (PATTEC). PATTEC was a project within the Ministry of Livestock jointly funded by the Government and the African Development Fund. It was alleged, that since the inception of PATTEC in 2004/05, all consultancy contracts procured by PATTEC were awarded to a consultancy firm associated with the National Coordinator. Investigations established that the Consultancy firm was registered as a business under the Registration of Business Names Act, in 1997, and the joint proprietors were the National Project Co-ordinator and another partner. The National Project Co-ordinator however resigned from the business in 2003 and a certificate of change of particulars issued to that effect leaving the

other partner as the sole proprietor. Whereas the investigations revealed that the same Consultancy firm that the Coordinator had resigned from was awarded contracts by PATTEC, there is no evidence that she participated in the procurement process, or that she directly or indirectly influenced or benefited from the proceeds of the contract.

The file was forwarded to the Attorney-General on 29th April, 2011 with the recommendation that the inquiry file be closed. On 29th June, 2011, the Director of Public Prosecutions accepted the recommendation for closure.

KACC/FI/INQ/156/2010

Inquiry into allegations of irregular award of a concession/exploration licence to an unqualified Company due to influence by the Permanent Secretary, Ministry of Justice and Constitutional Affairs. Investigations established that three mining companies applied for exploration license to the Commissioner of Mines and Geology. All the three applications were approved by the Prospecting and Mining Licensing Committee, despite the fact that none of them qualified for the award of the license. They did not meet all the requirements that were pre-requisite for the granting of the exploration licence. Investigations revealed that in spite of the objections to the approval, raised by the Commissioner of Mines and Geology, the PS in the Ministry suspended him and appointed an acting Commissioner. Subsequently the new appointee approved the applications in spite of the flaws. The investigation also revealed that one of the directors of the applicant companies forged a Certificate of Incorporation, and he presented it together with his application, upon which the Commissioner of Mines and Geology issued an Exploration licence. With regard to the allegations that the PS Ministry of Justice influenced the issuance of a Prospecting license to one of the companies, the evidence obtained did not establish any criminality or culpability to warrant any action against her.

The file was forwarded to the Attorney-General on 5th April, 2011 with the recommendations that the following be charged as follows; the PS Ministry of Environment, the acting Commissioner of Mines and Geology and the members of the Prospecting and Mining Licensing Committee in the Ministry of Environment and Natural Resources be charged with the offence of abuse of office contrary to section 46 as read with section 48 of the Anti-Corruption and Economic Crimes Act No.3 of 2003; and the director of the mining company be charged with forgery contrary to section 345 and uttering a false document contrary to section 353 of the Penal Code Cap 63, the Laws of Kenya.

On July, 2011, the Director of Public Prosecutions returned the file for further investigations.

Inquiry into allegation that the Head of Kabete School Equipment and Maintenance Unit, Ministry of Education Science and Technology embezzled KSh.2,263,440.00 meant for rehabilitation of the Provincial Technical Training Institute office in Embu. The investigation revealed that although the officer received the imprest to refurbish the aforementioned office, no renovations were carried out, nor were any materials purchased. Instead, the officer used falsified documents to surrender the imprest which he embezzled. The investigation also revealed that the approval of the imprest received by the suspect was irregular, since the suspect had no mandate to request for the money. The request would only have been made by the office of the Provincial Technical Training Institute office.

The file was forwarded to the Attorney-General on 11th April, 2011, with the recommendation that the suspect be charged with the following offences; knowingly giving a false statement to one's principal contrary to section 41(2) as read with section 48(1) of the Anti-Corruption and Economic Crimes Act, 2003, and uttering a false document contrary to section 353 of the Penal Code, and that administrative action be taken against a Senior Deputy Secretary in the Ministry of who was the A.I.E. holder and who approved the imprest received by the suspect.

KACC/FI/INQ/168/2010

Inquiry into allegations of abuse of office by officials of the National Water Conservation and Pipeline Corporation, by irregular procurement of borehole materials. The investigations revealed that the Corporations Tender Committee approved the procurement of borehole materials which was to be done by way of raising Requests for Quotations. In spite of this requirement, the procurement officer issued LPOs to suppliers who had not submitted their quotations, and ignored those that had been invited to place their bids. Falsified documents were also used and no deliberations were made on the quotations. By issuing the LPOs without any quotations, the procurement officer failed to comply with the applicable procurement procedures. By approving the LPOs and the Payment Voucher in respect of goods supplied without following the laid down procedure, the Managing Director and the head of the user department improperly conferred a benefit.

The file was forwarded to the Attorney-General on 7th April 2011, with the recommendation that the suspects be charged with the following offences; the Managing Director and Head of Construction and Electro-Mechanical Department be charged with the offence of abuse of office contrary to section 46 as read with section 48 (1) of the Anti-Corruption and Economic Crimes Act No. 3 of 2003; and the Procurement Officer be charged with wilful failure to comply with procurement law and procedures relating to procurement of public property contrary to section 45(2) (b) as read with section 48 of the Anti-Corruption and Economic Crimes Act, No.3 of 2003.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED IRON AND STEEL PLANT ON L.R. NO.
283, NG'OMWET VILLAGE KAPLELACH, KERICHO

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed iron and steel mill.

The proposed development entails construction of a new iron ore processing plant and its associated infrastructure. The proposed development will be a Kiln to process iron ore, furnaces to produce billets, rolling mill to produce bars/structural steel and a 10MW (6MW through WHRB & 4 MW through FBC) power plant

The proposed plant site is located at Ng'omwet Village, Kaplelach Sub-Location, Kericho County. The nearest highway is Kericho — Kisumu Highway which is about 1 Km from the proposed project site.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Noise	<ul style="list-style-type: none"> Restrict activities to daytime. Provide ear muffs to employees exposed to high noise levels. Construct a buffer wall around the property.
Water pollution	<ul style="list-style-type: none"> Ensure proper oil handling to avoid spills. Prepare an oil spill management plan. Block all water drainages to the municipal drain until installation completed.
Health and safety hazards	<ul style="list-style-type: none"> Document Emergency Response Procedures. Provide necessary safety signages. Document all Operational Procedures. Provide PPEs.
Waste management	<ul style="list-style-type: none"> Provide for a waste segregation and collection point and regularly collect waste. Re-use as much waste as possibly can. Reuse and recycle materials, including mill scales, slag etc. Provide for proper waste management plan.
Air pollution, e.g. RSPM, SPM, SO ₂ & NO _x	<ul style="list-style-type: none"> Install all required pollution control equipments including electrostatic precipitators for kiln and boiler and fume extraction system with bag filters for induction furnace. Regularly water the pavements and earth roads. All conveyors to be completely covered with G.I. sheets to control fugitive dust. All the material handling systems will be connected with de-dusting system. Provide a de-dusting suction point on all

Energy use	<ul style="list-style-type: none"> Regularly monitor energy consumption and prepare an Energy Management Plan.
Increased solid and waste water production and aerial emissions.	<ul style="list-style-type: none"> Ensure proper management of waste. Ensure treatment for adequate emissions and effluent discharges and solid waste collection system is in place. Adhere to rules governing factory operations-Occupational Health and Safety. Ensure 'No smoking' signs within the factory. Adhere to labour laws.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

28134

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed

office park project

The proposed development will involve construction of Four Double Storey Office Blocks. The actual design components of the project include:-Construction of four double storey office buildings, management office cafeteria building ,driveways, sidewalks and parking bays for 496 vehicles ,generator house waste water treatment plant, central gazebo and lake, Construction & installation of development utilities and Site landscaping

The proposed project is located on L.R. No. 28134 located at the Langata Road and Ndege Road Junction, Karen, Nairobi.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Mitigation measures
Noise and vibrations	<ul style="list-style-type: none"> Complying with maximum permissible noise levels for constructions sites as per Second Schedule of the Environmental Management and Coordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009. All transportation of construction materials are to be conducted at traffic off peak hours only and on weekdays only to avoid making noise to residents during weekends and when they are back home on weekdays. All noisy machinery shall be shielded by portable barriers and located as far from existing sensitive receptors as possible.
Air pollution (exhaust emissions and dust)	<ul style="list-style-type: none"> Provide 2.4 m high hoarding and dust screens along site boundary. Provide Effective dust screens that shall be used on scaffolding erected around the perimeter of a buildings under construction. Cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of freeboard. Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction site. Use of electrically operated construction machinery to avoid externalities produced by diesel engines. This procedural change may reduce problems related to emission, idling and maintenance.
Degradation of natural and aesthetic environment	<ul style="list-style-type: none"> Ensure the design of the proposed buildings and the construction thereof avoids/retains existing mature trees/vegetation and its attendant biological diversity as much as possible. Demarcate the project area to be affected by construction works to preserve vegetation falling outside the development paths. Carry out appropriate landscaping programme for the revegetation and improvement of aesthetic value of parts of the project area after construction.
Health and safety impacts	<ul style="list-style-type: none"> Appropriate health and safety measures shall be implemented. Warnings and signs shall be placed in appropriate places. Safety education and training of the construction workers should be emphasized. Appropriate Personal Protective Gear shall be worn at all times by all within the construction site including visitors Install proper fire management equipments and strategies.
Waste management	<ul style="list-style-type: none"> Use of durable, long-lasting materials

that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time;

- Purchase of perishable construction materials such as paints incrementally to ensure reduced spoilage of unused materials.
- Use of building materials that have minimal packaging to avoid the generation of excessive packaging waste.
- Segregation or sorting of waste at its source shall be practiced in order to encourage reuse/recycling.
- Wastes shall be collected daily from all bins to a transfer station near the main gatehouse awaiting final collection.

The full report of the proposed project is available for inspection during working hours at:

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF MOMBASA –
NAIROBI – ADDIS ABABA ROAD CORRIDOR DEVELOPMENT
(MERILLE RIVER – MOYALE - A2)

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Construction of Mombasa – Nairobi – Addis Ababa Road Corridor Development (Merille River – Moyale - A2).

The proposed project is the upgrading to “bitumen standard” of the Merille River - Marsabit - Moyale Road (A2) extending to approx 364 kms in length, in Marsabit and Moyale Districts of Eastern Province, Republic of Kenya.

The project anticipates the following impacts and mitigation measures:

Possible Impacts	Mitigation Measures
Soil erosion, Run-off	<ul style="list-style-type: none"> • Design of the road’s drainage. • Stabilization of the soil along the roadside and in the road reserve.
Wildlife	<ul style="list-style-type: none"> • The contractor(s) should develop a code of conduct to ensure that the workers do not consume game meat from the area, whether supplied by the locals or killed by themselves. • Awareness creation amongst the locals and the workers on laws that relate to wildlife hunting and consumption, and the importance of wildlife as a natural

	<p>resource and heritage.</p> <ul style="list-style-type: none"> • The provincial administration should be involved in creating awareness amongst the locals - that killing game is illegal and undesirable. • Empty containers and other waste should be managed carefully to avoid exposing wildlife to possible poisoning. • Intense construction activities should not be carried out at night across the Marsabit National Park, Losai Nature reserve and Dida Galgalu Important Bird Area. • Exceptional care should be taken when constructing across the elephant migration corridor such that their movements are not curtailed and workers are not exposed to risk. • During operation, a programmatic approach is proposed, where greater surveillance by KWS and involvement of communities is instituted to check possibilities for new trade in game trophies, skins and live animals. 		
Vegetation	<ul style="list-style-type: none"> • Vegetation should only be cleared where it will interfere with road construction and/or present a hazard to traffic. • Within Marsabit and Moyale towns, allowance for landscaping is to be made within the construction contract, including tree planting. • Cutting of trees, other than those mentioned above, for firewood by the workers housed in camps should be controlled. • As far as practicable, materials should not be stockpiled on vegetated areas. • In areas where soils are compacted during road construction, such as along temporary access roads, the soil should be loosened through ripping to enable infiltration of water and growth of plants. 		
Pollution	<ul style="list-style-type: none"> • Use dust suppressants as far as possible, especially within the towns. • All the workers should wear dust masks at all times when at the sites of high dust generation. • Warn the neighbourhood of possible generation of dust beyond normal levels. 		
Aesthetics and landscape	<ul style="list-style-type: none"> • Solid waste produced at camping sites for road construction crews, should be properly disposed. 		
Waste management	<ul style="list-style-type: none"> • Construction waste and domestic waste should be stored only in the specially designated places and removed regularly. Disposal and burial of waste should be agreed upon in the established order before commencement of the works. Discharge of any non-treated drain waters and waste to the laggas or on the surrounding land should be forbidden. • Ensure that waste materials are properly disposed of to suitable locations. Partly inert waste materials (for example concrete from bridge reconstruction) may possibly be used as filling material for reconstruction of road sub-grade. • Periodic inspection of construction works helps to ensure proper handling of waste materials. • Contractors should encourage reuse and recycling to minimize residual waste. • A handling protocol, e.g. waste storage 		
		Health and safety	<p>away from public view, and provision of retention areas to contain accidental spills of toxic, hazardous, and harmful construction materials, such as caustic and acidic substances, oil, waste oil, diesel, and bitumen, should be prepared and implemented by the contractors.</p> <ul style="list-style-type: none"> • Road construction workers should be informed about diseases that are prevalent in the project area, and how they can minimize their exposure and transmission. • Mount regular HIV-AIDS awareness campaigns. • The Contractors should consider hiring a permanent nurse to attend to emergencies and to mount awareness campaigns amongst the workers. • MOR will also have to regularly discuss with their counterparts any health implications of on-going road construction. • Access roads for haulage trucks used during road construction should not be located near schools, hospitals and residential areas. • Provide warning to shop owners and other commercial businesses close to the road (especially in Marsabit and Moyale) at least two weeks before use of heavy equipment near their premises. • Install appropriate signs at road diversions.
		Noise and vibration	<ul style="list-style-type: none"> • Minimize noise, especially noise from heavy equipment when constructing the road through Marsabit and Moyale towns. • Special care should be taken where the construction site is near to sensitive receptors such as schools and hospitals (Most sensitive sites – Laisamis, Logologo, Marsabit, Bubisa, Turbi and Moyale). • Heavy vehicles should not be used at night near populated areas (Marsabit and Moyale). • Ensure that construction equipment is operating optimally and with operational noise mufflers where possible.
		Quarry and borrow areas	<ul style="list-style-type: none"> • Absolute care is needed when using explosives as they can adversely affect the workers and wildlife in the area.
		Urbanization	<ul style="list-style-type: none"> • Proactive planning by the District and Provincial Physical Planners. • Provide roadside amenities, preferably as a component of the road construction project.
		Road safety issues	<ul style="list-style-type: none"> • Design and construction of rumble strips, speed bumps and erection of appropriate warning signs.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MOMBASA BY-PASS ROAD STUDY IN
MOMBASA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Mombasa bypass road study.

The proposed project entails:

- Construction of Bypass from Miritini Township to Ngombeni in Likoni with shoulders of 2.5m, 2 carriageways of 7.0m, internal shoulder of 2.0m and an overall road width of 23m
- Construction two viaduct bridges over the ocean at Mkupe (Mwache bridge) and Dongo Kundu (Mteza Bridge). Mwache bridge is 495m, entirely across water while Mteza Bridge is 1,360m of which 760m is across mangrove and mud flats, and 600m across water.
- Widening and improvement of Barack Obama Road
- Widening and improvement of Port Reitz Road
- Widening and improvement of Magongo Road
- Widening and improvement of Mombasa Western Relief Road
- Construction of a four lane bridge over railway connecting to Lumumba road
- Construction an underpass structure at Miritini railway crossing
- Construction of a Link Road from the Bypass to the proposed new container terminal
- Construction of box culverts at underground water sources on the road to the proposed new KPA container terminal.
- Construction of a bridge over low lying area on the road to the proposed new KPA container terminal.

The project was originally located mainly in Mombasa District but since new districts have been created from Mombasa, the project is well spread into newly created districts namely Kilindini, Likoni and Kinango. The Bypass passes through Kilindini, Kinango and Likoni districts. The road to KPA container terminal is in Kilindini district, Port Reitz Area Roads are also located in Kilindini district and the Western Relief Road is located in Mombasa district.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Aquatic habitat loss/fragmentation/damage	<ul style="list-style-type: none"> • Boring during bridge construction and the vibrations generated will lead to habitat loss and damage thereby leading to loss of some marine species at Mkupe and Mwangala creeks. • Soil erosion from constructed and rehabilitated sites will lead to down stream siltation ruining spawning beds for fish. • Mangrove cutting will lead to loss of breeding grounds for fish, macro benthos and other marine fauna.
Migration corridor restrictions	<ul style="list-style-type: none"> • During construction migratory and feeding corridors for marine fauna will be interrupted at Mkupe and Mwangala

Fluctuation of physico-chemical variables	<ul style="list-style-type: none"> • Fluctuations in phosphorus, ammonia, DO will lead to resultant changes in the pH in both the sediment and water column at Mkupe and Mwangala creeks thereby affecting organisms and the photosynthesis process. The pH will also increase due to deposition of concrete materials and cement during viaduct bridge construction. • Sediments act as nitrate sinks and their disturbance will lead to eutrophication that can lead to algal blooms and eventual effects to fish and other marine fauna. • Presence of high organic matter at Mkupe and Mwangala creek waters is an indication of high presence of micro and macro-organisms hence the disturbance will lead to loss of biodiversity.
Oil/petrol spillage	<ul style="list-style-type: none"> • During construction it is anticipated that there shall be cases of oil/petrol spillage from construction equipment which will lead to effects and possible loss of fish, macro benthos, mangroves and other marine fauna and flora.
Noise from construction equipment	<ul style="list-style-type: none"> • During construction noise from construction equipment will have an impact on marine life especially fish which will move away thereby interfering with its availability for local fishermen.
Impacts on air quality	<ul style="list-style-type: none"> • Vehicular Emissions result from the use of fossil based fuels which when burnt release dangerous fumes and gases that will pollute the local atmosphere during construction and operation of the road. Exposure to major emission constituents is responsible for certain human health problems. • Emissions also result in acid rain absorption of toxic pollutants that have effects on plant growth. Acidification of aquatic ecosystems has definite implications on the health of aquatic species. On the built environment acidity originating from vehicle emissions is responsible for deterioration of paints and accelerated corrosion of metals. • Dust Generation from activities involving civil works, demolitions and quarrying generate substantial amount of dust especially during dry season. Dust may enhance upper respiratory diseases and staining of buildings and other items in the vicinity. Dust settles on leaves of plants and can interfere with pollination and photosynthetic activities if accumulation is significant. Dust that settles in the marine environment will have impacts on the marine fauna.
Impacts on soils/land degradation	<ul style="list-style-type: none"> • Loss of Productive Soils at Miritini, Tsunza, Mwangala, Bububu and Likoni areas will be exhibited when land will be acquired for the road carriageway and right of way. • Soil Erosion will occur as the natural soil is modified by the construction process. The possible hot spots will be the hilly and steep areas of Mkupe, near the airport fence on the road to KPA and Mwangala and Bububu areas. Soil erosion can also have cumulative impacts far beyond the road construction affecting slopes, the ocean and some distance from the initial impact point. • Land Slides during construction due to

	<p>destabilization of slopes due to creation of road cuts or embankments will result in some degree of soil disturbance.</p> <ul style="list-style-type: none"> • Stockpiling of Spoil Materials can destroy vegetation hence leading to soil erosion. • Contamination of Soils will definitely be caused by accidental oil spills particularly in and around machinery and plant yards, base camps and areas of concentrated activities during construction. During operation of the road it is expected that pollutants settling in the soils from vehicular emissions will normally be localized and minor. 	<ul style="list-style-type: none"> • The possible cutting of water supply pipes during construction could lead to water contamination. The ponding of water during construction could lead to a considerable health hazard since it provides breeding habitat for snails, flies and mosquitoes therefore creating a possibility of malaria. • Road Safety will be a major issue during construction and operation of the Bypass. The possible causes of road accidents to be addressed will be; drivers' fault, pedestrian fault/fault of passengers, mechanical defect in vehicles, bad roads and other factors like bad weather, cattle obstruction, fallen trees, road blockage, absence of rear reflectors, road signage, non-functioning of road signals
<p>Impacts on water resources</p>	<ul style="list-style-type: none"> • Spillage of oil and other pollutants, like fuel and other mechanical fluids from vehicles while at camp or in the construction field may seep into the ground water affecting ground water quality. In addition, poor location and construction of pit latrines and septic tanks within the camps, site offices and in the construction fields may result in ground water pollution. • Surface run-off. During construction, site clearance and removal of topsoil along the road, access roads and diversions will increase localized surface run-off since vegetation that allows slow infiltration of water shall have been removed. Again, where such vegetation clearance and earthworks are extensive, especially along steep gradients, sediment-loaded run-off may increase turbidity of the ocean within the project area. • After completion of works, the road design will create a modified drainage system within the vicinity of the road. Bitumenised surface will create an artificial impermeable surface that will increase run-off. This increased run-off may in turn increase flow volumes into the ocean beyond the normal range. • Drainage works particularly misdirected outfalls, outfalls along steep slopes or outfalls with large runoff flows can have adverse impacts through excessive erosion. Conversely the blockage of outfalls by area residents can cause rapid deterioration of road works, which is a heavy national investment. • Surface Water Quality may be undermined due to increased erosion, run-off from roads and contamination in the event of oil spills. The extent of this impact will depend directly on the magnitudes of the other causative factors mentioned above. Nonetheless, bituminous activities may result in wash away of bitumen and other associated chemical materials especially under rainy conditions. These materials may find their way into the adjacent ocean, thus affecting water quality that could adversely affect aquatic flora and fauna. 	<p>Impacts on fishing</p> <ul style="list-style-type: none"> • Fishing and Landing sites : Reduced fishing ground and Landing Sites during construction of the viaduct bridge will affect the fishing activities and the economic livelihood for fishermen in Mkupe, Mwangala and Port Reitz areas. • Access to fishing sites : Access paths to fishing sites will be affected during construction of the viaduct bridge. • Unavailability of fish due to construction activities : Loss of fish through oil spills, vibrations, noise, siltation as a result of soil erosion and by cutting of mangroves will affect daily fish quantities hence affecting fishermen livelihood. • Fish traders : Loss of fish through oil spills, vibrations, noise, siltation as a result of soil erosion and by cutting of mangroves will affect daily fish quantities hence affecting their business. Some fish traders buy fish at the landing sites therefore it will be difficult for them to access these sites during construction.
<p>Impacts on human health and safety</p>	<ul style="list-style-type: none"> • Disease Transmission through work crews to the population near the project area through STDs including HIV-AIDS and through unhygienic environment in the project area including poor garbage disposal and poor human waste disposal. • Water Supply Contamination through overloading of local sanitation infrastructure and spread of waterborne diseases such as amoebic dysentery, typhoid and cholera. 	<p>Impacts on traditionally valued vegetation</p> <ul style="list-style-type: none"> • Cutting of Mangroves will affect the breeding grounds of fish and other marine life. Local traders of Mangroves will also be affected since they depend on harvesting of mangroves for their livelihood. Locals who use the mangroves for firewood and building houses will also be affected. • Medicinal trees and shrubs Neem tree (Mwarubainne): Vegetation clearance will destroy valued trees and shrubs which have medicinal value and which are a source of energy in form of firewood. These trees and shrubs are 'mkilifi' and 'mwarubaine' that are found at Jeuri, Mkupe and Mwangala areas. <p>The full report of the proposed project is available for inspection during working hours at:</p> <ol style="list-style-type: none"> (a) Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. **IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

The following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
