THE TOWN COUNCIL OF MOLO

NOTICE OF INTENTION TO PLAN

NOTICE is given that the Director of Physical Planning In Collaboration with the Town Council of Molo and other stakeholders intend to prepare the Molo Local Physical Development Plan. The plan will cover all that area of land in Molo Centre and the surrounding areas. The total area is approximately 12km². The purpose of the plan is to reorganize the town and guide subdivision, use and density of development. To this end stakeholder meeting will be organized to collect views on the plan.

In view of the above residents, and developers in general are given a 30 days notice from the date of this publication, to finalize and document ongoing developments (i.e. subdivision, building plans, extensions of users/changes of user etc) approvals with relevant authorities. This will enable the planning team prepare and compare a comprehensive inventory and base map of the area.

Further notice is given for other interested groups and or organizations to express interest in writing to the address below to enable the District Physical Planning Office and the Town Council of Molo prepare a comprehensive list of stakeholders.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT

FOR THE PROPOSED MIXED USE DEVELOPMENT ON PLOT
NO. L.R. NO. 27081/18, THIKA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed mixed use development.

The proponent proposes to undertake a mixed use development that will comprise of a shopping mall, commercial godowns, apartments, houses and semi detached as well as detached dwellings. There will also be a recreational area that will have social amenities such as a football ground, a basketball court and a nursery school and clinic.

The site of the proposed development is 2 km from Thika's Central Business District adjacent to the area of Thika called Makongeni.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Dust	<ul style="list-style-type: none"> Water sprinkling of the ground. Regular water addition to unpaved roads to be used by trucks. Control the speed and movement of construction vehicles.
Noise	<ul style="list-style-type: none"> Restrict construction activities to day time hours. Machines should be serviced to reduce on noise.
Destruction of the physical environment	<ul style="list-style-type: none"> Landscaping and replanting that will blend with the environment. Leveling of soils at the end of earth works. Proper disposal of the excavated soils.
Health and safety hazards	<ul style="list-style-type: none"> Document emergency response procedures. Use of suitable personal protective equipment (PPEs). Use of stable ladders and other climbing/support structures that have been tested and approved. Train the construction workers on safety measures. Fencing/covering of risky areas such as deep pits. Safety signage to be put up before commencement of works.
Contamination of water resources by sewage	<ul style="list-style-type: none"> Provision of sanitary facilities for the construction staff. Installation of adequate water supply
Increase in traffic flow	<ul style="list-style-type: none"> Put up adequate road traffic signage
Fire hazards and accidents	<ul style="list-style-type: none"> Install fire fighting facilities during both the construction and operation phases. Sensitize workers on fire safety during all project phases. First aid box to be kept on site as well as training on its use. Conduct fire drills to test preparedness of staff.
Destruction of the physical environment	<ul style="list-style-type: none"> Site landscaping and planting of tree belts to prevent soil erosion and to reduce wind velocity.
Indiscriminate disposal of solid waste	<ul style="list-style-type: none"> Provision of adequate number of solid waste containers. Contract a licensed solid waste transporter.

- Disposal of liquid waste • Connect to the sewerage system
- Increase in traffic flow • Put up adequate road traffic signage

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Central Province.
- District Environment Officer, Thika District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NAIROBI TRANSMISSION RING
PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Nairobi transmission ring project.

The proposed project involves construction of an electricity transmission line and new sub-stations which includes:

- Suswa-Isinya 400 kV transmission line
- Suswa 400/220 kV substation
- Thika road and Ngong 220/66 kV substations

The proposed Suswa 400/220 kV substation is to be located near the Suswa township on a 100 acre plot. The proposed 220/66 kV Ngong substation is to be located just behind the wind turbines near the Savannah Restaurant and campsite at the foot of the Ngong Hills. The proposed 220/66 kV Thika Road Substation will be located opposite the Kenyatta University within Gicheha Farm.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Impact terrestrial flora and fauna	<ul style="list-style-type: none"> Mark out areas for clearance and use manual method of clearance. Undertake selective clearance by removing tall woody species leaving saplings, for quick regeneration of vegetation along the wayleave. Prevent colonization by invasive species.
Impact on water bodies and aquatic flora and fauna	<ul style="list-style-type: none"> Minimise clearance and disruption to riparian vegetation and habitat.
Soil erosion, air quality, water quality, health and safety	<ul style="list-style-type: none"> Avoid steep terrain during the transportation of construction materials by using alternative routes or use light vehicles where appropriate. Prevent surface water run-off over disturbed earth draining to water bodies

	by redirecting flow.
	<ul style="list-style-type: none"> • Pave permanent access roads to prevent erosion. • Erect traffic warning signs in the local language. • Set and enforce speed limits for construction traffic using access roads.
Air pollution (dust, fuel emissions), occupational health and safety, nuisance to local community	<ul style="list-style-type: none"> • Control speed of construction vehicles. • Prohibit idling and over revving of vehicles. • Water should be sprayed during the construction phase on dusty excavated areas. • Regular maintenance of plant and equipment.
Health and safety land quality, water quality	<ul style="list-style-type: none"> • Provision of bunded, lockable storage areas. • Suitably trained personnel only to dispense and work with hazardous material. • Provision of suitable PPE. • Immediately clean up spillages. • Keep health and safety data sheets to hand.
Health and safety	<ul style="list-style-type: none"> • Temporarily or permanently cordon off work sites to prevent public accessing work areas. • Soils extracted for the excavation of towers to be used for backfilling and should not be left exposed to wind or water for long periods. • Supply and use of PPE including safety shoes/boots, gloves for mixing cement, dust protection during dry and dusty conditions or when working with hazardous materials. • Close excavations for pylon foundations as soon as possible and/or provide guarding Workers should always wear PPE and carry first aid kits. • Enhanced security measures when working near wild animals. • Workers working at height to be suitably trained and provided with appropriate PPE including harnesses.
Solid wastes,	<ul style="list-style-type: none"> • All solid wastes from work sites the camps such as metal, papers, food should be collected centrally, removed regularly and disposed of to designated waste disposal sites.
Liquid wastes	<ul style="list-style-type: none"> • All camps will have sanitary facilities for its workers including proper pit latrines located away from water bodies and groundwater supplies (wells).

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROLEUM DEPOT AND STRATEGIC
PETROLEUM RESERVE IN MALILI DIVISION, MUKAA
DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed depot and strategic petroleum reserve.

The Proponent proposes to develop a bulk petroleum receipt, storage, handling and distribution depot and a truck parking facility to accommodate up to one hundred petroleum tank trucks. The proponent also wishes to develop petroleum strategic storage reserves for the country to cushion Kenyans from erratic pump prices resulting from international crude oil prices.

The proposed development is located in Malili division of Mukaa district in Makeni constituency.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Issue</i>	<i>Mitigation Measures</i>
Geology and topography	<ul style="list-style-type: none"> • In order to prevent irreversible construction compaction effects arising from construction plant and equipment ensure that to the extent possible, construction is undertaken during dry periods. On completion, all non – built up areas should be landscaped. • To prevent soil erosion, all non – built up areas should be landscaped and appropriate soil binding grass planted.
Surface water	<ul style="list-style-type: none"> • If possible undertake initial construction activities during the dry season to prevent water/soil run – off especially on side slopes. Water should also be diverted away from the project footprint areas through properly constructed drainage channels. • Ensure that spills emanating from construction plant and equipment are cleaned immediately. Any petroleum products stored on site must be stored in bunded areas to prevent contamination of surface water. Contractor to adhere to Construction HSE management plan during the construction phase.
Ecology	<ul style="list-style-type: none"> • Set up measures to ensure that during preconstruction and construction, impacts on sensitive ecological areas and individual protected biota are minimized and that good management is exercised during operation so as to prevent ecological impacts.
Air quality	<ul style="list-style-type: none"> • Develop and implement effective measures for minimization of dust during the preconstruction and

	<p>construction phase, followed by rehabilitation in a timely manner. Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.</p>	<p>contractor vehicle comply with axle load limits.</p>
Waste	<ul style="list-style-type: none"> Develop and implement safe procedures for management of non – hazardous and hazardous wastes in accordance with Legal Notice number 121: Waste Management Regulations, 2006. Contractor is responsible for this during the construction phase and the Proponent during the operational phase of the project. For Human wastes and waste water the proponent should install septic tanks. A septic tank system is an onsite sewage facility is appropriate in such an area with no connection to main sewage pipes provide by the government. Due to large workforce expected during both the construction and operational phases (including the oil marketers) a minimum of three septic tanks will be required. Exhausted wastes will be disposed in Athi river where the nearest sewerage system is. 	<ul style="list-style-type: none"> Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials during the construction phase. Contractor drivers should possess defensive driving skills gotten from a reputable training consultancy.
Noise and vibration	<ul style="list-style-type: none"> Contractor's plant and equipment should comply as a minimum with requirements of L.N.61: Noise & Excessive Vibrations Pollution Control Regulations, 2009. The project will be designed to maintain noise levels at 70 dB(A) at the fence line Installation of pumps with low horse rating which operate with minimal noise. 	<p>Health and safety</p> <ul style="list-style-type: none"> Develop and implement contractor safety rules which include the relevant provision of OSHA, WIBA and their respective subsidiary legislation. Specifically ensure that the construction complies with L.N.40: Building Operations and Work of Engineering Construction Rules, 1984. The proponent will upgrade the road leading to the site. A fire protection system will be included in the design of the depot. An efficient security firm will be hired to ensure security in the depot and within the area.
Socio - economics	<ul style="list-style-type: none"> The Proponent should create public awareness about "safe" land uses of any future projects in the vicinity of the proposed project area. Implement measures to manage expectations about job creation during the preconstruction, construction and operational phases. Develop and put into practice strategies to minimize crime, to include effective communication with landowners to inform them about the movement of work teams, and codes of conduct for contractors and employees. Implement where feasible measures to employ local community members during both the pre-construction and construction phase, as well as the operational phase. Ensure effective communication with communities to limit expectations of employment creation. Develop and implement a HSE program for employees. Develop and implement transparent employment and procurement measures which comply with the regulatory framework and maximize local benefits. Implement measures to ensure that traffic and road safety hazards are minimized during the preconstruction, construction and operational phases. 	<p>Oil leakage</p> <ul style="list-style-type: none"> Depot design will provide for drainage and effluent treatment points (Oil water interceptors). <p>Fire accidents</p> <ul style="list-style-type: none"> Contingency measures should be incorporated into the project design. In addition, existing fire fighting systems should be expanded/improved and more staff recruited and trained to manage them. Communities living in the vicinity should be trained on response, and fire drills for staff and communities mounted on a regular basis.
Traffic	<ul style="list-style-type: none"> Develop and implement measures to repair regularly used roads to the project site especially the section between the turn-offs from the Nairobi-Mombasa highway to the project site. Ensure that

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RESIDENTIAL APARTMENTS AND A
COMMERCIAL BLOCK ON PLOT L.R.NO. SIGONA/1625 IN
KIKUYU TOWN COUNCIL IN NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed residential apartments and a commercial block.

The development will have residential apartments and a commercial block of 198 residential units and 3 shops. The units are grouped into 13 Block A types which are three bedroom blocks and 4 Block B types which are two bedroom blocks. The development will occupy 65% of the total plot coverage. The total size of the plot is 1.517 Ha.

The proposed residential apartments will be on plot L.R No. SIGONA/1625 in Kikuyu Town Council in Nairobi. The site is next to Sigona Clinic off the Nairobi-Nakuru Highway.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental issue</i>	<i>Mitigation Measures</i>	
Vegetation disturbance	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by the construction work. • Specify location for vehicles and equipment and areas of the sit which shall be kept free of traffic equipment and storage. • Designate access routes and parking within the site. • Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. • Design and implement an appropriate landscaping programme to help in revegetation of part of project area after construction. 	Health and safety
Increased solid waste generation	<ul style="list-style-type: none"> • Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Reduction at source, 2. Recycling, 3. Reusing, 4. Incineration, 5. Sanitary Land filling. • Through accurate estimation of the dimensions and quantities required. • Use of durable, long lasting materials that shall not need to be replaced as often as, thereby reducing the amount of waste generated over time. • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. • Use building materials that have minimal or no packaging to avoid generation of excessive packaging waste. • Reuse packaging materials such as cartons, cement bags, empty metal and plastic containers to reduce waste at site. • Dispose waste more responsibly by contacting a waste registered handler who will dispose the wastes at designated sites only. • Waste collection bins to be provided at designated points only. 	Fire hazards
		Energy resources management
		Water and energy management
Dust emission	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations. • Sprinkle water during excavation works by heavy machines. • Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles. • Dust masks to be provided to employees and worn. • Use environmentally friendly fuels. 	Noise and vibrations

- Minimize the period for machinery idling.
- Pursue good practices in energy use during operations and sensitize staff.
- Provide appropriate personnel protective equipment to site workers.
- Comply to the OSHA
- Provide personnel and passers-by signage and warnings traffic control signs and warning.
- Develop a traffic management plan to ensure that site vehicles do not interfere with the regular traffic on the Project area.
- Provide for appropriate signage and warnings at work sites.
- Provide appropriate personnel Protective Equipment (PPE) to site workers.
- Provide for First Aid facilities as per the OSHA, 2007.
- Provide for an appropriate traffic management plan to avoid congestion on road leading to her project area.
- Provide and clearly display emergency contacts.
- Develop and implement detailed and site specific Emergency Response Plans
- Ensure fire extinguishers are stationed in visible places.
- Security personnel and occupants to be trained in fire fighting skills.
- Drilling exercise to be conducted regularly.
- Train substation operators on fire fights
- Ensure machinery is regularly serviced to improve efficiency in consumption of energy.
- Energy management through use of sound/appropriate equipment.
- Application of rated equipment in welding and related works.
- Use of efficient mechanical plant and energy savers on sites.
- Provide adequate and appropriate drainage infrastructure where required.
- Ensure machinery is regularly serviced to avoid leakages and/or spillages.
- Implement erosion and sedimentation controls.
- Energy management through use of sound equipment.
- Application of rated equipment in welding and related works.
- Use of efficient mechanical plant and energy savers on sites.
- Sensitize construction vehicle drivers and machinery operators to switch off engines or machinery not being used.
- -Sensitize the construction vehicle drivers to avoid avoiding unnecessary hooting.
- Ensure that construction machinery are kept in good condition to reduce noise generation.
- Sound barriers to be elected round the construction site.
- The noisy construction.
- Works should be entirely planned to be during day time.

- Increased storm water, runoff and soil erosion
- Surface runoff and roof water shall be harvested and stored in reservoirs so that it can be used for other purposes within the project site.
 - A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of retention with graduated outlet structures shall be designed.
 - Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
 - Ensure that compacted areas are ripped to reduce run-off.
- Oil spills
- -Install oil trapping equipments in areas where there is a likelihood of oil spillage such as during the maintenance of construction of maintenance equipment
 - Soil in such an area shall be well protected from contamination.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ACACIA JUNCTION SERVICE STATION ON L.R. NO. KABETE /LOWER KABETE/T.342 'B' IN KIAMBU DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed Acacia junction service station.

The proposed project involves development of a petrol station with a basement floor, ground floor and first floor. The basement floor shall accommodate parking, a store, generator/compressor room and control room while the ground floor shall accommodate the canopy over pump (s), service bay; lubricants shop, manager's office, reception and the cashier's office, cloak rooms.

The project site will be on L.R. No. Kabete /Lower Kabete/T.342 'b' at the junction of Lower Kabete road and Gachie-Kikuyu road in Kiambu district.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Changes in hydrology/impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures.

Soil erosion	<ul style="list-style-type: none"> • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptors and drainage channels for any leaks. • Control earthworks. • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil (black cotton soil).
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Proper use of PPEs.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of construction machinery on effects of noise. • Maintain plant equipment (if present/used). • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs. • Appropriate selection of machinery.
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain plant and equipment to avoid leaks. • Maintenance of construction vehicles should be carried out in the contractors yard (off the site). • Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pump islands.
Water resource	<ul style="list-style-type: none"> • Management of water usage. Avoid unnecessary wastage especially at the car washing bay. • Recycling of water at the construction phase where possible. • Use of water conservation signs at the wash rooms and install water conserving taps.
Public health and occupational safety	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities. • Ensure effective wastewater

management.

- Design of sewerage system should be as provided in the plans.
- Provide First Aid kits on the site
- Sensitize residents/workers on environmental management.
- Ensure there is no poding to eliminate breeding of mosquitoes during construction.
- Workers should be trained on occupational health & safety and first Aid administration.
- Train staff on petroleum product handling.
- Sensitize workers on HIV and AIDS.

Vegetation

- Landscaping and planting all disturbed areas.
- Planting flowers / grassing should be done just before the rains or irrigated on dry spells.

Fire safety training/ Emergency response procedures (ERPs)

- Training in fire fighting and regular drills.
- To enhance health and safety preparedness among stakeholders
- Ensure equipment is in good working condition.
- Put up emergency response contacts.
- Put up ERP notification instructions.
- Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations.

Fire outbreak

- Install fire-fighting equipment as provided by municipal council fire department.
- Sensitize the residents on fire risks i.e. conduct regular fire drills.
- Adapt effective emergency response plan.
- Provide emergency numbers at strategic points.

Water quality and waste management

- Construct oil interceptors and monitor daily.
- Strict adherence to the provisions of Waste Management and Water Quality Regulations.
- Construct adequate and standard septic tank.
- Reduce waste at source, recycling and disposal of unrecyclable waste in approved dumpsites. The proponent should explore engaging the services of a registered waste handler.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED LIQUEFIED PETROLEUM GAS STORAGE AND DISTRIBUTION DEPOT ON LR NO.12715/ 604 SYKIMAU, MACHAKOS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed liquefied petroleum gas storage and distribution depot.

The proponent proposes to construct and operate an LPG storage and distribution terminal. The project will include construction of the following infrastructure: LPG storage area comprising of four steel LPG mounted tanks having a total capacity of 800m³, cylinder filling area which comprise of filling shed and storage area, compressor/pump house, LPG loading and offloading area, LPG accessories store, fire fighting shed, fire fighting system, generator/switch room building, weigh bridge, office block and a workshop/worker rooms/toilets

The proposed project is located off Mombasa road on plot No. 12715/604 which is approximately 2.022 hectares in size.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental issue</i>	<i>Mitigation Measures</i>
Air quality	<ul style="list-style-type: none"> • Develop and implement effective measures for minimization of dust during construction phase. • Ensure that construction and demolition take into account the need to prevent and minimize release of fugitive emissions during the operational phase. • Ensure the design, monitoring and safety systems installed for the facility must comply with established industry standards and national and international best practice. • Implement, audit and regularly improve HSE measures for emergency response to air pollution incidents during the operation phase.
Waste	<ul style="list-style-type: none"> • Develop and implement safe procedures for management of non hazardous and hazardous wastes in accordance with L.N. 121, Waste Management Regulations of 2006. • Contractor is responsible for waste during construction and the proponent during the operational phase of the project.
Spill response	<ul style="list-style-type: none"> • Establish an early warning system and identification of contingency plans for spill response.
Waste Water management	<ul style="list-style-type: none"> • Monitor quality of water used as hydroset water for the storage tanks and pipelines used for the project before being discharged into the environment. Management of water quality as per L.N. 120, the Water Quality regulations of 2006.

- Noise and vibration
- Implement measures during the construction, operation and decommissioning phases to prevent and manage noise and vibration.
- Socio-economic
- Compatibility with existing and proposed land uses.
 - Proponent to create public awareness about 'safe' land uses of any future projects in the vicinity of the proposed project area.
 - Implement where feasible measures to employ local community members during both construction and operational phase.
- Occupational health and safety
- Develop, and implement measures to promote the health and safety of contractors and employees during construction and operational phases.
- Risk of fire outbreak and explosion
- Develop, and implement measures to minimize risks and injuries to the workers and public during construction and operational phases.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
