KENYA REVENUE AUTHORITY
KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF KENYA REVENUE AUTHORITY FOR THE YEAR ENDED 30 JUNE 2011

I have audited the accompanying financial statements of Kenya Revenue Authority (KRA) set out at pages 2 to 16, which comprise the Statement of Financial Position as at 30 June 2011, the Statement of comprehensive Income, the Statement of Changes in Equity and Statement of Cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 12 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

The Management of Kenya Revenue Authority is responsible for the preparation and fair presentation of these financial statements in accordance with the International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 12 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with provisions of Section 12 of the Public Audit Act, 2003. The audit was conducted in accordance with the International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed with a view to obtaining reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Basis for Qualified Opinion

1. Financial Performance

During the year under review, the Authority posted a deficit of Kshs.426,221,000.00 (2009/2010 Kshs.1,018,274,000.00), therefore reducing the accumulated fund from Kshs.1,066,201,000.00 in the previous year to Kshs.669,632,000.00 as at 30 June 2011. Although the deficit reduced by approximately 58% during the current year, it is a matter of concern that the Authority has in the past four years posted negative results. Further, the Authority reported a negative working capital of Kshs.405,052,000.00 as reflected in the statement of financial position as at 30 June 2011. The Authority's ability to carry out its mandate in the long run is therefore under threat.

2. Property, Plant and Equipment

- i. As disclosed under note 8 (i) to the financial statements, the balance of Kshs.7,176,786,000.00 in respect of Land and Buildings as at 30 June 2011 does not include the value of various parcels of land located at different parts of the country. According to the management, these parcels of land have been excluded from the financial statements because they were transferred by the Government to KRA at no purchase consideration and with no title documents.
- ii. The Authority has also not obtained ownership documents for twenty (20) parcels of leasehold land with buildings, whose carrying value as at 30 June 2011 was Kshs.851,650,000 (2009/2010 eleven (11) parcels of leasehold land with a carrying value of Kshs.710,759,591.00).

Qualified Opinion

In my opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects the financial position of the Authority as at 30 June 2011 and of its financial performance and its cash flows for the year then ended, in accordance with the International Financial Reporting Standards and comply with the Kenya Revenue Authority Act, Cap 469 of the Laws of Kenya.

EDWARD R.O. OUKO
AUDITOR-GENERAL

Nairobi

30 November 2011

MANAGEMENT'S RESPONSIBILITY STATEMENT

The Kenya Revenue Authority Act requires Management to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Authority and its operating results for that year. It also requires Management to ensure that the Authority keeps proper accounting records which disclose, with reasonable accuracy, the financial position of the Authority. Management is also responsible for safeguarding the assets of the Authority and maintenance of adequate system of internal financial control.

Management accepts the responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in accordance with International Financial Reporting Standards and the requirements of the Kenya Revenue Authority Act. Management is of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Authority and of its operating results.

Nothing has come to the attention of Management to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

NOTES TO THE FINANCIAL STATEMENTS

1. ESTABLISHMENT

Kenya Revenue Authority was established by an Act of Parliament, The Kenya Revenue Authority Act, and CAP 469. The Authority's objectives are the assessment and collection of revenue, administration, enforcement of laws relating to and accounting for revenue collected under the Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements are prepared under the historical cost basis of accounting as modified by the revaluation of certain items of property, plant and equipment and fair value adjustments to investments. They are presented in Kenya Shillings (Kshs.) rounded to the nearest thousand shillings and comply with the International Financial Reporting Standards (IFRS).

(b) Income Recognition

i) Agency Income

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is "such amounts not exceeding 2% as may be determined by the Minister each financial year" of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities.

During the year, the effective rate was 1.65% of estimated exchequer revenue amounting to Kshs 9,948,000,000. Out of this Kshs 9,035,724,901 agency commission was received and Kshs 912, 275,099 had not been received by the year end.

ii) Other Income

Interest Income is recognised on a time basis at the effective interest rate applied on the principal amounts outstanding

Rental income is recognised on accrual basis.

Other incomes are recognised when earned.

(c) Development funding and asset Contributions by the Treasury

Contributions by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(d) Property, Plant and Equipment

The value of land is not reflected as prepaid lease rentals as the land was allocated to the Authority at no purchase consideration.

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. No depreciation is provided on freehold land. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. A full year's depreciation is charged in the year of purchase but no charge is made in the year of disposal.

The estimated useful life is as follows: -

Plant & Machinery	8 years
Equipment/Furniture/Fittings	8 years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(e) Intangible Assets

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(f) Translation of foreign currencies

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Retirement Benefits Obligations

The Authority operates a hybrid pension scheme with a defined benefit section and a defined contribution section for the permanent and pensionable employees. The pension costs relating to this scheme are assessed in accordance with the advice of a qualified actuary. The assets of the scheme are held in a separate trustee-administered fund. The cost of providing pension and other post-retirement benefits for employees is charged to the income and expenditure account.

(h) Cash and Cash equivalents

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(i) Accrued Leave Days Provision

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by the employees up to the balance sheet date.

(j) Taxation

The Authority is exempt from taxation on investment income.

(k) Inventories

All consumable stocks held for use in operations are expensed on purchase

TERMS OF REFERENCE

LEGAL DRAFTING OF REGULATIONS FOR DOWNSTREAM PETROLEUM, ELECTRICITY TARIFFS AND REGULATORY ACCOUNTS

Background

The Energy Regulatory Commission is established under Section 4 of the Energy Act, 2006 (the Act) as an autonomous single sector regulator following the operationalization of the Act by the Minister for Energy on 7th July 2007. The objects and functions of ERC as stated in the Energy Act Section 5 include: regulating importation, exportation, transmission, distribution, supply, and use of electrical energy; importation, exportation, transportation, refining, storage and sale of petroleum and petroleum products; production, distribution, supply and use of renewable and other forms of energy, among others.

On September 1, 2008, ERC through the World Bank Credit No. 3958 KE, procured the services of Mercados and Houston & Associates to conduct a study titled “Consulting Services to assist with the Drafting of Regulations, Codes, Procedures, Guidelines, Licenses and Permits” for the energy sector. The consultant delivered the final report which recommended a broad framework for regulations for downstream petroleum, electricity and energy efficiency. Some recommendations are in descriptive technical format which cannot be issued as legal documents.

ERC wishes to procure the services of a consultant to review, address any drafting inadequacies and/or draft in parliamentary language to be in the form which will be ready for submission to the Minister for Energy for gazettment.

The Petroleum Sub Sector

1. The petroleum sub sector in Kenya is made up of the following key institutions:

- (a) The Kenya Petroleum Refineries Limited (KPRL) which has a design capacity of about 3.2 million tones crude oil throughput per year is currently operating at only 1.6 million tones per year. KPRL operates as a throughput refiner for licensed importers of crude oil who pay a refining fee. It is owned 50/50 by the Government of Kenya (GOK) (50%) and Essar of India;
- (b) The Kenya Pipeline Company (KPC) which is wholly owned by GOK owns and operates an 800 kilometers oil pipeline from Mombasa to Eldoret and Kisumu with intermediate storage depots in Nairobi and Nakuru;
- (c) The Kipevu Oil Storage Facility (KOSF) is owned by GOK and managed by KPC. It is used for receipt and storage of imported refined petroleum products before transfers into the pipeline for upcountry destinations;
- (d) There are eight privately owned bulk storage depots in Mombasa
- (e) In Nairobi there are five bulk storage depots of which four are private owned and one belongs to the state owned National Oil Corporation of Kenya (NOCK);
- (f) About 40 companies have been licensed for importation, wholesale and exportation of petroleum products;
- (g) There are more than 100 licensed independent wholesalers and resellers; and
- (h) There are approximately 1500 retail dispensing sites in the country of various sizes out of which about 700 are owned by the major oil companies

2. The operations of the industry are characterized by a number of common user facilities (jetties, refinery, pipeline and depots) facilitated by several agreements and operating procedures. All imports of petroleum products are through an open tender system coordinated by the Ministry of Energy.

The Electricity Sub Sector

1. The principal operators in the electricity sub-sector are:-

- (a) Kenya Electricity Generating Company (KenGen) which accounts for close to 83% of the installed generation capacity on the interconnected system, which capacity includes two emergency power plants operated by Aggreko in Nairobi and Eldoret under KenGen Licenses;
- (b) Independent Power Producers (IPPs), including Iberafrica Power (EA) Ltd, Tsavo Power Company Ltd, OrPower4 Inc and Mumias Sugar Company Ltd, which account for the balance of the installed generation capacity;
- (c) Kenya Power and Lighting Company (KPLC), which purchases power in bulk from KenGen and a number of IPPs currently in operation through PPAs approved by the Commission;
- (d) Rural Electrification Authority (REA) which is mandated to, *inter alia*, develop and update the rural electrification master plan, implement the rural electrification programme and promote the use of renewable energy sources;
- (e) Geothermal Development Company (GDC) which has been formed in the recent past for the purpose of exploiting the hugely untapped geothermal energy potential; and
- (f) Kenya Electricity Transmission Company (Ketraco) also formed in the recent past to develop new transmission lines.

2. The maximum demand on the interconnected system for most of 2008 and 2009 has been about 1,050 MW while the installed capacity is about 1,365 MW. The system load factor is about 77%. The main sources of power generation are hydro, thermal and geothermal power plants.

3. Generation from biomass, wind (probably one of the best resources in the world lies between Marsabit and Lake Turkana) and solar currently account for very little, their potential notwithstanding.

4. Power from the various sources is delivered to consumers over KPLC's transmission and distribution network. As at June 2008 the transmission network comprised 1,323 km of 220 kV and 2,085 km of 132 kV lines, and is interconnected with Uganda through a 132 kV double circuit line rated at 2 x 86 MVA. The distribution network comprises 632 km of 66 kV lines, 23,573 km of 11 kV, and 12,633 km of 33 kV. There are nine generation substations with a transformation capacity of 1,633 MVA, forty-five transmission substations with a capacity of 2,818 MVA and several distribution substations with a capacity of 1,951 MVA. There are over 17,000 distribution transformers with a capacity of 4,138 MVA.

5. Proportions of power demand in the four KPLC supply regions as a percentage of the National demand are estimated at 50% for the Nairobi Region, 20% for Western, 20% (Coast) and 10% for the Mt. Kenya Region.

Regulations on Downstream Petroleum

1. Prior to the enactment of the Energy Act, 2006, the downstream petroleum sub sector was regulated under the now repealed Petroleum Act, Cap. 116 which was enacted in 1948 with amendments in 1972. The old act and the rules made therein proved ineffective for proper regulation of the current operations and structural set up of the sub sector. To address this shortcomings, and make regulations under the new act ERC contracted the services of Mercados – Energy Markets International S.A. of Spain in association with Houston & Associates of Canada and Aberdare Engineering Ltd of Kenya (Mercados) for “consulting services to assist with the drafting of Regulations, codes, procedures, guidelines, licenses and permits under the Energy Act No. 12 of 2006” (the Mercados study). The consultant has delivered the final report in which they have recommended several regulations for electricity, downstream petroleum and energy efficiency.

Regulations on Electricity

1. Prior to the enactment of the Energy Act, 2006, the electric power sub-sector was regulated under the now repealed Electric Power Act, 1997. The process of developing rules and regulations under the Electric Power Act, 1997 was not complete by the time the Act was repealed. To advance the process of making comprehensive regulations under the new act: ERC contracted the services of Mercados – Energy Markets International S.A. of Spain in association with Houston & Associates of Canada and Aberdare Engineering Ltd of Kenya (Mercados) for “consulting services to assist with the drafting of Regulations, codes, procedures, guidelines, licenses and permits under the Energy Act No. 12 of 2006” (the Mercados study). The consultant has delivered the final report with recommendations for several regulations for electricity, including for the electricity tariff code and regulatory accounts.

NEED FOR LEGAL DRAFTING OF REGULATIONS FOR DOWNSTREAM PETROLEUM, ELECTRICITY TARIFFS AND REGULATORY ACCOUNTS

1. The regulations recommended in the Mercados report for downstream petroleum, electricity tariffs and regulatory accounts are in descriptive technical format which may not be issued immediately as legal documents. ERC wishes to bring the existing regulations issued under the earlier and now repealed acts under the Energy Act, 2006 and to redraft the recommendations of the Mercados study into legal documents. ERC currently does not have adequate in-house capacity for this legal drafting and has therefore decided to engage short term legal consultants to help with the drafting.
2. This is critical for the sector as it will ensure that the changes originating from the enactment of the Energy Act, 2006 are properly anchored into law through subsidiary legislation.

Objectives of the Consultancy Services

1. The objective is to undertake actual legal drafting of the recommended technical and economic regulations for downstream petroleum, electricity tariffs and regulatory accounts. Specifically, the Consultants are required to draft the detailed legal texts of the recommended regulations into legal format ready for recommendation to the Minister for Energy for approval in accordance with the Energy Act, 2006.

Scope of the Consultancy Services

1. The Consulting firm will be required to review the following studies and documents in so far as they relate to this assignment:-

- (a) The Petroleum Act, Cap 116. (now repealed) and the rules and regulations made thereunder
- (b) The Electric Power Act, Cap. 314 and Rules and Regulations made thereunder
- (c) The Electric Power Act, 1997 and Rules and Regulations made thereunder.
- (d) The Energy Act, 2006 and any regulations made therein;
- (e) The Mercados Study and the recommended regulations for Downstream Petroleum, Electricity Tariffs and Regulatory Accounts; and
- (f) Any other relevant materials for purposes of carrying out this assignment.

4. Redraft the existing rules and regulations for submission to the Minister under the Energy Act. 2006, taking into account any developments in technical standards, legal requirements, operating parameters since the regulations were made and the recommendations of the Mercados Study.

5. More specifically; Review the petroleum section of the Final Report of the Mercados Study and draft the detailed legal texts for the following eleven recommended petroleum regulations into legal format ready for recommendation to the Minister:

- (ix) Draft Regulations on Principles, Rules and Procedures for Operation of the Open Tendering System for Importation of Petroleum.
- (x) Draft Regulations in respect of the Provision of Petroleum Statistics and Information to the Energy Regulatory Commission; and

6. Further; Review the electricity section of the Final Report of the Mercados Study and draft the detailed legal texts for the following two electricity regulations into legal format ready for submission to the Minister:

- (i) Draft regulations on electricity tariffs regulation Code.
- (ii) Draft regulations on Regulatory Accounts for regulated entities
