(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITYDRAFT STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA)
FOR THE ACT! NATURAL RESOURCES (CHANGIENI RASILI
MALI) PROGRAMME FOR NON STATE ACTORS IN KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 42 and 43 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received DRAFT Strategic Environmental Assessment (SEA) Report from the Act! on Natural Resource Management Programme funded from the Government of Sweden and the Department for international development. The SEA findings are also expected to influence policy development in Natural Resource Management in Kenya.

The four (4) year programme has the following key objectives:

1. To ensure the programme interventions are compatible with sustainable environmental planning and management in Kenya.
2. To inform and influence the process of implementing the Kenya Constitution with a focus on agriculture, land and water and with natural resources management and climate change as cross cutting themes.
3. To identify the reform gaps in the management of natural resources that are not being addressed by the existing legislation and institutions where the Non State Actors could contribute through advocacy, citizen's engagement, awareness and education.
4. To proactively inform the governance and management of natural resources in the devolved system of government including the county level.
5. To identify and make recommendations on the increasing role, rights, decision making and capacity required by citizens at the local level on the environment and natural resource sectors, including land, agriculture and water.

The key findings of the detailed SEA are summarized below.

The SEA established that the Changieni Rasili Mali (CRM) programme Facility is relevant in the implementation of the current PPPs in environment and natural resources management. However, the programme can be strengthened in order to enhance the positive impacts to the environment and livelihoods. The following policy gaps and weaknesses were identified as areas in which the programme could contribute through lobbying, advocacy and capacity building by NSAs:

- Accelerating the approval of pending environment and natural resources policy and legal frameworks such Draft Environment Policy, Draft Wetlands Policy, Draft ASALs policy.
- Formulation and implementation of important policies which are non-existent especially the following:
 - National Land Use Policy.
 - National Charcoal Policy.
 - National Groundwater Policy.
 - National Green Energy Policy.
 - Advocacy for the establishment of a climate mitigation fund.
 - Advocacy for the development of county climate mitigation strategies.

In addition, a number of gaps were identified in other on-going programmes The SEA recommends that the Changieni Rasili Mali (CRM) Facility should get involved in these areas in order to improve the ENRM sector in Kenya. They include the following:

- Sustainable land management.

- Management of invasive species.
- Sustainable forestry including dry land forestry.
- Integrated water resources management.
- Sustainable agriculture development.
- Domestication of MEAs.
- Promotion of CDM projects.

The SEA also identified some areas that the Changieni Rasili Mali (CRM) Facility can engage as stipulated in the current national plans and strategies especially Vision 2030 under the Land Sector; Water Sector; Agriculture and Rural Development; and Environment and Climate Change.

The full DRAFT SEA report on the implementation of the Changieni Rasili Mali (CRM) programme is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding the SEA comments can also be e-mailed to dgnema@nema.g.ke.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED BULK STORAGE OF LIQUEFIED PETROLEUM GAS IN KISUMU TOWNSHIP ON PLOT NUMBER KISUMU / NYALENDA'B' / 1911 NYABERA VILLAGE IN KISUMU EAST DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Bulk Storage of Liquefied Petroleum Gas in Kisumu Township on Plot Number Kisumu / Nyalenda'B' / 1911 Nyabera village in Kisumu East District.

The Proponent (Enworld (EA) Limited) of the proposed Bulk Storage of Liquefied Petroleum Gas is proposing to build a modern, medium sized LPG storage and filling plant in Kisumu with an initial storage capacity of 100 metric tonnes and a filling rate of 1000 cylinders per hour.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Dust and gaseous emissions	<ul style="list-style-type: none"> Watering should be done where appropriate during construction. Control speed and operation of vehicle on site. Use environmentally clean fuels for the vehicles coming onsite.
Solid waste generation	<ul style="list-style-type: none"> A reputable solid waste handler will be

	contracted to regularly collect solid waste.
	<ul style="list-style-type: none"> • There will be adequate provision of strategically placed waste bins at the facility to ensure that there is no idle litter.
Loss of top soil cover	<ul style="list-style-type: none"> • Avoid unnecessary movement and disturbance of soil surface. • Resurface/pave open areas after the completion of the project. • Apply soil erosion control measures such as the leveling of project site to reduce runoff, velocity and increase infiltration of storm water into the soil.
Surface Drainage System	<ul style="list-style-type: none"> • Drainage channels should be installed in all areas that generate or receive surface water such as car parking and driveways. • Drainage channels should be covered with gratings to prevent occurrence of accidents and entry dirt that would compromise flow of run-off. • The channels should be designed with regards to the peak volumes such as periods or seasons when there is high intensity of rainfall for avoid overflow. • Maintain existing drainage channels to avoid blockages.
Increased Energy Demand	<ul style="list-style-type: none"> • Switch off all electrical appliances when not in use • Use energy conserving electric lamps for general lighting.
Accidents and Occupational Risks	<ul style="list-style-type: none"> • Implementation of safety measures and emergency plans to contain accident risks associated with the product being handled. • A fully equipped first aid kit. • The contractor should have workmen's compensation cover. • Adequate clean sanitary facilities shall be provided.
Noise	<ul style="list-style-type: none"> • Workers should be provided with Personal Protective Equipment such as earmuffs when operating noisy operations. • Vehicle drivers and machinery operators to switch off engines of vehicles or machineries not being used. • Noisy operations should be done during the day.
Leaks from installations	<ul style="list-style-type: none"> • Regularly tests to ensure integrity of the installations such as air separators, valves, couplings, dispensing hoses and storage tanks. • Inventory management / stock reconciliation shall be done daily to ensure no leakages and to monitor available stocks. • Installations shall be made of strong material such as steel to ensure no leaks.
Accidental spills	<ul style="list-style-type: none"> • Sound engineering must be put in place. • Reliable operations and effective written operating procedures. • Good preventive and predictive maintenance techniques. • Commitment to safety. • Oil interceptors should be provided.
Risk of fire	<ul style="list-style-type: none"> • Install smoke detectors at strategic

locations in the site.

- Install gas detection system in a strategic location.
- Install fire alarms.
- Install and maintain firefighting equipment located at strategic points.
- Sensitize the workers on fire risks and use firefighting equipment.
- Sand buckets shall be easily accessible, full and ready to use.
- Observe safety precautions during loading and offloading of trucks.
- "No Smoking" rule shall be observed and all signs displayed, clean and easily legible to the customer.
- Provision of security throughout the project implementation.
- Provide emergency numbers at strategic points.
- Install emergency Stop Buttons.
- Install firefighting equipment and train staff on how to use them.
- Maintain a First Aid kit.
- Install water tank with large volume of water.
- Ensure sufficient parking space.
- Avoid unnecessary delays at the loading bay.
- One staff should be assigned the role of traffic management.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PRELIMINARY AND DETAILED ENGINEERING OF MISSING LINK ROADS IN NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed preliminary and detailed engineering of missing link roads in Nairobi.

The Proponent (Kenya Urban Roads Authority (KURA) of the proposed preliminary and detailed engineering of missing link roads in Nairobi. The proponent is proposing to carry on construction of five

new roads namely Accra Road Extension, Muratina Street, Ring Road Parklands (part), Ring Road Parklands Extension and Quarry Road Extension as well as dualling of Likoni Road Extension and Ring Road Parklands. The other component of the proposed project is provision of Non Motorized Transport (NMT) facilities along three major traffic corridors namely Rabai and Jogoo and Lusaka Roads.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact Mitigation measures

Soil disturbance from road building and associated excavation.	<ul style="list-style-type: none"> • Preference for dry season construction. • Avoid building roads in very steep terrain (>60% slope). • Spreading and/or compaction of disturbed soils incorporated into BOQ. • Install sufficient number of water bars and/or culverts along the roadside ditches to minimize the amount of water that accumulates; more if the area is steep. • On steeper slopes, line roadside ditches with riprap or sow grass or other cover crops to anchor the soil. • Add splash aprons or energy dissipaters at the outlet of culverts. • Add a requirement for the use of silt curtains or mulching for particularly important drainage areas. • Ensure adequate maintenance of such drainage ways to prevent blockages and failure.
Water and soil contamination	<ul style="list-style-type: none"> • Restrict movement of vehicles to one route only wherever possible. • Sprinkle water to allow particles to settle. • Encourage growth of vegetation cover.
Road construction crossing water courses or wetlands.	<ul style="list-style-type: none"> • Preference for dry season construction. • Identify suitable crossing points and realign the road if needed. • Establish national riparian zone management policy and apply it. • Ensure adequate size & number of culverts/bridges passing watercourses or wetlands. • Avoid cut & fill road construction adjacent to torrential or flashy streams that could wash away the toe slope and sink the road platform. • Avoid constricting water flow with bridges or drifts. • Suitably sized bridges, both volume and spread to accommodate natural flows.
Waste management	<ul style="list-style-type: none"> • Designate a specific place as dumping site. • Where possible recycle the waste materials. • Encourage the worker to be responsible. • Enough and avoid deliberate dumping of waste materials such as plastic material.
Noise Level	<ul style="list-style-type: none"> • Limit Working hours in areas where there is settlement. • Use personal protective equipment in ears when working with equipment with high noise. • Regular maintenance of equipment and plants. • Impose speed limits.

Water sources for construction work	<ul style="list-style-type: none"> • Follow the stipulated noise level standards by NEMA and WHO. • Avoid abstraction of water from the rivers. • Avoid abstraction of water from rivers especially during dry season when the water volumes are low. • Water use should be obtained or supplied at night when demand is low.
Increased vehicular traffic	<ul style="list-style-type: none"> • Need for sealed roads within urbanized areas. • Speed bumps to slow traffic and enforcement of speed limits. • Construct wider shoulder widths or improved condition to allow for pedestrian use. • Road signage alerting drivers to the dangers of passing on a dusty road plus "no passing zones".
Construction and operation of borrow pits	<ul style="list-style-type: none"> • In case the contractor opens up a borrow pit he will have to establish and implement a borrow pit management plan. • Engage local community authorities to take responsibility for long-term borrow pits in their area.
Establishment, operation and decommissioning of construction crew camps	<ul style="list-style-type: none"> • Proper siting with a preference for flat sites and standardized layout with adequate and clearly specified pollution safeguards. • Careful attention to water supply issues so as not to disadvantage local residents with whom these are shared during construction. • Full cleanup and decommissioning costs incorporated into BOQ.
Dust impact	<ul style="list-style-type: none"> • Frequent heavy watering is proposed to help reduce dust in site route and surrounding areas.
Displacement of Businesses by Road	<ul style="list-style-type: none"> • Identify an alternative space to relocate the affected traders.
Storage and handling of materials	<ul style="list-style-type: none"> • Ensure that safety procedures are followed, wearing of personal protective equipment, having fire prevention plan and fire equipment, training workers handling them and maintenance of construction vehicles.
Impacts on Soil and hydrology	<ul style="list-style-type: none"> • Incorporate erosion control measures • Works on culverts to be done in dry season. • Proper disposal of construction debris and solid wastes from impending water bodies and drainage systems. • Proper handling, storage and disposal of oil wastes. • Proper disposal of wastewater sewage at contractors' workmen camps. • Maintain plant and equipment. • Maintenance of construction vehicles should be carried out in the contractors' camps.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MANGU-THIKA EAST 66KV DUAL
CIRCUIT SUB-TRANSMISSION POWER LINE, IN THIKA WEST
DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Mangu-Thika East 66kV dual circuit sub-transmission power line, in Thika west district.

The Proponent (The Kenya Power & Lighting Company Ltd.) is proposing to construct and commission a Ten (10) kilometre 66 kV dual circuit sub-transmission line from Mangu 132/66 kV Substation to Thika East Substation in Thika west district.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Soil and Geological impacts (soil erosion, soil contamination, soil instability)	<ul style="list-style-type: none"> Back fill concrete poles after erection and foundation setting with excavated soil. Any remaining soil should be spread under tea plantations or trees and on gentle grounds to avoid possibilities of soil erosion. Rehabilitation of exposed sites as soon as practicable. Contractor to follow existing road as much as practical and avoid unnecessary trails which can exacerbate soil erosion.
Trees clearance	<ul style="list-style-type: none"> Limit way leave areas to 10 m where line traverses private land and ensure that it runs along the road reserve and the existing way leave as much as possible. Kenya Power will estimate Total Economic Value of lost trees & allocate equivalent monies to support initiatives by community and do tree planting elsewhere. Ensure Proper demarcation and clear only necessary areas.
Air quality & dust	<ul style="list-style-type: none"> The Contractor to protect stockpiles of loose material subject to wind blow by wetting, or with a barrier, vegetation, or windscreen. Cover loads of loose material during transportation.
Pollution from waste generation	<ul style="list-style-type: none"> Develop and implement procedures for safe and appropriate disposal of waste for all project phases.

Water resources and Water quality	<ul style="list-style-type: none"> Any service/repair of vehicles to be done offsite in approved garages or service stations. Measures shall be instituted to minimize erosion and sediment transport, especially during construction activities.
Noise & vibration	<ul style="list-style-type: none"> The Contractor shall comply with the legal requirements for the management of noise impact as specified in NEMA noise and excessive vibrations rules 2009.
Visual & aesthetic impacts	<ul style="list-style-type: none"> Follow the road reserve and new power line to run along the existing 11, 66 & 132 kV line to reduce visual intrusion. Maximize straight-line runs to reduce the need for HT poles which are more conspicuous.
Way leave trace	<ul style="list-style-type: none"> Kenya Power to follow Land Administration Laws of Kenya, and Way Leave Rules. Kenya Power to obtain way leave consent from affected land owners Community sensitization on alternative land uses. Compensation of the affected people for any trees cut, crop damage or relocation of any structure.
Fire Hazards	<ul style="list-style-type: none"> The Contractor shall take all necessary precautions to prevent fires caused either deliberately or accidentally during construction process. The Contractor shall provide adequate fire fighting appliances at specified localities on the worksite to meet any emergency resulting from ignition of a fire. No burning of any litter/cleared vegetation on site. Avoid careless handling of cigarette butts.
Wetland Ecosystems	<ul style="list-style-type: none"> Span poles across wetlands to avoid disturbance and to maintain ground clearance. Pole foundations to be strong enough to withstand wet conditions and strong winds.
Impacts on Archaeological, cultural and historic sites	<ul style="list-style-type: none"> Respect cultural values and avoid erection of poles on sensitive sites like graves. Have a provision for chance find and if any Archaeological or historic finds are detected, contact National Museums of Kenya.
Occupational Health & Safety	<ul style="list-style-type: none"> Locate Right-of-Way (RoW) away from human receptors. Staff training and regular equipment service and testing Only trained & certified workers to install, maintain or repair electrical equipment. Use of signs, barriers and education/public outreach to prevent public contact with potentially dangerous equipment. Community policing to be encouraged to reduce vandalism of transformers and transmission cables. Ensure provision and proper use of Personal protective Equipment. Follow safe work procedures. Maintain a fully stocked and accessible first aid kit.

- Avifauna
- Observe OSHA 2007 regulations.
 - The new line to run along an existing line where birds are used of the obstacle to prevent any accidental collisions and electrocutions.
 - Regular Monitoring and record any Avi – Fauna death.
- Social Impacts
- Kenya Power will identify all potential Project Affected Persons (PAPs) & document any damages or possible relocation of structures and compensate at the market rates.
 - Appropriate on-going consultation with local communities throughout Project construction as well as informing workers on local cultural sensitivities and health matters.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed waste-oil recycling plant on plot No. Kadzongo/Madzimbani/2090 (on Mariakani-Kilifi road).

The Proponent (Candid Petroleum Limited) is proposing to develop a waste oil recycling plant which will involve installation of an offloading point for the waste oil from road tankers comprising of two horizontal underground holding tank for the waste oil of capacity 20m³ and one JZC waste oil equipment.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Changes in hydrology/ impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Ensure efficiency of drainage structures through. • proper design and maintenance. • Provide gratings to the drainage channels.

Soil erosion	<ul style="list-style-type: none"> • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptor and drainage channels for any leakage. • Control any earthworks. • Rehabilitate degraded environment to avoid siltation and wash offs. • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated soil. • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of construction plant and equipment. • Engage sensitive construction workers. • Proper use of PPE. • Maintain plant equipment. • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear respective safety & protective gear i.e. earplugs & earmuffs. • Appropriate selection of machinery.
Air pollution through dust and gaseous emissions	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain plant and equipment to avoid leaks. • Provide oil interceptors along the drains leading from waste-oil handling area.
Noise pollution	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible. • Use of water conservation signs at the wash rooms and install water conserving taps.
Oil pollution	<ul style="list-style-type: none"> • Special attention should be paid to the sanitary facilities on site especially disposal of human waste. • Garbage should be disposed off in accordance with NEMA requirements.
Water resource	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles especially along road links leading to the site. • Provide bill boards at the site/entrance to notify motorists about the development.
Contractors lay down area	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities • Ensure effective wastewater management. • Proper design of sewerage system. • Provide First Aid kits on the site. • Sensitize residents/workers on environmental management. • Ensure there is no ponding to eliminate breeding of mosquitoes during construction.
Road safety	
Public health and occupational safety and health	

- Workers should be trained on occupational health & safety and first Aid administration.
 - Train staff on Waste-oil handling.
 - Sensitize workers on HIV and AIDS.
- Vegetation**
- Landscaping and planting all unpaved areas.
 - Planting flowers / grassing should be done just before the rains or irrigated on dry spells.
- Fire safety training/ Emergency response procedures (ERPs)**
- To enhance health and safety preparedness among stakeholders.
 - Ensure equipment is in good working condition.
 - Put up emergency response contacts.
 - Put up ERP notification instructions.
 - Put up simple instructions on how to handle fires, Spills, armed robbery and natural hazards.
 - Install a fire – fighting equipment as provided by OSHA 2007.
 - Sensitize the residents on fire risks i.e. conduct regular fire drills.
 - Adapt effective emergency response plans.
 - Provide plant safety performance statistics at a strategic point.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CORNER BARIDI WIND FARM IN NGONG SOUTH FOREST OFF THE ROAD TO MAGADI, KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Corner Baridi Wind farm in Ngong south forest off the road to Magadi, Kajiado county.

The Proponent (Prunus Energy Systems Limited) of the proposed Corner Baridi Wind farm is proposing to install a 50 MW wind power comprising 25 turbines mounted on 67 metres high towers supported by necessary electrical power generation and transmission infrastructure for the scale of such a project.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Loss of vegetation cover and habitat	<ul style="list-style-type: none"> • Introduction of vegetation (trees, shrubs and grass) on open spaces and around the project site and their maintenance. • Avoid destruction of natural habitat/flora for fauna. • Design and implement an appropriate landscaping and paddocking programme to help rejuvenate pastures in the project area following construction. • Allows maximum spacing between the turbines. • Avoid intensive lighting of the wind turbines to reduce attractiveness to nocturnal birds. • Use underground transmission cables between turbines to avoid interference with bird flight paths. • Timing construction in consideration to possible wildlife issues.
Soil erosion	<ul style="list-style-type: none"> • Roadways and footpaths will be paved with impervious material. • Drainage will be constructed to control storm rain water. • Excavation restricted to onsite access road surface and sites for tower foundations. • Excavated earth held away from trenches and locations of sites that are not susceptible to surface water run-off. • Re-vegetation of exposed areas with grass and trees to mitigate soil erosion from surface water run-off. • Installation of drainage trenches and construction of run-off ponds and water holding ponds to contain surface water run-off.
Air pollution by dust and VOCs generated during construction process.	<ul style="list-style-type: none"> • All personnel working on the project will be trained prior to starting construction on methods for minimizing air quality impacts during construction. • Heavy earth moving vehicle drivers will be under strict instructions to minimize unnecessary trips, refill petrol fuel tanks in the afternoon and minimize idling of engines during construction. • Exposed stockpiles of e.g. dust and sand, will be enclosed, covered, and watered daily, or treated with non-toxic soil binders. • All workers will be required to wear PPE. • Construction machinery and equipment will be well maintained to reduce exhaust gas emissions.
Pollution from hazardous waste	<ul style="list-style-type: none"> • Handling of the materials using the material safety requirements provided by the manufacturers. • Appoint a safety officer to ensure that proper disposal guidelines are observed. • Maintenance and/or piece of work carried out on any piece of equipment or construction work will be undertaken by qualified personnel. • In the event of spillage, emergency spillage control measures to be instituted.

Noise and vibration by construction activities.	<ul style="list-style-type: none"> • Use of equipment designed with noise control elements will be adopted where necessary. • Trucks used at construction-site shall be routed away from noise sensitive areas where feasible and limited to off-peak hours of operation. • Idling time for pick-up trucks and other equipment will be minimized. • All workers operating in noisy areas or operating noisy equipment will be provided with ear protection to protect against extreme noise. • Comply with recently issued Noise and Vibration Regulations, 2009. • Comply with L.N. 25: Noise prevention and control rules, 2005 • All construction work completed during the day. 	<ul style="list-style-type: none"> • Refuse collection vehicles will be covered to prevent scatter of wastes by wind. • Wastes will be collected by a licensed operator to avoid illegal final dumping at unauthorized sites. • All persons involved in refuse collection shall be in full protective attire.
Traffic and Transport	<ul style="list-style-type: none"> • Adequate maintenance carried out to reduce emissions. • Vehicles will comply with axle load limits. • Well trained and experienced drivers will be used. • All special transport will be done in accordance with Kenya police and road 	<p>Increased water demand</p> <ul style="list-style-type: none"> • Sensitizing construction staff to avoid irresponsible water use. • Water storage tanks will be erected so as not to strain local sources. • Construction of strategically located animal watering point/storage and rehabilitate existing bore holes. • Preserve water springs and sink more boreholes.
Surface water and groundwater hydrology and water quality degradation	<ul style="list-style-type: none"> • Preparation of a hazardous substance control response plan (include preparations for quick and safe clean-up of accidental spills). • Soil information from trial hole digging will be provided to construction crews to inform on soil conditions and potential hazards. • Oil absorbent material, and storage drums will be used to contain and control minor releases of engine and other equipment oil. 	<p>Increase in water borne or water related diseases</p> <ul style="list-style-type: none"> • Investments in Disease awareness raising and control measures. • Avoid stagnant or slowly moving water. • Filling or draining of borrow pits. • Disease prophylaxis and Disease treatment.
Workers accidents and hazards	<ul style="list-style-type: none"> • Compliance with occupational Health & Safety Standards. • Training in Health and Safety procedures • Adequate collection and storage of waste will be provided on-site, and safe transportation to, and display methods at designated areas. • All receptacles for storing hazardous wastes shall be adequately covered. • All employees will be required to wear PPE when handling hazardous wastes. • All workers will be adequately insured against unforeseen accidents. • Exposure to dust from cements and sands minimized. • Adequate lighting provision inside and outside living areas. • Security personnel employed to guard project, and site well fenced. 	<p>Increased storm water run-off</p> <ul style="list-style-type: none"> • Create diversion channels to ensure that no water flows across rehabilitated area until they are stable • Control surface run-off by to minimise erosion, and allow replenishment of the water table. Where possible create watering points for livestock and wildlife.
Generation of solid waste	<ul style="list-style-type: none"> • Wastes to be collected regularly to control air pollution and vermin/insects etc. • Receptacles will be provided for waste segregation and storage prior to collection. • Resource recovery will be encouraged once the project takes off so as to shrink waste stream and recover non-recyclables. 	<p>Ecological change and ecological imbalances</p> <ul style="list-style-type: none"> • Animal rescue and relocation where necessary. • To ensure that invasive alien plant species are not introduced to the area and should they be identified then these alien plant species should be immediately removed.
		<p>Human Migration</p> <ul style="list-style-type: none"> • Population monitoring coordinated through the district office. • Establishment of a moratorium over the host area as soon as possible, to avoid people hoping to acquire land from moving into the area. • Development of local community infrastructure for which may include: Water supply, recreational centre, roads, sanitation, education, health facilities, etc to improve livelihood of the community.
		<p>Fire safety training/ Emergency response procedures (ERPs)</p> <ul style="list-style-type: none"> • To enhance health and safety preparedness among stakeholders. • Ensure equipment is in good working condition. • Put up emergency response contacts. • Put up ERP notification instructions. • Put up simple instructions on how to handle fires, Spills, armed robbery and natural hazards. • Install a fire – fighting equipment as provided by OSHA 2007. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adapt effective emergency response plans. • Provide plant safety performance statistics at a strategic point.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED DEVELOPMENT OF IRRIGATION
SCHEME IN LOWER SIO, BUSIA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed development of irrigation scheme in Lower Sio, Busia County.

The Proponent (National Irrigation Board) is proposing to develop irrigation schemes which will entail construction of intake structures, canals and drainage infrastructure in Lower Sio Basin covering Butula, Busia, Nambale and Samia Districts, all in Busia County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air Pollution	<ul style="list-style-type: none"> Spray water on dry murram road surfaces to prevent fugitive dust emissions during dry weather. Regularly service and maintain vehicles and mobile plants/machinery.
Soil quality degradation	<ul style="list-style-type: none"> Carry out turfing of top soil and plantation of trees immediately completion of civil works and demobilization. Implement measures at the design stage that will ensure canals and conveyance pipelines are sited in areas that limit soil quality degradation. Use organic manure more frequently and limit reliance on agro-chemical fertilizers.
Drainage & Irrigation	<ul style="list-style-type: none"> Establish salinity monitoring regime to be used in the project. Design of intake structures to integrate alignment with river bank protection requirements. Conduct periodic water quality monitoring to determine salinity status.
River erosion and Siltation	<ul style="list-style-type: none"> Design of intake structures to integrate alignment with river bank protection requirements. Carry out monitoring of civil works and enforce design standards. Plant vegetation on disturbed grounds.
Degradation of wetlands	<ul style="list-style-type: none"> Carry out survey to ensure design of

canals and pipelines by-pass wetlands.

Water pollution due to construction activities and use of agro-chemicals	<ul style="list-style-type: none"> Design planning should ensure that consideration is provided that prevents impediments to natural drainage. Ensure there is proper construction and installation of intake structures as per design specifications. Practice integrated pest management (IPM) to reduce over-reliance on agro-chemicals. Conduct on-farm farmer training and extension services. Conduct on-farm farmer training and extension services.
Blocked or restricted access to fish migration	<ul style="list-style-type: none"> Location selection of the intake structures to factor migratory patterns of <i>Labeo</i> fish species. Maintain uninterrupted water courses as much as practicable in all the construction sites. Ensure there is proper maintenance of fish passes and regulators at the intake points.
Disruption of flora, fauna, physical structures	<ul style="list-style-type: none"> Realign design of canals and pipelines to eschew built up physical structures. Confirm sites and locations in order to avoid areas of existing vegetation and ensure correct interpretation of and adherence to design drawings. Undertake tree planting after completion of construction works.
Land acquisition and resettlement	<ul style="list-style-type: none"> Minimize need for land acquisition by designing canals and pipelines to pass on road reserves as much as possible. Identify affected groups likely to lose land, consult and incorporate their views. Prepare and implement an appropriate compensation package.
Disruption of agricultural activities	<ul style="list-style-type: none"> Design in order to minimize disruption to existing agricultural activities and land uses through proper site selection. Reinstate affected land areas after construction. Provide compensation where temporary disruptions of subsistence farming takes places that may not necessary require resettlement.
Safety of workers	<ul style="list-style-type: none"> Develop and communicate site safe work procedures and emergency procedures/protocols. Designate HSE Officer to be in-charge of enforcing site compliance with HSE Requirements and Rules. Provide construction plants and equipment that are mechanically sound and without patent defects. Provide adequately stocked first aid kits and at least one trained first aider per site.

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED WASTE TO ENERGY FACILITY AT DEL
MONTE FARM ON PLOT L.R. NO. 13289, THIKA, KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed waste to energy facility at Del Monte farm on plot L.R. No. 13289, Thika.

The Proponent (Pinpower Limited) of the proposed waste to energy facility at Del Monte farm is proposing to substitute the existing poorly managed, aerobic wastewater treatment system by an anaerobic treatment system with biogas recovery equipment which consist of: 1 acidification tank of 4,000 m³, 2 up-flow anaerobic sludge bed reactors (UASB) of 6,000 m³ in total, 4 high concentrated solid reactors (HCSR) of 10,000 m³ in total, 1 hydrolyzing chamber of 2,000 m³, Buffer pond and a Post treatment pond.

The following are the anticipated impacts and proposed mitigation measures:

Possible impact	Mitigation measures
Geology and soils	<ul style="list-style-type: none"> All quarry sites shall be clearly indicated on the plan and approved by the local authority for use. To prevent erosion all non-built up areas should be landscaped. Vehicles used on the site should be refueled offsite. In the exceptional cases, a mobile fuel bowser should only take place at a designated, bunded area.
Surface water	<ul style="list-style-type: none"> If possible initial construction activities should be undertaken during the dry season to prevent water/soil run-off especially on side slopes. Water should also be diverted away from the project footprint areas through property constructed drainage channels. Ensure that spills emanating from construction plant and equipment are cleaned immediately before release to the environment. Contractor to adhere to construction HSE management plan during the construction phase.
Ground water	<ul style="list-style-type: none"> Vehicles used in site should be refueled offsite. In the exceptional cases, a mobile fuel bowser should only take place at a designated, bunded area. Contractor to adhere to construction HSE.
Ecology	<ul style="list-style-type: none"> Set up measures to ensure that during Pre-construction and construction, impacts on sensitive ecological areas are minimized and that good management is exercised during operation to prevent ecological impacts.

Air quality

- Develop and implement effective measures for minimization of dust followed by rehabilitation in a timely manner. Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.

Noise and vibration

- Contractor's plant and equipment should comply as a minimum with requirements of L.N. 25: Noise Prevention and Control Rules, 2005
- The power plant will be designed to maintain noise levels at 70dB (A) at the fence line. The Proponent will develop, rollout and implement a written hearing conservation program for those employees that may be exposed to noise environments exceeding 90 dB (A) over an 8-hour time weighted average period or 85 dB (A) continuous noise. This is in accordance with L.N.25 Noise Prevention and Control Rule 2005.

Socio-economic

- Implement where feasible measures to employ local community members.
- Implement measures to manage expectations about job creation. Develop and put into practice strategies to minimize crime, to include effective communication with landowners to inform them about the movement of work teams, and codes of conduct for contractors and employees.
- Ensure effective communication with communities to limit expectations of employment creation. Develop and implement a HSE program for employees.

Traffic

- Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials and abnormal loads.

Health and safety

- Develop and implement contractor safety rules which include the relevant provisions of OSHA, WIBA and their respective subsidiary legislation. Specifically ensure that the contraction complies with L.N 40: Building Operations and Work of Engineering Construction Rules, 1984.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 3052, Nairobi.

(c) County Director of Environment, Kiambu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

FOR THE PROPOSED CONSTRUCTION OF NDAU SEAWALL IN
NDAU/KIZINGITINI WATERFRONT IN NDAU ISLAND, LAMU
COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed construction of Ndau Seawall in Ndau/Kizingitini waterfront in Ndau Island, Lamu County for the Ministry of Public Works.

The Proponent (Government of Kenya, Ministry of Public Works) of the proposed construction of Ndau Seawall in Ndau/Kizingitini waterfront in Ndau Island, Lamu County has proposed to carry out construction of 1,300 metres long Ndau Seawall, repair of Kizingitini and Lamu Seawall, extension of Kizingitini Seawall by 300 metres, repair of Kizingitini breakwater, filling up with approved materials behind the Seawall to make up levels and, construction of concrete paved walkway, staircases, mooring bollards and boat slipways along the Seawall.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Noise pollution	<ul style="list-style-type: none"> Sensitize workforce including operators of construction machines. Install sound barriers for pile driving activity. Install portable barriers to shield compressors and other small stationary equipment where necessary. Put up signs to indicate construction activities. Maintain all equipments. Workers in the vicinity of high level noise to wear safety and protective gear. Adhere to the provisions of the Factories and Other Places of Work (Noise Prevention and Control) Rules, 2005 regarding workplace noise limits. Adhere to the provisions of the Environmental Management and Coordination (Noise and Excess Vibration Pollution) (Control) Regulations, 2009 regarding environmental noise limits.
Dust Generation	<ul style="list-style-type: none"> Spray stock piles of earth with water Cover all trucks hauling soil, sand and other loose materials. Provide dust screen where necessary.
Exhaust Emissions	<ul style="list-style-type: none"> Vehicle idling time shall be minimized. Alternatively fuelled construction equipment shall be used where feasible. Equipment shall be properly tuned and maintained.
Soil erosion	<ul style="list-style-type: none"> Control earthworks. Install drainage structures properly. Ensure management of excavation activities.
Water resources	<ul style="list-style-type: none"> Management of water usage.

	<ul style="list-style-type: none"> Avoid unnecessary wastage of water. Avail storage tanks. Harvesting of rain water.
Cleanliness and sanitary facilities	<ul style="list-style-type: none"> Special attention shall be paid to the sanitary facilities on site. Garbage shall be disposed off periodically.
Air pollution	<ul style="list-style-type: none"> Stockpiles of earth should be sprayed with water or cover during dry seasons. Provide dust masks for the personnel in dust generation areas. Sensitize construction workers.
Road safety	<ul style="list-style-type: none"> Road signs on main roads. Enforce speed limits for construction vehicles.
Public health and occupational safety	<ul style="list-style-type: none"> Ensure proper solid waste disposal and collection facilities are in place. Proper handling and disposal of solid waste as required in the Environmental Management and Coordination (Waste Management) Regulations, 2006. Proper handling and disposal of liquid waste as required in the Environmental Management and Coordination (Water Quality) Regulations, 2006. Adhere to the provisions of the Occupational Safety and Health Act (OSHA), 2007 including: <ul style="list-style-type: none"> ✓ Provision of suitable personal protective equipment (PPE) and ensuring their compulsory use where the task deems so. ✓ Issuance of Permit to Work were necessary. ✓ Report and investigate accidents at the workplace, etc. Adhere to the provisions of the Public Health Act
Biodiversity Impact	<ul style="list-style-type: none"> Non drilling of the sand dunes if found on site. Flora: very limited; moved if encountered Fauna. Best construction and drilling methods will be applied to avoid disturbance. Appropriate design and construction of the Seawall. Regular monitoring. Abide by the provisions of the Merchant Shipping Act, 2009.

FOR THE PROPOSED DIAMOND BEACH RESORT ON L.R. NO.
KILIFI/JIMBA/1125 IN WATAMU AREA OF KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Diamond Beach Resort on L.R. No. Kilifi/Jimba/1125 in Watamu area of Kilifi County.

The Proponent (Seven Islands Watamu Limited) of the proposed Diamond Beach Resort is proposing to carry on construction of a beach resort at watamu. The project will comprise of 91 hotel rooms, 22 apartments, 3 swimming pools, beach volley ball court, lawn tennis court, commercial zone and business centre among other facilities.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Impact on marine environment	<ul style="list-style-type: none"> Observe the 60m riparian reserve setback as this will serve as a buffer zone. Comply with the provisions of Legal Notice No. 19 of 2009. Comply with the recommendations of the shoreline management strategy for Kenya for Cell 14. Secure excavated sites to ensure that soil heaps are not eroded into the sea. The proponent will collaborate with Kenya Wildlife Service, local BMU/Fisheries Department, Local Ocean Trust /Watamu Turtle Watch and other agencies to explore ways of supporting conservation programmes for the marine environment.
Destruction of the physical environment	<ul style="list-style-type: none"> Following the completion of the entire development, measures will need to be undertaken to restore degraded habitats and biodiversity and curb soil erosion. Undertake landscaping and planting of sediment binding grasses and gardening. A key consideration will be the replacement of indigenous trees that will have been felled during the construction process. Excavations will be limited to foundation areas only. Ensure that any compacted areas are ripped to reduce run-off.
Impact of sourcing of raw materials from environment	<ul style="list-style-type: none"> Obtain raw materials from sources that are compliant with NEMA Regulations. Procure quantities that are sufficient for the intended works only. Recycle as far as practical to stem wastage. Commit to extensive use of recycled raw materials as will be appropriate and in a manner that does not compromise the safety of the development.
Noise pollution	<ul style="list-style-type: none"> Locate concrete mixers as far as practical from neighboring properties.

- Inform neighbors in writing prior to commencement of the development so that they are prepared psychologically at least two weeks in advance.
- Employees using equipment that produce peak sounds shall be provided with earmuffs.
- Comply with the provisions of Noise Regulations (Legal Notice No. 61 of 2009).
- Secure the site using appropriate dust screens.
- Sprinkle building materials that are likely to produce dust such as ballast with water before use to suppress dust.
- Access road and dust surfaces at the construction site should be sprinkled with water twice a day.
- Employees will be provided with appropriate dust masks.
- Provision of adequate and appropriate Personal Protective Equipment (PPE) including safety shoes, helmets, gloves and overalls.
- First aid services and an emergency vehicle to be readily available at site.
- Securely protect moving parts of machines and sharp surfaces with guards to avoid unnecessary contacts and injuries during construction phase.
- Ensure that all chemicals used in construction are appropriately labeled or marked.
- The construction site to be registered as a workplace with the Directorate of Occupational Health and Safety.
- Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Reuse 4. Disposal.
- Transportation of wastes from the site to be done by a NEMA registered solid waste handler who will use appropriate vehicles for conveyance of wastes from site to designated sites.
- Comply with the Waste Management Regulations, 2006.
- Heavy commercial vehicles delivering raw materials shall observe designated speed limits for the area.
- Personnel shall be deployed at site entry and exit to direct traffic in and out of the site. Security personnel could double in this role.
- Proper signage and warnings to be placed on the access route to forewarn other motorists on the use of the road by heavy commercial vehicles.
- Educating visitors on the importance of conservation of marine resources.
- Installation of mooring buoys for boats and sea craft used by the resort. The delineation of the designated mooring area shall be done in consultation with the local BMU, LOT/WTW and Kenya Wildlife Service.
- Initiating marine conservation programmes that tourists can participate in such as adoption of sea turtle nests to help raise awareness and funds for conservation.

- Impact of beach lighting installations and beach use on sea turtles
- Diffuse lighting systems should be adopted for the houses facing the beach.
 - Minimize night movement on the beach on the part of visitors.
 - Carry out daily early morning monitoring of the beach frontage for any possible sea turtle nesting activity.
 - Maintain recommended setback lines for all activities including daily removal of sun bathing beds from the beach at night fall.
 - Keep records of sea turtle sightings/stranding in the area and submit them to KWS and if possible share data with Watamu Turtle Watch.
- Potential conflicts with local fishers
- Collaborate with the local BMU and Fisheries Department in decision making regarding the use of shared resources such as beach usage and access.
 - The proponent should always endeavor to solve amicably any conflicts that may arise from the use of marine resources.
 - Give priority to local fishermen for relevant job opportunities that may arise.
- Effluent generation
- Sewage/wastewater will be managed through the construction of wastewater recycling plant.
 - The design of the recycling plant should ensure that the quality of water discharging from it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006.
 - Regular monitoring of the quality of water discharged or recycled to ensure that it meets the standards specified under Schedule III of Legal Notice No. 120 of 2006.
 - Kitchen sinks to be fitted with oil and grease traps.
 - Apply for an effluent discharge licence from NEMA in compliance with Legal Notice No. 120 of 2006
- Increased water demand
- Ensure sources of water for use meets the standards specified under schedule I of Legal Notice No. 120 of 2006 (standards for domestic supply).
 - Install self regulating water taps for sinks and basins.
 - All water for use shall be metered to determine consumption levels and yields of the underground water sources.
- Possible fire hazards
- Prepare and implement a Fire Hazard Response Plan
 - Only qualified personnel (electrical engineers) to install electrical systems for the resort.
 - Engineering standards to meet provisions for adequate and safe wiring; plumbing, heating, and cooling systems will also be in conformity with acceptable building codes.
 - Install fire alarm detection and notification systems.
 - Install smoke and heat detectors.
 - Prominently display guidelines on what guests, visitors and staff should do in the event of a fire.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
