FOR THE PROPOSED KARIBU HOMES RESIDENTIAL ESTATE
ON PLOT L.R. NO. 10426/14 ALONG MUTUNGONI ROAD OFF
MOMBASA ROAD, MAVOKO MUNICIPALITY, MACHAKOS
COUNTY.

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Karibu Homes Parktel Limited) is proposing to construct a residential estate of two and three bed-roomed apartments in one gated community. The project entails the construction of eight hundred and seventy one (871) residential units with forty eight (48) commercial units at the main entrance to the site. At the commercial centre, the proponent has provided for a police post and a chief's camp. A riparian of 30M along Athi River shall be maintained and converted into a relaxation/recreational park for the residents. Car parks will be provided at the ground floor of each residential block. The proponent will all provide an electric fence and live kei apple fence around the project site to enhance security within the site.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Solid waste	<ul style="list-style-type: none"> Provision of dustbins to temporarily hold the waste before disposal Reuse where possible or sale to authorized waste handlers/collectors Solid waste generated at the site is disposed of appropriately at authorized dumping sites regularly Proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements Solid waste generated on site must not find its way to the river at the rear end of the proposed site
Storm water	<ul style="list-style-type: none"> Construction of proper drainage systems across the estate Prevention of pollution during construction activities to minimize effects that may arise during surface runoff Instituting water saving strategies to minimize water use The drainage systems must be properly maintained to ensure no solid waste is carried away to Athi river to protect its aquatic ecosystem
Air and noise pollution	<ul style="list-style-type: none"> Limiting construction traffic movement and operation to efficient and necessary activities Routine maintenance of vehicles and other machinery to be used during construction process to reduce any chances of emissions Minimizing transportation activities to

	day time only
