(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Walter Ojwang Aganda (deceased), of Gem Siriwo Siaya in the Republic of Kenya, is registered as proprietor of that piece of land containing 1.7 hectares or thereabout, known as North Gem/Siriwo/664, situate in the district of Siaya, and whereas the High Court at Kisumu in succession cause No. 674 of 2013, has ordered that the said piece of land be registered in the name of William Onyango Waneno, and whereas all efforts made to compel the registered proprietor to surrender the land title deed issued in respect of the said piece of land to the land registrar have failed, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with the registration of the said grant document and issue a land title deed to the said William Onyango Waneno, and upon such registration the land title deed issued earlier to the said Walter Ojwang Aganda (deceased), shall be deemed to be cancelled and of no effect.

Dated the 16th May, 2014.

MR/4766525

P. A. OWEYA,
Land Registrar, Siaya District.

GAZETTE NOTICE NO. 3323

THE LAND REGISTRATION ACT

(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Magdalena Wambui Mbugua (deceased), is registered as proprietor of that piece of land containing 0.539 hectare or thereabouts, known as Nyandarua/Ol Joro Orok West/2562, situate in the district of Nyandarua, and whereas the High Court at Nakuru in succession No. 68 of 2009, has issued grant of letters of administration to Antony Mburu Mbugua, and whereas the title deed issued earlier to the said Magdalena Wambui Mbugua (deceased) has been reported missing or lost, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with registration of the said instrument of R.L. 19 and R.L. 7, and upon such registration the land title deed issued earlier to the said Magdalena Wambui Mbugua (deceased), shall be deemed to be cancelled and of no effect.

Dated the 16th May, 2014.

MR/4944853

N. G. GATHAIYA,
Land Registrar, Nyandarua/Samburu Districts.

GAZETTE NOTICE NO. 3324

THE LAND REGISTRATION ACT

(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Joseph Otieno Owango (deceased), is registered as proprietor that piece of land containing 1.6 hectares or thereabout, known as Central Kamuma/Kamuma/1627, situate in the district of Rachuonyo, and whereas the Oyugis law courts in succession cause No. 174 of 2013, has issued grant of letters of administration and transmission of document, and whereas efforts to trace the title deed have failed, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with the registration of R.L. 19 in the name of Wycliffe Joseph Ndiro, and upon such registration the land title deed issued earlier to the said Joseph Otieno Owango (deceased), shall be deemed to be cancelled and of no effect.

Dated the 16th May, 2014.

MR/4766554

J. O. OSILOLO,
Land Registrar, Rachuonyo North/South Districts.

GAZETTE NOTICE NO. 3325

THE LAND REGISTRATION ACT

(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Jane Wambui Lindalauf, is registered as proprietor of that piece of land known as Gede/Mijomboni/424, situate in the district of Kilifi, and whereas the Land Environment Court at Malindi in case No. 145 of 2013, has decreed that the said piece of land belongs to Yaa Simba Banzi alias Yaa Simba, and whereas the registered proprietor has refused to surrender the title deed issued in

respect of the said parcel of land, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said instrument and issue a new title deed to the said Yaa Simba Banzi alias Yaa Simba, and upon such registration the title deed issued earlier to the said Jane Wambui Lindalauf, shall be deemed to be cancelled and of no effect.

Dated the 16th May, 2014.

J. T. BAO,

MR/4944861 Land Registrar, Kilifi/Kaloleni/Malindi/Ganze Districts.

Dated the 30th April, 2014

PATRICK S. KHAEMBA,
Governor, Trans Nzoia County.

MR/49448859

GAZETTE NOTICE NO. 3328

THE KENYA INFORMATION AND COMMUNICATIONS ACT

(Cap. 411A)

APPLICATION FOR LICENCES

NOTICE is given that the following applicants have, pursuant to the provisions of the Kenya Information and Communications Act, 1998 made applications to the Communications Commission of Kenya for the grant of licenses as appears against their respective names.

Name	Address	License Category
Dreamline Courier Limited	P.O. Box 42551-80107, Mombasa	Intra-country Postal/ Courier Operator
Modern Max Limited	P.O. Box 53574-00200, Nairobi	Intra-country Postal /Courier Operator
Powermark Company Limited	P.O. Box 72661 Nairobi - 00200	Intra-country Postal/ Courier Operator
Reliable Courier and Freight Limited	P.O. Box 8502 Nairobi - 00100	Intra-country Postal /Courier Operator
Datalink Systems International Limited	P.O. Box 36767-00200, Nairobi	Network Facilities Provider Tier 3

The reason for the grant of the license is to enable the applicants to operate and provide Intra-country Postal/Courier and Network Facilities Tier 3 System and Services as indicated above against their respective names. The grant of these licenses may affect public and local authorities, companies, persons or bodies of persons within the country.

Any public or local authority, company, person or body of persons desirous of making any representation on or objection to the grant of such licenses as aforesaid must do so by letter addressed to the Director-General, Communications Commission of Kenya, Waiyaki Way, P.O. Box 14448 - 00800, Nairobi indicating the License Category on the outside of the cover enclosing it on or before expiry of thirty (30) days from the date of this notice and must forward to the applicant a copy of such representation or objection.

Dated the 13th May, 2014.

MUTUA MUTHUSI,
for Director-General.

GAZETTE NOTICE NO. 3329

THE WATER ACT

(No. 8 of 2002)

THE PHYSICAL PLANNING ACT
(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLAN

(PDP KTE/842/2014/1 for Proposed Site for Police Station)

NOTICE is given that the above-mentioned development plan has been completed.

The plan relates to land situated within Katse Township of Kitui County.

The Copies of the part development plan as prepared has been deposited for public inspection at the offices of Mwingi Sub County Administrator and County Physical Planning Officer.

The copies so deposited are available for inspection free of charge by all persons interested at offices of Mwingi Sub County Administrator and County Physical Planning Officer, between the hours of 8.00 a.m. to 4.30 p.m. Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plan may send such representations or objections in writing to be received by the District Physical Planning Officer, P.O. Box 33-90200, Kitui, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

MR/4766636
C. KITONGA,

GAZETTE NOTICE NO. 3119

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED WAREHOUSE FOR STORAGE AND MIXING OF WATER-BASED PAINTS ON PLOT L.R. NO. KISUMU/OJOLA/4790 AT KISIAN JUNCTION ALONG KISUMU-BUSIA ROAD, KISUMU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Crown Paints Kenya Limited) is proposing to construct a warehouse for mixing and storage of water based paints on her piece of land at Kisian (L.R. No. Kisumu / Ojola / 4790). The site is situated at Kisian Junction along Kisumu – Busia Road, Ojola Sub-Location, South – West Kisumu Location, Otonglo Division Of Kisumu North District in Kisumu County. It is anticipated that once the warehouse has been constructed, raw materials for manufacture of water based paint will be transported from Nairobi to the site for mixing, packaging, storage and dispatch to the market, this will

drastically reduce the Crown Paints Kenya Limited's operation costs - which will in turn lead to a reduction in the price of water based paints in the region.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Mitigation Measure
Excavation of the dead	<ul style="list-style-type: none"> The two grave sites on the plot will be identified; and The remains of the dead will be excavated and re-buried elsewhere in line with the local traditions.
Air pollution	<ul style="list-style-type: none"> Fence the site; Bulk earthworks for exaction should be carried out in a controlled manner; Suppression of dust measures e.g. water sprinkling; Use of personal protection equipments by the staff; Speed limits for vehicles and delivery trucks; No burning of any materials whatsoever should be permitted at the site; The regular maintenance vehicles and machinery to ensure that they are in good operating condition hence release minimal emissions into the air
De-vegetation	<ul style="list-style-type: none"> Re-plant some vegetation on completion of the construction and landscaping.
Solid wastes Management	<ul style="list-style-type: none"> Earth excavated from the construction site may be used as land fill within or outside the project area. It is suggested that the contractors identify suitable land fill sites with the necessary consultations; A suitable contractor (NEMA certified) should be commissioned to provide collection and disposal services; The Proponent should ensure that the contractor recovers all solid waste and building debris from the site and disposes it in a sensible manner before commissioning of the site; and Waste segregation, reuse; provision of waste bins
Noise and Vibration	<ul style="list-style-type: none"> Use of PPEs; Regular maintenance of equipment to keep it in good working condition; Operators of construction equipment to be made aware of the potential noise issues and how to minimize noise emissions; and Construction and transportation activities to be undertaken during daytime (i.e. from 8 am to 6pm).
Public Safety and Health	<ul style="list-style-type: none"> Fence the site; Dust suppression; Enforce speed limits for trucks delivery construction materials; Sound waste management procedures; and The contractor and management shall adhere to the provisions of environmental health and safety plan (EHS).
Occupation Safety and Health	<ul style="list-style-type: none"> Fence the site; Enforce speed limits for trucks delivery construction materials; Posting of signage;

- Contractors and the management shall use barriers and guards as necessary to protect employees and visitors from physical hazards.
 - The contractor and management shall adhere to the provisions of environmental health and safety plan (EHS)
 - Dust suppression; and
 - Enforce speed limits for trucks delivery construction materials.
- Contaminants spillages
- Institute a spillage management plan;
 - Proper labeling of containers for holding hazardous materials;
 - Servicing of machinery and equipments to be done at a designated place with a paved surface and oil interceptors.
 - Regular servicing of vehicles and machinery to be used during construction;
 - Proper storage, handling and disposal of oil and oil wastes; and
 - Any maintenance of construction vehicles and machinery should be carried out in the contractor's yard off site or at a petrol station.
- Fire and Explosion Hazards
- A firefighting equipment must be available at the site and on the vehicles;
 - No burning of solid waste should be carried out close to or within the facility;
 - Annual inspection of the electrical wiring system in the facility.
- Water consumption
- Process water will be treated and reused (closed circuit);
 - The area is served by both piped and borehole water;
 - Enough water storage tanks to be constructed ;
 - Avoid unnecessary wastage of water during operation; and
 - Residuals from fuels and lubricants used on site should be stored safely awaiting appropriate disposal in order to prevent migration of contaminant hydrocarbons into the site soil and water bodies.
- Energy Consumption
- Regular servicing of vehicles and machinery;
 - Switch off idle vehicles and machinery;
 - Use efficient energy consuming equipments ; and
 - Use energy saving bulbs
- Sewerage and Wastewater
- A closed circuit waste water treatment plant will be used to treat process water;
 - Conservancy tank / septic tank will be used for sewerage management;
 - Regular emptying of conservancy / septic tank;
 - Construction of storm water drainage system; and
 - Servicing of machinery and equipments to be done at a designated places with a paved surface and oil interceptors

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Kisumu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,

for Director-General,

MR/1483737

National Environment Management Authority.

GAZETTE NOTICE NO. 3120

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY THE DRAFT STRATEGIC ENVIRONMENTAL ASSESSMENT FOR THE AMBOSELI ECOSYSTEM MANAGEMENT PLAN (2008-2018)

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 42 and 43 of the Environmental (Impact Assessment and Audit) Regulations, of 2003, the National Environment Management Authority (NEMA) has received a Draft Strategic Environmental Assessment (SEA) for the Amboseli Ecosystem Management Plan (2008-2018).

The SEA findings are expected to ensure that the implementation of the plan is environmentally sustainable. The ten (10) year plan has the following key objectives:

- (a) maintaining seasonal wildlife movements across the entire ecosystem which is critical for the valued species in the area,
- (b) promoting public-private partnerships with local communities in the ecosystem in order to ensure more equitable sharing of benefits derived from the natural resources,
- (c) promoting sustainable tourism in the ecosystem, and
- (d) providing opportunities for research and conservation education.

The five management programmes in the plan are: a) Ecological Management, b) Tourism Development and Management, c) Community Partnership and Education, d) Security and e) Ecosystem Operations. Each of the management programmes has a 3-year Activity Plan consisting of individual management actions and day-to-day management activities that will be implemented and reviewed on regular basis.

The findings of the SEA showed that the plan is dominated by positive impacts in all the 5 programmes. Out of 250 plan activities only 27 were found to have potential negative impacts as highlighted below.

1. Ecological Management and Tourism Development Programmes

Potential Impact

Proposed mitigation

1. Social impacts of charcoal trade ban on community livelihoods and poverty reduction
Enforce the Forest Act (2002) Charcoal regulations
2. Impact of construction of wildlife watering points on resource conflict
Restrict the construction of wildlife watering points in Amboseli National Park and Community Conservancies in the Group Ranches
3. Impact of the construction of the Visitor Centre on range environment in Amboseli National Park
Undertake pre-project EIA and subsequently conduct regular EA after commissioning the Visitor Centre
4. Impact on range environment from construction of walking trails at Imerishari and Kitirua Hills
Undertake pre-project EIAs
5. Impact on climate change mitigation from construction of walking trails at Imerishari and

Kitirua Hills

6. Impact on range environment of developing and marketing tourist Bandas at the Losikutok conservation area in Mbirikani Group Ranch
 - Undertake pre-project EIA and subsequently conduct regular EA after commissioning the Bandas
7. Impact on the range environment of establishing and operating community tourism Bandas in Ologulului/Olorarashi Group Ranch
 - Undertake pre-project EIA and subsequently conduct regular EA after commissioning the Bandas
2. Community Partnership and Education Programme
 1. Impact of rehabilitation of Namelok and Kimana wildlife barrier fences
 - Evaluate the impact of the fence and carry out regular EA
 2. Impact of supplying adequate water to the dry season grazing zones
 - Undertake pre-project EIA and conduct regular EA
 3. Impact of re-establishing gazetted livestock holding grounds in Loitokitok Sub County and improvement of support infrastructure in the livestock markets
 - Undertake pre-project EIA and conduct regular EA
 4. Impact of constructing slaughter houses in the Amboseli ecosystem
 - Undertake a project feasibility study; ensure the local pastoralists have share in ownership of the slaughterhouse; engaging competent slaughterhouse managers
 5. Impact of establishing a livestock Disease Free Zone(DFZ)
 - Undertake pre-project EIA and conduct regular EA
3. Security Education Programme
 1. Impact on cross border wildlife security measures
 - Community participation in the implementation of joint security trans-boundary initiatives through their local and village leaders
 2. Deployment of adequate intelligence staff on public interests
 - Integration of wildlife and ecosystem security committees with county administration and security systems
 3. Deployment of adequate security to KWS facilities on land degradation
 - The plan should be very clear on land use and zoning so as to avoid conflicting land uses in one location and to avoid the devaluation of the tourism products by spinoff enterprises around the KWS gates, outposts and offices
4. Ecosystem Operations and Management Programme
 1. Impact of establishing a small medical laboratory at the Amboseli Health Clinic on water resources
 - The health clinic should eventually be served with an incinerator
 2. Impact of construction of staff houses and additional offices to house research and procurement sections
 - All future office and staff residences should be located outside the park in order to reduce the environmental footprint
 3. Impact of developing tourist roads outside the park
 - The roads should be designed with barriers manned by community game scouts in order to reduce the secondary negative impacts to conservation and tourism
 4. Impact of rehabilitating the

former staff canteen to convert it into a boarding facility for children from Amboseli Primary School'.

5. Impact from the provision of adequate water at the gates on protection of wildlife corridors and threatened species
 - Water supply at the gates should be restricted to national park uses and the adjacent environment outside the gate gazetted as non-development areas with dis-incentives for potential business investors
6. Impact of constructing a gate at Kitirua entry point on protection of threatened species
 - Zone Kitirua area as a zone for high end tourism with restriction to mass tourism so as to reduce the visitor impacts and retain it as a buffer zone

The SEA has also identified some areas in which the Amboseli Ecosystem Management Plan (2008-2018) can be strengthened in order to be more compliant with existing national environmental policies, legal frameworks and strategic plans as well as regional and international environmental obligations.

The full Draft Strategic Environmental Impact Assessment for the Amboseli Ecosystem Management Plan (2008-2018) is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,
National Environment Management Authority.

GAZETTE NOTICE NO. 3121

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PROPOSED 10 TPD SCRAP TYRE
PYROLYSIS PLANT ON LAND PARCEL NO. KILIFI/KAWALA
'A' KADZONZO/131 ALONG NAIROBI-MOMBASA HIGHWAY
NEAR KOKOTONI, RABAI DISTRICT IN KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Growell Industries Limited) is proposing to construct a 10 TPD Scrap Tyre Pyrolysis Plant to process ELT or waste tyre to produce fuel oil, carbon black, scrap metal (steel) and gas on land parcel no. Kilifi/kawala "A" Kadzonzo/131 along Nairobi-Mombasa highway near Kokotoni, Rabai District in Kilifi County.

The plant and machinery design shall entail the following components; a reactor, gas chimney and smoke pipe, cooling tower, power and gas controller, tanks – heavy oil and vacuum, draft fan, draft fan motor, blowers, pressure meter, screw conveyor with motor, pollution control unit – comprises cooling chamber condenser, wet scrubbing unit and chimney, pollution water tank – waste water treatment plant.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Soil disturbance, erosion, water pollution and dust	<ul style="list-style-type: none"> • Limit excavation to marked project areas • Refilling and paving to limit impacts on soil • Rehabilitate to NEMA approval
Waste generation	<ul style="list-style-type: none"> • Develop appropriate and adequate waste collection measures and facilities • Provide for waste segregation for efficient management • Manage materials responsibly to avoid it ending up as wastes • Develop clean up plans for wastes and spills • Dispose off waste generated through a NEMA licensed waste handler.
Air and Noise Pollution	<ul style="list-style-type: none"> • All personnel working on the project will be trained prior to starting construction on methods for minimizing air quality impacts during construction. • Construction heavy earth moving vehicle drivers will be under strict instructions to minimize unnecessary trips, refill petrol fuel tanks in the afternoon and minimize idling of engines. • Careful screening of construction site to contain and arrest construction-related dust. • Machines in intermittent use should be shut down when not in use or throttled down to a minimum
Waste water Generation	<ul style="list-style-type: none"> • Collect all waste and treat onsite for reuse/recycling • Ensure all sanitary liquid is discharged into the public sewer • Capture and contain runoff water from the tyre storage area for treatment before release to the environment • Put in place a monitoring program to ensure liquid waste from the plant is managed
Air emissions	<ul style="list-style-type: none"> • Develop and implement BMPs within the plant to minimize gaseous emissions • Maintain good housekeeping • Reuse hydrocarbon gas to fire the reactor • Monitor air quality for chimney stacks and ambient air quality • Install and maintain the Wet Scrubber for efficient control of air emissions – PAHs, VOCs and SPM • Regularly monitor piping systems to ensure no leakage of gases • Maintain stable pressure in tanks, and vapour recovery systems • Adopt a combined strategy including a reduction in energy demand, use of • cleaner fuels, and application of emissions controls • Develop a green belt around the project site to absorb toxic emissions

Managing oil spills	<ul style="list-style-type: none"> • Design oil storage areas with spill prevention and detection system • Storage and liquid impoundment areas for oil products should be designed with secondary containment (e.g. dikes/berms) to prevent spills and the contamination of soil, ground and surface water. • A retention area should be designed that surrounds the fuel storage tanks. • A spill response plan would be developed and put in place prior to commencement of construction.
Health and Safety Concerns	<ul style="list-style-type: none"> • Put in place an elaborate mechanism to prevent fires, accidents and work related safety hazards • Form a Health and Safety Committee to improve on the health and safety. • Undertake a risk assessment of the plant operations and implement necessary safety measures • Enhance a health and safety policy and emergency response procedures. • Conduct Health and safety audits annually and put in place appropriate corrective measures • Provide appropriate PPEs • Formulate contingency measures for accidental occurrences
Storage and handling of raw material/Scrap tyre	<ul style="list-style-type: none"> • The storage area will be paved to contain leachate from entering the soil • Flammable or combustible liquids, hazardous wastes or other ignitable materials should not be stored close to tyre stockpiles. • To prevent pests, vermin and diseases vectors, the stockpiles kept outdoors should be treated pesticides or insecticides for vector control • To prevent runoff water washing off the insecticides or pesticides off the tyres, the area should be kerbed.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Kilifi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,
for Director-General,

MR/4944670

National Environment Management Authority.

GAZETTE NOTICE NO. 3346

THE ENVIRONMENTAL MANAGEMENT AND

CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MIXED USE DEVELOPMENT ON PLOTS LR NO.
29173, 7785 / 345 and 7785 / 352 IN RUNDA, NAIROBI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (The Grove Limited) is proposing to develop a mixed use complex with a boutique hotel, a retail centre and office block on L.R. Nos. 29173, 7785/345 and 7785/382 situated in Runda (Northern Bypass) in Nairobi County.

The proponent proposes to develop a commercial centre that will have a 200 bed residential hotel comprising 14,223 square meters, a retail centre comprising 5,192 square meters on two floors and a basement parking for sixty one (61) vehicles and over-ground parking for ninety two (92) vehicles with outdoor seating, a four floor office block with a total area of 14,266 square meters having 8 offices per floor and a basement parking, and over-ground parking for four hundred (400) vehicles. Total parking in the complex will be for seven hundred and thirty six (736) vehicles. The hotel and the office blocks will have lifts to cater for the upper floors.

The following are the anticipated impacts and proposed mitigation measures:

Potential Impacts	Mitigation Measure
	Construction phase
Dust	<ul style="list-style-type: none"> Water sprinkling of the ground. Regular water addition to unpaved roads to be used by trucks. Control the speed and movement of construction vehicles.
Noise	<ul style="list-style-type: none"> Restrict construction activities to day time hours. Machines should be serviced to reduce on noise.
Destruction of the physical environment	<ul style="list-style-type: none"> Landscaping and replanting that will blend with the environment. Levelling of soils at the end of earth works. Proper disposal of the excavated soils.
Health and safety Hazards	<ul style="list-style-type: none"> Document emergency response procedures. Use of suitable personal protective equipment (PPEs). Use of stable ladders and other climbing/ support structures that have been tested and approved. Train the construction workers on safety measures. Fencing/covering of risky areas such as deep pits. Safety signage to be put up before commencement of works.
Contamination of water Resources by sewage	<ul style="list-style-type: none"> Provision of sanitary facilities for the construction staff. Installation of adequate water supply
Increase in traffic flow	<ul style="list-style-type: none"> Put up adequate road traffic signage. Temporary access from the Northern bypass.
Fire hazards and accidents	<ul style="list-style-type: none"> Install fire fighting facilities during both the construction and operation phases. Sensitize workers on fire safety during

all project phases.

- First aid box to be kept on site as well as training on its use.
- Conduct fire drills to test preparedness of staff.

Operation phase

- | | |
|---|--|
| Destruction of the physical environment | <ul style="list-style-type: none"> Site landscaping and planting of tree belts to prevent soil erosion and to reduce wind velocity. |
| Indiscriminate disposal of solid waste | <ul style="list-style-type: none"> Provision of adequate number of solid waste containers. Contract a licensed solid waste transporter. |
| Disposal of liquid waste | <ul style="list-style-type: none"> Connect to the sewerage system. |
| Increase in traffic flow | <ul style="list-style-type: none"> Put up adequate road traffic signage. |
| Storm water | <ul style="list-style-type: none"> In consultation with other developers provide adequate measures to channel storm waters to storm water drains. |

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,

for Director-General,

MR/4766660

National Environment Management Authority.

GAZETTE NOTICE NO. 3347

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ALUMINIUM BEVERAGE CAN
FACTORY ON PLOT LR NO. KJD/ KAPUTIEI-SOUTH/ 3875,
ENORETET VILLAGE WITHIN SULTAN HAMUD AREA OF
NKAMA LOCATION, KENYEWI DIVISION OF MASHURU
SUB- COUNTY IN KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (GZ Industries Kenya Limited) is proposing to set up an Aluminium Beverage Can Factory on Plot LR No. KJD/ KAPUTIEI-SOUTH/ 3875, about 6 kilometres past Sultan Hamud Town in Enoretet Village within Sultan Hamud area of Nkama Location, Kenyewa Division of Mashuru Sub- County in Kajiado County

The project will encompass the following: production / factory plant, accommodation and recreational facilities; a dining/ kitchen facilities, an office block, changing rooms, clinic, gate houses, road works and storm water drainage facilities, perimeter wall / fence, external service utility areas (diesel storage, LPG storage, compressor/ vacuum pumps, cooling towers etc.), external walkways and landscaping, waste water treatment facility.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>	
Soil erosion	<ul style="list-style-type: none"> • Proper planning of site clearing or disturbance of the natural vegetation. • Isolated sites with installations and frequent human presence that require re-vegetation will be surrounded by less palatable native species to act as plant screens and make less attractive to foraging wildlife. • Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas (including groundwater) are not polluted. 	<ul style="list-style-type: none"> • hydrocarbon fuels are used; • Observe the requirements of the emission control regulations
Air quality	<ul style="list-style-type: none"> • Provide personnel with Personal Protective Equipment & Clothing (PPE&C) such as dust masks, boots among others. Mechanism should be put in place to ensure PPE&C are specific for the activities at hand and are always worn within the project sites; • The stockpiles of earth generated during construction works, unpaved access roads and areas used for handling fine construction materials should be palliated with water regularly in order to suppressed evolution of particles; • All machinery and equipment should be maintained in good working condition in order to minimise emissions to acceptable standards; • Train construction and delivery trucks drivers on pre-cautionary measures that enable curb emissions for example advise on techniques to reduce dust evolution especially when driving in areas of dense human settlement or nearing the project site to avoid creating dusty conditions; techniques to conserve fuel and reduce emission by switching off the engines when vehicles are idling; • Construction trucks delivering materials to site should be covered in order to minimise spread of fugitive emissions to the surrounding areas; • No burning of materials should be permitted at the project site; • Use clean energy to fuel project vehicles, equipments and machines in order to reduce air pollutants 	<p>Occupational health and safety issues</p> <ul style="list-style-type: none"> • Ensure the working hours are controlled and that employees are not allowed to extend the working hours beyond an acceptable limit for purposes of gaining extra pay; • Ensure that all construction works close to existing infrastructure is supervised from the relevant authorities to guide activities such as excavation near the oil pipeline and railway line; • Ensure that ALL requirements as stated by KPC approval are adhered to at all phases of the project development; • Educate community, visitors and employees (both direct and indirect) against interfering with KPC infrastructure for example pipelines; and • Ensure appropriate road safety signages are strategically placed and drivers adhere to the requirements of such signage; • Erect speed breaks where human and vehicular traffic have high interaction opportunities; • Avoid activities likely to activate mudslides or rockfalls when working in steep areas for example avoid pouring excess water in muddy areas or steep slopes with soil; and
		Noise and vibration
		<ul style="list-style-type: none"> • Conduct periodic noise measuring and monitoring to determine levels and extent of harmful noise; • Clearly label the high noise areas. • Provide PPE (hearing protection) to persons operating within or visit identified high noise areas; • In order to meet noise level requirements, the works equipments should be equipped with standard noise attenuation features. Machines that exceed acceptable noise limits should be equipped with silencers or lagging materials or specially designed acoustic enclosures;
Risk of leaks and spill	<ul style="list-style-type: none"> • Conduct regular maintenance of site equipment and machinery to ensure leakages are controlled or detected early; • Project vehicles and equipment should be serviced according to manufacturer's requirements to limit release of exhaust emissions; • Investigate the possibility of fitting catalytic converters in machines with engines so as to convert harmful substance in the exhaust fumes to less harmful substances; • Safety procedures for fuel storage and re-fuelling should be well understood and implemented by site staff; and oil residuals including waste oil, lubricants, used filters, should be carefully collected and stored for safe disposal, in order to prevent spillover effects of contaminant hydrocarbons into storm water or groundwater resources; • Protect project area from fire by posting warning signs in area where 	<ul style="list-style-type: none"> • Inform local residents when construction activities are likely to generate excessive noise in order to minimize disruption to local residents; • Sensitise truck drivers to switch off engines while offloading materials; to avoid gunning vehicle engines or hooting especially when passing through sensitive areas such as churches, schools, residential areas and hospitals.
		Pollution
		<ul style="list-style-type: none"> • The management should ensure that solid waste is collected in a centrally placed area and the person responsible for collecting the waste is licensed by NEMA and the County Government of Kajiado to collect and dispose of waste. • The management should ensure that liquid waste from the proposed site is directed to the appropriate drains to the proposed waste water treatment works and further back to the natural water drains from Mashuru hills (to the south

west of the proposed project site).

- Traffic Management
- The management team should seek relevant approvals from the Ministry of Roads/ Kenya National Highways Authority (KENHA) who may then advise on the creation of an access entrance so as to reduce traffic congestion on the main highway;
 - The management should assign personnel to be in charge of traffic within the property/ factory premises in order to avoid traffic congestion within the property;
 - The possibility of communal modes of transport for employees should be explored.
- Fire Management
- Construct a band wall between the factory perimeter and the KPC oil pipe line to the north east of the proposed plot- to protect both the GZ Industries facilities and the KPC oil pipeline in case of a fire incident or accident;
 - Ensure that all persons on site wear anti-static footwear and clothing to avoid any static ignition;
 - Place portable fire extinguishers at suitable locations, according to the activities in the operation programme in conformity with the Factories and other Places of Work (Fire Risk Reduction) Rules, 2007;
 - Development of fire emergency procedures and pinning them up in a place where all workers can access them;
 - Training all staff on fire safety policy and procedures;
 - Allocating a fire assembly point;
- Loss of livelihood
- Provide earlier notice to all affected parties concerning the development;
 - Dismissal procedures should be compliant with the Employment Act, 2007;
 - Residence to be notified prior to any decommissioning of the proposed factory buildings and any other facility on site.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,
for Director-General,

MR/4944934

National Environment Management Authority.

GAZETTE NOTICE NO. 3348

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PETROL STATION ON PLOT L.R NO. NAIVASHA
PLOT 396/71 (PREVIOUSLY 396/28) ON MOI SOUTH LAKE ROAD,
NAIVASHA MUNICIPALITY OF NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Naivasha Health Park Limited) is proposing to construct a service station on plot L.R No. Naivasha Plot 396/71 (Previously 396/28) on Moi South Lake Road, Naivasha Municipality of Nakuru County

The actual design components of the proposed Project include: Construction of a Petrol Station structure, construction of 12no. shops, construction of 74 Parking lots, a car wash, a Lube bay, tyre centre, convenience store, landscaped court, Sewage treatment plant, development of utilities (water, drainage, electricity etc).

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Solid waste generation	<ul style="list-style-type: none"> • Provide solid waste handling facilities such as waste bins and skips • Ensure that solid waste generated at the development is regularly disposed of appropriately at authorized dumping sites • Donate redundant but serviceable equipment to charities and institutions
Sewage management	<ul style="list-style-type: none"> • Provide adequate and safe means handling sewage generated at the Hotel
Energy consumption	<ul style="list-style-type: none"> • Switch off electrical equipment, appliances and lights when not being used • Install occupation sensing lighting at various locations such as storage areas which are not in use all the time • Install energy saving fluorescent tubes at all lighting points within the proposed development instead of bulbs which consume higher electric energy • Monitor energy use during the operation of the project and set targets for efficient energy use • Sensitize the occupants to use energy efficiently
Air/Dust Pollution	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations • Avoid excavation works in extremely dry weathers • Sprinkle water on graded access routes each day to reduce dust generation by construction vehicles.
Higher and Safety Risks	<ul style="list-style-type: none"> • Implement all necessary measures to ensure health and safety of workers and the general public during operation of the Proposed Petrol Station project as stipulated in Factories and Other Places of Work Act Cap 514 • Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises during night hours.
Run off and soil erosion	<ul style="list-style-type: none"> • Create storm water management practices, such as piping systems or retention ponds or tanks, which can be

carried over after the building is complete.

- Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
- Ensure that construction vehicles are restricted to existing graded roads to avoid soil compaction within the project site.
- Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used.
- Sensitize construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as schools, residential areas and hospitals.
- Ensure that construction machinery are kept in good condition to reduce noise generation
- Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.

Noise pollution

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nakuru County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

SALOME MACHUA,
for Director-General,

MR/4730923

National Environment Management Authority.

GAZETTE NOTICE NO. 3349

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL STATION ON PLOT NO. 1499 NAMANGA, OFF NAMANGA-NAIROBI ROAD IN KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Gulf Energy Limited) is proposing to construct a service station on plot L.R NO 1499 Namanga off Namanga – Nairobi Road in Kajiado County

The petrol service station will comprise of a an impermeable concrete surface under the canopy,a u-shaped drainage tunnel with a steel grill top,underground fuel tanks (30m3 diesel tank, 15m3 kerosene, 30m3 super petrol) ,three breather points,a Heavy duty covered man hole for each of the underground tanks,Station manager office and station sales office,a store ,Sanitary facilities both for ladies and gents ,a septic tank ,3 pit interceptor, ,Compressor and generator

section,a steel canopy,ribbed concrete finish under the steel canopy ,2 pump isles,electronic fuel dispensers,associated piping work,fire assembly points,Entrance and exit

The following are the anticipated impacts and proposed mitigation measures:

Impact

Noise and Vibration levels

Mitigation Measure

- Barricading the area (erecting a boundary wall)
- Construction activities to be conducted during the day.
- Provision of appropriate Personal Protective equipment to protect workers from occupational noise
- Regular maintenance of plants and equipment
- Shutting down of engine vehicles when not in use to reduce on noise levels
- Conducting of noise measurements from different positions within and outside the workplace to establish prevailing noise levels and recommending appropriate mitigation measures.

Air pollution

- Use of dump method to mitigate on dust by sprinkling water on areas to be excavated.
- Soil compaction

Pressure on existing infrastructure i.e. roads, power, water among others

- Erection of warning and informative signs. i.e. notices, bill boards at the site during the construction phase and traffic control along the connecting road.

Contamination of the ground with oil and grease substances

- Maintenance should be carried out at designated service bays to avoid contamination of environment by resultant oil and greases.

Oil leaks and spills

- Regular inspection of underground tanks for leakages
- Construction of a three pit oil interceptor tanks to separate oil from sludge.
- Double walling of underground tanks to guard against leaks
- Protecting the underground tanks with corrosion prevention materials
- Prioritizing the upgrade of equipment and installation of existing facilities of a network after a defined age.
- Careful siting of the project to ensure that it lies in an environment that is far from environmental receptors including sewers, tunnels, vaults, surface water reservoirs etc.

Destruction of soil structure

- Ensure use of manual labour and hand tools where appropriate.
- Ensure the contractor takes the shortest time possible.

Soil and Ground Water contamination

- Regular hydraulic pressure testing of the underground tanks.
- Non destructive testing, for example, ultrasound testing.

Generation of contaminated waste water and storm water	<ul style="list-style-type: none"> Minimization of volume of storm water generated from vehicle fueling stations and AST containment areas through installation of roofs or other types of covers Implementation of secondary containment procedures that avoid accidental or intentional releases of contaminated containment fluids Segregation of clean drainage and potentially contaminated drainage, treating the latter through oil/water separators. Oil water separators may include baffle type or coalescing plate type. They should be properly designed, operated, and maintained to achieve the desired water treatment results.
Scraps and other debris on site	<ul style="list-style-type: none"> Use of an integrated solid waste management system i.e. through a hierarchy of options Wastes generated as a result of facility decommissioning activities will be characterized in compliance with standard waste management procedures. Disposal locations will be selected by the contractor based on the properties of the particular waste stream.
Health and Safety	<ul style="list-style-type: none"> During construction, increased dust, noise and air pollution levels could impact on health and safety, particularly in the direct impact zone. During the operation of the project health and safety conditions will be linked more on handling of petroleum products. These will be effectively mitigated on through the use of appropriate PPEs at all times and proper handling of the petroleum products.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,

MR/4944776

National Environment Management Authority.

GAZETTE NOTICE NO. 3350

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KPC LINE1 PIPELINE REPLACEMENT PROJECT BETWEEN MOMBASA AND NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has

received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya Pipeline Company Limited) is proposing to construct a new 20-inch pipeline within the existing right of way (ROW) between Nairobi and Mombasa (a distance of approximately 450 km); construct four new pump stations at Changamwe, Maungu, Mito Andei, and Sultan Hamud; install two sets of new pumps in each of the above stations; and decommission the existing 14-inch pipeline.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Damage to surficial and sub-surface archeological artifacts	<ul style="list-style-type: none"> Engage an archeologist during the pre-construction and construction phase to monitor top soil stripping and excavation activities and recover any artifacts or fossils uncovered by such activities. The archeologist should also evaluate the construction camp sites for any artifacts.
Impacts on cultural change and conflict	<ul style="list-style-type: none"> Provide cultural awareness training to all EPC contractor staff members in order to respect local cultures where the project is carried out. The training should be provided in a culturally sensitive and ethical manner. Incorporate cultural awareness programs in the EPC contractor's HSE Plan for the proposed project.
Interference with existing land use patterns and access routes	<ul style="list-style-type: none"> Consult local communities during the trenching exercise to ensure that certain sections of the ROW are not trenched while construction activities continue in other trenched sections to allow cross over access to humans and animals.
Destruction of cultural heritage	<ul style="list-style-type: none"> Retain competent professionals to assist in the identification and protection of cultural heritage and report any chance finds for necessary actions. Create provisions for the management of the accidental discovery of cultural material including burials. In the event that cultural objects are encountered, immediately contact the National Museums of Kenya; if a burial site is discovered, immediately contact the local community leaders for advice and guidance.
Temporary blockage of fauna to water resources and foraging grounds	<ul style="list-style-type: none"> Allow a crossing of 800m for every 2km of excavated trench to allow human and animals to cross-over the ROW. Accelerate the construction of pipeline in elephant ranges. Consider development of alternative water resources for the animals if the pipeline trench is dug up and will not allow animals to safely cross over the ROW
Pitfalls resulting from trenching	<ul style="list-style-type: none"> Provide a temporary crossing over the trench to enable the small mammals, reptiles and amphibians cross easily before backfilling of soil is done. Consider provision of a ramp to enable trapped animals to get out and monitor trenches for animal rescue at the expense of the Contractor
Potential attacks by wild animals in protected areas	<ul style="list-style-type: none"> KWS to provide security to all construction workers on a full-time basis during the construction of the pipeline within the national parks and other protected areas

	<ul style="list-style-type: none"> • KWS should restrict movement of construction personnel to the ROW construction workspace areas • Construction camp sites should be located outside the protected areas • Construction activities should be restricted between 07:00hrs and 18:30hrs within the protected areas • KWS/Contractor should sensitize workers within wildlife areas on hazards associated with working within protected areas 		<ul style="list-style-type: none"> • system and through regular ground and aerial surveillance. • The proponent to maintain pipeline integrity through pigging activities. • The proponent to develop procedures for monitoring river crossings during flooding • The proponent to regularly maintain the ROW. • The pipeline to be coated with anti-corrosion coating and be supplemented by cathodic protection.
Animal movement diversions	<ul style="list-style-type: none"> • Construct temporary watering points in areas where the trench and laid pipes would create a temporary barrier. • Construction of pipeline should be speeded in parks. • Excavation of long trenches should be avoided at the crossings. 	Disruption of river crossings	<ul style="list-style-type: none"> • For water crossings, the contractor should seek the necessary Authority and Permits from WRMA and other lead agencies for construction, damming and diversion of water from rivers. • The contractor shall prepare detailed drawings for construction of pipeline water crossings and a method statement for construction.
Introduction of alien invasive species	<ul style="list-style-type: none"> • Fully decontaminate all construction plant and equipment to be used for the project to the approval of relevant authorities. In protected areas such as Parks and Reserves, relevant authorities (such as KWS and KFS) will be involved to ensure decontamination process is satisfactory • Import gravel for renovating access roads within ROW from approved borrow pits. • KPC will work closely with relevant authorities such as the KWS and KFS if alien invasive species start appearing following completion of the construction phase of the proposed pipeline. 	Soil erosion and sedimentation	<ul style="list-style-type: none"> • The contractor to implement soil erosion prevention measures such as covering excavated soil with say plastic sheeting. • The contractor should also work with speed in such a way that the excavated soil is reused to cover the trench in the shortest time. • Appropriate crossing methods should be applied for river crossings to prevent erosion • Preconstruction and construction activities should if feasible take place during dry seasons for areas prone to stormwater and flooding damage
Impacts of poaching in protected areas	<ul style="list-style-type: none"> • Screen contractor personnel working within the national parks and other protected areas. Contractor should work within the construction space of the ROW in full compliance of KWS and KFS rules and regulations. • KWS and KFS should screen contractor's construction plant, equipment, containers, etc. KWS and KFS to enhance security surveillance at the cost of the contractor 	Impacts to groundwater	<ul style="list-style-type: none"> • During the construction phase, there will be proper storage and handling of containers and tanks, including storage of containers with hazardous liquids in secondary containment structures; • Safety distances will be maintained for liquid transfer, vehicle equipment and washing; 30m to waterbodies, 60m from water supply wells, and 130m from municipal or community water wells; • Training of employees on the spill prevention measures will be conducted; • Maintenance of emergency spill kits in all service vehicles will be promoted
Contamination of surface water	<ul style="list-style-type: none"> • Ensure compliance with L.N. 120 discharge limits for potentially contaminated wastewater. • On site refueling will be done by trained personnel using mobile fuel browsers and will be at least 10 meters away from surface water body. • Hydrostatic test water should be discharged to the source water at an approved location along the waterway or to an upland area within the same catchment area where it may evaporate or infiltrate. Discharged hydrostatic testing water should be tested to ensure it meets Legal Notice No. 120: Water Quality Regulations, 2006 requirements. • The proponent to ensure sufficient emergency shutdown valves in the pipeline is provided at the design stage particularly for river crossings (more than 30m wide). • The proponent to regularly monitor the pipeline through the SCADA 	Construction phase impacts of noise	<ul style="list-style-type: none"> • The contractors should comply with the requirements of Kenyan legislation on noise and international guidelines to ensure that noise levels do not exceed limits stipulated in them. • The contractor should provide hearing protection equipment to their workers and ensure that a hearing conservation program is implemented if the occupational noise levels exceed those stipulated in Kenyan regulations on noise. • The contractor should ensure that construction plant and equipment is properly maintained to prevent excess noise being generated due to improper maintenance of equipment
		Disruption of unplanned	<ul style="list-style-type: none"> • KPC should immediately commence a

buried infrastructure	<p>sensitization process for community members along the ROW to formalize any underground utilities to avoid destruction during the construction phase</p> <ul style="list-style-type: none"> The EPC contractor should endeavor to be compassionate prior to uprooting any "unplanned" utilities and taking precautionary steps to avoid such destruction
Increased HIV/AIDS infection cases	<ul style="list-style-type: none"> The EPC contractor should have an HIV/AIDS Policy in place so that no discrimination takes place at the work site The EPC contractor should have a peer educator program for HIV/AIDS and other wellness programs such as stress and stress management
Employment opportunities	<ul style="list-style-type: none"> The EPC contractor must have a documented HR management system which includes clearly defined recruitment policies of Kenya citizens The EPC contractor should be an equal opportunity employer and must provide the first opportunities for employment to locals living near the construction spreads along the ROW The EPC contractor should engage the provincial administration (DO, Area Chiefs, etc.) in posting vacancies for employment as soon as they arise on provincial administration notice boards.
Impacts on public safety	<ul style="list-style-type: none"> The EPC contractor will be required to comply with the OSHA and its subsidiary legislation as it applies to the proposed pipeline project; The EPC contractor will be required to comply with the Construction HSE Plan developed in this EIA Study; HSE risk assessments will be conducted by the EPC contractor for all construction spreads to ensure that appropriate risk control measures are implemented throughout the construction phase; The EPC contractor will arrange for HSE induction training of all staff working on the proposed project. Refresher HSE training will be provided continually based on task risk assessments to be performed for all activities to be performed during the construction phase. The EPC contractor will be required to comply with international petroleum industry HSE standards and codes of practice for the design and construction management of the proposed project.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Mombasa County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

KODIA BISIA,
for Director-General,

MR/4730619 National Environment Management Authority.

GAZETTE NOTICE NO. 3351

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MASTER PLAN FOR GALANA OIL KENYA, MOMBASA ROAD, NEAR ATHI RIVER, MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Galana Oil (K) Limited) proposes to construct the following infrastructure: service station, LPG pumps/ compressor sheds, truck loading and offloading area, LPG filling plant and immediate storage, lubes store, fire water tank, fire pump house, truck parking facility, control room, gated access, petroleum tanks, office blocks, borehole, and wash rooms on Plot L.R. No. 337/857 Mombasa Road near Athi River, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Environmental Impacts</i>	<i>Mitigation Measures</i>
Geology and soils	<ul style="list-style-type: none"> All quarry sites shall be clearly indicated on the plan and approved by the local authority for use. To prevent erosion all non-built up areas should be landscaped.
Surface water	<ul style="list-style-type: none"> If possible initial construction activities should be undertaken during the dry season to prevent water/soil run-off especially on side slopes. Water should also be diverted away from the project footprint areas through properly constructed drainage channels. Ensure that spills emanating from construction plant and equipment are cleaned immediately before release to the environment. Contractor to adhere to construction HSE management plan during the construction phase.
Air Quality	<ul style="list-style-type: none"> Develop and implement effective measures for minimization of dust followed by rehabilitation in a timely manner. Contractor to ensure that construction plant and equipment is in a good state of repair at all times to prevent adverse exhaust air emissions.
Waste	<ul style="list-style-type: none"> Develop and implement safe procedures for management of nonhazardous and hazardous wastes in accordance with L.N. 121: Waste Management Regulations, 2006.
Noise and vibration	<ul style="list-style-type: none"> Contractor's plant and equipment should comply as a minimum with requirements of L.N. 25: Noise Prevention and Control Rules, 2005.

	<ul style="list-style-type: none"> The power plant will be designed to maintain noise levels at 70dB (A) at the fence line. The Proponent will develop, rollout and implement a written hearing conservation program for those employees that may be exposed to noise environments exceeding 90 dB (A) over an 8-hour time weighted average period or 85 dB (A) continuous noise. This is in accordance with L.N. 25: Noise Prevention and Control Rules 2005.
Creation of employment opportunities	<ul style="list-style-type: none"> Implement where feasible measures to employ local community members. Develop and put into practice strategies to minimize crime, to include effective communication with landowners to inform them about the movement of work teams, and codes of conduct for contractors and employees creation.
Increased risk of disease with influx of workers and opportunity seekers	<ul style="list-style-type: none"> Implement measures to manage expectations about job creation. Develop and implement a HSE program for employees.
Social divisions over limited jobs and perceived preferential access	<ul style="list-style-type: none"> Develop and implement transparent employment and procurement measures which comply with the regulatory framework and maximize local benefits.
Accidents as a result of increased traffic	<ul style="list-style-type: none"> Implement measures to ensure that traffic and road safety hazards are minimized.
Traffic	<ul style="list-style-type: none"> Develop and implement measures to repair regularly used roads to the project site especially the turn-off to the project site. Ensure that contractor vehicles comply with axle load limits. Develop and implement a traffic management plan to take advantage of off-peak hours for delivery of construction materials and abnormal loads.
Health and Safety	<ul style="list-style-type: none"> Develop and implement contractor safety rules which include the relevant provisions of OSHA, WIBA and their respective subsidiary legislation. Specifically ensure that the construction complies with L.N.40: Building Operations and Work of Engineering Construction Rules, 1984.
Corporate Social Responsibility	<ul style="list-style-type: none"> The proponent with the help of the local administration and local NGOs (such as People to People Tourism) should develop guiding principles for determining how the company selects which causes to support the local community that will contribute to sustainable benefits for the community. The Proponent should also participate in community driven development initiatives, which may involve donation of people's time, skills and knowledge. The proponent is advised to: <ul style="list-style-type: none"> Put in place education sponsorship programs Consider constructing a primary school for the local children Support community health workers Liaise with local NGO's in supporting the local community. One outstanding NGO in the area known

as People to People Tourism which advocates for children's health especially within the local slums.

- The Proponent is advised to liaise with the organization as well as identify other thematic areas in which they can offer their support to the community.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ROBERT ORINA,
for Director-General,
MR/4730643 National Environment Management Authority.

GAZETTE NOTICE NO. 3352

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED EXPANSION OF PEKERRA IRRIGATION SCHEME IN MARIGAT DISTRICT, BARINGO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (National Irrigation Board) is proposing to Expand Pekerra Irrigation Scheme in Marigat District, Baringo County by developing an additional 2,000 ha of irrigated area.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Scars on landscape	<ul style="list-style-type: none"> Before works begins, landowners to sign contracts with the MoR which include terms and conditions of payment, the amount of land to be excavated and rehabilitation measures to be carried out. The area to be excavated should be cordoned off, which tend to be very deep and pose a danger to livestock and children.
Soil erosion	<ul style="list-style-type: none"> Scour checks and gabion mattresses will be introduced in the side drains at specified intervals, depending on the gradient of the slope. Grouted stone pitching and rock fill gabion works will be necessary to protect culvert inlets and outlets and control soil erosion. The specified cut and fill gradients must be adhered to, and the embankments should be planted with shrubs and grasses to reduce erosion of road embankments.

- Areas that have been cleared of vegetation must be planted after completion of works. Indigenous trees and shrubs should be planted along the project road.
- Pits and quarries**
 - The gravel pits and quarries will be operated as instructed by the Engineer taking into consideration the safety aspects to avoid accidents and incidents
- Blasting rocks along road reserves**
 - It should be done during the day, and residents in the vicinity of the area being blasted should be suitably warned of blasting activities, including the time and date.
- Air pollution**
 - Dumping the gravel pit area, and occasional spraying with water along the deviation routes or earth along the road section.
 - Slowing the speed of traffic on deviations by using bumps and/ or clearly marked road signs may contribute to reducing dust levels.
- Hydrology and drainage**
 - Construction of culverts so that flow in the rivers and streams is unimpeded and improved drainage along the project road through side drains.
 - These may be lined, and may require cascades to break the impact of water flow in them, particularly in sections with gradients greater than 4%.
 - The area traversed by the proposed road for upgrading has a high traffic it is thus important to observe road safety through use of road signs.
- Road safety**
- Visual enhancement**
 - A well-designed road fits in well with its surrounding because its design reflects the principles of regional landscape design. These principles can and should be applied whether or not the area being considered is one of special physical beauty
- Public health**
 - A central canteen for the workforce at the construction camp would contribute towards the general good health in the camp as kitchen wastes can be disposed of in an organized manner, while hygiene can be monitored.
 - Workmen should be provided with suitable protective gear.
 - Drainage of quarries and burrow pits to prevent them from impounding water which will act as good breeding places for mosquitoes and other disease causing vectors.
 - Ensuring that there are proper solid and liquid waste collection and disposal facilities.
 - Ensuring that clean, potable, and economical water is supplied to the populace to prevent the outbreak of waterborne diseases.
 - Observing high degree of cleanliness during and after construction of the project.
- Rehabilitations**
 - Gravel pits must be landscaped and reinstated or back-filled with overburden if the depth of the overburden is sufficient to allow for this.
 - Terracing and replacement of fencing

is part of the rehabilitation process.

Awareness

- Contractor to plant trees to replace those that have been removed during excavation.
- All the people who live along the road will be alerted of the improvement works.
- The proponent in collaboration with the District Works Officer (DWO) will be expected to disseminate information regarding the road design and upgrading works progress to all the other stakeholders along the project route

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Baringo County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,

for Director-General,

MR/4122126

National Environment Management Authority.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
