(No. 17 of 2012)

## MURANG'A COUNTY

REPORT ON THE EXTENT OF COMPLIANCE WITH THE NATIONAL  
VALUES AND PRINCIPLES OF GOVERNANCE AND OF PUBLIC SERVICE  
IN THE MURANG'A COUNTY PUBLIC SERVICE

This report was approved and adopted by the Murang'a County Public Service Board for onward transmission to the Murang'a County Assembly and to be gazetted in the county Gazette.

## 1.0 Introduction

The Murang'a County Public Service Board is a body corporate established by Sec. 57 of the County Government Act, 2012 being the actualization of Article 235 of the Constitution of Kenya 2010 which gave the County Governments the task of:

- Establishing and abolishing offices in its public service.
- Appointing persons to hold or act in those offices, confirming appointments; and
- Exercising disciplinary control over and removing persons holding or acting in those offices.

The board has perpetual succession and is capable of suing and be sued under its corporate name. The Board is composed of the following:

Peterson Mwangi—(Chairman)  
 Nancy Njoroge (Mrs.)—(Vice-Chair)  
 CS. Richard Kamani—(Secretary)  
 Titus Waithaka—(Member)  
 Andrew Ngunjiri—(Member)  
 Catherine Wanjiku (Mrs.)—(Member)  
 Mary Baaro (Mrs.)—(Member)

#### 1.1 Functions of the Murang'a County Public Service Board

The functions of the Board are as follows as given by Sec. 59 of the County Government Act, 2012 are as follows:

- (a) To establish and abolish offices in the County Public Service.
- (b) To appoint persons to hold or act in offices of the County Public Service including in the Boards of Cities and Urban Areas within the county and to confirm appointments.
- (c) To exercise disciplinary control over, and remove, persons holding or acting in those offices as provided for under this part;
- (d) To prepare regular reports for submission to the County Assembly on the execution of the functions of the board;
- (e) To promote in the County Public Service the values and principles referred to in Articles 10 and 232;
- (f) To evaluate and report to the County Assembly on the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the County Public Service;
- (g) To facilitate the development of coherent, integrated human resource planning and budgeting for personnel emoluments in the county;
- (h) Advise the County Government on human resource management and development;
- (i) To advise County Government on implementation and monitoring of the national performance management system in the county;
- (j) Make recommendations to the Salaries and Remuneration Commission, on behalf of the County Government, on the remuneration, pensions and gratuities for County Public Service employees.

According to the County Government Act, 2012, the County Public Service Board is expected to present an annual report to the County Assembly on one of its functions, that is, the extent to which the national values and principles of governance and the national values of public service are complied with in the Murang'a County Public Service as stipulated in Article 10 and 232 of the Constitution of Kenya 2010. This report therefore dwells on this particular function of the board.

In the performance of its functions as given by Sec. 59 (1) (f) of the County Government Act, 2012 i.e. "Evaluate and report to the County Assembly on the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the County Public Service;" the Board presents the following report to the County Assembly of Murang'a.

#### 2.0 Promotion of the National values and Principles of Governance and of Public Service (Article 10 and 232 of the Kenya Constitution 2010).

The Murang'a County Public Service Board was constituted on 15th August, 2013 and since then, in accordance to its mandate and powers; has undertaken the following successfully:

1. In readiness to offer effective and efficient services including compliance with the national values and principles of governance, the Murang'a county public service board has recruited for the positions of County Secretary (1), Chief Officer (9), seven (7) sub-county administrator, Town Administrator (1) and various other junior positions as summarized as Table 1.0 of this report.
2. The Board has attended various workshops designed to equip its members with the requisite skills and knowledge necessary for undertaking its mandate. They include:
  - An induction course undertaken by the Kenya School of

Government in Nairobi.

- A course on pension undertaken by LAPTRUST/LAPFUND in Nairobi
- Governance workshop organized by the Institute of Certified Public Secretaries of Kenya and Capital Market Authority in Nairobi.

3. The Board has conducted a Human Resource Audit and a report on this is enclosed. A Summary of the report is as follows:

#### Summary Report from the Human Resource Audit

The total number of staff counted in the devolved departments was 2,716. The Health Department had the largest share of staff totaling 1,274, followed by the Defunct Local Authority with 548. Agriculture, Fisheries & Livestock has 324. Distribution by Gender involved differentiating the officers in respective departments by Gender with the female being the largest employee at 1398 which constitutes 51.5% compared to the male who stood at 1316 constituting 48.5%.

Only 334 employees are 30 years old and below. This represents 12.3 % of the employees counted, 376 are aged between 30 and 35 years. Officers falling in the 51-55 age bracket were 626. A total of 301 are aged 55yrs and above. Therefore 34.2% of the current labour force is above 50 years old and due to leave the service within the next 10 years.

There were 68 cadres that represent the mix of skills and competencies inherent in the labor force deployed in the county, both from the mainstream civil service and defunct local authorities. Nurses were (632). Support Staff (232), Clerical Officers (177), Public Health Officers (140), Revenue Collectors (140), Agricultural Officers (124) and Instructors (114). These constitute the cadres with the largest number totaling 1558 which is 57.40% of the staff counted.

An attempt to match the available labour force with the staffing criterion of the departments of the county government indicated that the county does not have enough staff to deliver some of the functions. To be specific the department of Education, Information and Technology is the most affected. The department of trade has only three officers on the ground, while public service department has only three human resource officers.

The resultant wage bill once all the devolved functions are taken over by the county government stands at Kshs. 138, 098,827 per month which translates to Kshs. 1,657,185,924 per year. This represents 29% of the total county expenditure.

From the foregoing, recommendations are made that a work load analysis be undertaken to establish the staff requirement of each department; there is need for harmonization of terms of service of all employees serving in the devolved functions and there is need for a clear and formal communication from line ministries to the staff in the devolved units at the county level.

- 4 The Board has formulated a functional structure by constituting Four (4) committees each headed by a board member and has a membership drawn from the rest of the board. The committees co-opt other members from relevant County Public Service departments from time to time. The adopted structure of the board is as follows;

- Promotion of Values & Principles Committee
- Recruitment and Restructuring Committee
- Performance Management Committee
- Training & Development Committee

5. The Board in the course of executing its mandate strived to:

- Utilize the resources available to the board with efficiency, effectiveness, transparency and accountability.
- The Board has been prompt and impartial in the provision of services to the citizenry and is working on cementing a close working relationship with the executive arm as well as the county assembly and appreciates the need for the various offices to complement each other for them to be effective.

6. The Board has developed a Draft County Human Resource

Policy for adoption by Cabinet and a copy is enclosed as part of part of this report.

7. The Board has mainstreamed values and principles in performance management by including it in the performance management tool. The Board has also rolled out the wealth declaration forms to all its staff.

#### 2.1 Upcoming and On-going Programmes

1. (a) The board will in the year 2014 visit all the (8) sub counties and the (35) wards that constitute the county government of Murang'a with a view to:

- Evaluate and report the extent to which the National values and principles referred to in articles 10 and 232 of the Constitution are complied with in the County Public Service.
- Enforce steps taken and decisions made by the board vis a vis compliance to the National Values and Principles.
- To promote and protect the values and principles.
- To investigate and act on any impediments in the promotion of the values and principles and
- Formulate realistic medium term plans towards the promotion and compliance to the values and principles.

The Board intends to undertake the following programmes (see table below) towards the promotion and compliance of National values and principles of governance and the public service.

#### 3.0 Challenges or Impediments in the Promotion of the National Values and Principles of Governance and Public Service.

In the performance of its function of promotion of national values and principles of governance and of public service, the board has experienced challenges which include the following:

- (i) Lack of sufficient resources to visit all areas the Board would want to in the promotion of principles and values.
- (ii) The Board has experienced resistance to change from staff but the Board has continued and will continue sensitizing staff on the benefits and need for change.
- (iii) The promotion of national values and principles of governance and public service is a constitutional requirement. However it remains a challenge fulfilling some of the requirements due to the following reasons:
  - Many applicants from either gender did not qualify for the positions applied for.
  - Many Persons with disabilities do not respond to advertised applications. The Board is however mapping out persons with disabilities in the County with a view to being specific in reaching them out to this group.

#### 4.0 Recommendations

The board recommends the following be applied in order to make the national values and principles of governance and of public service be adhered to and assist in having an efficient and effective County Public Service.

- The County Government and all its personnel should be fully involved in the promotion, evaluation and monitoring compliance. In this regard, the Board will work with the Office of the County Commissioner of Murang'a to promote the same.
- The Board should quickly be adequately resourced in order to effectively and efficiently undertake its role in the promotion, evaluation and enforcement of compliance.
- The board should continuously engage in civic education in order to enlighten the Persons with Disabilities and those from minority communities in as far as job applications and other services are concerned.

#### 5.0 Conclusion

The Board would wish to conclude by assuring all stakeholders that it is committed to ensuring that the National Values and Principles of Governance and of Public Service are adhered to through all the County Public Servants as they undertake their duties by:

- Undertaking a vigorous campaign to promote them among the public officers and the general public.
- Formulating effective measures to promote the values and principles.
- Formulating and implementing programs intended to inculcate in the county public officers the duty to uphold the values and principles.
- Advising the County Government on its obligation under international treaties and conventions on good governance in the County Public Service.
- Visiting any county public office or body with a view to assessing and inspecting the status of compliance with the values and principles.
- Prompt investigation of any violation of values and principles and recommending to the relevant authorities for the necessary action to be taken.
- Co-operating with other institutions working in the field of good governance in the Public Service.
- Performing any other functions that they consider necessary for promotion and compliance.

## GAZETTE NOTICE NO. 6199

## THE CO-OPERATIVE SOCIETIES ACT

(Cap. 490)

## APPOINTMENT OF LIQUIDATORS/CANCELLATIONS

WHEREAS I am of the opinion that the following Co-operative societies should be dissolved pursuant to section 62 of the Co-operative Societies Act, I cancel the registration of these Societies and order that they be liquidated and take notice that the order shall take effect immediately.

Any member(s) of the Societies may within thirty (30) days from the date of this Order appeal to the Cabinet Secretary for Industrialisation and Enterprise Development against the cancellation Order.

And further, pursuant to section 65, I appoint the following officers to be liquidators for a period of not exceeding one year and authorize them to take into their custody all properties and documents of the said Societies including such books and documents as are deemed necessary for completion of the liquidation.

Name of Society	CS/No.	Liquidator Address
Kagaa FCS Ltd.	1203	Peter I. Kimotho, P.O. Box 40811, Nairobi Suleiman Wandati, Nairobi
Methi and Swani F.C.S. Limited	2155	Peter Kimotho, P.O. Box 40811, Nairobi Suleiman Wandati, Nairobi

Maza Rose MPC Sacco Society	6949	Messrs. Nancy Muguro, P.O. Box 40811, Nairobi

## LIQUIDATION VARIATIONS

Following appointments of officers to undertake liquidations in the mentioned Societies, and whereas the said officers were not able to act as liquidators, I now vary their appointments and appoint new officers as shown below to complete the exercise:

Name of Society	CS/No.	New Liquidator
Ya Mumbi F.C.S.	1399	Ishmael Mengich, P.O. Box 129, Eldama Ravine.
Kanunga F.C.S. Ltd	1403	Sospeter Mbugua, P.O. Box 639, Kiambu.
Kagaari North F.C.S. Ltd.	3066	Nicholas Kariuki Ndei, P.O. Box 364, Maua.

## LIQUIDATION EXTENSIONS

Following the non-completion of the liquidation exercise for the under-listed Co-operative Societies within the specified period, it has been deemed necessary that the same be extended:

Name of Society	CS/No.	Liquidator
Ofafa Maringo Housing Co-operative Society Limited	9590	Eliud Njuguna Uno
Ngondu F.C.S. Ltd.	1090	Xavier Lugaga
Akapulco Sacco Society Limited	4420	Jane Ndirangu

Nyamathi F.C.S. Ltd.	1110	John K. Ndungi
Mutethia F.C.S. Ltd.	1279	John K. Ndungi

I now extend the liquidation period for another one year to enable the liquidators finalize the exercise.

Dated the 2nd September, 2014.

P. L. M. MUSYIMI,  
MR/5749008 Commissioner for Co-operative Development.

## GAZETTE NOTICE NO. 6200

## THE CO-OPERATIVE SOCIETIES ACT

(Cap. 490)

## CLOSURE OF LIQUIDATION

WHEREAS pursuant to section 65 of the Co-operative Societies Act, I appointed Mr. Michael Obiero Ngolo, Director of Audit, P.O. Box 312, Kisii to be liquidator of Lolwe Housing Co-operative Society Limited (CS/3308) through an order dated 18th July, 2013, and having satisfactorily finalized the liquidation of the said society.

Now therefore, pursuant to section 68 (1) (h) of the said Act, I declare the liquidation closed and consequently discharge the said Mr. Michael Obiero Ngolo, Director of Audit from the office of liquidator of Lolwe Housing Co-operative Society Limited.

Dated the 18th August, 2014.

P. L. M. MUSYIMI,  
MR/5748607 Commissioner for Co-operative Development.

## THE PHYSICAL PLANNING ACT

(Cap. 286)

## COMPLETION OF PART DEVELOPMENT PLAN

PDP No. MKN/2011/10 for Proposed site for Makueni Kenya Medical Training College Plan.

NOTICE is given that the above-mentioned development plan was completed on 20th July, 2011.

The development plan relates to land situated within Wote Township, Makueni Sub-County, Makueni County.

Copies of the part development plan have been deposited for public inspection at the office's of the Director of Lands and Urban Planning, Makueni and the County Secretary, County Government of Makueni.

The copies so deposited are available for inspection free of charge by all persons at the above mentioned addresses, between the hours of 8.00 a.m. to 5.00 p.m.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plan may send such representations or objections in writing to be received by the County Physical Planning Officer, P.O. Box 295, Makueni, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 26th August, 2014.

## THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE MANUFACTURE OF COPPER CABLES, LEAD ACID BATTERIES AND AUTOMOTIVE SPARE PARTS INCLUDING SMELTING AND RECYCLING OPERATIONS OF NON-FERROUS METAL SCRAP AND USED AUTOMOBILE BATTERIES TO BE LOCATED ON TITLE NUMBER NATVASHA/MWICHIRINGIRI BLOCK 2/253, NAKURU COUNTY

## INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Ganesh Eco Solutions Limited) is proposing a development comprising a warehouse of approx. 10,000 square feet shall be built to carry out smelting and recycling activities of used automobile batteries and non-ferrous metal scrap. Office space, storage godowns, Toilets, Drainage, Electric Panel room, Security Guard room etc shall also be built in accordance to operations.

The plant shall be installed with the most modern manufacturing facilities. The highly sophisticated production process can mainly be divided into four phases:

- To drain the USED LEAD ACID BATTERIES (ULAB's) in a specified platform to collect the acid in a pit and transfer this acid to the ETP for processing.
- To sort out different Non-ferrous metal scrap and segregate.
- Cutting of the drained ULAB's and separation of its contents into lead bearing parts and non-lead bearing parts.
- Smelting of lead bearing parts through rotary furnace to recover lead in a raw form.
- Smelting of various non-ferrous metal scrap in their respective furnaces to recover their respective metals in pure form.
- Melting of raw lead in kettle pots for producing pure refined lead.
- The refined lead then will be grinded in ball mill to produce the lead oxide powder of international grade

- Manufacture of Copper Wire Rods from refined copper obtained from smelting operations.
- Manufacture of Automotive Spare parts from respective Non-Ferrous metals.

The following are the anticipated impacts and proposed mitigation measures:

## Negative Impacts

## Recommended Mitigation Measures

1. Minimize extraction site impacts and ensure efficient use of raw materials in construction

High Demand of Raw material

1. Source building materials from local suppliers who use environmentally friendly processes in their operations.

2. Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered.

3. Ensure that damage or loss of materials at the construction site is kept minimal through proper storage.

4. Use at least 5%-10% recycled, refurbished or salvaged materials to reduce the use of raw materials and divert material from landfills

2. Reduce storm-water, runoff and soil erosion

Increased storm water, runoff and soil erosion

1. Surface runoff and roof water shall be harvested and stored in underground reservoir for reuse.

2. A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed.

3. Minimize solid waste generation and ensure efficient solid waste management during construction

Increased solid waste generation

1. Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Composting and reuse 4. Combustion 5. Sanitary land filling.

2. Through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials.

3. Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed of.

4. Ensure that damaged or wasted construction materials including cabinets, doors, plumbing and lighting fixtures, marbles and glass will be recovered for refurbishing and use in other projects

5. Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or home owners.

6. Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time

7. Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements

8. Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste
- Solid waste generation (Lead Acid Batteries) Segregate batteries from paper, rags, garbage, flammables, scrap metal or hazardous chemicals by means of a dike, berm, wall or other physical barrier.
- Store spent lead acid batteries on an impervious surface (such as concrete that has been sealed to protect the surface from degradation or on a leak-proof plastic containment pallet).
4. Reduce dust emissions
- Dust emission
1. Ensure strict enforcement of on-site speed limit regulations
  2. Avoid excavation works in extremely dry weathers
  3. Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles
  4. Personal Protective equipment to be worn
5. Minimization of exhaust emissions
- Exhaust emission
1. Vehicle idling time shall be minimized
  2. Alternatively fuelled construction equipment shall be used where feasible equipment shall be properly tuned and maintained
  3. Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points
6. Minimization of Noise and Vibration
- Noise and vibration
1. Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used.
  2. Sensitize construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and schools
  3. Ensure that construction machinery are kept in good condition to reduce noise generation
  4. Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.
  5. The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work.
7. Minimization of Energy Consumption
- Increased energy consumption
1. Ensure electrical equipment, appliances and lights are switched off when not being used
  2. Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy
8. Minimize water consumption and ensure more efficient and safe water use
- High Water Demand
1. Promptly detect and repair of water pipe and tank leaks
  2. Ensure taps are not running when not in use

3. Install a discharge meter at water outlets to determine and monitor total water usage
9. Minimize occupational health and safety risks
- Security
- Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises.
- Personal Protective Gear (PPG)
- Suitable overalls, safety footwear, dust masks, gas masks, respirators, gloves, ear protection equipment etc. should be made available and construction personnel must be trained to use the equipment
- Health and safety impacts
- Implement all necessary measures to ensure health and safety of workers and the general public during operation of the housing project as stipulated in Factories and Other Places of Work Act Cap 514
- First Aid
- Well stocked first aid box which is easily available and accessible should be provided within the premises
  - Provision must be made for persons to be trained in first aid, with a certificate issued by a recognized body.
- Fire protection
- Fire fighting equipment such as fire extinguishers should be provided at strategic locations such as stores and construction areas.
  - Regular inspection and servicing of the equipment must be undertaken by a reputable service provider and records of such inspections maintained
  - Signs such as "NO SMOKING" must be prominently displayed within the premises, especially in parts where inflammable materials are stored

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.

(c) County Director of Environment, Nakuru County.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ONSHORE HYDROCARBON EXPLORATION DRILLING IN BLOCK 1, BUR WEIN AREA, EL WAK DISTRICT, MANDERA COUNTY

### INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has

received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent (Afren - East African Exploration (K) Ltd) is Proposing to drill an exploratory well for oil and gas in Block 1, Bur - Wein Area, El Wak District, Mandera County.

The proposed activities include site preparation, equipment assemblage, well foundation, rig building, drilling and restoration of the well site.

The following are the anticipated impacts and proposed mitigation measures:

*Activity and Possible Impacts Mitigation Measures*

**ACCESS ROADS**

- site vegetation clearing for site access road - limit vegetation clearing to absolute minimum
- possible localised increase in soil erosion - limit activities that increase soil erosion
- localised changes in surface hydrology - channel storm flow to designated drainage pathways
- dust emission from access roads - enforce use protective gear at all times
- vibration and noise from moving equipment to and around site

**DRILLING OPERATIONS**

- Site preparation: - Reduce movements of machinery to absolute minimum
- Increased soil erosion and compaction - Limit vegetation clearing around site
- dust emission
- reduced vegetation at rig site

**Drilling :-**

- Disturbance - Ensure all persons wear protective gear at all time
- Fatigue - Ensure workers operate on reasonable time shifts to avoid fatigue;
- High possibility of accidents to drill staff - Follow all safety procedures at the rig site
- Occupational health & safety risks - Operations should be restricted within defined operation area and access roads
- Noise disturbance - Ensure active communication with community to address emerging issues especially on employment and security
- Consumption of water resources
- Site restriction hence no access to site pasture
- Oil pollution through possible operation accidents

**BASE CAMP**

- Lose of vegetation around site - Minimize clearing of vegetation to absolute minimum
- Change in site runoff - Day time operations are recommended
- Restriction to pasture at camp - Install base camp water source
- Camp Activities - Noise / Light - On decommissioning of operations the borehole can be handed over to the local community

**WASTE DISCHARGE**

- waste paper, bottles, litter and spills around rig site and base camp - All non-biodegradables should be incinerated or ferried to waste management sites outside the Camp
- All organic waste should be composted
- Clinic Waste - Biomedical waste disposal - Ensure safe handling, treatment, and disposal of biomedical waste
- Segregate waste and recycle all recyclable waste
- Hazardous waste should be sealed in containers and buried

**CULTURAL BREACH**

- Physical presence of Survey Team - Ensure drilling staff have minimum contacts with local community
- Interference with grazing land due to pasture restriction around site - Staff should respect community culture
- Employment conflicts - Non-technical and semi-technical jobs should be given to locals
- Community Liaison Officer should engage the community to identify those to be employed

**SECURITY**

- Vulnerability to attacks by terrorists - ensure adequate security is in place
- Clan conflicts - ensure community liaison officer engages community on employment matters

**DECOMMISSIONING AND DEMOBILIZATION**

- Ensure restoration of site to a ration of 2:1 of the original status
- Notify county Govt. on plans to demobilize and/or decommission
- Settle all obligations before date of demobilization
- Notify staff in time before demobilization/decommissioning

The full report of the proposed project is available for inspection during working hours at:

#### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SEWERAGE EXPANSION AND REHABILITATION PROJECT FOR KERicho TOWN IN KERicho COUNTY

#### INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Lake Victoria South Water Services Board (LVSWSB)) is proposing Expand and Rehabilitate the Kericho Town sewerage system. Kericho Town is located in Kericho County, Rift Valley in Kenya on the National trunk road (B1) that connects Nakuru, Kisii and Kisumu

The proposed sewer expansion will involve rehabilitation of the existing treatment works

and the expansions will pass through, KJE, Satellite motobo, Swahili, Midwest, CBD, Site Service and Nyagacho area all located within Kericho municipality. The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation measures
Air pollution and foul smell	<ul style="list-style-type: none"> <li>• Inform the Majengo, Site and Service Estates prior to start of work.</li> <li>• Flushing of all sewer/ waste water within a sewer line before exposing it in the open during the rehabilitation activities (replacing of pipes).</li> <li>• Minimizing the number of motorized vehicles on use.</li> <li>• Wet all active construction areas and when necessary to lay off dust.</li> <li>• Provide nose masks to workers to protect them from dust emissions and other toxic gaseous materials.</li> </ul>

Noise pollution	<ul style="list-style-type: none"> <li>For the long term air pollution impact of the sewer treatment plant, the LVSWB should ensure that the current site is relocated at the later phases of the project, due to the proximity to the Kericho Sub-County Hospital.</li> <li>Avoid night time construction when noise is loudest.</li> <li>Conduct periodic noise measuring and monitoring to determine levels and extent of harmful noise.</li> <li>Clearly label the high noise areas.</li> <li>Provide PPE (hearing protection) to persons operating within or visit identified high noise areas.</li> <li>In order to meet noise level requirements, the equipments should be equipped with standard noise attenuation features. Machines that exceed acceptable noise limits should be equipped with silencers or lagging materials or specially designed acoustic enclosures.</li> <li>Inform local residents when construction activities are likely to generate excessive noise in order to minimize disruption to local residents.</li> <li>Sensitize truck drivers to switch off engines while offloading materials; to avoid gunning vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals (Kericho District Hospital neighbouring the treatment plant).</li> </ul>	<ul style="list-style-type: none"> <li>Unusable construction waste, such as damaged pipes, formwork and other construction material, must be disposed off at an approved dumpsite.</li> <li>Proper solid waste receptacles and storage containers should be provided, particularly for the disposal of lunch and drink boxes so as to prevent littering of the site.</li> <li>Arrangements should be made for the regular collection of litter and for its disposal with the County Government of Kericho.</li> <li>Ensure that the solid waste collection, segregation, and disposal system is functioning properly at all times during the construction phase.</li> <li>Recycle and re-use wastes where possible such as scraps metal.</li> </ul>
Drainage and hydrology	<ul style="list-style-type: none"> <li>Excavated channels to follow contours to avoid interference with surface drains.</li> <li>Whenever necessary, drains along the construction line are directed towards existing drainage systems to cater for storm water during the rains. However, construction should be carried out during a dry season and should take the shortest period possible.</li> <li>Utilise excavated soil to level excavated ground where necessary and cover the sewer lines that will have been laid in the ground.</li> <li>Construction materials and other debris (lime, cement and fresh concrete) should be handled carefully to prevent them from finding their way into the nearby water sources such as Dionyoset River (Buffalo River).</li> <li>Ensure compliance with environmental laws.</li> </ul>	<ul style="list-style-type: none"> <li>Re-plant the indigenous vegetation as much as practical once work is completed.</li> <li>Limit vegetation clearance unless where unavoidable circumstances appear.</li> <li>Contain excavated soils so that they will not find their way into nearby water sources.</li> <li>Cement mixing should be done in a designated area away at a safe distance from storm water drains.</li> <li>Spilled cement or concrete should be collected and disposed away from natural water ways or storm water drainage.</li> <li>Sensitize workers and enable them to properly handle concrete spillages or waste cement.</li> <li>Re-vegetation of exposed areas around the site should be carried out rapidly in order to mitigate against erosion of soil through surface water runoff and wind erosion.</li> </ul>
Interference with physical setting	<ul style="list-style-type: none"> <li>The structures to be developed should be aesthetically acceptable to blend in with the surrounding.</li> <li>The proponent shall as much as possible complete the works in such a way that natural aesthetics shall be retained at the locations. Restoration shall be undertaken to ensure that the original setting is as much as possible retained.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure that all construction machines and equipment are in good working conditions to prevent occupational hazards.</li> <li>Establish a Health and Safety Plan (HASP) for both civil and Electromechanical work.</li> <li>Appoint a trained health and safety team for the duration of the construction work.</li> <li>Use of dust masks while working in dusty environment</li> <li>Provide workers with gloves, ear gears, sturdy rubber boots and overalls to protect their skin from the effects of cement;</li> <li>Provide workers training on safety procedures and emergency response such as fire, oil and chemical spills, pipe bursts and other serious water loss risks.</li> <li>Develop a plan on how to handle the raw sewage during the construction phase.</li> </ul>
Solid waste management	<ul style="list-style-type: none"> <li>A site waste management plan should be prepared by the contractor prior to commencement of construction works. This should include designation of appropriate waste storage areas, collection and removal schedule and identification of approved disposal site.</li> </ul>	<ul style="list-style-type: none"> <li>Risks of overflowing manholes due to blockage of sewers</li> <li>Regular inspection of the system to ensure performance is maintained at high levels;</li> <li>Blockages should be detected and promptly replaced; Regular monitoring and sampling of the waste water at</li> </ul>

- influent and effluent points as well as in the receiving water bodies
  - Communities living within the river basins where the trunk sewers will be constructed should be enlightened on dangers of using raw sewerage to irrigate farmlands.
- Noise and vibration
- Ensure scheduled demolition timing is observed;
  - Contractor to give timely prior information to stakeholders and neighbouring institutions such as the Kericho District (County) Hospital of the schedule.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

### ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED INTEGRATED DEVELOPMENT IN KITENGELA, KAJIADO COUNTY

#### INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Alexander Forbes, Retirement Fund) is proposing a development comprising of 151 No. massionettes in four courts covering 18.3 acres, 48 No. three-bedroom apartments and 12 No. two bedroom apartments in 2.5 acres, a shopping centre on 2.2 acres, community and utility facilities on 1.4 acres and an undeveloped riparian zone of 2.4 acres. In total the built up areas will take up about 50,000 m<sup>2</sup> of land. The entire development will be secured by a perimeter wall.

The following are the anticipated impacts and proposed mitigation measures:

#### Impacts

#### Mitigation measures

- |  |  |
|--|--|
| Vegetation loss due to clearance of site | <ul style="list-style-type: none"> <li>The clearance of the site for construction purposes should be kept to a minimum.</li> <li>Instruct all construction workers to restrict clearing to the marked areas and not to work outside defined work areas.</li> <li>Rehabilitate all disturbed areas by planting vegetation cover and reforestation especially along the River Kisaju riparian zone.</li> </ul> |
| Open trenches hazardous to individuals   | <ul style="list-style-type: none"> <li>Backfilling temporary trenches as soon as their need are no longer required</li> </ul>  |

#### Soil, water and groundwater contamination

- Warning signs at both deep and shallow trenches especially at the shopping centre construction site that may require deep excavations.
- Construct oil and water interceptors to capture discharge of oils, fuels and other polluting liquids at the workshop.
- Ensure proper handling of lubricants, fuels and solvents while maintaining the equipments.
- Surface runoff to be controlled by provision of retention areas.
- A safety and emergency response plan to be developed for all operations with emphasis on the protection of the environment.

#### Solid waste generation which pollutes the environment may cause water borne diseases

- Bins should be strategically placed within the construction site. They should also be covered to prevent access by vermin and minimize odours.
- The bins at both the campsite and construction site should be emptied regularly to prevent overfilling.
- Use of cleaner technologies / generation to minimize on generation of solid wastes.
- A waste management plan to be developed to handle temporary storage, transport and disposal of all kinds of waste.
- Solid waste should be recycled, reused and utilized in an environmentally acceptable manner where possible.
- Use a registered waste handling contractor to manage solid waste at the site.

#### Gaseous emissions which pollutes air causing respiratory problems (SO, CO, NO)

- Maintaining machines at manufacturers specifications.
- Site roads should be dampened within reasonable time to prevent dust nuisance.
- Cover or wet construction materials such as sand to prevent dust nuisance. Also minimize cleared areas to those that are needed for construction.

#### Liquid waste generation resulting into

- Construct a water treatment system and direct all black water into the system

#### Soil and water contamination

- Use grey water for landscaping and gardening.
- Do not discharge water into River Kisaju at all times.

#### Traffic disruption and inconveniences

- Traffic management plan to provide for safe and efficient movement of traffic into and out of the structure.
- Provide acceleration and deceleration lanes.
- Strict adherence to traffic code of conduct and the traffic police should ensure compliance.
- Erect appropriate warning signs on approaches to the site access.

**IMPORTANT NOTICE TO SUBSCRIBERS TO  
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the Kenya Gazette, Supplement, etc.:

- (1) The Kenya Gazette contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) Legislative Supplement contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) Bill Supplement contains Bills which are for introduction in the National Assembly.
- (4) Act Supplement contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

*Kenya Gazette*

"D 34. (1) Communications for the Kenya Gazette should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the Kenya Gazette and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
