GAZETTE NOTICE NO. 2119

THE COMMISSIONS OF INQUIRY ACT

(Cap. 102)

COMMISSION OF INQUIRY

A COMMISSION TO INQUIRE INTO THE PETITION TO SUSPEND THE MAKUENI COUNTY GOVERNMENT

IN EXERCISE of the powers conferred by section 3 of the Commissions of Inquiry Act, I, Uhuru Kenyatta, President and Commander-in-Chief of the Defence Forces of the Republic of Kenya, do direct the commissioners to hold an inquiry with immediate effect.

1. The terms of reference shall be to:

(a) inquire into the circumstances leading to the assertions in the Petition that Makeni County Government has irretrievably broken down with the County Assembly operating as a parallel Government to the County Government under the leadership of the Governor;

(b) inquire into allegations in the Petition that the County Government of Makeni is completely dysfunctional and cannot discharge its constitutional mandate;

(c) perform any other task that the Commission may deem necessary in fulfilling the foregoing terms of reference.

(d) recommend such legal or administrative measures as the Commission may deem necessary, and to report its findings and recommendations within six (6) months.

2. In the discharge of its mandate, the Commission may—

(a) receive views from members of the public and receive written and/or oral statements from any person with relevant information and may—

(i) use any previous reports in the matter;

(ii) receive expert opinion in any relevant areas;

(b) determine its rules of procedure and develop its own work plan;

(c) publish its rules of procedure in the *Kenya Gazette*;

(d) summon any person or persons concerned to testify on oath and to produce any books, valuations or any other documents that the commission may require.

(e) determine the hours and times and places for sittings;

(f) hold the inquiry in public but may hold private hearings whenever it becomes necessary.

3. The Commission shall have all the powers necessary or expedient to effectively discharge its mandate, including the power to require co-operation from public and state officers from Makeni County.

Dated the 6th March, 2015.

UHURU KENYATTA,
President.

GAZETTE NOTICE NO. 2120

COURT OF APPEAL

EASTER VACATION, 2015

(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Andrew Mburu Mungai (deceased), is registered as proprietor of that piece of land containing 3.345 hectares or thereabout, known as Nyandarua/Kahuru/2760, situate in the district of Nyandarua, and whereas the senior resident magistrate's court at Engineer in succession cause No. 65 of 2013, has issued grant of letters of administration to (1) George Nganga Mburu (ID/24949485) and (2) Ndinguri John Mungai (ID/14418710), and whereas the land title deed issued earlier to the said Andrew Mburu Mungai (deceased) has been reported missing or lost, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with registration of the said instrument of R.L. 19 and R.L. 7, and upon such registration the land title deed issued earlier to the said Andrew Mburu Mungai (deceased), shall be deemed to be cancelled and of no effect.

Dated the 2nd April, 2014.

MR/7054462

J. W. KARANJA,
Land Registrar, Nyandarua/Samburu Districts.

GAZETTE NOTICE NO. 2186

THE LAND REGISTRATION ACT
(No. 3 of 2012)

REGISTRATION OF INSTRUMENT

WHEREAS Grace Ncekei Kiara (deceased), is registered as proprietor of that piece of land known as Abogeta/U-Kithangari/1664, situate in the district of Meru, and whereas the High Court in succession cause No. 337 of 2011, has issued grant of letters of administration and certificate of confirmation of grant in favour of Florence Ngeta Miriti, and whereas the said court has executed an application to be registered as proprietor by transmission R.L. 19, and whereas the title deed in respect of the said piece of land is lost, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title

deed and proceed with registration of the said application to be registered as proprietor by transmission of R.L. 19 in the name of Florence Ngeta Miriti, and upon such registration the land title deed issued earlier to the said Grace Ncekei Kiara (deceased), shall be deemed to be cancelled and of no effect.

Dated the 2nd April, 2014.

THE KENYA INFORMATION AND COMMUNICATIONS ACT

(Cap. 411A)

APPLICATION FOR LICENSES

NOTICE is given that the following applicants have, pursuant to the provisions of the Kenya Information and Communications Act, made applications to the Communications Commission of Kenya for the grant of licenses as appears against their respective names.

Name and Address	License Category
Meru Shuttle Limited, P.O. Box 1883-0200, Nairobi	Intra country postal/courier
National Cargo Services Limited, P.O. Box 61706-00100, Nairobi	Regional postal /courier

The reason for the grant of the license is to enable the applicants to operate and provide Postal/Courier and Network Systems and Services as indicated above. The grant of the licenses may affect public and local authorities, companies, persons or bodies of persons within the country.

Any public or local authority, company, person or body of persons desirous of making any representation on or objection to the grant of the licenses as aforesaid must do so by letter addressed to the Director-General, Communications Authority of Kenya, Waiyaki Way, P.O. Box 14448-00800, Nairobi indicating the License Category on the outside of the cover enclosing it on or before expiry of thirty (30) days from the date of this notice and must forward to the applicant a copy of such representation or objection.

Dated the 30th March, 2015.

FRANCIS W. WANGUSI,

Director-General.

THE PHYSICAL PLANNING ACT

(Cap. 286)

COMPLETION OF PART DEVELOPMENT PLANS

(PDP No. CKR/222/14/01 for Existing Sites for Kibirigwi Irrigation Farmers Co-operative Society Limited and Assistant County Commissioners office)

NOTICE is given that the above-mentioned part development plans were on 21st October, 2014, completed.

The part development plans relate to land situated within the Kirinyaga County.

Copies of the part development plans have been deposited for public inspection at the offices of the County Physical Planning Officer, Kirinyaga, County Commissioner, Kirinyaga Central and Deputy Commissioner, Kirinyaga West.

The copies so deposited are available for inspection free of charge by all persons interested at offices of County Physical Planning Officer, Kirinyaga, County Commissioner, Kirinyaga Central and Deputy Commissioner, Kirinyaga West, between the hours of 8.00 a.m. to 5.00 p.m. Monday to Friday.

Any interested person who wishes to make any representation in connection with or objection to the above-named part development plans may send such representations or objections in writing to be received by the County Physical Planning Officer, P.O. Box 483, Kerugoya, within sixty (60) days from the date of publication of this notice and such representation or objection shall state the grounds on which it is made.

Dated the 23rd March, 2015.

GAZETTE NOTICE NO. 2199

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MENENGAI – RONGAI 400kV TRANSMISSION LINE IN NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya Electricity Transmission Company Limited) is proposing to construct, own and operate a 400kV electricity transmission line from Menengai to Rongai Nakuru County.

The proposed transmission line will traverse Rongai sub-county from Menengai crater through Ol-Rongai, Makutano, Kampi ya Moto, Lengenet to Salga in Rongai location.

The scope covered various activities related to; construction works of the proposed development which included ground preparation, construction of the 400/33kV substations and 400Kv electrical transmission line; operation; and decommissioning.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation measures
Terrestrial habitat alteration	<ul style="list-style-type: none"> Re-vegetation of disturbed areas with native plant species. Undertake selective clearance by removing tall woody species leaving saplings, for quick regeneration of vegetation along the way-leave.
Noise and vibration	<ul style="list-style-type: none"> Sensitise the workforce and truck drivers on issues of equipment maintenance. Supervise construction traffic, maintain plant and equipment,

	undertake construction only during the daytime for peace of the neighbours, workers to wear ear plugs, muffs as part of the personal protective gear.
Risk of leaks or spills	<ul style="list-style-type: none"> • Regular maintenance of site equipment. • Investigate the possibility of catalytic converters. • Safety procedures for fuel storage and refuelling. • Dispose of oil residues carefully.
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles during construction, design a separate vehicle entry different from the common entrance with the residents, streamline traffic flow into and out of the premises, initiate changes in traffic flow in the micro-area upon commissioning, install approximate cautionary signage for motorists entering the premises. • Ensure appropriate road safety signage. • Ensure all drivers adhere to the traffic laws and requirements. • Erection of bumps where human and vehicular traffic have high interaction opportunities.
Soil erosion	<ul style="list-style-type: none"> • Soils excavated for the erection of towers should be used for re-filling and should not be left exposed to wind or water for long periods. • The contractor should avoid steep terrain during the transportation of construction material by using alternative routes or use light vehicles where appropriate. • Riverine vegetation should be minimally disturbed during the construction phase to reduce soil erosion and safeguard riverbank protection. • Re-plant degraded areas with local species common in the area to complement natural vegetation regeneration to improve ground cover.
Air Pollution (dust, fuel emissions)	<ul style="list-style-type: none"> • Control speed of construction vehicles. • Prohibit idling of vehicles. • Water should be sprayed during the construction phase on excavated areas. • Regular maintenance of plant and equipment. • Provision of dust masks for use when working in dusty conditions.
Contamination of ground and surface water	<ul style="list-style-type: none"> • Maintenance of construction vehicles should be carried out in the Contractor's camp and a recognized garage. • Proper storage, handling and disposal of oil wastes from machinery, discourage servicing of machinery and vehicles.
Management of solid waste	<ul style="list-style-type: none"> • Contractor must dispose solid wastes away from the site to an approved disposal site. • Temporary pit latrine for construction workers. • Solid waste holding bins (segregated into different compartments), engage approved refuse handling agents for the various waste types emanating from the building, carry out an annual waste audit to determine quantities and characterization of wastes and hence mode of disposal, identify hazardous wastes for specialized disposal.

Risk of fire

- Establishing a network of fuel breaks of less flammable materials or cleared land to slow progress of fires and allow firefighting access.

- Provision of fire safety system that includes training, firefighting equipment; regular maintenance of machinery, vehicles and equipment; and no burning activities to be allowed close to or within the site.

- Controlled burning of vegetation in transmission line rights-of-way should adhere to applicable burning regulations, fire suppression equipment requirements, and typically must be monitored.

Electrocution from live power lines

- A maintenance system to ensure physical integrity of structures is maintained.

- Deactivating and properly grounding live power distribution lines before work is performed on, or in close proximity, to the lines.

- Ensuring that live-wire work is conducted by trained staff.

- Workers should not approach an exposed energized or conductive part even if properly trained unless the worker is : - properly insulated from the energized part with gloves or other approved, insulation; the energized part is properly insulated from the worker and any other conductive object; the worker is properly isolated and insulated from any other conductive object (live-line work).

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

(d) County Director of Environment, Nakuru County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,
for Director-General,
National Environment Management Authority.

MR/6992961

GAZETTE NOTICE No. 2200

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED 400 SILALI - RONGAI 150 KM 400KV
DOUBLE CIRCUIT TRANSMISSION LINE TRAVERSING
NAUDO, LORUK, MARIGAT, AND EMINING IN BARINGO
COUNTY AND TERMINATES AT SALGAA, RONGAI IN
NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has

received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kenya Electricity Transmission Company – KETRACO) is proposing to install a 150km, 400 kV transmission line to link Silali and Rongai. It traverses through Naudo, Loruk, Marigat, Emining in Baringo County and terminates at Salgaa, Rongai, Nakuru County and has a way leave of 60m.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation Measures
Displacement of persons, loss of land and land use rights	<ul style="list-style-type: none"> Continuous community sensitization and awareness creation regarding the project. Detailed Resettlement Action Plan (RAP) study along the 150km line route. RAP Implementation - Fair compensation of PAPs" Structures and Land. Re-route and Re-alignment costs.
Fire risk	<ul style="list-style-type: none"> Ensure firefighting equipment is provided at active site. Flammable material should be stored and transported in appropriate containers. Train workers on fire risk management No burning of any materials should be permitted at the site.
Loss of flora and fauna	<ul style="list-style-type: none"> Limit clearance of vegetation to the way leave row area (60 metres). Selectively clear vegetation. Remove only tall woody species and leave saplings for quick regeneration of vegetation along the way leave. Re-forestation outside the wayleave area ensuring that invasive tree species such as the <i>prosopis juliflora</i> are planted away from the wayleave.
Soil erosion	<ul style="list-style-type: none"> Soils excavated from tower foundations used for backfilling. Excavated soils should not be left exposed to wind or water for long periods. Excess soil should be well evened out on site. The contractor should avoid steep terrain during the transportation of construction material by using alternative/existing routes. Re-plant degraded areas with local species common in the area to enhance natural vegetation regeneration and improve ground cover.
Water pollution	<ul style="list-style-type: none"> Storage and transportation of oil, fuel and other hazardous material to be done in appropriate containers. Training of site workers on handling of spillages. Availing spillage kits including suitable PPE in storage areas. Proper management of waste containers, litter and other waste generated during construction in compliance with waste management regulations 2006. Adherence to EMCA Regulations on water quality. Routine inspection. Maintenance records.
Visual and aesthetic impact	<ul style="list-style-type: none"> Extensive public consultation during the planning of power line and power line right-of-way locations.
Vehicular and human traffic impacts	<ul style="list-style-type: none"> After construction, natural vegetation should be restored in non-operational areas of the site and/or additional landscape planting with local indigenous species used to improve views into the site. Extensive public consultation during the planning of power line and power line right-of-way locations After construction, natural vegetation should be restored in non-operational areas of the site and/or additional landscape planting with local indigenous species used to improve views into the site.
Liquid and solid wastes	<ul style="list-style-type: none"> Sensitization of workers on environmental protection and safety. Provision of solid waste management facilities for the temporary storage and segregation of waste prior to disposal. Liaison with the local County authorities on suitable dumping site for generated waste. Excavated soil to be used for backfilling.
Noise and vibration impacts	<ul style="list-style-type: none"> Use of noise protection devices when working with noisy equipment. The contractor will also be expected to use serviceable equipment with low noise emission and instruct truck and machine operators to avoid raving of engines.
Rock blasting impacts	<ul style="list-style-type: none"> The contractor should provide safety signage, humps, banksmen. Watering to suppress dust. Ensuring proper blast design and driller-blaster communication. Carry out inspection prior to loading and firing of the blast. Controlling access to the blast area, and using a blasting shelter. Use of an experienced driller to detect potential problem areas such as voids, mud seams, incompetent rocks, and other irregularities by observing the progress of drilling.
Air pollution (dust and exhaust emissions)	<ul style="list-style-type: none"> Sensitization of workers on environmental protection and safety. Control speed of construction vehicles Water should be sprayed during the construction phase on dusty excavated areas. Regular maintenance of plant and equipment. Provision of dust masks for use when working in dusty conditions. Use of serviceable vehicles and machinery to avoid excessive smoke emission.
Employment of local labour	<ul style="list-style-type: none"> Maximise use of local labour in execution of construction activities in which they are qualified for. Involvement of local leaders in recruitment process.
Bird mortalities	<ul style="list-style-type: none"> Undertake wire marking to alert birds to the presence of power line. Build raptors platforms on top of pylons for roosting and nesting.
Aircraft navigation safety	<ul style="list-style-type: none"> Install visual markers as an indication for light aircraft.

- Obtain KCAA approval for tower heights.
- Electrocution from live power lines
 - Ensuring physical integrity of structures is maintained.
 - Deactivating and proper grounding of live power distribution lines before work is performed on, or in close proximity to the lines.
 - Ensuring that live wire work is conducted by trained workers only.
 - Ensuring the workers are properly isolated and insulated from any conductive object (live – line work).
- Working at heights during maintenance
 - Testing of structures for integrity prior to undertaking work.
 - Implement a fall protection program that includes training in climbing techniques and use of fall protection measures.
 - Inspection, maintenance and replacement of fall protection equipment
 - Use of helmets and other protective devices.
 - Provision of first aid facilities at site.
- Transmission line demolished materials
 - Buildings to be demolished where reuse not appropriate.
 - Re use materials where appropriate.
 - Remove all plant and equipment.
 - Remove all solid and liquid wastes.
 - Remove all access roads.
 - Re-seed sites.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Baringo County.

(d) County Director of Environment, Nakuru County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

Z. O. OUMA,

for Director-General,

GAZETTE NOTICE NO. 2201

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED QUARRYING, EXCAVATION AND PROCESSING OF DIATOMITE AT KOSITEI, POKOT EAST SUB-COUNTY, BARINGO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Chuanshan International Mining Company Ltd) is proposing to Quarry, Excavate and Process Diatomite at Kositei, Pokot East Sub-County, Baringo County.

The main aim of the project is to prospect, quarry diatomite and associated rocks, process and package for sale on medium scale both locally and internationally. The development is intended to contribute to the supply of quality diatomite to the local market and for export.

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Mitigation Measures

- Vegetation loss and soil erosion
 - Chuanshan International will undertake grass planting as the construction progresses to avoid the soils being washed or carried by wind. Places of least vegetation cover will be identified for the campsite and only construction points will be completely cleared to ensure minimum vegetative disturbance. Proper roof catches and gutters will be put in place to control the possible increased runoff.
 - Temporary storage tanks will be supplied to trap this water for irrigating planted vegetation.
- Soil and bedrock disturbance and landscape interference
 - The stripped topsoil and tailings from the screening process will be used to progressively backfill the dugout trenches immediately behind the abandoned mine. This combination of mining and backfilling leaves only minimal sized mine pit opening at any given time. Care will be taken not to interfere with the course of the seasonal streams, by leaving clearance of at least 30m from the operations points. This is in keeping with the Legal Notice 120 – Water Quality Regulations 2006.
- Ponding risk from construction
 - The Proponent will do landscaping, and fill the depressions including borrow pits and disused quarries. Sporadic torrential rains may fill up pits still in use with water. In such cases supplemental pumping into suitably designed drainage outlets into the seasonal stream will be ensured. The quality of the discharged water will be monitored in keeping with the legal Notice 120, of 2006.
- Loss of plant life and associated bio communities
 - Although plant diversity is low at the proposed site, the proponent will incorporate greater species diversity in their rehabilitation and landscaping programmes. The services of knowledgeable curator/botanist will be employed to implement this feature. Close collaboration and assistance will be sought and built with the Kenya Forest Service at Kabarnet and the Kenya Forestry Research Institute, for supply of appropriate forbs seeds and establishing tree nurseries in the rehabilitation Programme.
- Increased surface runoff and soil erosion
 - Since the area is arid and semi-arid the amount of continual runoff will be minimal and therefore of little impact. However, the proponent will construct surface rainwater trap-pits and cut-off drains to check occasional runoff. Roof catchment's gutters connected to tanks will harvest excess rainwater. The water would also be used for irrigating planted vegetation, outdoor cleaning such as of vehicles and toilet cleaning, thereby reducing demand on
 - Water supply.
- Air pollution from dust and engine exhaust gases
 - Prompt compaction of loose soils and aggressive grass replanting will be implemented. The distance to the

	<p>nearest population concentration is about 1km. The impact of the dust to the surrounding people is therefore unlikely. Water will be sprinkled onto the disturbed off-pit soil to reduce flying dust. However, the mining operation will produce very little dust since the clays on the diatomite-bearing horizon are normally saturated with water. Employees/construction workers will be provided with personal protective equipment (PPE), to reduce possible dust and noxious gas inhalation.</p>	
Alteration of soil geochemistry	<ul style="list-style-type: none"> Beneficial use will be made of these chemical dynamics by investing on plant species that can utmost benefit from the available minerals through efficient absorption. Assistance will be sought from KEFRI and other soil and botanical experts. Otherwise, backfilling will recognize the depth origin of the overburden and tailings, where the latter will go in first. 	
Waste into the environment	<ul style="list-style-type: none"> This area is not connected to the Municipal sewerage network. The staff will not be residing on site but appropriate sized potable septic tanks will be available to staff during their working hours. Quality standards will be adhered to through initial testing and periodic monitoring in line with the requirements of NEMA contained in the Legal Notice 120, of 2006. The proponent will ensure that a licensed private company specialized in the handling oil and solid waste will be enlisted. Biodegradable kitchen waste will be composted on site for tree planting manure. A Good housekeeping as part of the company policy will be implemented at the facility. 	
Surface and ground water contamination	<ul style="list-style-type: none"> The SL has seasonal surface running streams. The project will have an adequate drainage on site containment to minimize uncontrolled storm water. Well-documented procedures for maintenance of the drainage system will be implemented and staff will be trained accordingly. Oil waste will never be allowed into the environment; proper containment and accidental spill absorption regime will be implemented at all time. Vegetative pollutant traps and continual monitoring of the waters on site and surrounding areas will form part of the pollution control efforts by the company. 	
Disease transmission through social interaction	<ul style="list-style-type: none"> Special trainings will be conducted for employees on HIV, and related social health risks. The company, through its social responsibility, will extend community education into the surrounding areas. 	
Noise pollution nuisance	<ul style="list-style-type: none"> The contractor will ensure that the operations of most of the machinery such as excavator, loader shovel and graders are concentrated within 100m-radius and that all workers are provided with and using PPE such as earmuffs. Although there are no residential dwellings in the SL area noise surveillance instruments will be available periodically to check on any excesses. 	
Traffic congestion and accidents	<ul style="list-style-type: none"> The highway is not a busy one. Logistical procedures will ensure ease of movement. Materials will be packed properly in specialized carriers to reduce 	<p>chances of falls on the road. Assistance will be sought from Traffic Department where necessary.</p>
Health deterioration of facility workers	<ul style="list-style-type: none"> Dust containment and suction systems will be installed. Use of PPEs will be strictly enforced. Welders will be provided with respirators, eye protections and dustcoats to minimize inhalations. Regular medical checks will be done and records maintained of the employees. Staff working at the plant will have medical cover. Sanitation related education and practice would form part of the facility's regular routine, to avoid incidences of infections such as cholera, bilharzias and malaria. Swapping of work stations for staff will reduce level of exposure. 	
Noise pollution	<ul style="list-style-type: none"> The contractor will ensure that the required noise levels are observed during the decommissioning phase. Noise surveillance instruments will be available periodically to check on any excesses. 	
Bodily injuries and accidents	<ul style="list-style-type: none"> The contractor will ensure supervision of work and handling of equipment is restricted to only skilled and experience personnel to prevent accidents. Debriefing on safety procedure for site workers will precede any such works. Both the contractor and proponent will observe work ethics and worker's compensation in case of injury or loss. PPE like helmets, overall, nose and eyes protection hand gloves and boots, all of suitable quality will be used. Use of PPE like earmuffs will be enforced. 	

The full report of the proposed project is available for inspection during working hours at.

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

(d) County Director of Environment, Baringo County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
