The County Government Act Section 59 provides:

(3) The reports under subsection (1)(d) shall contain the details of persons appointed including gender, persons with disabilities, persons from the minority and marginalized communities.

Table II—below gives a summary of the distribution according to gender, persons living with disability and non-dominant communities recruited in the period under review.

Table II—Summary of Recruitment distribution according to Gender, Persons Living with Disability (PLDWs) and Non-Dominant Communities

It is paramount to note that all advertisements to fill vacant positions encourage people living with disability (PLWDs) and people from non dominant communities to apply, the applications from these two categories are however few and some of the applicants do not meet the minimum requirements for the positions. This makes it difficult to attain the legal threshold of Gender 1/3 ;PLWDs 5% and None dominant Communities 30%.

It is worthy to note that the Gender and Disability Development Centre, awarded Kiambu County for the second time in a row with the award of "Diversity and Inclusion, Most Progressive County" the theme was "Celebrating Diversity and Inclusion Indicators in: leadership, governance and excellence in service delivery in Kenya" This took place in a colorful ceremony held at on 4th December, 2015

RETIREMENTS IN 2015

During the year under review a total of 135 staff members attained the age of retirement and were removed from the payroll system

CASUAL WORKERS

Prior to devolution casual workers were being engaged to carryout work that requires to be done on permanent basis. The law does not allow engagement of casual workers for more than three months. In addition the casual workers tend to claim entitlement for permanent terms if engaged for more than three months at a time. This sometimes results in civil suits being filed against the County Government

In order to address this problem the Board has required that an exercise be carried out to determine the numbers and the appropriate terms of engaging such workers without breaking the law.

This problem is prevalent in the Department of Water, Environment and Natural Resources which is charged with the responsibility of ensuring cleanliness in the urban areas of the County.

INTERNSHIPS & ATTACHMENTS

The County Government Act provides:

74. The County Public Service Board shall regulate the engagement of persons on contract, volunteer and casual workers, staff of joint ventures and attachment of interns in its public bodies and offices.

In a gesture of giving back to society the Public Service Board allows training through internships and attachments. The trainees are attached to the departments in areas relevant to their training. This creates potential for the trainees as future employees of the County.

PROMOTION OF ARTICLES 10 AND 232 OF THE CONSTITUTION

The County Government Act, 2012, sections 59(1)(e), 59(4)(a) and (c) provides:

"59. (1) The functions of the County Public Service Board shall be, on behalf of the county government, to—

(e) promote in the county public service the values and principles referred to in Articles 10 and 232;

(4) In the performance of its functions under subsection (1)(e), the County Public Service Board shall have powers to—

(a) inform and educate county public officers and the public about the values and principles;

(c) assist county government in the formulation and implementation of programmes intended to inculcate in public officers the duty to uphold the values and principles;"

During the year under review the Board visited all the Sub-Counties in order to educate the county public officers on the principles and values of public service and to get a feel of the challenges in the sub counties. This would help in knowing how to address them. This was the second visit by the Board to the Sub-Counties in the new dispensation.

During the visits, the Board members addressed the sub county staff members and covered the following aspects

Change management

Change management under the concept of devolution was emphasized in order to inculcate into the employees the need to embrace change from the conventional public service delivery to one that is more efficient and effective.

It was pointed out that change management is a systematic approach to dealing with change, both from the perspective of an organization and on an individual level. There is need to change from the cultures, practices, habits, attitudes of the corrupt defunct local government and former national government public service to an efficient, effective public service under the devolved government.

The desired change should be seen in:

- reporting to work on time
- being organized at work
- being accurate in work and avoiding gossip
- locating files and other documents quickly
- minimum use of telephones during working hours
- receiving and respecting customers
- practising friendly, polite public relations
- respecting seniority and being subordinate
- helping the lower level staff through motivation
- taking health breaks for tea and lunch
- keeping appointments with customers
- taking leave when due

This is in adherence of the principles of public service delivery under section 116 of the County Government Act and Article 232 of the Constitution of Kenya which results in ultimately taking the public service closer to the people.

Etiquette/Public Relations

The staff were addressed on etiquette and public relations issues, the right language to use in the office, dress code and matters to do with punctuality and service to the public.

Structures of County Government and its Departments/ national values and principles

The Board created awareness on the hierarchy of the County Government and informed the staff that for efficient and effective management of the County, the leadership must work as a team for synergy in the service delivery to the public. It was pointed out that involvement and active participation of the public is critical at every stage as stipulated in Articles 10 and 232 of the Constitution of Kenya. Public involvement and participation would ensure inclusivity and non-discrimination. This is the only sure way of involving the public in decision making in pertinent issues within the County. In every forum, there should be representation of all the stakeholders. In the event that people with disability are dismally represented, the leadership should reach out to this group through their respective organizations.

At the onset of devolution, fourteen (14) functions were devolved. These were merged to form the current operational ten (10) Departments namely:

- Health Services.
- Finance and Economic Planning.
- Agriculture, Livestock and Fisheries.
- Education, ICT, Culture and Social Services.
- Youth Affairs, Sports and Communications.
- Trade, Industry, Tourism and Co-operative Development.
- Roads, Transport, Public Works and Utilities.
- Water, Environment and Natural Resources.
- Lands, Housing and Physical Planning.
- Administration and Public Service.

Each Department is headed by Chief Executive Committee Member (Minister) at the policy level and a Chief Officer who manages day to day running of the Department.

At the Sub-County level, these departments are co-ordinated by the Sub-county Administrator.

National Values and Principles

According to the County Government Act, the Board will promote in the county public service the values and principles referred to in Articles 10 and 232.

In the performance of the Board's functions set out under section 59(1)(e) of the County Government Act, the County Public Service Board shall have powers to:

- inform and educate county public officers and the public about the values and principles;
- assist county government in the formulation and implementation of programmes intended to inculcate in public officers the duty to uphold the values and principles;

For this reason, the Board encouraged the employees to adhere to national values and principles which are monitored through performance of assignments. The performance must be efficient and effective if the achievement of the desired results is to be achieved. The following values must be adhered to by all officers:

- Accountability
- Transparency
- Integrity
- Inclusivity
- Non-discrimination
- Equality

The County Public Service Board's core mandate is recruitment of staff for the County. In recruitment, the Board ensures compliance with:

- One-third (1/3) gender rule
- 30% from non dominant community in the County
- 5% people living with disability

Disciplinary procedures

The issue of discipline in the public service was highlighted as an inherent part of human resource management. It is used as a guiding tool to create order and organization in the service. The ultimate aim of disciplinary action is to:

- ensure officers achieve high standards of ethical conduct and work performance.
- provide fair and consistent means of dealing with breaches and deficiencies which may cause reduction of ethical and/or performance standards, in order to create a more motivated and dedicated work force.

In this regard the Board is responsible and accountable for disciplinary control in the county public service (Article 235 (c) of the Constitution). The Board also has the power to delegate in writing any part of the function (section 86 (1) of the County Government Act.

The procedures followed are:

1. A show cause letter must be issued to the affected officer by his/her supervisor or authorized officer. The letter must indicate the specific offence for which an officer is being charged, the date(s) on which the alleged offence(s) was/were committed and reasonable period within which to respond to the charge.
2. Investigations must be carried out immediately the disciplinary process begins. The officer should be away for a specified period to enable investigations to be carried out. This period is referred to as interdiction or suspension. The disciplinary case should be processed and disposed of expeditiously (Article 47 (1) of the Constitution on fair administrative action).

Punishment imposed upon officers include:

- Reprimand (a written warning letter)
- A severe reprimand (a very serious warning letter)
- Recovery of costs for loss or breakage caused by default/negligence except where the Authorized Officer/County Government has made recovery through surcharge
- Deferment of increment (to suspend or postpone)
- Withholding of increment (to keep, retain, hold back)
- Stoppage of increment (to bring to a halt)
- Reduction in seniority
- Dismissal
- Retirement in the public interest.

Personal health

The importance of keeping well was emphasized. It is not easy to meet all the needs of the public. It is stressful due to high demands from the people. For this reason, all staff must take care of their health continuously.

Wellness consists of one's physical, emotional, mental, and spiritual well-being.

Research shows that there is direct relationship between personal health and success. The staff were therefore encouraged to check their health to remain healthy, productive and successful.

During the sub-county visits the Board was able to highlight areas that needed to be addressed in order to enhance service delivery of the public service. Some of these included:-

Office Space

There is inadequate office space for Sub-County, Ward Administrators and the new recruits. This was being addressed to ensure conducive working environment.

Harmonization of Salaries

There are major disparities in remuneration between devolved staff, defunct local authorities staff and new recruits. This is causing dissatisfaction among the various cadres. In an effort to address the problem, the Salaries and Remuneration Commission (SRC) has embarked on job evaluation to harmonize skills and pay which shall take some time before completion. For this reason, SRC will be requested to conduct meetings with the Counties to address the dissatisfaction and sensitize the workforce as this is their mandate.

Identity Cards and Entry Permit letters

Disaster management staff (eg. fire fighters), enforcement officers, development monitoring and control officers and revenue collection officers require identity cards for identification while executing their duties. This was in hand.

Rehabilitation Centres for alcoholics

Alcoholism is a major problem within the Sub-Counties among employees as well as the members of the public. Therefore, there is need for construction and equipping rehabilitation centres to address the withdrawal symptoms associated with recovering addicts which may result in death if left unchecked.

Medical Scheme

Comprehensive medical cover for Sub-County and Ward Administrators as well as for the new members of staff would be initiated.

The challenges that were highlighted during the Sub County visits are already being addressed by the relevant departments in the County.

POLICIES

The Board has developed the following policies which will facilitate in service delivery and management of staff in the County:-

1. Board Charter
2. Code of Conduct & Ethics

PROMOTIONS

The County Government Act provides:

Provisions on appointments to apply to promotions.

70. (1) *The provisions of this Act and regulations or procedures made under this Act that apply to appointments shall also apply to promotions.*

The Public Service Board initiated the formation of Advisory Committees in each County department. These Committees are charged with the responsibility of carrying out disciplinary measures at departmental level, handling staff welfare matters and making recommendations for promotions for staff who merit and have served in the Government for three years. The relevant Departments and the Finance Department are both required to confirm budgetary allocation for the proposed promotions before the promotions are carried out.

In 2015 the Board carried out the first phase of promotions in a three phase exercise for staff in the Health Services Department.

RECOGNITION AGREEMENT

Kiambu County is one of the counties that has not experienced industrial unrest in the health sector that has been prevalent in other counties in Kenya. The Public Service Board initiated the signing of a Recognition Agreement with the Kenya National Union of Nurses, Kiambu County branch in order to amicably address staff grievances.

Here below is a photograph of the ceremony

BOARD SEMINARS**CO-OPERATION WITH OTHER INSTITUTIONS—CAPACITY BUILDING :**

Section 59(4) (h), of the County Government Act provides for co operation with other institutions working in the field of good governance in the public service.

During the period under review Board members participated in trainings and seminars on capacity building.

1. Tran-Nzoia County

On the 16th of June 2015 the Board hosted the Trans-Nzoia County Public Service Board for a bench marking meeting.

2. Human Resource Forum for Kiambu, Machakos and Muranga 18th - 19th June 2015

Integrating Human Resource Management and Information Technology Integrated Human Resource Information System (Intra-Health Software)

The Kenya Constitution 2010 stipulates that certain services must be devolved to the 47 counties. Health care management was one of the key essential services that was devolved with the aim of taking services closer to the people. Devolution presents opportunities and challenges to the health system that together determine the effectiveness of service delivery and the character of the overall health system. On average, 50% - 60% of county workers are in the health sector. The sector is facing various challenges that threaten Health system built management in the country since devolution.

Devolution presents opportunities and challenges to the health system that together determine the effectiveness of service delivery and the character of the overall health system. One of the key issues affecting Health sector service delivery is Human Resource management in the county. Counties have been facing challenges with managing health workers resulting in high numbers of industrial unrest in the public health workforce.

Kiambu County Public Service Board has signed a Recognition Agreement with the Kenya National Union of Nurses, Kiambu Branch and has carried out the first phase in a three phase staff promotion exercise in the Health Services Department. This has helped to avert industrial unrest.

Through Public Private Partnership (PPP), the County in conjunction with Intra-Health International embarked on a joint venture to Integrate Human Resource Information System (IHRIS) for devolved Health workers from Ministry of Health. Intra-Health provided the software and the manpower to scan all the files for health workers who were devolved to the County. The team also did data update of staff establishment in terms of total number of health workers from the national government in Kiambu County and current station.

The departments will use the template, to enter the data for the employees from the defunct local authority as well as the new employees. The software is absolutely free.

3. Human Resource Information System (SAP)

The Board has had several meetings with Systems Application Programme (SAP) Consultants on a human resource information system that will enable the Board to manage effectively and efficiently human resource information. The arrangement to procure the software are at an advanced stage. Some of the functions in the software include;

- Recruitment based on online applications
- Personal data management
- Generate performance appraisal reports
- Talent management
- Human resource planning and analysis etc.

4. Performance Management System (World Bank)

Through Public Private Partnership (PPP), Kiambu County in conjunction with World Bank introduced Performance Management System (PMS). This system monitors the performance of the Board as well as departments based on work plans. It highlights performance progression. Departments using the programme are expected to take remedial action timely and accordingly. Reports on progress made are posted monthly by the Efficiency Officers. At the onset of the programme, World Bank trained the Efficiency Officers on how to use the software.

5. Digital platform in the County to aid information flow within the Departments and with the Board.

As mentioned above System Application Programme software will facilitate in this front once it is procured and operationalized. In the meantime, the County has created an email account for all employees. It is through this network that information flows within the departments

WEALTH DECLARATION

The Public Officer Ethics Act (2003) provides

26. (1) Every public officer shall, once every two years prescribed by section 27, submit to the responsible Commission for the public officer a declaration of the income, assets and liabilities of himself, his spouse or spouses and his dependent children under the age of 18 years.

In compliance to the above legal provision, the Board is undertaking an exercise for wealth declaration by public officers. Every employee of the County has been issued with a wealth declaration form which they are required to complete and return duly executed.

CHALLENGES

In the course of carrying out its mandate, the Board has experienced certain challenges that have resulted into matters being filed in court for determination.

Secondly, The Assembly, The Executive and the entire workforce for the co-operation and harmonious working relationship mutually cultivated.

In view of the fact that the devolution is a route no one has travelled before in Kenya, it cannot be over emphasized that its success can be more easily achieved through harnessing and concentrating of all stake holders in a united effort pulling in the same direction.

Finally, I wish to commend members of the Board and the Secretariat for the undivided support and respect they have accorded me individually and collectively throughout the year, without which the degree of success in the delivery of the Board's mandate would not have been achieved.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PHARMACEUTICAL MANUFACTURING PLANT, OFF NAIROBI - NAMANGA ROAD, AT ISINYA TOWNSHIP IN KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Skylight Chemicals Limited, is proposing a Pharmaceutical Manufacturing Plant located on plot L.R No. Kajiado/ Kipedo /2976, at Isinya Township located along Nairobi-Namanga Road in Kajiado. The main objective of the proposed project is development of a Pharmaceutical Manufacturing Plant to cater for production of Human and Animal medicinal products.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Waste water	<ul style="list-style-type: none"> • Ensure the waste water passes through Treatment Plant built according to KCC standard and is regularly inspected. • The proponent must connect the sewerage effluent to well secured septic tanks. The design of the sewer system should consider the estimate discharges from the plants sources and the cumulative discharge of the entire project i.e. it must have the capacity to consistently handle the loads even during peak volumes. The gradient should be sufficient to ensure and maintain maximum depth of flow. • The trunk sewer must be regularly monitored to avoid overflowing and overflowing. They must be checked regularly to monitor level of effluent. • Branches should be streamlined in the direction of flow and there should be no junctions that would affect the flow of the effluent. • All drain pipes passing under building, driveway or parking should be of heavy duty PVC pipe be encased in 150mm concrete surround. • All waste pipes must have cleaning roding eyes accessible from outside. i.e. free to every part of the system for inspection, cleaning and repair. • All manholes on drive ways and parking areas must have heavy-duty covers set and double sealed airtight: as approved by specialists.
Energy requirements	<ul style="list-style-type: none"> • Use of solar panels and generators to substitute KPLC.
Security	<ul style="list-style-type: none"> • Install CCTV, Perimeter walling plus an electric fence monitored by 24hr security guards.
Noise and vibration	<ul style="list-style-type: none"> • Workers should be provided with relevant personal protective equipment/ materials such as earmuffs and earplugs when operating noisy machinery and

when in noisy environment. These provide a physical barrier that reduces inner ear noise levels and prevent hearing loss from occurring.

- Construction works should be carried out only during the specified time i.e. from 0600 hrs to 1800 hrs; when most of the neighbours will be at work.
- Machineries should be maintained regularly to reduce noise resulting from friction.
- No unnecessary hotting of the involved machinery and vehicles.
- Use suppressors or silencers on equipment or noise shields for instance corrugated iron sheet structures.
- Provision of bill boards at the construction site gates notifying of the construction activity and timings.

Fire

- Install sufficient fire extinguishers and water hydrants.
- Periodic Training of staff.

Waste material handling and disposal

- Make sure all staff have protective gear and frequent medical examination. Ensure waste is disposed by way of an incinerator or disposed off by a registered NEMA agent.

Environment degradation

- Ensure maintenance of green infrastructure planting grass and trees in all open areas.

Air quality

- Provide Personal Protective Equipment (PPE) such as nose masks to workers on site.
- Workers should go for regular health check-ups to ascertain their health standards, where dust-proof net during the construction.
- Workers should be trained to understand the hazards that may be generated in such work environments.
- Regular and prompt maintenance of construction machinery and equipment. This will minimize generation of noxious gases and other suspended particulate matter.
- Control over areas generating dust particles. Such areas should be regularly cleaned or sprinkled with water to reduce dust. The areas can be enclosed to mitigate effects of wind on them.

Oil leaks and spills

- All machinery must be keenly observed not to leak oils on the ground. This can be effected through regular maintenance of the machinery.
- Maintenance must be carried out in a designated area (protected service bays) and where oils are completely restrained from reaching the ground. Such areas should be covered to avoid storm from carrying away oils into the soil or water systems. Waste water/ wash water from these areas should be properly disposed.
- All oil products and materials should be stored in site stores or in the contractor's yard. They should be handled appropriately to avoid spills and leaks.

Public safety, traffic, occupational health and safety (OHS)

- The Factories Act cautions should be posted at strategic points.
- Provide protective equipment depending on tasks being performed to avoid injuries and illness including working

boots, overalls, helmets, goggles, ear muffs, masks and gloves etc.

- Vet all food suppliers or have a cook for the project to serve clean food.

The full report of the proposed project is available for inspection during working hours at:
