The following are the anticipated impacts and proposed mitigation measures:

<i>Potential impacts</i>	<i>Mitigation measures</i>
CONSTRUCTION PHASE	
<i>Vegetation Loss</i>	<ul style="list-style-type: none"> • Vegetation loss is set to be confined to the project location and will mainly consist of grass and weeds as the ground is not in use.
<i>Increase in solid wastes</i>	<ul style="list-style-type: none"> • The waste designated area will be well protected from the elements to ensure reduced chances of them being carried away by wind or rain. • Surplus material that cannot be reused in any way will be removed from site by licensed waste handlers. • Solid wastes will be sorted for its different components. There shall be different waste bins for emptying at dry garbage and wet garbage areas. • These wastes will invariably be sent to recycling depots. • Transport of such waste to follow the laid down regulations.
<i>Dust Emissions</i>	<ul style="list-style-type: none"> • Water to be sprinkled on the earth surface • Control of speed and operation of construction vehicles • Prohibit prolonged engine idling • Maintenance of plant and equipment • All bare areas should be landscaped after construction to reduce dust • Provide respiratory protection devices
<i>Noise pollution</i>	<ul style="list-style-type: none"> • Construction work to be restricted today time only. • Constructor to be advised to use well serviced machines.
<i>Traffic congestion and obstruction</i>	<ul style="list-style-type: none"> • Scheduling for material delivery • Trucks to be parked at the site
<i>Occupational health and safety risks</i>	<ul style="list-style-type: none"> • Employees to be provided with appropriate personal protective clothing • First aid services to be readily available on site • Firefighting equipment to be provided at the site

OPERATION PHASE	
<i>Fire hazard</i>	<ul style="list-style-type: none"> • Provision of firefighting appliances • Making clearly the fire points at the site • Workers trained on how to avoid fire incidents
<i>Increase in waste water generation and solid waste</i>	<ul style="list-style-type: none"> • Waste water will be recycled after primary settling, mud pressure filtration, separation of water and mud.
<i>Increase in traffic to the surrounding</i>	<ul style="list-style-type: none"> • Proper signage to be put in place to notify neighbors of the activity and presence of heavy vehicles • Strict adherence to the traffic rules
<i>Occupational health and safety risks</i>	<ul style="list-style-type: none"> • Employees to be provided with appropriate personal protective clothing • First aid services to be available on site. • Provision of proper sanitary facilities for employees

Micro Climate Modification

- Ensure there will be an area within the site planted with grass and flowers to give the plant some beauty and coolness
- Ensure that areas outside the perimeter wall are planted with short indigenous trees and flowers to reduce the heat and for beauty of the surrounding.

Security

- Installation of an entrance and exit security check.
- Well trained security officers from a reputable company to patrol the grounds.
