KISUMU COUNTY PUBLIC SERVICE BOARD

ANNUAL REPORT FOR THE YEAR 2015

FOREWORD BY THE BOARD CHAIRMAN

This is the third Annual Report of the inaugural Public Service Board for Kisumu County. It has been improved taking into account the lessons learnt from the preparation of the first two reports (2013 and 2014).

In principle, this report reflects the magnitude and emphasis of the work done by the Board during the year under review: major transformation in the recruitment process, organizational structure and institutional strengthening activities, including actions to improve organizational culture and behavior. This shift has been informed by the Board's development of a Strategic Plan to guide its work.

The activities undertaken to improve the organization culture and behavior include: Assigning of a delegated instrument in the area of staff discipline, management and promotions, developing a County HR Policy Manual and Code of Conduct to guide in the County Government HR processes and procedures.

I wish to thank both the Executive and the Legislative Arms of the County Government for their support to the Board in implementing its mandate.

The Board will continue to pursue and undertake strategic actions and activities as part of its mission- *"To enhance excellence in Kisumu County Public Service delivery by providing performance driven and ethical human resource"* - in order to support the County Government in her plans make the County "a harbor of excellence".

NASHON WILSON O. OGUYA,

Chairman/Kisumu County Public Service Board.

REPORT OF THE KISUMU COUNTY PUBLIC SERVICE BOARD
TO THE COUNTY ASSEMBLY FOR THE YEAR ENDING 31ST
DECEMBER 2015

PART I—EXECUTIVE SUMMARY

The Kisumu County Public Service Board, in line with section 59 (1) (d) of the County Governments Act No. 17 of 2012, is required to prepare and present to the County Assembly an Annual Report of all its activities for each calendar year. In line with this, the Board in compliance with the Act has completed its report for the year 2015.

During the year under review, the Board undertook various activities in the areas of recruitment and selection, Induction, human resource audit and performance management, governance, discipline and ethics and finance. The Board advertised, interviewed and selected new staff in the Office of the Governor, the Departments of Health, Education, Communication Information and Technology, and the Board Secretariat. Positions for drivers were advertised and interviews conducted, but the selection process has not been finalized due to budgetary constraints. The Board conducted suitability interviews for Governor's appointees in line with the Transition Authority guidelines; Director of Communications; Economic Stimulus Programme (ESP) staff for the Health and Fisheries Departments; Youth Polytechnic instructors seconded to the county by the national government. The Board also absorbed newly graduated doctors that were seconded by the Transition Authority. The Board has initiated the process of recruitment of new/additional staff in the Departments of Health and CIT, Board's secretariat and the County Policing Authority. This exercise is expected to be concluded by March 2016.

The Board has developed the human resources manual which has received Cabinet approval for implementation. The Board Strategic plan is also finalized. The other key policy manuals, namely the Board Charter, the Code of Conduct and Ethics, the County's Discipline Manuals, are at the final stages and are expected to be ready by March 2016.

The Board in liaison with the Salary and Remuneration Commission also spearheaded, within the Kisumu County, the job evaluation exercise for all positions in the County Government. The

activity, nationally coordinated by the Salaries and Remuneration Commission, and conducted by PriceWaterhouse Coopers, had been earlier launched by His Excellency the President, Uhuru Kenyatta. The exercise ensured that all the County's departments evaluated job values for their existing and vacant positions.

The Board gave a report to Parliament through the Transition Authority on its operations and the challenges it faces while carrying out such operations. During the year under review, the Board (represented in the County Government team) appeared before the Senate Joint Committee (Finance, Commerce and Budget and Devolved Government Committees) on 29th July 2015 in Nairobi and also met with the office of the Ombudsman on 30th July to give clarifications on concerns the two Organs had regarding recruitment in the County Government of Kisumu. The Office of the Ombudsman has so far cleared the Board of the complaints made with regard to employment of Ward and Sub-county Administrators.

The Board is working in earnest to ensure that the CIT department creates a portal in the main County's website domain to enable Kisumu residents and Kenyans in general to access any advertised vacancies with ease.

The Board engaged Chief Officers from all departments to discuss the Capacity Assessment and Rationalization of the Public service (CARPS) report with a view to adopting it for use by the County Government of Kisumu. In addition, the Board engaged all the nine directorates of the City of Kisumu in discussing their current and proposed departmental structures as captured in the report.

The Board in the discharge of its duties has been sensitive to the need to strictly observe and inculcate the national values and the values and principles of public service as enshrined in Articles 10 and 232 of the Constitution of Kenya 2010. While gender, youth and Persons with Disability (PWDs) principles have been met as detailed in the Main Report of this Annual Report. It is also important to obtain views of the Stakeholders (Executive, County Assembly and the Public) on what they see and perceive with regard to the public service and service delivery. To this end, the Board has initiated the process to identify and finally contract a consulting firm to conduct a baseline survey to assess the extent to which the County Government has complied with the principles and values of public service.

The Board in the period under review faced enormous challenges including lack of office space and dealing with very high public expectations. Despite the foregoing, the Board has and continues with determination and commitment in discharging its mandate and fulfilling its obligations as stipulated in the County Governments Act, 2012.

ALONG THE RIVER TANA IN THARAKA-NITHI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed.

The proponent, Tana and Athi Rivers Development Authority, is proposing to develop a high grand falls multi-purpose dam on River Tana located 50 km downstream of the Kiambere Hydro Power Station along the River Tana in Tharaka-Nithi County. The main objective of the High Grand Falls Project is to provide a large-scale multi-purpose water reservoir catering for public water supply, irrigation, river regulation, flood control and power generation in order to effectively contribute to the regional and national social-economic development.

The following are the anticipated impacts and proposed mitigation measures:

Project Activities	Environmental and Social Issues	Management Action Plans
Site Preparation Activities - Surveys - Camp site setting - Material holding site setting	• Social conflicts.	• Notify and sensitize all affected land owners before surveying their land. • Involve the local administration and other social groups in social moderations.

<i>Project Activities</i>	<i>Environmental and Social Issues</i>	<i>Management Action Plans</i>
Preliminary Construction Activities - Land acquisition and compensation,	<ul style="list-style-type: none"> Acquisition process of required land for the project construction and buffer zone as well as camp sites. THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT.

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF 40 MW KOPERE FARM PROJECT ON PLOT L. R. NO. (SONGHOR/ SONGHOR/ BLOCK 2/20, 26), ALONG KIMWANI-KOPERE ROAD NEAR KOPERE URBAN CENTRE WITHIN NANDI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kopere Solar Park Limited, is proposing 40 MW Kopere Solar Project at Nandi County. The Project involves building a 40MW AC photovoltaic solar farm and 40 KVa 33/132 step up substation and a 1.8 Km transmission line of 132KV connecting to Lessos-Kisumu Hills Power Main Line at Pylon 87.

The following are the anticipated impacts and proposed mitigation measures:

Expected Negative Impacts Mitigation Measures

1. Minimize extraction site impacts and ensure efficient use of raw materials in construction

High demand of raw materials

- Source building materials from local suppliers who use environmentally friendly processes in their operations.
- Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered.
- Ensure that damage or loss of materials at the construction.
- Site is kept minimal through proper storage.
- Use at least 5%-10% recycled, refurbished or salvaged materials to reduce the use of raw materials and divert material from landfills.

2. Minimize vegetation disturbance at and or around construction site

Vegetation disturbance and tree cutting

- Ensure proper demarcation and delineation of the project area to be affected by construction works.
- Specify locations for trailers and equipment, and areas of the site which should be kept free of traffic, equipment, and storage.
- Designate access routes and parking within the site.
- Introduction of vegetation (trees, shrubs and grass) on in some public and community land spaces.

- Design and implement an appropriate programme to help in re-vegetation of the surrounding of the project area after construction by donating some seedlings to the community.
- 3. Reduce storm-water, runoff and soil erosion**
- Increased storm water, runoff and soil erosion**
- A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed.
 - Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
 - Ensure that construction vehicles are restricted to existing graded roads to avoid soil compaction within the project site.
 - Ensure that any compacted areas are ripped to reduce run-off.
 - Open drains all interconnected will be provided on site.
- 4. Minimize solid waste generation and ensure efficient solid waste management during construction**
- Increased solid waste generation**
- Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Composting and reuse 4. Combustion 5. Sanitary land filling.
 - Through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed rather than cutting them to size, or having large quantities of residual materials.
 - Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed of.
- 5. Reduce dust emissions**
- Dust emission**
- Ensure strict enforcement of on-site speed limit regulations.
 - Avoid excavation works in extremely dry weathers.
 - Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles.
 - Personal protective equipment to be worn.
- Minimization of exhaust emissions**
- Exhaust emission**
- Vehicle idling time shall be minimized.
 - Alternatively fueled construction equipment shall be used where feasible equipment shall be properly tuned and maintained.
 - Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points.
- 6. Minimization of Noise and Vibration**
- Noise and vibration**
- Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used.
 - Sensitize construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches, residential areas and hospitals.
- Ensure that construction machinery are kept in good condition to reduce noise generation.
 - Ensure that all generators and heavy-duty equipment are insulated or placed in enclosures to minimize ambient noise levels.
- 7. Minimize water consumption and ensure more efficient and safe water use**
- High water demand**
- Install water conserving taps that turn-off automatically when water is not being used.
 - Promote recycling and reuse of water as much as possible.
 - Install a discharge meter at water outlets to determine and monitor total water usage.
 - Promptly detect and repair of water pipe and tank leaks.
 - Sensitize staff to conserve water by avoiding unnecessary water use.
 - Ensure taps are not running when not in use.
- 8. Incidents, accidents and dangerous occurrences**
- Incidents, accidents and dangerous occurrences**
- Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place.
 - Enforcing adherence to safety procedures and Preparing contingency plan for accident response in addition, safety education and training shall be emphasized.
- Safe means of access and safe place of employment**
- All floors, steps, stairs and passages of the premises must be of sound construction and properly maintained.
 - Securely fence or cover all openings in floors.
 - Provide all staircases within the premises with suitable handrails on both sides.
 - Ensure that construction workers are not locked up such that they would not escape in case of an emergency.
 - All ladders used in construction works must be of good construction and sound material of adequate strength and be properly maintained.
- Emergency preparedness and evacuation procedures**
- Design suitable documented emergency preparedness and evacuation procedures to be used during any emergency.
 - Such procedures must be tested at regular intervals.
 - Ensure that adequate provisions are in place to immediately stop any operations where there is an imminent and serious danger to health and safety and to evacuate workers.
 - Ensure that the most current emergency telephone numbers are prominently and strategically displayed within the construction site.
 - Provide measures to deal with emergencies and accidents including adequate first aid arrangements.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Natural Resources, N.H.I.F. Building, Community, P.O. Box 30126-00100, Nairobi.
- (c) County Director of Environment, Nandi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.
