The Proponent, Ministry of Lands, Housing and Urban Development, through the County Government of Trans Nzoia is proposing to establish a border town at Suam border crossing to Uganda. The proposed border town at Suam will see the conversion of 50 Ha out of the existing 2,350Ha of Suam Forest into a border town complete with both National and County Government functions. Plots will be allocated to interested parties for use in accordance with the County Government of Trans Nzoia urban planning guidelines. There will be the associated infrastructure such as roads, waste management, electricity, National Government offices, and many other land alterations that are associated with urban development.

The following are the anticipated impacts and proposed mitigation measures:

- | <i>Impacts</i> | <i>Proposed mitigation measures</i> |
|-------------------|---|
| Biodiversity loss | <ul style="list-style-type: none"> • Enhanced surveillance against poachers. • Continuous sensitization of workers against overexploitation of species. • Enforcement of trespass Act. |

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CHURCH, COMMUNITY CENTRE AND INSTITUTIONAL HOUSING ON PLOT L.R. NO. 9118/9 LOCATED ALONG MAGADI ROAD BETWEEN GEMS CAMBRIDGE INTERNATIONAL SCHOOL AND BANDA SCHOOL AT KAREN IN NAIROBI COUNTY

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project. The Proponent, The Trustees End Time Message Assembly, is proposing to construct a Church, Community Centre and institutional housing center comprising of 33 blocks on Plot L.R. No. 9118/9 situated along Magadi Road between GEMS Cambridge International School and Banda School in Karen, Nairobi County. The main design components of the project include 1. Development of the Religious building (Church/Sanctuary) with the following: Balcony seating which has cloak rooms for both gents and ladies and two (2) offices. Sub-basement floor with parking, drive ways, two (2) halls and cloak rooms for both gents and ladies. Ground Floor: this will be the main sanctuary. It will have adequate cloak rooms.

2. Community Centre will comprise of the following: Ground Floor Plan: emergency exit, multi-purpose hall, office, cloak rooms and security room. First Floor Plan: will have a restaurant, kitchen, clinic (with reception, office, 2 consult rooms and staff rooms), ladies and gents gym and changing rooms. Second Floor: will consist of residential units

3. Proposed institutional housing (33 blocks): they will comprise of the following:

Ground Floor Plan: this will have two (2) units of three (3) bedroomed houses each with a master bedroom, bedroom 1 and 2, lounge, balcony, dining, kitchen and lobby areas. Typical 1st and 2nd floor plan: will have two (2) three bed roomed units in each floor.

The total number of units in one block will be six (6). The entire thirty three (33) blocks will have hundred and eight units (198). (33x6).

The following are the anticipated impacts and proposed mitigation measures:

GAZETTE NOTICE NO. 38

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DUALLING OF BOMAS-KISERIAN-CORNER BARIDI (C58) AND BOMAS-KAREN-DAGORETTI-MARKET (C63) ROADS IN NAIROBI, KAJIADO AND KIAMBU COUNTIES.

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent, Kenya National Highways Authority, is proposing to dual Bomas-Kiserian-Corner Baridi (C58) and Bomas-Karen-Dagoretti-Market (C63) Roads. The project description is as follows:

Bomas-Karen-Dagoretti Market (C63) Road

The proposed road project is situated along the existing Bomas-Karen-Dagoretti-Kikuyu Road (C63) in Kiambu County. It is located in Nairobi and Kiambu Counties and measures about 14 km. It starts at the Junction of Seminary road near Bomas and ends at Dagoretti Market Tee Junction with D 412.

Bomas-Kiserian-Corner Baridi Road (C58) Road

The Project Road is located in Nairobi and Kajiado Counties. It starts at Bomas of Kenya, runs in a south westerly direction through Ongata Rongai passes through Kiserian and terminates at Corner Baridi. This is part of the main road ending in Magadi in Kajiado County. The proposed section for dualling is Bomas – Ongata Rongai – Kiserian – Corner Baridi which is approximately 27 km ending at Corner Baridi.

Width of Carriageway

The main carriageway shall contain at least two lanes each of 3m width for traffic flowing in each direction (two way four lane road) with 2m wide shoulders on both sides. 2m wide walkways shall be provided on both sides for the sections traversing built up areas with high pedestrian traffic. And provision of appropriate trapezoidal drainage channels.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed mitigation measures</i>
Loss of flora (biodiversity)	<ul style="list-style-type: none"> Minimize number of trees and other vegetation clearance. Minimizing clearing and disruption to riparian vegetation. Re-vegetation of disturbed areas with native plant species. Protect all the ecologically critical areas such as riparian zones by clear delineation and planting of suitable indigenous plant species. Staff training before the commencement of construction activities. Selection a proper location to establish temporary camps and construction workshops (a land void of trees with sufficient distance from river) Use of soils resulting from excavation in embankment, gardening and reclamation through planting native trees.
Changes on faunal activity	<ul style="list-style-type: none"> Implement all mitigation measures for noise and effort to maintain it at the permissible standard level. Selecting an appropriate period/season for construction work and refraining from it being synchronous with sensitive period for wildlife, such as pregnancy duration and giving birth. The performance of mitigation measures for noise pollution and efforts to maintain it at the permissible standard level shall be effective in decreasing this impact. Regulating the time-table for the mobilization of vehicles so as to prevent stress arising from noise pollution. A time-table regarding rock blasting, so as to prevent stress arising from noise pollution.

<i>Impacts</i>	<i>Proposed mitigation measures</i>	<i>Impacts</i>	<i>Proposed mitigation measures</i>
	<ul style="list-style-type: none"> • Prevention from spilling oil and grease compounds of vehicles and machinery on the ground so as to prevent soil pollution in the terrestrial ecosystem and its secondary impacts on wildlife through the food chain. • Prevention from the discharge of oil and grease compounds of vehicles and machinery, wastes and wastewaters into the river and streams so as to prevent the pollution of drinking water resources of wildlife. • Training of workers and staff about meaning and principals of environmental conservation, prevention methods relevant to polluting the terrestrial and aquatic environments, hunting prohibitions and the prevention of excessive disorder of wastes and debris. 	Air pollution from dust and emissions	<ul style="list-style-type: none"> • Sprinkle water on exposed dusty surfaces to reduce dust generation. • Trucks hauling soil should be covered with tarpaulins. • Checking, repairing and fixing the engines of vehicles and heavy machineries. All machineries and equipment should be maintained in good working order to ensure minimum emissions including carbon monoxide, oxides of nitrogen and sulphur, as well as suspended particles. • Affixing filters on the exhausts. • Utilizing masks for workers who are directly in the location where dust is dispersed. • Supervision by a representative from NEMA on the implementation of the above mentioned mitigation measures. • Staff training before the commencement of construction activities • Strict adherence to Air Quality Regulations, 2014.
Disruption of public utilities	<ul style="list-style-type: none"> • Provide sufficient notice for utility companies to relocate and restore the connections. • Disconnection should be planned in consultation with affected stakeholders so as to minimize impact. Sensitive institutions like hospitals should be taken into consideration. 		
Extraction of natural resources for construction	<ul style="list-style-type: none"> • All burrow pit sites shall be clearly indicated on a plan and approved by the local authority; appropriate authorization to use the proposed burrows pits and quarries will be obtained before commencing activities. • Burrow pits and quarries shall be located more than 100 meters from watercourses in a position that will facilitate the prevention of storm-water runoff from the site from entering the watercourse. • Notice will be given 14 days to nearby communities of intention to excavate in the borrow pits or quarries. • Burrow rehabilitation plans, will be prepared prior to use and approved by the KeNHA and County Government. • Storm-water and groundwater controls shall be implemented to prevent runoff entering streams and the slumping of soil from hillside above. 	Noise pollution	<ul style="list-style-type: none"> • Measuring the intensity of noise by utilizing the noise meter. In the case that, the level measured is higher than the permissible amount, all the methods to conserve the mental health of workers must be utilized to lessen the level of noise and decrease it to the standard level and shortening the period of noise generated should be taken under consideration. • Lubricating and regular repair of equipment and machinery. • Insulating engines which create noise. • Selecting an appropriate period for construction activities and refraining from it being synchronous with sensitive period for wildlife, such as their pregnancy and giving birth duration. • The contractor should adopt the best practicable means of minimizing noise. • For any particular job, the quietest available machinery should be used. • All equipment should be maintained in good mechanical order and fitted with the appropriate silencers, mufflers, or acoustic covers where applicable. • Stationary noise sources should be sited as far away as possible from noise-sensitive areas, and where necessary acoustic barriers should be used to shield them. • Pneumatic drills and other noisy appliances should not be used after normal working hours. • Workers should be given noise protection equipment such as earmuffs and be taught how to use them and supervised to ensure such safety procedures are being adhered to. • The public should be informed that short periods of noise may be inevitable but prior warning of when noisy activities are to take place and the days and times noise of when they could be expected should be widely publicized before the activity takes place. • Fixing engines and exhausts of heavy machineries. • Use of portable acoustic barriers to shield compressors and other noisy equipment where necessary. • Observe and practice the recommended noise regulations • Elevating the speed of work, so as to shorten the construction period as much as possible. • Adherence to Noise and Excessive Vibrations Pollution (Control) Regulations, 2009.
Soil erosion	<ul style="list-style-type: none"> • Compaction of loose material. • Diversion of runoff flows from construction sites. • Regular visits lead to the identifying of areas that have problems in regards to erosion and thus are given priority, so that corrective plans are implemented. • Soil excavation and embankment must be made for the immediate project area and unessential activities should be refrained from. • In order to compensate the damages incurred, due to the accelerated erosion, arising from construction activities, a control of natural erosion during the construction period must be taken under consideration. 		
Water and soil contamination	<ul style="list-style-type: none"> • Oil residuals including waste oil, lubricants, used filters, should be carefully collected and stored for safe disposal, in order to prevent spilling of contaminant hydrocarbons into runoff or groundwater. • Regular maintenance of site equipment and machinery should be carried out to ensure any leakages are detected and controlled. • Construction solid waste generated by activities can be disposed in areas approved by the county government that will be identified before commencement of construction activities. • Supervision of a representative from NEMA on the implementation of the above mentioned mitigation measures. 		

<i>Impacts</i>	<i>Proposed mitigation measures</i>
Disruption and loss of businesses	<ul style="list-style-type: none"> • Sufficient (up to 3months) notice should be issued to the affected business to relocate. • Alternative sites, where feasible, should be provided to tree nursery traders. KeNHA.
Increased risk of diseases with migrant workers	<ul style="list-style-type: none"> • The contractor should put in place communication and information program. • Provision of condoms to the workers.
Impact on historical and cultural sites	<ul style="list-style-type: none"> • Training of the construction workers in identifying signs for materials of archaeological and historical value such as bones, shards, metal works, etc. • On suspicion of findings, the contractors to cease work, notify the supervising engineer of the find or disputes relating to archaeological relics or cultural religious sites. • Follow the chance find procedure.
Occupation Health and Safety	<ul style="list-style-type: none"> • Workers shall be provided with appropriate personal protective equipment, such as coveralls, boots, mittens, gloves, dust and fume masks, all of which must be regularly replaced. • The abstract of the Occupational Safety and Health Act, 2007 must be displayed at prominent places within the site. • Well stocked first aid box which is easily available and accessible should be provided within the construction site as well as at least an ambulance. • Ensure the working hours are controlled and that employees are not allowed to extend the working hours beyond an acceptable limit for purposes of gaining extra pay • Ensure that all site personnel are provided with an adequate supply of safe drinking water, which should be at accessible points at all times. • Provide conveniently accessible, clean, orderly, adequate and suitable washing facilities within the site • Comply with provisions of OSHA 2007.

The full report of the proposed project is available for inspection during working hours at:

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR PROPOSED RUMURUTI WATER SUPPLY PROJECT UNDER NORTHERN WATER SERVICES BOARD IN LAIKIPIA COUNTY

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent, Northern Water Services Board, is proposing to undertake water supply project in Rumuruti Town in Laikipia County. The project will incorporate three phases namely: Phase 1- Rehabilitation of Rumuruti Town Water Supply. Phase 2- Augmentation of Rumuruti Town Water Supply through direct abstraction of Water from Ewaso Narok River by abstraction 5,000m³/day on the boundary of Rumuruti Forest. Phase 3- Up-scaling water supply to Rumuruti Town from 5,000m³/day to 8,000m³/day by Constructing Ewaso Narok (Rumuruti) Dam to stabilize Ewaso Narok River

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed mitigation measures</i>
Loss of flora and fauna	<ul style="list-style-type: none"> • Site clearance should be limited to the minimum area required for the execution of the works. • The records of the number and tree species cut to be kept. • Replanting of indigenous trees after the project is completed. • Top soil should be stockpiled separately from the subsoil. After completion of works, the subsoil should be backfilled first then top soil should be restored on top to facilitate natural regeneration of those areas.
Air pollution	<ul style="list-style-type: none"> • Vehicles and other equipment emissions would be kept to a minimum by servicing and maintaining the equipment to manufacturer's specification. • In, addition the contractor to be encouraged to use unleaded and low sulphur content petrol and diesel respectively for all equipment and vehicles. • The contractor should also make use of the readily available labor for carrying out construction activities. • Adherence to Air Quality Regulations, 2014.
Noise and dust	<ul style="list-style-type: none"> • Use protective clothing like helmets and dust masks on construction crew. • Avoid night time construction when noise is loudest. Avoid night-time construction using heavy machinery, from 22:00 to 6:00 near residential areas. • No discretionary use of noisy machinery within 50m of residential areas. • Good maintenance and proper operation of construction machinery to minimize noise generation. • Installation of temporary sound barriers if necessary. • Construction sites and transportation routes will be water-sprayed on dry and windy days up to three times a day, especially if these sites are near sensitive receptors, such as residential areas or institutions. • Comply with the provisions of Noise and Excessive Vibration Pollution Control Regulations of 2009.
Generation of solid and liquid waste	<ul style="list-style-type: none"> • Provide adequate waste disposal facilities. Ensure collection of all solid waste from generation points, safe transportation to a central point where they are sorted out and safely disposed according to type to protect the environmental resources. • Put in place adequate and efficient sanitary facilities for handling liquid waste especially waste water to protect the river from pollution.

Impacts**Proposed mitigation measures**

- Wastewater from residential quarters and offices to be directed to constructed septic tanks for safe handling.
 - Pit latrines can be used in areas where the other services are not available or feasible
 - Strict adherence to provisions of Waste Management Regulations, 2006.
- Pollution of water resources**
- Ensure proper solid and liquid wastes disposal mainly from the construction camps and offices.
 - Ensure proper measures are in place for collection and disposal of spilled oils and lubricants.
- Loss of structures**
- As a first step, the owners, type of structures and businesses are identified. The compensation will be done at replacement cost.
- Land acquisition for laying of pipelines**
- The pipelines will be laid within the existing road reserves thus there will be no need for land acquisition.
- Loss of livelihoods**
- Loss of livelihoods to be valued and compensated to ensure that project affected persons (PAPs) continue with their normal lives (or better) as before the project.
- Occupational Health and Safety**
- Provision of Personal Protective Equipment (ear muffs, gloves, dust masks and helmets) for the construction crew.
 - Employ a safety and health officer on site.
 - Provide First aid kit and appropriate procedures and safety measures.
 - Ensure that all construction machines and equipment are in good working conditions to prevent occupational hazards.
 - Provide workers training on safety procedures and emergency response such as fire, oil and chemical spills, pipe bursts and other serious water loss risks.
 - Sensitize workers and the surrounding communities on awareness, prevention and management of HIV/AIDS through staff training, awareness campaigns, multimedia and workshops or during community barazas.
 - Provide condom dispensers at appropriate locations coupled with awareness campaigns to workers and surrounding communities on HIV/AIDS throughout the construction period.
 - Provide enough toilets within the camp.
 - Work to minimize or altogether eliminate mosquito breeding sites.
 - In general comply with operating occupational health and safety law requirements comply with the provisions of OSHA 2007.

The full report of the proposed project is available for inspection during working hours at:

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
