GAZETTE NOTICE NO. 12188

THE WATER ACT

(No. 43 of 2016)

LICENCE FEES

The Water Act, 2016 sections 89 (1) (2) and 130 confers to Water Services Regulatory Board (WASREB) powers to prescribe licence fees payable by various licensees on issuance of the license and at prescribed intervals thereafter.

WASREB gives notice to the general public that the fees specified in the following schedule has been prescribed by the Board as the amounts payable by the categories of licensees respectively specified, effective 1st November, 2018.

SCHEDULE OF FEES

Description-Category of Licence Fees	Amount (KSh.)	Frequency
Licence application fees:		on application
(a) Small and Medium WSPs	75,000	
(b) Large and very large WSPs	100,000	
Issuance of Licence:		on issuance
Licence fees	0.1% of the annual turnover (last audited accounts)	
Licence operation fee (Regulatory Levy)	4% of WSPs turnover	Monthly
Access to information/data fees	1,000	per set of information
Lodging of complaints and appeal	1,000	per set of complaints and appeal
Penalty for non-compliance	2,000	per day per item

Notes:

1. The purpose of the fees specified in the schedule is to facilitate the protection of the interest and rights of consumers in the provision of water and sanitation services. This will be achieved through setting of national standards for water service provision and asset development, licensing, monitoring compliance and enforcement of licence conditions.

2. Each Water Service Provider shall on or before the fifteenth day of each month, have remitted to WASREB the monthly licence fees in respect of the immediately preceding month.

3. The manner of remittance of the once off fees shall be by way of payment in advance and monthly fees shall be by way of a standing order into an account of WASREB established for the purpose in accordance with instructions issued by WASREB.

4. Where the Water Service Provider fails to remit any amount due and payable by way of monthly licence fees on or before the date specified in the licence, a penalty of KSh. 2,000 per day shall be added to the amount due for each month or part thereof during which it remains unpaid.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR CONSTRUCTION AND SUPERVISION OF THE PROPOSED
NAROK TOWN SEWERAGE PROJECT

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Rift Valley Water Services Board, is proposing to undertake an Environmental and Social Impact Assessment (ESIA) Study Report for the proposed Narok Town Sewerage Project which entails the construction of secondary and trunk sewers and a sewage treatment works. The project area is designed to cover 33Ha. of land at Intumot Village, Narok County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Environmental degradation	<ul style="list-style-type: none"> Isolate through fencing the camp sites from access by the public for their safety. Preferably to be located on land already cleared land wherever possible. The contractor's camp layout shall take into account availability of access for deliveries and services and any future works. Utilize to the extent possible the existing public roads to avoid social and economic disruption. Ensure road safety measures for the construction vehicles to the extent possible by observing all traffic regulations.
Air pollution	<ul style="list-style-type: none"> Workers shall be trained on management of air pollution from vehicles and machinery. The removal of vegetation shall be avoided until such time as clearance is required and exposed surfaces shall be re-vegetated or stabilised as soon as practically possible. The contractor shall not carry out dust generating activities (excavation, handling and transport of soils) during times of strong winds. Water sprays shall be used on all earthworks areas within 200metres of human settlement.
Vegetation cover destruction	<ul style="list-style-type: none"> Construction activities will be limited to Project sites/routes which already exist therefore limited destruction to vegetation cover. Compensatory planting of trees i.e. plant at least twice the number of trees, about 900 in total either on farmers land or in public land within the project area.

Impacts

Soil erosion impacts

Proposed Mitigation Measures

- Earthworks should be controlled so that land that is not required for the project works is not disturbed.
- Wherever possible, earthworks should be carried out during the dry season to prevent soil from being washed away by the rain.
- Excavated materials and excess earth should be kept at appropriate sites approved by the supervising engineer.
- The contractor should adhere to specified cut and fill gradients and planting embankments with shrubs and grass to reduce erosion.
- The contractor must adhere to Noise Prevention and Control Rules of April 2005.

Generation of solid and liquid waste

- The contractor shall develop a comprehensive Waste Management Plan (WMP) prior to commencement of works.
- Properly labelled and strategically placed waste disposal containers shall be provided at all places of work.
- Litter bins should have secured lids to prevent animals and birds from scavenging.
- All personnel shall be instructed to dispose of all waste in a proper manner.
- Water containing pollutants such as concrete or chemicals should be directed to a conservancy tank for removal from the site where applicable.
- Potential pollutants of any kind and form shall be kept, stored and used in such a manner that any escape can be contained.
- Wash areas shall be placed and constructed in such a manner so as to ensure that the surrounding areas including groundwater are not polluted.

Pollution of water resources

- No grey water runoff or uncontrolled discharges from the site/working areas to adjacent laggas and River Enkare Narok shall be permitted.
- Water containing such pollutants as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site where applicable.
- The contractor shall also prevent runoff loaded with sediment from the site/working areas from discharging to River Enkare Narok.

Traffic management on site

- Strict use of warning signage and tapes where the trenches are open and active sites.
- Employ and train road safety marshalls who will be responsible for management of traffic on site.
- Contractor to provide a traffic management plan during construction to be approved by the resident engineer.

Occupational health and safety

- Notify public the intent to cut sections of the road for safety precautions.
- Provide signage and safety information in all work areas.
- Ensure compliance by workers with safety safeguards including the OHS, provision of safety gear and enforcement of application.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Narok County.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED UPGRADING OF KULAMAWE- MODOGASHE (113KM) ROAD TO BITUMEN STANDARDS IN ISIOLO AND GARISSA COUNTIES

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highways Authority (KeNHA), is proposing to upgrade Kulamawe-Modogashe (113km) Road to bitumen standards. The project road is approximately 113km long and forms part of the Isiolo-Mandera Road. It starts at Kulamawe Shopping Centre in Garbatulla Sub-county, Isiolo County, passing through Eldere, Bullo, Barkuke and Janju settlements and terminates at Modogashe Shopping Centre, a border town parts of which are in Isiolo and Garissa counties. The project road is classified as Road B84 under the new (2016) road classification system by the Ministry of Transport, Infrastructure, Housing and Urban Development (MoTIHUD). The proposed alignment lies on a generally flat to gentle sloping terrain from Kulamawe, and traverses a vast low plain connecting market centres among them Boji, Garbatula, Eldera, Eldere, Camp Samaki and Barkuke.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Construction material sourcing	<ul style="list-style-type: none"> Obtain appropriate authorization and licenses for the use of the borrow pits and quarries before commencing activities. Carry out inspection of each of the sites' soil stability before excavation. All borrow pit sites shall be clearly indicated on a plan and approved by the engineer. Borrow pits and quarries to be located more than 100 metres from watercourses to minimize storm water runoff into watercourse and mitigate potential conflicts. Give 14 days' notice to nearby communities of the intention to begin excavation in the borrow pits or quarries. Prepare a material extraction plan prior any work on the quarries and borrow pits is commenced.

Impacts

Proposed Mitigation Measures

	<ul style="list-style-type: none"> Where material sites are close to settlements, cordon off the quarry and borrow areas to keep livestock, wildlife and children out. All borrow pits and quarries must be decommissioned when work on the road is over, hence a rehabilitation plan MUST be prepared by the contractor as part contract agreement with the land owners and NEMA licensing. Stockpile topsoil on site and use during rehabilitation of the borrow pits and quarries. In case of blasting. Obtain a current and valid authorization from the Department of Mines and Geology prior to any blasting activity. A qualified and registered blaster shall supervise all blasting and rock-splitting operations. Develop a safety policy on site. Upon completion of works, the borrow areas and quarries should be graded and backfilled with topsoil that formed the overburden. Since the project area is largely semi-arid and may not support planted seedlings, the area should be cordoned off and natural regeneration allowed to occur.
Damage to landscape	<ul style="list-style-type: none"> Ensure that intake area is landscaped and that a 50m buffer zone along the river is maintained by planting of water friendly trees and grass along the river embankment and on both sides of the intake structure, construction of river embankment structures, as well as re use of soil from trenching activities as a backfill.
Water logging	<ul style="list-style-type: none"> Adopt on the correct water application to ensure efficient irrigation technologies.
Use of pesticides, herbicides and fertilizers	<ul style="list-style-type: none"> The farm management will review the material safety data sheet for pesticides and herbicides used in the farm. Train workers on use and storage requirements of chemicals and personal protective equipments. Consider and adopt Integrated Pest Management IPM.
Build- up of toxins in the soil	<ul style="list-style-type: none"> Proper use of chemical and fertilizers at recommended rates. Use of biodegradable farm herbicides, insecticides and fertilizers in the farm. Explore organic farming options.
Increased waste generation	<ul style="list-style-type: none"> Recycle and reuse waste including water. Exercising appropriate waste handling and good housekeeping practices and procedures. Strict Adherence to Waste Management Regulations, 2006.
Disruption of water course	<ul style="list-style-type: none"> Stabilization of water courses and river banks after all constructions are complete. Reuse of trenched soils as a backfill when laying the pipelines. Abstract water as per the water permit.
Dust, emissions and other odors and	<ul style="list-style-type: none"> Use hand tools to do excavation and limit use of heavy machinery.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
noise	<ul style="list-style-type: none"> • Provide, enforce and use of personal protective equipment. • Adherence to Noise and Excessive Vibrations Pollution (Control) Regulations, 2009. • Regularly maintain and wet the farm roads. • Maintenance of all farm machinery and tractors as per the servicing schedule. • Sprinkling water when dusty conditions set in. • Strict Adherence to Air Quality Regulations, 2014.
Drying of river during low flow	<ul style="list-style-type: none"> • Control irrigation during extreme droughts. • Consult and join Sabaki River Water resource Users Association, in line with Water Act, 2002.
Rising of river bed upstream of the weir	<ul style="list-style-type: none"> • Carrying out periodic scouring of sediments deposited. • Have a river embankment upstream of the intake weir.
Rising of water table level adjacent to the weir	<ul style="list-style-type: none"> • Plant trees and grass to protect soil erosion loss.
Loss of soil fertility	<ul style="list-style-type: none"> • Practice good agricultural techniques. • Practice seed intercropping. • Sensitization of community on erosion prevention measures and good agricultural practices. • Carry out mulching.
Encroachment in the river line area	<ul style="list-style-type: none"> • Maintain the required riparian reserve along the river. • Enforce Agricultural Act on the same. • Sensitize community on importance of river line. • Plant grass in the river line for stabilization.
Increase in waterborne diseases	<ul style="list-style-type: none"> • Wash and cook vegetables. • Avoid eating raw foods. • Train workers on proper practices and sanitation practices. • Treat water before using it for potable uses.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Linden properties LLP, is proposing to construct a Purpose-Built Student Accommodation (PBSA) unit comprising of accommodation studios (residential units), manager office, reading rooms, lift lobby, gaming room, lounge area refuse holding room, laundry, generator section, parking and associated amenities.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Waste water/storm water	<ul style="list-style-type: none"> • Permits to discharge waste water to the sewer line should be acquired. • Storm water drains should be placed to facilitate storm water channeling and prevent soil erosion or flooding. • The parking lot should be constructed with porous material to allow for water infiltration thus reduce surface runoff. • Roof water harvesting should be practiced reducing on storm water and also as a water Conservation technique. • Areas that are not built should be ploughed to loosen the soil particles in case compaction had taken place; vegetation should be planted in these areas to facilitate water infiltration.
Air pollution	<ul style="list-style-type: none"> • Ensure that Construction vehicles are well maintained to reduce the volume produced of exhaust fumes. • Encouraging the use of unleaded fuel. • Vehicles transporting sand and/or soil/earth spoils should be properly covered to prevent particles from being blown into the air. • During construction, dust nets should be placed around the building to trap fugitive dust. • Workers should be issued with dust masks or respirator masks. • Ensure compliance to Air Quality Regulations, 2014.
Excessive noise and vibration	<ul style="list-style-type: none"> • Reduce the idling time of vehicles.(Switching on and off of running engines at appropriate times). • Construction vehicles, equipment and machinery should be well maintained to reduce their noise levels. Sound dampening mats may be installed in extremely noisy machinery/equipment. • Working hours should be restricted to day time and a notice served to the neighbors indicating the working hours.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> Workers should be provided with earmuffs. Ensure compliance to Noise and Excessive Vibrations Regulations, 2009.
Generation of solid waste	<ul style="list-style-type: none"> Provision of bins where waste will be disposed on the site. Contracting a waste collection company to collect waste from the site daily. Provision of a well laid strategy on waste management in the site. Reduction in the amount of solid waste generated by reducing packaging of material. Segregation of waste to encourage reuse and recycling. Disposal of solid waste in compliance with EMCA 2006 Waste Management Regulations.
Health and safety	<ul style="list-style-type: none"> Placement of barriers to prevent materials from falling on the road/path next to the proposed project site. Limiting construction vehicle speed around the site to avoid/reduce collisions. Installation of dust nets around the building to trap fugitive dust. Proper handling of oils and chemicals to prevent contamination. Erection of warning signs next to the construction site to warn road users of risk of falling material and heavy trucks. Ensure compliance to Occupational Safety and Health Act, 2007
Social ills	<ul style="list-style-type: none"> Have a counsellor to offer guidance and counselling as part of the PBSA management team. Partner with surrounding institutions of learning/Universities and relevant government bodies to offer / support short courses on social interaction and social studies in general. Support HIV/AIDS Awareness and education. This can be done by educative posters, offering free HIV/AIDS testing services, HIV/AIDS counselling and issuing of condoms within the PBSA and neighboring institutions of higher learning. Ensure hostels are drug free zones as per respective legislations including Tobacco Control Act, 2007 and Alcoholic Drinks Control Act, 2010. Implement the developed code of conduct for students to control social mischiefs and ills within the PBSA hostels and community.

The full report of the proposed project is available for inspection during working hours at:

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Ministry of Agriculture and Irrigation, is proposing to construct Kaptionyy Concrete Dam of height 18m and capacity 211,000m³ as main dam and Yeptos Tulwongoi Concrete Dam of height 19m and capacity 219,795.83m³ as check dam. 250mm cement lined steel pipe and length 5.5km will convey water from the dam to the intake located adjacent to the weir at Kiboi Irrigation Headwork. The project will increase food security in Barwesa Division through availing enough irrigation water to Barwesa and Kiboi Irrigation schemes.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Displacement	<ul style="list-style-type: none"> Compensation at current market rates. Sensitization. Proper land use. Proper supervision.
Increased erosion downstream of the dam	<ul style="list-style-type: none"> Allow schematic falling and rising of the dam level. Use Gabions if found appropriate. Plant erosion resistant vegetation. Undertake proper design of spillway.
Shoreline erosion	<ul style="list-style-type: none"> Control of shore use. Shore zoning. Soil conservation measures in certain sensitive shoreline sectors. Appropriate management of levels and flows.
Loosening of soil	<ul style="list-style-type: none"> Practice good farming. Undertake crop rotation. Undertake mulching. Use green manure.

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Benchmark International Limited is proposing to construct three chambers which are primary, secondary and tertiary chambers. There are also other sections which include bag filters which cleans the flue gas and a chimney that is designed to be taller than the nearest building around so as to emit any emission to the atmosphere not to affect any building.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Damage to the soil structure	<ul style="list-style-type: none"> • Ensure proper soil compaction and landscaping to prevent any further damage to the structure.
Clearing of vegetation	<ul style="list-style-type: none"> • Only remove vegetation from areas for the incinerator construction. • Avoid as far as possible the traversing of bare soil by vehicles to reduce soil compaction.
Noise pollution	<ul style="list-style-type: none"> • Vehicles to move at low speeds. • Exposed workers will be provided with protective gear (noise muffs). • Workers are encouraged to behave in an orderly manner. • Grade sites to beneficial levels to be maintained and compensate appropriately the existing topography. • Maintain the cleanliness of the proposed development and its environs.
Any possible dust and particulate emissions	<ul style="list-style-type: none"> • Workers to be provided with protective gear. • Observe EMCA (Air Quality Regulations, 2008). • Pursue good practices in equipment and machine use during excavation and construction and sensitize staff. • Ensure that the manuals of operations are followed to the latter to avoid possible accidents.
Soil erosion	<ul style="list-style-type: none"> • Only remove vegetation from areas for the incinerator construction or the project site. • Avoid as far as possible the traversing of bare soil by vehicles to reduce soil compaction. • Designate a main access route for heavy machinery. • Avoid site Preparation in period when wind velocities are highest.
Environmental aesthetics	<ul style="list-style-type: none"> • -Do landscaping on completion of the proposed project. • Ensure proper finishing along the periphery of the project so as to maintain the project decency.
Liquid and solid waste generated	<ul style="list-style-type: none"> • Ensure that all solid wastes are collected and segregated. • Reuse those materials that can be reused. • Contact a licensed solid waste transporter to collect solid materials. • Ensure there is no leakage on the illegal drainage systems. they need to connect their drainage systems to the septic tank and the sewer line as approved. • Minimize waste at source by clear and harmonized procurement materials.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Health and safety concerns	<ul style="list-style-type: none"> • Provide personnel and passers-by signage and warnings traffic control signs and warning. • Provide for appropriate signage and warnings at work sites. • Provide appropriate Personnel Protective Equipment (PPE) to site workers. • Provide for First Aid facilities as per the OSHA, 2007.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PURPOSE BUILT STUDENT ACCOMMODATION DEVELOPMENT ON PLOT L.R. NO. 209/5663/2 IN HURLINGHAM, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Beech Properties LLP, is proposing to develop a Purpose Built Student accommodation comprising two blocks: Block A consisting 14 floors and Block B consisting 16 floors. The blocks will contain student accommodation studios (residential units), manager's office, reading rooms, lift lobby, water feature, refuse holding room, laundry, generator section and associated amenities.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Noise pollution	<ul style="list-style-type: none"> • Ensure that all vehicles and construction machinery are kept in good condition all the time to avoid excessive noise generation. • Ensure that all workers wear ear muffs and other personal protective gear/equipment when working in noisy sections. • Undertake loud noise and vibration level activities during off-peak hours during the day (i.e. preferably between 12.00 noon and 2.00 p.m.). • Comply with conditions provided by the Environment Management and Co-ordination, Noise and Excessive Vibrations Pollution Control Regulations, 2009.
Air pollution	<ul style="list-style-type: none"> • Dust control measures should be adopted by providing adequate PPE to staffs, canopying loading points and erecting dust screens around buildings under construction. • Sprinkling water on earth surfaces within the project site. • Slowing the speed of traffic by using clearly marked road signs. • Covering heaps and berms of soil. • Adhere to the Environmental Management and Co-ordination (Air Quality) Regulations, 2014.
Increased solid waste generation)	<ul style="list-style-type: none"> • Use of an integrated solid waste management system through a hierarchy of options: source reduction; segregation to encourage reuse and recycling; composting and land filling. • Provision of bottle and can trash disposal receptacles at parking lots to avoid littering. • Composting of vegetation waste for reuse as a landscaping fertilizer. • Management of all removed paint materials suspected or confirmed of containing lead as a hazardous waste. • Sub-contract a licensed waste handling firm to collect solid waste on regular basis and dispose of in approved dumping sites. • Comply with provisions of the Environmental Management and Co-ordination, Waste Management Regulations, 2006.
Increased wastewater generation	<ul style="list-style-type: none"> • Use sediment traps and drainage to control the flow and velocity of runoff from work sites. • Potential pollutants of any kind and form, shall be kept, stored and used in such a manner that any escape can be contained. • Promote recycling of treated wastewater and storm water. • Install meters to monitor consumption rates of water. • Ensure regular maintenance of plumbing systems to avoid spillage of raw sewage. • Comply with the Environment Management and Coordination, Water Quality Regulations, 2006.
Increased water abstraction and consumption	<ul style="list-style-type: none"> • Use of water efficient technologies such as automatic taps and dual toilet flush cisterns. • Rainwater harvesting through installation of gutters on the roofs.

*Impacts**Proposed Mitigation Measures*

- Construct underground reservoir for storage of harvested rain water.
 - Drilling of borehole for use to reduce over reliance on water from existing sources.
 - Adhere to water quality regulations described in Legal Notice No. 120 of the Kenya Gazette Supplement No. 68 and Water Act, 2016.
- Social ills including immorality and drugs and substance abuse
- Have a counsellor to offer guidance and counselling as part of the PBSA management team.
 - Partner with surrounding institutions of learning / Universities and relevant government bodies to offer / support short courses on social interaction and social studies in general.
 - Support surrounding institutions of learning with sensitization programs such as alcohol and substance abuse during calendar events such as cultural weeks.
 - Support HIV/AIDS Awareness and education. This can be done by educative posters, offering free HIV/AIDS testing services, HIV/AIDS counselling and issuing of condoms within the PBSA and neighboring institutions of higher learning.
 - Ensure hostels are drug free zones as per respective legislations including Tobacco Control Act, 2007 and Alcoholic Drinks Control Act, 2010.
 - Implement the developed code of conduct for students
- Occupational safety and health risks
- Enforcing adherence to safety procedures and preparing contingency plan for accident response in addition to safety education and training.
 - Ensure that machinery, equipment, personal protective equipment, appliances and hand tools used in construction do comply with safety and health standards and be appropriately installed, maintained and safeguarded.
 - Ensure there are adequate and serviced firefighting equipment such as fire extinguishers.
 - Design suitable documented emergency preparedness and evacuation procedures to be used in case of an emergency.
 - Comply with the relevant legal provisions as per Occupational Safety and Health Act, 2007.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED POWER SUPPLY PROJECT FOR
MOMBASA–NAIROBI SGR IN KILIFI, KWALE, TAITA
TAVETA, MAKUENI AND MACHAKOS COUNTIES

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Electricity Transmission Company, is proposing to construct twelve (12) transmission lines and fourteen (14) substations for supply of high voltage power to the Nairobi–Mombasa Standard Gauge Railway Line (SGR) and the economic belt along the railway line. The proposed project will traverse five (5) counties: Kilifi, Kwale, Taita Taveta, Makueni, and Machakos counties.

The following are the anticipated impacts and proposed mitigation measures

*Impacts**Proposed Mitigation Measures*

- | | |
|---------------------|---|
| Noise and vibration | <ul style="list-style-type: none"> • The contractor to adhere to the EMCA Noise and Excessive Vibration Pollution Control Regulation, 2009. • Contractor to ensure that noise levels emanating from machinery, vehicles and noisy construction activities (e.g. excavation, blasting) are kept at a minimum. • Regular servicing of engines and machine parts to reduce noise generation. • The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work. • Provide necessary PPE to workers who may be exposed to high levels of noise and ensure proper and constant use. |
| Air pollution | <ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations. • Sprinkle water on graded access routes when necessary to reduce dust generation by construction and vehicles. • PPE to be provided to employees and ensure proper and constant use. • Sensitise truck drivers and machine operators to switch off engines when not in use. • Regular servicing of engines and machine parts to reduce exhaust emission generation. |
| Solid waste | <ul style="list-style-type: none"> • Use of an integrated solid waste management system i.e. the 3 R's: 1. Reduction at source 2. Reuse 3. Recycle. • Ensuring that, all remnants of loose gravel and concrete are effectively collected from the tower bases and re-used or disposed of in an environmentally friendly manner. • Waste collection bins to be provided at designated points on site. • Dispose waste more responsibly by contracting a registered and licensed waste handler who will dispose the waste at |

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	designated sites or landfills only and in accordance with the Environmental Management and Co-ordination (Waste Management) Regulations, 2006.
	• Employ segregation of waste at source.
Oil spills hazards	<ul style="list-style-type: none"> • Install oil trapping equipment in areas where there is a likelihood of oil spillage e.g. during maintenance of vehicles. • In case of an oil spill, immediate clean up measures will be instituted. • Storage and liquid impoundment areas for fuels, raw and inprocess material solvents, wastes and finished products should be designed with secondary containment to prevent spills and the contamination of soil, ground and surface water. • Collected used oils should be re-used, disposed of appropriately by licenced waste handlers, or be sold for reuse to licenced firms.
Destruction of existing vegetation and habitat	<ul style="list-style-type: none"> • Conduct selective clearing of vegetation on the way-leave corridor. • Designate access routes and parking within the site.
Impacts on workers' and community health and safety	<ul style="list-style-type: none"> • Ensure strict compliance with the Occupational Safety and Health Act (OSHA) 2007. • Identify all hazards before undertaking a process and conduct and continually review a risk assessment. • Train all employees and regularly sensitize them on safe working procedures. • Only use experienced workers during erection of towers and stringing.
Soil erosion and storm-water runoff	<ul style="list-style-type: none"> • Surface runoff and roof water shall be harvested and stored in tanks so that it can be used for cleaning purposes. • A storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed. • Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
Resettlement and loss of use	<ul style="list-style-type: none"> • Conduct consultation meetings with Project Affected Persons and ensure timely compensation for loss of property and land use. Ensure adherence to the Land Act, 2012, and the World Bank Environment and Social Safeguard (ESS).
Electrocution from live power lines or electric equipment	<ul style="list-style-type: none"> • Put in place a maintenance system to ensure physical integrity of project equipment is maintained. • Access to the substations should only be by authorization and trained personnel. • Erect a perimeter fence to deny unauthorized people access the substations. • Clear warning signs to be placed on strategic places. • Conduct periodic awareness and sensitization campaigns for the neighbouring communities.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Increase in social vices including HIV/AIDS	<ul style="list-style-type: none"> • Periodic sensitization forums for employees on ethics, morals; general good behaviour and the need for the project to co-exist with the neighbor. • Guidance and counselling on HIV/AIDS and other STDs to employees. • Enforcement of KETRACO's policy on sexual harassment and abuse of office.
Avifauna mortalities	<ul style="list-style-type: none"> • To minimize collisions, undertake wire marking to alert birds to the presence of power lines, allowing them time to avoid the collision. • Build raptors platforms for bird roosting and nesting.
Release of sewage into the environment	<ul style="list-style-type: none"> • Provide adequate and safe means of handling sewage generated at the substations. • Conduct regular inspections for sewage pipe blockages or damages and fix appropriately. • Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
