Internship

Section 74 of the County Government states "County Public Service Board to regulate appointment of person on contract, volunteers and casual workers, staff of joint ventures and attachment of interns in its public bodies and offices." The Vihiga County Public Service Board is concerned with the youth in various Technical Training Colleges requesting to be considered for internship, most of them for duration of three months as part of fulfilling their academic programme.

"The Public Service Commission, as part of a strategy for Human Resource Development, developed the Internship Policy and Guidelines for the public service, to guide engagement of interns in public service organizations. The purpose of the policy is to ensure that management of internship programmers in such organizations is appropriate and in line with best practices found elsewhere in the world.

Following release of the policy, the Commission has, with effect from 13th October, 2016, approved the payment of a stipend to interns falling within the following categories—

- (a) holders of at least Bachelor's degree from a recognized university – KSh. 25,000 per month and KSh. 4,000 as Daily Subsistence Allowance (DSA) whenever the intern is required to undertake official assignments outside the assigned duty station ; and
- (b) interns whose terms of agreement offer a different rate of stipend/allowances such as medical, nurse and clinical interns (Diploma and Bachelor's degree holders) will continue with the internship programme under their current terms.

It should be noted that except for interns whose duration for internship is governed by their professional /registration bodies, all the rest will be engaged for a non- renewable period not exceeding three (3) months. Section 59 (5) (a) of the County Governments Act, 2012, states "the report by the County Public service Board under Subsection (1) (f) shall- be delivered each December to the County Assembly"

The Board in its Minute /31/07/18 of the meeting dated 31st July, 2018 approved the semiannual report which was subsequently submitted and received by the Vihiga County Assembly on 27th July, 2018.

Promote in the County Public Service the Values and Principles referred to Articles 10 and 232.

Article 10 (2) of the Constitution provides the National Values and Principles of Governance as follows:

- (a) Patriotism, national unity, sharing and devolution of power, the rule of law, democracy and participation of the people.
- (b) Human dignity, equity, social justice, inclusiveness, equality, human rights, non-discrimination and protection of the marginalized.
- (c) Good governance, integrity, transparency and accountability.
- (d) Sustainable development.

Article 232 of the Constitution further provides for the principles that inform public service which include;

- (a) High standards of professional ethics.
- (b) Efficient.
- (c) Effective and economic use of resources.
- (d) Responsive, prompt, effective, impartial and equitable provision of services.
- (e) Accountability for administrative acts.
- (f) Transparency and provision to the public of timely, accurate information; fair competition and merit-based appointments and promotions.
- (g) Public participation in policy making processes.
- (h) Representation of diverse communities.
- (i) Affording adequate and equal opportunities for appointment, training and advancement at all levels of public service of men and women the members of all ethnic groups and persons with disabilities.

These principles are binding on all State organs, State officers, public officers and all persons whenever any of them applies in public policy decisions. The County Public Service Board is mandated to ensure the implementation of these values and principles in the county public service.

This is a follow up on a similar workshop which was conducted during 2016/2017 Financial Year.

- (a) The Board is scheduled to conduct the public awareness and sensitization program on 10th to 14th January, 2019 for the two documents meant to guide promotion of Values and Principles in the County. These documents are:
 - (i) Curriculum for Public Awareness and Participation.
 - (ii) County Public Service Board Training Manual.
- (b) The Board is also scheduled to conduct training on the Principles and Values early 2019 to the Cabinet Executive Committee Members, Governor's advisors, chief of staff, chief officers and the County Director of Human Resource. The Board awaits communication on the same from the office of H.E. the Governor through the office of the County Secretary.
- (c) On 13th to 15th June, 2018 the Board organized a workshop for the Secretariat which was themed, "Familiarization with the County Public Service Board mandate and what it entails to be a public servant." One of the topics handled was adherence to the values and principles of governance and public service as espoused in Articles 10 and 232 of the Constitution of Kenya, 2010.

On several occasions, the Board requested for reports on changes made on the payroll but the request had been denied as many times. On 27th September, 2018, the Chairperson, The Secretary and a member of the Board, made an impromptu visit to the payroll department and found that the principles of governance had been violated. Two individuals that had not gone through the officially authorized process were to be added on the payroll. However, the authorization and letters of appointment had been done by the County Secretary. The Board sought an explanation from the County Secretary who has since been interdicted by the Governor on this account. The matter is before The Employment and Labour Relations Court Kisumu, as petition No. 72 of 2018.

The Board has advised the Department of Public Service and Co-ordination of County Affairs to urgently undertake a payroll clean up with an objective of weeding out all illegal additions to the payroll.

- (iii) Evaluate and report to the County Assembly on the extent to which the values and principles referred to in Article 10 and 232 are complied with in the county public service.

- Compliance with 30%; 70% rule, minorities, youth and women; a comparison of those who applied versus those shortlisted and the employed.

Meetings with the County Assembly

The County Assembly performs an oversight role on the activities of the Vihiga County Public Service Board. The Board regularly meets the relevant County Committees to inform and update the Assembly on execution of its mandate.

On the 18th January, 2018 the Board met the Committee on Public Service and Administration to give information the roles and duties of staff in the Office of the Governor.

The Board appeared before an ADHOC committee on 30th January, 2018 to give information on recruitment matters at the County Executive during the electioneering period if there were any by the County Public Service Board or any department and the nature of financial transactions and expenditures during the transition period 1st April to 30th September, 2017.

On 17th May, 2018 the Board met the Committee on Public Service and Administration to deliberate on staff establishment since 2014.

The Chief Executive Officer of the Board met the Budget and Appropriations Committee to discuss the Vihiga County Public Service Board Budget estimates for financial year 2018/2019.

On 7th June, 2018, the Board also met the Committee on Public Service and Administration over the operations of the Board and the current status of employees at the County Executive.

On the 21st November, 2018 the Board met the Committee on Public Service and Administration to give information on the progress of the jobs advertised on 31st October, 2018 by the Department of Trade Industry, Tourism and Entrepreneurship.

Meetings with the Governor

In order to establish a harmonious working environment, the Board has had several meetings with the Governor, Dr. Wilber K. Otichillo.

In October, 2017 the Board had a familiarization meeting with the Governor, Dr. Wilber K. Otichillo at the Board's boardroom.

On 9th January 2018 and 12th April, 2018, the Board met with the Governor, Dr. Wilber K. Otichillo during the presentation of the DPSM staff audit report.

In the meeting held on 27th September, 2018 the issues discussed included the documents that the Board had developed and were about to be launched; the Board Charter, Curriculum for Public Awareness and Participation, Disciplinary Process Flow, Recruitment Policy, Internship Policy and Attachment Policy.

Promotions

In the year 2018, the Board has promoted officers serving at the Public Service Board and Department of Agriculture, Livestock, Fisheries and Co-operatives.

The table below gives a summary of the number of officers.

Department	Number
County Public Service Board	4
Department of Agriculture, Livestock, Fisheries and Co-operatives.	12

The Board has also received requests of promotions from the department of Health services the requests were from individual officers had not gone through the Departmental Human Resources advisory committee as is the procedure.

The requests from the department of Trade, Industry, Tourism and Entrepreneurship had gone through the due process. Reference was made to the circular from the Salaries and Remuneration Commission effective 1st July, 2018 and it was noted that this are the only salary scales acceptable in public service both at National and county level. The officers recommended for promotion were from the defunct local authority salary scale hence require more detailed information in order for the Board to take appropriate action

The matter has been referred back to the Departmental Human resource committee.

Board's Documents

In an effort to enhance efficiency and effectiveness in service delivery, the Board has developed the following documents and are ready for public participation which is scheduled for 10th to 14th January, 2019:

- (b) Curriculum for Public Awareness and Participation.
- (c) Human Resource Manual.
- (d) Disciplinary Process Flow
- (e) Delegation Instrument
- (f) County Public Service Board Charter.

County Public Service Board Training Manual.

Board's Office Space

The Board members had identified office space within Mbale Town, the lease agreement negotiation as well as renovations were on going. Ground floor had been occupied though the Board expressed interest in leasing it because people with disabilities are likely to visit her offices.

However, the owner agreed to put up a ramp for easy mobility of people with disabilities.

The Nurses' Strike

In the month of December, 2017, the Department of Health Services initiated transfers of its officers to various centers. The officers redeployed felt aggrieved as they felt that the consultations made were inadequate and the notice too short to effect the said changes. They claimed that the proposed postings had created anxiety because they were to be effected over the Christmas holiday and viewed the action as victimization against them. The Kenya National Union of Nurses consequently filed a court case at the Employment and Labour Relations Court of Kenya at Kisumu against The Vihiga County Public Service Board and the Vihiga County Government.

On 9th January, 2018, The Honorable Court, through Lady Justice Hellen Wasilwa made an order and directed the parties to the dispute to first explore Alternative Dispute Resolution mechanisms and involve the Public Service Board, whom the Union had ignored before filing the case.

The Vihiga County Public Service Board thus took up the mantle and guided the process, bringing an amicable solution unanimously agreed on by both the Management and the unionized employees in the Health Department and in the presence of the KNUN. The agreed on Resolution was registered in the Court. This was a great milestone as it prevented a looming strike and ensured a smooth delivery of services to the citizens of Vihiga County.

The First Board's Tenure Comes to an end

The Vihiga County Public Service Board was established on 21st June 2013, under Article 58 of the County Government Act, (2012) on a six years' non-renewable contract. The Chairperson, the Vice Chairperson and the Board members term of service is lapsing in the month of June 2019. It is expected that new Board members will be recruited and inducted mid-2019.

Challenges

1. The Board's budget:

- (a) Has decreased significantly from KSh. 82M in 2014/2015 to the current KSh. 52.5M. This has strained its ability to deliver services and request the Honorably County Assembly to reconsider improving it upwards to Kshs.100 M in order to increase its efficiency and effectiveness.
- (b) Several legal suits have been placed against the Board; however the Board has a limited Budget for this and is a matter of concern to the Board.

2. Office space: The Board was allocated Kshs 2M for rent, and has identified some space that would adequately serve its needs. However, if this is enhanced, The Board can purchase land and construct offices for posterity.

3. Chapter 10 and 232 of The Constitution emphasizes the need of inclusion people living with disabilities amongst other marginalized groups. The Board in its advertisement does specifically encourage them to apply. However, few apply but lack the prerequisite competencies required for the posts applied for.

4. The Vihiga county public service has got no medical cover in place and this causes concern to the Board.

The Board has also endeavoured to have a good working relationship with two arms of Government.

In this calendar year, 2017, the Board has undertaken the following:

1. *Observance of fair competition of appointment and promotions:*

In doing this, the Board did the following:

- (a) Advertised the vacant posts in the print media and county website.
- (b) Shortlisted the qualified candidates.
- (c) Carried out interviews competitively.
- (d) Made out appointments according to merit and in line with provisions of other relevant Laws.
- (e) Promoted officers in accordance with performance and schemes of service.

(List of appointments and promotions is attached as appendixes)

2. *Observation of high standards of professional ethics:*

The Board got trained on professional ethics and corporate governance matters and applied the same in the recruitment process and in the achievement of its other objectives.

3. *Involvement of the people in the process of policy making:*

In doing this, the Board did the following:

- (a) Developed draft policies in the following areas awaiting public participation:
 - (i) Casuals
 - (ii) Training
 - (iii) Discipline

- (iv) Internship
- (v) Performance Management
- (vi) Recruitment and Selection

4. *Affording adequate and equal opportunities for appointment, training and advancement at all levels at the public service.*

In achieving this, the PSB recruited people in various vacant posts both men and women as per appendix 1 and 2.

The Board also evaluated various reports of the County Human Resource Advisory Committee and promoted various persons as shown on appendix 1.

3.0 *Evaluation to the extent to which the values have been complied with:*

As a way of evaluating the extent to which the values have been complied with, the Board has done the following:

- (a) The board requests all candidates to comply with requirements of chapter 6 of the constitution.
- (b) Authenticated certificated for employees and candidates who appeared for interview. This exercise is an ongoing exercise.

4.0 *Upcoming and On-going Programmes*

The Board intends to undertake the following:

- (a) Conduct a baseline survey in the year 2018 to evaluate and report the extent to which the National values and principles referred to in articles 10 and 232 of the Constitution are complied with in the County Public Service.
- (b) Continuous training on values and principles in public service.

5.0 *Impediments faced by the Board in the Promotion of the National Values and Principles of Governance and Public Service.*

In the performance of its function of promotion of national values and principles of governance in the public service, the board has experienced the following challenges:

5.1 *Gender Balance*

The Board continues to face challenges in attaining gender balance. The current workforce however is skewed towards the female gender.

5.2 *Residence by Marriage vis-a-vis Birth*

Capturing data of applicants' especially female applicants during data entry and short listing per Sub-county and wards creates confusion. At short listing stage, a candidate's identification documents may indicate that she is from a particular County, whereas at the time of interview she clarifies that she is from a different County. Such claims require proof such as affidavit of marriage certificate which candidates normally lack.

Such confusion affects the allocation of appointments and balancing in the wards and Sub counties.

5.3 *Regional Balancing*

Whereas the board would want to uphold the requirement of regional balancing within the County, there have been challenges when it comes to meeting minimum requirements as per the advertised vacancies across the county.

Sometimes the Board finds out that during the shortlisting, there are no applicants from some regions in the County.

The board supplements adverts on print media with posters within the County so as to reach a wider audience.

5.4 *Diverse Communities*

Murang'a County is largely not cosmopolitan. People from other ethnic communities in the county mostly as public servants, students or members of the minority business community and applicants for various vacancies from diverse communities are few.

The law require that the Dominant Ethnic Group be 70 percent and non- Dominant Ethnic Group be 30 per cent according to section 55 (1) (e) of the County Governments Act, No.17 of 2012. However, certain vacancies do not attract applicants from outside the Dominant Ethnic Group. The Board has strived to ensure this through advertisements that persons from other communities apply by indicating at all times that Murang'a County is an equal opportunity employer.

5.5 *Political Environment*

The Board recognizes the fact that it operates within a political environment amongst others. This therefore can affect certain aspects of recruitments and selection exercise and by extension the board's activities. The board however strives to remain non-political while at the same time encourages consultation and consensus building in the discharge of its duties and delivering on its mandate.

5.6 *Inadequate Infrastructure*

Inadequate infrastructure is still a challenge in Murang'a County as a whole and therefore by extension affects the Board's intention to attract competitive candidates and qualified personnel in its Public Service. Some of the neighboring Counties are better off when it comes to infrastructure development thereby attracting applicants due to the same. The Board has noted that even some successful candidates are still compelled to seek residence in other Counties due to this challenge particularly when it comes to educational institutions, residential houses, ICT, medical facilities and road networks.

5.7 *Persons with Disability*

Advertised positions have so far attracted few people living with disabilities. The Board has however gone out of its way to reach out to Persons Living with Disability.

5.8 *Inadequate Funding*

This has posed a challenge in the efficient delivery of services.

6.0 *Recommendations to be implemented in the Promotion of Values and Principles*

The board recommends the following be applied in order to make the national values and principles of governance and of public service be adhered to and assist in having an efficient and effective County Public Service.

- Adequate budget provision be done to facilitate promotion of values and principles in public service.

7.0 Conclusion

The Board would wish to conclude by assuring all stakeholders that it is committed to ensuring that the National Values and Principles of Governance in the Public Service are adhered to:

- Formulating effective measures to promote the values and principles.
- Undertaking a vigorous campaign to promote them among the public officers and the general public.

Dated the 31st December, 2017.

RICHARD KAMAMI,
Public Service Board Secretary.

TITUS WAITHAKA
Ag. Chair Murang'a County Public Service Board.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR CONSTRUCTION AND SUPERVISION OF THE PROPOSED CHUKA WATER SUPPLY INFRASTRUCTURE

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the

National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Tana Water Services Board, is proposing to undertake an Environmental and Social Impact Assessment (ESIA) Study Report for the proposed Water Supply Infrastructure for Chuka Town planned to be financed under the Towns Sustainable Water Supply and Sanitation Project of the African Development Bank (AfDB). The project area covers 380km².

The following are the anticipated impacts and proposed mitigation measures:

Impacts

Environmental degradation

Proposed Mitigation Measures

- Isolate through fencing the camp sites from access by the public for their safety.
- Preferably to be located on land already cleared land wherever possible.
- The Contractor's Camp layout shall take into account availability of access for deliveries and services and any future works.
- Utilize to the extent possible the existing public roads to avoid social and economic disruption.
- Ensure road safety measures for the construction vehicles to the extent possible by observing all traffic regulations.

Air pollution

- Workers shall be trained on management of air pollution from vehicles and machinery.
- All construction machinery shall be maintained and serviced in accordance with the contractor's specifications.
- The removal of vegetation shall be avoided until such time as clearance is required and exposed surfaces shall be re-vegetated or stabilised as soon as practically possible.
- The contractor shall not carry out dust generating activities (excavation, handling and transport of soils) during times of strong winds.
- Vehicles delivering soil materials shall be covered to reduce spills and windblown dust.
- Water sprays shall be used on all earthworks areas within 200metres of human settlement.

Change of land/soil erosion

- Stock piling of top soil, construction material and wastes should be done only at designated sites approved by the supervising engineer, erosion prevention through berming of loose soil sites should be done in all areas susceptible to agents of erosion.

Noise and vibration interference

- The Contractor shall keep noise level within acceptable limits and construction activities shall, where possible, be confined to normal working hours in the residential areas.
- Hospitals and other noise sensitive areas shall be notified by the Contractor at least 5 days before construction is due to commence in their vicinity.
- Any complaints received by the Contractor regarding noise will be recorded and communicated to the RE.
- The Contractor must adhere to Noise Prevention and Control Rules of April 2005.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Generation of solid and liquid waste	<ul style="list-style-type: none"> • Preferably to be located on land already cleared wherever possible. Communities shall be involved in the site location to avoid conflict. • The need to be more than 20 meters from water courses and in a position that will facilitate the prevention of storm-water runoff from the site from entering the watercourse. • Contouring of spoil site to approximate natural topography and drainage and/or reduce erosion impacts on the site. • The Contractor shall ensure that the placement of spoil is done in such a manner to minimise the spread of materials and the impact on surrounding vegetation and that no materials 'creep' into 'no-go' areas.
Pollution of water resources	<ul style="list-style-type: none"> • Construction wastes (residual earth, debris and scrap materials) to be removed for safe disposal. • Encourage recycling where possible (concrete debris for access road surfacing). • Contaminated organic matter in the work areas to be isolated for safe disposal. • Material residuals to be disposed off in accordance with established regulations.
Loss of biodiversity	<ul style="list-style-type: none"> • Construction activities will be limited to Project sites/routes which already exist therefore no destruction to vegetation cover.
Traffic management on site	<ul style="list-style-type: none"> • Strict use of warning signage and tapes where the trenches are open and active sites. • Employ and train road safety Marshalls who will be responsible for management of traffic on site. • Contractor to provide a traffic management plan during construction to be approved by the resident engineer.
Occupational health and safety	<ul style="list-style-type: none"> • Notify public the intent to cut sections of the road for safety precautions. • Provide signage and safety information in all work areas. • Ensure compliance by workers with safety safeguards including the OHS, provision of safety gear and enforcement of application.

The full report of the proposed project is available for inspection during working hours at:

The proponent, Kenya National Highways Authority, the proposed Project is an expansion and improvement of the existing Nairobi-Nakuru-Mau Summit highway. It is part of the A8 highway and of the Northern Corridor that connects the Port of Mombasa via Nairobi to Malaba at the border with Uganda and onwards to Kampala.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Land acquisition and involuntary displacement risks	<ul style="list-style-type: none"> Compensation for loss of assets at replacement cost. Ensuring that resettlement activities are implemented with appropriate disclosure of information, consultation, and the informed participation of those affected. To improve, or restore, the livelihoods and standards of living of displaced persons. To improve living conditions among physically displaced persons through the provision of adequate housing with security of tenure at resettlement sites Continuous complaints and grievance management system should be maintained throughout the project implementation phase. All pertinent stakeholders should be involved in the compensation and grievance redress mechanism during implementation of RAP.
Traffic congestion.	<ul style="list-style-type: none"> Provision of alternative routes in areas where accesses have been disrupted. Dust suppression measures to enhance visibility at construction sites for oncoming traffic and road users. Plans for short diversion routes which should be well maintained by regular sprinkling to reduce dust. Adhere to road reserve if possible. Provision and maintenance of clear traffic signages of ongoing construction works, regulate speed limits and diversion signage to notify approaching traffic. Project vehicle should have and only use designated parking areas. Sensitize workers and area residents on the importance of exercising care in the project area in as far as traffic movement and other safety issues are concerned.

*Impacts**Proposed Mitigation Measures**Excessive noise and vibration*

- Obtain permission from inhabitants and Wajir county government if diversion routes go beyond the Right of Way.
- Reinstatement of diversion routes (and old tracks) to original condition.
- Institute a traffic management plan incorporating adequate temporary signages and flagmen as necessary.
- The noise emission characteristics should be considered during selection and mobilization of construction equipment.
- Where feasible, fit equipment with rock mufflers, sound insulations, silencers to lower the levels of noise emission.
- Sensitize construction workers to switch off machinery and vehicles when not in use.
- Staff on active project sites with continuous exposure should be provided and encouraged to fit in their Personal Protective Equipment (PPEs).
- Locate noisy operations like batching plant away from the densely settled areas.
- Where noisy activities must be undertaken near sensitive receptors, the neighbouring occupants must be informed in advance and works limited to day time only.

Liquid waste and hydrocarbon spills

- Machinery maintenance should be done only on purpose-built garages that meet hydrocarbon containment measures and controlled drainage.
- Minor service and washing areas placed/constructed with containment basins to ensure that the surrounding areas (including groundwater) are not polluted.
- All grey water runoff or uncontrolled discharges from the site/working areas (including wash down areas) to water courses shall be contained, treated and properly channeled.
- Flash toilets at camp sites should be connected to septic tanks or other treatment facilities approved by the county government.
- Water containing such pollutants as cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site.

Dust and air pollution

- Unnecessary vegetation clearance to be avoided through clear demarcation of construction areas.
- Where practicable, re-vegetate disturbed areas to minimize ground exposure.
- Sprinkling water (at least twice a day) on the accesses and excavated surfaces during the construction period to suppress dust generation.
- Limit the speed of construction vehicles (maximum speed limit 40 kph/25 mph) on earth road.
- Provision of appropriate protective personal equipment including respirators and dustcoats to exposed workers.
- Ensuring the location of material stockpiles are away from human settlements and business premises.
- Covering loaded trucks during the transportation of material.

*Impacts**Proposed Mitigation Measures**Solid wastes*

- Reduce generation of solid waste at the source through proper planning and procurement of construction materials.
- Segregation of solid wastes and provision of suitable and well labelled waste receptacles within the camp and at active construction sites.
- Reuse excavated top soil for landscaping of the site as far as practical.
- Disposed solid waste at designated sites through licensed waste handlers.
- Establish a segregation and grading waste management system to manage garbage and other forms of waste generated.
- Prioritize options of waste reduction, reuse and recycling, particularly papers, polythene bags and plastic wrappers and containers and other materials that can possibly be recycled.
- Sensitize resident workers and frequent visitors (especially those operating food catering services) at project sites on proper waste management practices especially hazardous materials and risks of contaminations.

Increased soil erosion

- Material excavation should be minimized and restricted to designated locations.
- The private concessionaire should ensure that construction related impacts like erosion and cut slope destabilization should be addressed through landscaping and grading.
- Re-vegetation should be done in tandem with construction activities to avoid exposure of bare ground to agents of erosion.
- Enforce landscaping and restoration of the construction site prior to decommissioning of the construction site.

Vegetation loss

- Restrict vegetation clearing to project sites by clear demarcation of areas to be used.
- Thickets and bush shrubs should be preserved wherever possible through selective clearing, especially along the seasonal riverine areas.
- Siting of camp sites should be done away from densely vegetated areas.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

- County Director of Environment, Narok County.
