2.1.8 Ethics and Governance

The Public Officer Ethics Act, 2003 requires public officers to make initial, biannual, and final declaration of incomes, assets and liabilities on existing and exiting service respectively. The Board ensured that the staff of the County Government completed the wealth declaration forms as provided for by the Act.

The Board has recently gazetted the Procedures for the Administration of Declaration of Incomes, Assets and Liabilities as required by law.

The Board endeavours to train all staff on National Values and Principles referred to in Articles 10 and 232 of the Constitution of Kenya (2010).

3. INSTITUTIONALIZATION OF NATIONAL VALUES AND PRINCIPLES OF GOOD GOVERNANCE AND OF PUBLIC SERVICE

3.1 Institutionalization of National Values and Principles

As stipulated in Article 59 (1) (e) of the CGA, 2012, the CPSB is mandated to promote in the county public service, the values and principles referred to in Articles 10 and 232 (Kenya Constitution 2010). Section 59 (1) (f) of the County Governments Act, No. 17 of 2012 mandates the Board to carry out evaluation on the extent to which the values and principles have been complied within the county public service. Thus, the Board planned to undertake this noble task in the year (2018).

As stipulated in section 104 (4) of the County Governments Act, No. 17 of 2012 the Board is required to incorporate Non-State Actors in planning processes for activities in which the public is expected to participate.

The board through the support of the ministry of devolution made available policy documents among them, on the promotion of values and principles of public service. These documents will be distributed across the county departments and sub counties to help in Informing, Educating and Communicating Values and Principles of the public service for inculcation within the public service.

3.3 Impacts of Relationship between the Board and Stakeholders on the National Values and Principles

The National Values and Principles are meant to have attitude change in the way we transact business with public and other institutions the board work with. Lack of them means there will always be breakdown of communication and coordination and as a result it will affect efficient service delivery. The recipients on the end suffer either directly or indirectly.

3.3.1 CPSB and the Executive

The Board's functions and Powers as stipulated in Sec 59 of CGA, 2012, have a direct bearing in the way the Members are expected to transact business with the Executive arm of the County Government. The board has been enjoying a cordial relationship with county executive and immense consultations which enhanced smooth running of the two arms. When need arises for recruitment the board receives indents from the respective department requesting personnel's to fill required positions as dictated by budget and department establishments, and upon recruitment the board shares appointment of successful candidates with department to induct and post accordingly.

3.3.2 Public Service

Instability of the public officers has been noted with concerns. This is due to pending promotions and disciplinary cases. The board recommends strengthening of Human resource department and the county advisory committee staff issues such as promotions, resignations, and discipline etc. to be enhanced. The board has taken an initiative on staff training on values and principles of governance and public service. The board should contemplate on regular training on these values and principles of governance and public service annually.

3.3.3 County Assembly

There has been good relationship with the County Assembly since inception of the board, especially with the respective concern committees. The board has smoothly cooperated with the assembly on various matters of service delivery to the public and staff in accordance to the provisions

provided by the law. The board has interacted effectively with labor, budget, and health committees to clarify issues arising from the respective departments. Financial Independence of the board is an integral factor in service delivery and its smooth operations rather than keep on relying on treasury for funds disbursements. Issues of mispostings on board's vote book to fund other department leaving board with insufficient funds to operate, was noted with deepest concerns.

3.3.4 The Members of the Public

The public has not fully understood the mandates and functions of the county public service board apart from recruitments, therefore there is a need for Civic education, to sensitize the public on the functions of the board and educate on values and principles of governance and public service as enshrined in article 10 and 232 of the Constitution of Kenya 2010

4. CHALLENGES IN FINANCING THE COUNTY PUBLIC SERVICE BOARD'S MANDATES

4.1 Introduction

County Public Service Boards are created by the law. They are then given a host of mandatory duties and responsibilities which they have to accomplish.

Among these responsibilities are implementation of Articles 10 and 232 of the Constitution of Kenya on National Values and Principles in the county government. This is designed to be done through preparation of training materials on topical issues and thereafter carrying out civic education to the county public service and the public.

The importance of carrying out of this civic education on National Values and Principles cannot be over emphasized. It is a legal requirement that the county public service boards should report to the county assembly at the end of every calendar year the extent to which this has been undertaken during the year. At the same time, this report should be submitted to the Office of the President which feeds into the Presidential Speech to Parliament sometime in April of every year on the extent to which National Values and Principles has been carried out in the counties and nationally.

This analogy of one mandatory duty and responsibility among the many that the county public service board is supposed to undertake just demonstrates the importance of such undertakings in the county and nationally. The County Governments Act, No. 17 of 2012 provides a host of numerous duties and responsibilities that county public service boards are expected to perform.

Samburu County Public Service Board has however not undertaken most of such duties and responsibilities in the year under review. The county public service board and the all other departments of the county executive faced numerous financial challenges due to irregular flow of funds from the National Exchequer. This derailed efforts to carry out some of the mandatory duties and responsibilities.

The county public service board however, carried out some of its responsibilities among them recruitment of staff as per department requests, staff promotion, administering declaration of incomes, assets and liabilities and gazetting the procedures for administration of the same.

4.2 Activities the Board had planned to undertake in the Year 2018

The Board has a strategic plan whose activities are derived from the expected duties and responsibilities per the Constitution and the County Governments Act. These modest activities were then designed to be undertaken in chronological order during each fiscal year. Some of these activities are supposed to be done each year.

The planned Board activities are presented in Table 4.1. The table is an extract of activities that were expected to be undertaken during 2018. The county assembly was involved during its preparation and made valuable contributions.

5. OUTLOOK FOR THE INCOMING COUNTY PUBLIC SERVICE BOARD

The new Board should have it easy settling down as it will find most of the structures in place such as:-

- The new Board will find an established Office in place.
- A number of Secretarial Staff in place (Secretariat not fully established).
- The incoming Board will have to complete the Strategic Plan 2018-2022 to enable have a clear road map for implementation of its activities.
- The incoming Board will be able to carry out functions not carried out by the outgoing Board either due to time constraints or lack of resources.
- The incoming Board should continue with the good existing relationship with the Executive and County Assembly established by the outgoing Board.
- The incoming Board will have an advantage since two Members of the outgoing Board will be part of the incoming Board.

5.1 Success Story of the Outgoing CPSB members

The Board is established under Article 235 of the Constitution and consists of Chairperson, Secretary and six other members appointed by the Governor with approval of the County Assembly.

In order to appreciate the achievements made by the outgoing Board Members it is important to understand the power, functions and mandate of the Board as contained in sections 57 to 86 of the County Governments Act, No 17 of 2012. The outgoing Members came into Office on 4th June, 2013. Since then the Board has endeavoured to fulfil its mandate as contained in the Act.

5.1.1 Board's Achievement since June 2013

Major success story was starting an Office from zero as there was nothing to call an Office. Initially the CPSB Members were housed at the ECDE Hall but after a short stay moved to the old County Council Offices near the County Education Office which lacked in most basic items such as toilets/washrooms and water.

The Board therefore decided to rent a house (former KCB Managers House) belonging to Mr. Harun Lesirma for a period of two years awaiting completion of the new CPSB Offices which were completed by mid 2018. Towards the end of 2018 All Board Members, Secretariat and other Board Staff moved into their new offices located between the IEBC and the Department of Water Offices in Maralal.

Another success story was the speed at which the Board came up with the criteria for recruitment process noting that the County Government was relatively new and needed some personnel to be in the Office at the earliest possible for them to start functioning. These included the Chief Officers, Ward Administrators and ECDE teachers which were urgently required in place.

The CPSB also established fairly fast cordial working relationship with both the Executive as well as the County Assembly. This was not only crucial but critical as so much recruitment was going on hence the need for goodwill from all the parties.

Recruitment of 400 ECDE teachers was a big success story being one of the single largest hiring by the County Government. It should be noted that the Samburu County Public Service Board was among the first to recruit 400 teachers before the High Court halted further recruitment. Recruitment of ECDE teachers involved many players/interest groups and above all ensuring fair distribution in all Wards.

5.1.2 Other Success Story Include:-

- (a) Recruitment for Health Department in the 1st County Government is
- (b) Giving Advisory to the Executive whenever need arises
- (c) At National level, the CPSB Members have participated either as group or individually at County Public Service Boards National Consultative Forum (CPSBNCF) in which their contributions have been immense. CPSBNCF is an umbrella body that brings together all the 47 County Public Service Boards and

5.2 Transition Issues

During the Boards Planning Workshop held in Nakuru in September of 2018, various transitions issues were discussed among them:-

- (a) Advisory to the Governor to start recruitment process of the new Board in good time
- (b) The outgoing Board to induct the incoming one and
- (c) Outgoing Board to hand over to the new Board all the reports of work accomplished and pending before leaving the Office.

Dated the 28th December, 2018.

**THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT**

(No. 8 of 1999)

**THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY**

**ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF A
CARDIOTHORACIC CENTRE FOR TENWEK HOSPITAL ON
PLOT L.R. NO. KERICHO/SILIBWET/3395 IN BOMET COUNTY**

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Tenwek Hospital, is proposing to develop a four storey cardi thoracic centre comprising of. 2No. basements, parking, mortuary, biohazard storage area, supply area, water tanks, power distribution room, offices, workshops, laundry area, laboratories, blood bank, pharmacy, wards, theatres, classrooms, conference centre, offices, ICU, HDU area, heart theatres, penthouse mechanical room and associated facilities and amenities on plot L.R No. Kericho/Silibwet/3395 in Bomet County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Air quality	- Downwash of trucks (especially tyres) prior to departure from site. - Cover stockpiles of sand, soil and similar materials or surround them with wind breaks. - Post signs that limit vehicles speed onto unpaved roads and over disturbed soils.

*Impacts**Proposed Mitigation Measures*

	- Avoid excavation works in extremely dry weathers. - Sprinkle water on access routes when necessary to reduce dust generation by construction vehicles. - Personal protective equipment to be worn. - Vehicle idling time shall be minimized. - Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off vehicle engines at these points.
Demand for raw material	- Building materials such as sand ballast, hard core are extracted from registered quarry and sand mining firms whose facilities have undergone satisfactory environmental impact assessment/audit and received NEMA approval. - Source building materials from local suppliers who use environmentally friendly processes in their operations. - Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered. - Ensure that damage or loss of materials at the construction site is kept minimal through proper storage. - Consider reuse of building materials and use of recycled building materials.
Liquid waste management	- Expand the effluent discharge treatment plant. - Provision of storm water drains. - Proper decommissioning of waste water and sewerage system. - Proper maintenance of the drainage system.
Solid waste management	- Order materials in the sizes and quantities they will be needed. - Damaged or wasted construction materials to be recovered for refurbishing and use in other projects. - Use of durable, long-lasting materials to reduce the amount of construction waste generated over time. - Use building materials that have minimal or no packaging. - Waste collection bins to be provided at designated points on site.
Noise and excessive vibrations	- Install portable barriers to shield compressors and other small stationery equipment where necessary. - working hours will be restricted to daytime only. - Restricted transport hours and noise buffering. - Use quiet equipment (i.e. equipment designed with noise control elements). - Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. - Sensitize construction drivers to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Increased demand for water	• Ensure that construction machinery is kept in good condition to reduce noise generation. • Harvest rainwater. • Promote recycling and reuse of water as much as possible. • Promptly detect and repair of water pipe and tank leaks. • Sensitize construction workers to conserve water.
Increased demand for energy	• Ensure electrical equipment and appliances are switched off when not being used. • Install energy saving fluorescent tubes and bulbs at all lighting points instead of bulbs which consume higher electric energy. • Ensure planning of transportation of materials to ensure that fossil fuels (diesel, petrol) are not consumed in excessive amounts. • Monitor energy and set targets for reduction of energy use
Oil spills	• A designated garage section of the site fitted with oil trapping equipment to be planned for changes. • Prompt cleaning of oil and fuel spills. • Proper disposal of clothing or rags contaminated with oil.
Storm water management	• Surface runoff and roof water shall be harvested and stored for reuse. • Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water. • Design a storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure.
Occupational health and safety	• Registration of the Project as per sections 43 and 44 of the Occupational Safety and Health Act, 2007. • Safety training shall be emphasized. • Suitable, efficient, clean, well-lit and adequate sanitary conveniences should be provided for construction workers. • Ensure that machinery, equipment, personal protective equipment, appliances and hand tools comply with the prescribed safety and health standards and be appropriately installed maintained and safeguarded. • Arrangements must be in place to train and supervise inexperienced workers regarding construction machinery use and other procedures/operations. • Ensure that materials are stored or stacked in such manner as to ensure their stability and prevent any fall or collapse. • Well stocked first aid box which is easily available and accessible should be provided.
Fire hazards and accidents	• Firefighting equipment such as fire extinguishers and hydrant systems should be provided at strategic locations.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	• Signs such as “NO SMOKING” must be prominently displayed within the construction site. • Regular inspection and servicing of the equipment must be undertaken and records of such inspections maintained.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Bomet County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED STEEL GALVANIZING PLANT AT UWANJA WA NDEGE, KALIANG'OMBE SUB-LOCATION, RABAI SUB-COUNTY IN KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Roofings Kenya Limited, is proposing to construct a steel galvanizing plant and attendant auxiliary facilities at Uwanja Wa Ndege, Kaliang'ombe Sub-location, Rabai Sub-County in Kilifi County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Loss of biodiversity	• Set up barriers to prevent off-road driving. • Ensure proper landscaping after completion of construction phase. • Demarcate and delineate areas to be affected by the construction work. • landscape plan shall be developed to include action items corresponding to each phase of the project. • Conducting site clearing activities in stages to minimize the area of exposed soil.
Occupational health and safety	• Avail Warning signs of on-going construction work. • Appoint a safety supervisor. • Machines to be operated by qualified personnel only.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	• Ensure all machinery and other moving parts of machinery are enclosed or guarded. • Provide fully equipped First Aid Kits. • Install safety net to protect workers against falling objects. • Food for workers to be supplied by vendors licensed by Public Health office. • Use stable ladders/ support structures. • Medical checkup for all workers prior to and throughout the construction phase. • Conduct sensitization campaign for the public on risks related to construction sites.
Over extraction of raw materials.	• Source construction materials from quarry and sand mining firms which have been registered and have received NEMA approval. • Prepare and purchase construction materials as per the bill of quantities to avoid wastage of resources. • Consider reuse of construction materials and use of recycled materials. • Ensure that the construction materials delivered at the site are covered. • to avoid loss of construction materials through run-off and wind.
Solid waste generation	• Minimize waste generated through hierarchy of options: source reduction, recycling, reuse, combustion and sanitary land filling. • The contractor should adhere to bill of quantities to avoid wastage. • Provide adequate number of suitable solid waste containers. • Ensure use of durable, long- lasting construction materials that will not need to be replaced oftenly. • Purchase and make use of building materials that have minimal packaging to avoid generation of excessive packaging waste.
Air pollution	• Spraying of dry soils in excavated areas and access road to suppress dust. • Regular maintenance of construction equipment/ machines. • Proper personal protective gears i.e. dust masks. • Stacked building material on-site shall be kept for shortest time possible. • Where feasible use alternative non-fuel construction equipment or use low Sulphur fuel.
Hazardous waste management	• Segregate wastes by separating hazardous waste from non-hazardous wastes. • Securely bundled and labeled hazardous waste.
Noise and excessive vibration	• Construction activities to be restricted to daytime (0800-1700hrs) only. • Affix Silencers and mufflers on exhaust systems (where necessary) of all mechanical equipment. • Sensitize truck drivers and machine operators to switch off engines when not in use.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	• Isolation of the source and sensitive receptors during the construction phase will be undertaken to minimize the impacts of noise and vibration. • Ensure that noise levels emanating from machinery, vehicles and noisy construction activities are kept at a minimum. • Adherence to EMCA Noise and Excessive Vibration Pollution Control Regulation of 2009.
Destruction of the landscape	• Landscaping the site to restore the components of the original grounds. • Conduct site clearing activities in stages to minimize the area of exposed soil. • Seeding exposed soil to minimize soil erosion.
Change in drainage pattern	• Monitoring and maintaining proper storm water drainage systems. • Redirecting flows during periods of heavy rains to minimize erosion and surface runoff. • Improve section of the road fronting the plot to provide ample drainage.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- County Director of Environment, Kilifi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
