The National Values as stipulated in Articles 10 of the COK 2010 comprise the following:

- (a) High standard of professional ethics.
- (b) Efficient, effective and economic use of resources.
- (c) Responsive, prompt, effective, impartial and equitable provision of services.
- (d) Involvement of the people in the process of policy making;
- (e) Accountability for administrative acts.
- (f) Transparency and provision to the public timely, accurate information.
- (g) Fair competition and merit as the basis for appointments and promotions.
- (h) Affording adequate and equal opportunities for appointment, training and advancement at all levels at the public service.

The Murang'a County Public Service Board was constituted on 16th August, 2013. The Board in the course of executing its mandate has maintained a high standard of professional ethics; utilized the resources available to the board with efficiency, effectiveness, transparency and accountability. The Board has also endeavoured to have a good working relationship with two arms of Government.

In this calendar year, 2019, the Board has undertaken the following:

1. Observance of fair competition of appointment and promotions
In doing this, the Board did the following:
 - (i) Advertised the vacant posts in the print media and county website.
 - (ii) Shortlisted the qualified candidates.
 - (iii) Carried out interviews competitively.
 - (iv) Made out appointments according to merit and in line with provisions of other relevant laws.
 - (v) Promoted officers in accordance with performance and schemes of service.

(List of appointments and promotions is attached as appendixes)

2. Observation of high standards of professional ethics

The Board was trained on professional ethics and corporate governance matters by the Ethics and Anti-Corruption Commission. In the discharge of its mandate, the Board has continued to apply high standards of professional ethics not only in the recruitment process but also in other areas related to its mandate in the achievement of its' other objectives.

3. Involvement of the people in the process of policy making

In doing this, the Board had engagements with members of the County Assembly and officers from the Executive on matters relating to policy guidelines.

4. Affording adequate and equal opportunities for appointment, training and advancement at all levels at the public service.

In achieving this, the PSB recruited people in various vacant posts both men and women as per appendix 1 and 2.

The Board also evaluated various reports of the County Human Resource Advisory Committee and promoted various persons as shown on appendix 1.

3.0 Evaluation to the Extent to Which the Values have been Complied with:

As a way of evaluating the extent to which the values have been complied with, the Board has done the following:

- (i) The Board requests all candidates to comply with requirements of chapter 6 of the constitution.
- (ii) Authenticated certificates for employees and candidates who appeared for interview. This exercise is an ongoing exercise.

4.0 Upcoming and On-going Programmes

The Board intends to undertake the following:

- (i) Conduct a baseline survey in the year 2020 to evaluate and report the extent to which the national values and principles referred to in articles 10 and 232 of the Constitution are complied with in the County Public Service.
- (ii) Carry out continuous training on values and principles in public service.

5.0 Impediments Faced by the Board in the Promotion of the National Values and Principles of Governance and Public Service

In the performance of its function of promotion of national values and principles of governance in the public service, the board has experienced the following challenges:

5.1 Gender Balance

The Board continues to face challenges in attaining gender balance. The current workforce however is skewed towards the female gender.

5.2 Regional Balancing

Whereas the board would want to uphold the requirement of regional balancing within the Country, there have been challenges when it comes to meeting minimum requirements as per the advertised vacancies across the country.

Sometimes the Board finds out that during the shortlisting, there are no applicants from some regions in the country.

The Board supplements adverts on print media with a caption encouraging persons from non-dominant tribes to apply for advertised jobs.

5.3 Diverse Communities

Murang'a County is largely not cosmopolitan. People from other ethnic communities in the county are working as public servants, students or members of the minority business community and applicants for various vacancies from diverse communities are few.

The law require that the Dominant Ethnic Group be 70 percent and non- Dominant Ethnic Group be 30 per cent according to section 55(1) (e) of the County Governments Act, No.17 of 2012. However, certain vacancies do not attract applicants from outside the Dominant Ethnic Group. The Board has strived to ensure this through advertisements that persons from other communities apply by indicating at all times that Murang'a County is an equal opportunity employer.

5.4 Political Environment

The Board recognizes the fact that it operates within a political environment. This therefore can affect certain aspects of recruitments and selection exercise and by extension the board's activities. The board however strives to remain non-political while at the same time encourages consultation and consensus building in the discharge of its duties and delivering on its mandate.

5.5 Inadequate Infrastructure

Inadequate infrastructure is still a challenge in Murang'a County as a whole and therefore by extension affects the Board's intention to attract competitive candidates and qualified personnel in its public service. Some of the neighboring counties are better off when it comes to infrastructure development thereby attracting applicants due to the same. The Board has noted that even some successful candidates are

still compelled to seek residence in other Counties due to this challenge particularly when it comes to educational institutions, residential houses, ICT, medical facilities and road networks.

5.6 Persons with Disability

Advertised positions have so far attracted very few people living with disabilities. The Board has however gone out of its way to reach out to Persons Living with Disability.

5.7 Inadequate Funding

This has posed a challenge in the efficient delivery of services.

6.0 Recommendations to be Implemented in the Promotion of Values and Principles

The Board recommends the following be applied in order to make the national values and principles of governance and of public service be adhered to and assist in having an efficient and effective County Public Service.

- Adequate budget provision be done to facilitate promotion of values and principles in public service

7.0 Conclusion

The Board would wish to conclude by assuring all stakeholders that it is committed to ensuring that the national values and principles of governance in the Public Service are adhered to:-

- Formulating effective measures to promote the values and principles.
- Undertaking a vigorous campaign to promote them among the public officers and the general public.

In the year under review, the Board was faced with a backlog of activities, owing to the fact that its operations had slowed down from November 2017 through to the end of April 2019 when the current Board members were sworn in. Some of the pending activities included recruitment of adequate, skilled and competent personnel needed by the various county departments, induction of staff, trainings and other activities to promote values and principles of public service, recruitment of additional board secretariat, as well as handling other employee welfare issues that have arisen over the given period of time among others. Despite the limited time available for utilization of funds in the first half of the year and the limited funds in the second half of the year, the Board made use of the available funds to clear its debts, and also procured some office furniture and Information Technology items to facilitate its work. It also conducted the recruitment exercise for the positions mentioned in this report; officers required by other county departments.

The Board has over the years worked with a very tight budget barely enough to take care of its programs and operations. This severely hampers the following: -

- recruitment of additional secretariat staff

- promotion of values and principles of public service
- Creation of Public Service Board Website

The Board to petition the County Executive and the Assembly to allocate adequate funds.

11.2 Salaries disparities that are yet to be harmonised the by Salaries and Remuneration Commission.

11.3 Lack of official website. Arrangements to create a portal within the county website domain is on course and the Board expects to have it operational in the 2020

11.4 Interference in Board's activities by various stake holders. The Board should be allowed to exercise its legal and constitutional mandate in a free atmosphere.

12. CONCLUSION

In the concluded year, the Board undertook and accomplished various activities. That notwithstanding, the Board will endeavour to carry out the activities that are lined up for the year 2020 and any other emerging issues. In addition, the Board is open to any suggestions, ideas that would enable it work harmoniously with various stake holders.

2009.

- Apply for a license from NEMA whereby maximum permissible noise levels are to be exceeded prescribe noise reduction measures e.g. restricted working hours, transportation hours and noise buffering.
- Install portable barriers to shield compressors and stationary equipment where necessary and locate stationary noise sources as far from existing sensitive receptors as possible.
- Use quiet equipment (i.e. equipment designed with noise control elements such as mufflers).
- Provide 2.4 meter high hoarding along site boundary.
- Provide effective dust screen, sheeting or netting where a scaffolding is erected around the perimeter of the building.
- Any skip hoist for material transport shall be totally enclosed by impervious sheeting.
- Water all active construction areas when necessary.
- Cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of freeboard.

- Where a possibility of collapse or cave of an excavation exists, it should be shored, shielded, benched or battered to prevent the collapse or cave-in.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> • Ladders must be provided no more than 20 meters apart in the area where excavation works are being carried out.
Soil erosion and water logging	<ul style="list-style-type: none"> • Terrace, level and rip off compacted areas of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Dig trenches and cut off drains to channel runoff into existing peripheral storm water drains. • Surface runoff should be harvested where applicable for reuse during construction works.
Waste generation	<ul style="list-style-type: none"> • Use durable, long-lasting materials that will not need to be replaced often, thereby reducing the amount of construction waste generated over time. • Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. • Use building materials that have minimal packaging to avoid the generation of excessive packaging waste. • Use construction materials containing recycled content when possible and in accordance with accepted standards. • Ensure adequate collection and storage of waste on site and safe transportation to licensed disposal sites by licensed waste handlers.
Increased traffic	<ul style="list-style-type: none"> • Any work that disturbs normal traffic signal operations shall be coordinated with the relevant authorities. • Ensure that the Entry/Exit to the project site is located where it will cause minimal traffic along Agoi Road. • Ensure all construction vehicles to and from the construction site use the designated Entry/Exit to the project site. • All transportation of construction raw materials and excavated materials are to be conducted at traffic off peak hours only. • Cover all trucks hauling soil, sand and other loose materials to avoid spillage and dust emissions that may interfere with smooth motoring. • "NO PARKING" signs will be posted around the building where parking is prohibited and likely to cause obstruction as well as other necessary traffic signs. • Traffic management/parking personnel shall be provided to monitor parking and ensure smooth motoring along the buildings adjacent roads.
Increased water Demand	<ul style="list-style-type: none"> • Promote awareness on water conservation and reducing water wastage. • Reduce water delivery in taps, through the installation of low flow devices or aerators on taps. • Press action taps, flush valves and urinal sensors shall be used to minimize water wastage in public washrooms. • Install water efficient plumbing.
