“Two-year declaration” means a declaration made in accordance with section 26(1) of the Act.

Scope of Application

3. These Procedures shall apply to the administration of Part IV of the Act with respect to state officers serving in the County Assembly;

PART II – PROCEDURE IN RELATION TO DECLARATIONS

Administration of the Procedures

4. (1) The Secretary shall administer these Procedures on behalf of the Committee.

(2) The Secretary may designate officer(s) from among the state officers of the County Assembly Service Board to administer the Procedures or any part thereof in respect to any specified category of state officers.

(3) The designation under sub-paragraph (2) shall be in writing and shall outline the specific tasks to be performed by the Designated Officer.

Procedure in Submitting Declarations

5. (1) A state officer shall submit a declaration in the Form set out in the Schedule to the Act.

(2) The Committee may use such measures as may be appropriate to facilitate a state officer to acquire the form referred to in subparagraph (1).

(3) The Committee may publish the declaration form in a format that may permit the declaration form—

(a) to be rendered in digital format; or

(b) to be downloaded from a website and printed out in paper format.

(4) Where a state officer is required to make an initial, two-year or final declaration, the Secretary or Designated Officer may issue a notification to the state officer not less than thirty (30) days before the due date for the declaration,

(5) For avoidance of doubt, failure to provide a declaration form or to issue a notification under this paragraph shall not be construed as a waiver of the responsibility of the state officer to submit a declaration under the Act.

Completion and Submission of Declarations

6. A state officer shall complete and submit the declaration form to the Secretary.

Register of Declarations

7. (1) The Committee shall maintain a register containing details of each state officer who is required to make a declaration in accordance with the Act. The register shall include—

- (a) Name; personal number; designation; directorate; department or unit;
- (b) Date the state officer submitted the declaration form;
- (c) type of declaration (initial, two-year or final);
- (d) Name and signature of the designated officer acknowledging receipt of the declaration;
- (e) Total number of state officers who have submitted declarations as at the due date;
- (f) Total number of state officers required to submit declarations; and
- (g) Any remarks relating to the declarations.

(2) A register under this part may be maintained in separate documents.

Reports on Compliance

8. (1) The Committee shall submit to the Commission a report containing the following information—

- (a) In relation to two-year declaration—
 - (i) The number of state officers on the payroll as at 31st October of the year of declaration;
 - (ii) A certified copy of the register maintained in accordance with paragraph 6;
 - (iii) The total number of state officers who have complied with the requirement for declarations;
 - (iv) The total number of state officers who have not complied with the requirement for declarations;
 - (v) Action taken by the Committee in relation to any state officer who has not complied;
 - (vi) Any relevant remarks on the submissions.
- (b) In relation to the initial and final declaration—
 - (i) Number of state officers required to make a declaration;
 - (ii) The number of state officers who have complied with the requirement for declaration;
 - (iii) Number of state officers who have not complied with the requirement for declarations;
 - (iv) Action taken in relation to any state officer who has not complied;
 - (v) Any relevant remarks on the submissions.

(2) The report under this part shall—

- (a) In relation to a two-year declaration, be submitted to the Commission, not later than 31st July, of the year following the declaration;
- (b) In relation to initial and final declarations, be submitted to the Commission not later than 31st July following the end of the financial year within which the declarations were made.

PART III—PROCEDURE IN RELATION TO CLARIFICATIONS

Requests for Clarification

9. (1) The Secretary or the Designated Officer shall review each declaration to ascertain if any of the following conditions exist—

- (a) on the face of the declaration, or in light of any other information the Committee may have, there is reason to suspect the declaration may be false or incomplete;
- (b) the assets of the declarant appear disproportionate to his or her known income;
- (c) the income, assets or liabilities of the declarant raise concerns of impropriety or conflict of interest.

(2) If it is suspected that any of the conditions in subparagraph (1) exist, the Secretary or Designated Officer shall give the declarant an

opportunity to make a clarification in accordance with section 28 (1) of the Act.

(3) Request for a clarification shall be made in writing.

(4) The Secretary or Designated Officer shall, in the register of declarations, document the particulars of clarification sought, the mode of communication, the time given to respond, the date and particulars of response, if any.

(5) If no explanation is given, or if after considering any explanation the declarant may give, the Secretary or Designated Officer is of the opinion that the conditions in subparagraph (1) (b) still exist, the Secretary or Designated Officer may, in addition to any other action including investigations and commencement of civil proceedings, take disciplinary or other appropriate action against the state officer.

PART IV—PROCEDURE FOR THE ACCESS OR PUBLICATION OF INFORMATION IN A DECLARATION

Access and Publication of Information in a Declaration

10. (1) The Committee or any other person shall not disclose, access, acquire or publish the information in the declaration form except as may be provided in the Act, the Regulations, these Procedures, or any other written law.

(2) A person who wishes to gain access to or publish information in relation to a declaration under the Act shall—

- (a) apply to the Committee in the form set out in Appendix I; and
- (b) demonstrate to the Committee that he or she has a legitimate interest in the information; and
- (c) demonstrate to the Committee that the access to or publication of that information shall be for a good cause and in furtherance of the objectives of the Act.

(3) Where the information is intended to be disclosed or publicized, the applicant shall expressly state so in the application.

(4) Where a person has made an application to the Committee in accordance with this paragraph—

- (a) the Committee shall issue the applicant with an acknowledgement in the form set out in Appendix II;
- (b) the Committee shall inform the declarant of the application in writing;
- (c) the Committee shall give the declarant an opportunity to make a representation in writing in relation to the application within 14 days; and
- (d) the Committee shall take into consideration the representation by the public officer while determining the application.

(5) The Committee shall determine an application made in accordance with this paragraph and communicate its decision in writing to the applicant within thirty (30) days of receipt of the application.

(6) For the avoidance of doubt, the Committee shall not release or part with the original declaration made by any state officer in satisfying the requirement of this paragraph, unless required for investigation by a law enforcement agency or by any written law.

PROVIDED that where an original declaration is released under 10(4) above the Committee shall always retain a certified copy of the declaration;

(7) The Committee shall maintain a register of applications and decisions made under this paragraph setting out—

- (a) the name of each applicant;
- (b) the date each application was received;
- (c) the name and personal number of the state officer who is the subject of the application;
- (d) the department or other unit to which the state officer belongs;
- (e) a brief description of the information applied for;
- (f) whether the state officer accepts or opposes to the information applied for;

- (g) a brief description of the decision made in relation to the application including reasons for denial where applicable; and
- (h) date when the decision was communicated to the applicant.

Access by Declarant

11. An Application for access by A state officer to his or her declaration may be determined by the Secretary.

Proof of Identity

12. The Committee shall not give access to the information in a declaration to—

- (a) the state officer unless the state officer proves his or her identity; or
- (b) a representative of the state officer unless that representative—
 - (i) Provides proof of his or her authority to act as a representative of the state officer; and
 - (ii) Provides proof of identity of the state officer.

Decision to be Final

13. (1) Except as provided under the Act, Regulations and these Procedures, the decisions of the Committee in relation to a declaration by A state officer shall be final.

(2) Any person dissatisfied with the decision may appeal in accordance with the procedures set out in the Public Officer Ethics (Management, Verification, and Access to Financial Declarations) Regulations, 2011.

Regulations to Apply to this Part

14. This part shall be read and construed together with the Public Officer Ethics (Management, Verification, and Access to Financial Declarations) Regulations, 2011.

PART V—PROCEDURE IN RELATION TO STORAGE AND RETENTION OF DECLARATION FORMS

Mechanisms for Storage, Retention and Retrieval

15. (1) The Committee shall ensure that appropriate mechanisms are put in place for the safe and secure storage, retention and easy retrieval of the declarations

(2) The mechanisms established under sub-paragraph (1) may include manual, electronic, microfilm or any other form as the Committee may consider appropriate.

Cessation of Retention of Information

16. (1) Where the period for retaining information obtained in accordance with Part IV of the Act has lapsed, the Committee shall determine the action to be taken in relation to that information.

(2) The Secretary may make a written proposal to the Committee in relation to the action to be taken by the Committee in accordance with sub-paragraph (1).

THE ENERGY ACT

(No. 1 of 2019)

THE DRAFT ENERGY (ENERGY MANAGEMENT) REGULATIONS, 2020

IN EXERCISE of the powers conferred by section 198 (1) and (2) of the Energy Act, 2019, the Cabinet Secretary for Energy makes the following Regulations —

PART I – PRELIMINARIES

1. These regulations may be cited as the Energy (Energy Management) Regulations, 2020.

2. These Regulations shall apply to the owners of designated industrial, commercial, and institutional facilities using any form of energy, energy auditors, energy audit firms, energy managers and energy service companies.

3. In these regulations, unless the context otherwise requires: -

- (a) "Act" means the Energy Act, 2019.
- (b) "Accreditation" means approval issued by the Authority permitting or authorizing a person to undertake work as an energy auditor, energy audit firm, energy manager or energy service company.
- (c) "Authority" means the Energy and Petroleum Regulatory Authority established pursuant to Section 9 of the Act.
- (d) "Accreditee" means a person or entity accredited by the Authority under these regulations.
- (e) "corporate entity" means a company registered under the Companies Act, a society registered under the societies Act or a partnership registered under the Partnerships Act or Limited Partnerships Act.
- (f) "designated facility" a facility designated by the Authority under section 204 of the Act.
- (g) "energy audit" means the verification, monitoring and analysis of use of energy including submission of technical report containing recommendations for improving energy efficiency with cost benefit analysis and an action plan to reduce energy consumption.
- (h) "energy auditor" means a person accredited by the Authority to undertake energy audits.
- (i) "energy audit firm" means a corporate entity engaged in the business of undertaking energy audits.
- (j) "energy conservation" means efforts leading to a decrease in energy consumption.
- (k) "energy investment plan" means a list of recommended energy conservation measures and activities, as recommended in an energy audit report, with the allocated timelines, monetary and human resources.
- (l) "energy manager" means a person(s) responsible for coordination and promotion of the energy management system activities and for delivering energy performance improvements in designated facilities;
- (m) "energy savings" means the amount of reduction in energy units consumed in a facility as a result of implementation of energy efficiency and conservation measures.
- (n) "energy service company"/ "ESCO" means a corporate entity engaged in the development, design, financing, and building of energy conservation projects and whose compensation is directly linked to actual energy savings. The entity maybe involved in undertaking energy audits.
- (o) "facility" means any place in which energy is consumed including but not limited to factories, commercial buildings, power utilities, institutional buildings, local authorities, municipalities, pipelines, water companies, street lighting.
- (p) "facility owner" means an owner, a charterer or a lessee of a designated facility.
- (q) "Kenya Standard" shall have the meaning assigned to it under Standards Act, Cap 496 Laws of Kenya.
- (r) "measurement and verification" means the process of planning, collecting data, analysing, verifying, and reporting energy performance or energy performance improvement.
- (s) "person" means any natural or juridical person.
- (t) "recognized university" means a university that has been approved by the Commission for University Education to offer the courses described in these regulations.
- (u) "revoke" means to withdraw and invalidate an accreditation issued under these regulations.
- (v) "suspend" means to temporarily and for a defined period of time, withdraw and invalidate a certificate of accreditation issued under these regulations.

(w) "Tribunal" means the Energy and Petroleum Tribunal established under section 25 of the Act.

(x) "walk-through audit" means an inspection of a facility to identify maintenance, operational or deficient equipment issues and also to identify areas that need further evaluation.

PART II – CLASSIFICATION OF FACILITIES AND ENERGY MANAGEMENT POLICY

4. (1) The Authority shall, from time to time, classify facilities by energy consumption into high energy users, medium energy users and low energy users, for purposes of these regulations.

(2) The Authority shall publish the designated facilities in accordance with the Act.

5. (1) The owner of a designated facility shall develop an energy management policy for the facility and submit it to the Authority for approval before implementation.

(2) The Authority shall review the policy and communicate its decision to the facility owner within thirty (30) days.

(3) An energy management policy prepared under these regulations shall be in accordance with Kenya Standard KS ISO 50004 or any other subsequent or replacement standards and shall have the minimum requirements provided in the First Schedule.

6. (1) The owner of a designated facility shall obtain and maintain records relating to energy consumption at the facility including:

(a) Monthly consumption of electric power, fuel (including biomass and petroleum products), and water;

(b) Monthly production data or occupancy levels;

(c) Up to date building plans, infrastructure plans, and floor area.

(2) The owner of a designated facility shall submit energy consumption reports for every financial year before 30th June of the following year in a manner prescribed by the Authority.

7. An owner of a designated facility shall designate an accredited energy manager for every designated facility who shall be responsible for the co-ordination and promotion of energy efficiency and conservation programmes.

PART III – ENERGY AUDITS

8. (1) The owner of a designated facility shall cause an energy audit of the facility to be undertaken at least once every four (4) years.

(2) An energy audit shall be undertaken by an accredited energy auditor or energy audit firm or energy service company and shall be conducted in accordance with Kenya Standard KS ISO 50002 or any other subsequent or replacement standards.

(3) The report of the audit undertaken under paragraph (1) shall at a minimum comply with the requirements in Kenya Standard KS ISO 50002 or any other subsequent or replacement standards and shall be at minimum in the form set out in the Second Schedule.

(4) An energy auditor shall upon completion of an audit provide the owner of a facility with a report which shall include an executed quality assurance declaration in the form set out in the Third Schedule.

9. (1) The owner shall, within six (6) months of completion of an energy audit, submit the report of the energy audit to the Authority in a manner specified by the Authority.

(2) The Authority shall, within thirty (30) days of receipt, examine the energy audit report submitted hereunder and: -

(a) where it is satisfied with the report, approve the same and communicate the approval to the owner, or;

(b) where it is dissatisfied, reject the report and communicate to the owner giving reasons for the rejection and;

(3) Where the Authority rejects an energy audit report, it shall require the owner to either cause a review and re-submission of the report within thirty (30) days or cause the energy audit to be repeated within a period of six (6) months.

(4) The Authority may subject the energy audit report to verification by conducting a quality control energy audit after giving a minimum of seven (7) days' notice to the facility owner.

(5) The owner of a designated facility shall allow the Authority or an agent appointed by the Authority access to the facility for purposes of conducting a quality control energy audit.

(6) A facility owner who fails to grant access to the Authority or its agent as required under this part commits an offence.

10. (1) An owner of a designated facility shall within six (6) months from the approval of the energy audit report, prepare and submit to the Authority an energy investment plan for implementation of the energy conservation measures in the approved energy audit.

(2) The owner of a designated facility shall implement the energy investment plan to:

(a) realize at least fifty (50) percent of the identified and recommended energy savings, within three years of submission of the energy investment plan to the Authority, and;

(b) Bring the designated facility into compliance with the energy performance indicators published by the Authority from time to time.

(3) The owner of a designated facility shall submit to the Authority an annual report for the energy conservation measures implemented in the format set out in the Fourth Schedule.

(4) The Authority or its agent may, with notice, undertake inspection of a designated facility to verify the accuracy of the implementation report.

PART IV - MEASUREMENT AND VERIFICATION OF ENERGY PERFORMANCE IMPROVEMENT

11. (1) Measurement and verification of the implemented energy conservation measures shall be undertaken by a Category EAMV (as defined in regulation 16) accredited auditor.

(2) The measurement and verification shall be conducted in accordance with Kenya Standard, KS ISO 50015 or any other subsequent or replacement standards.

PART V - ENERGY PERFORMANCE INDICATORS AND ENERGY SAVINGS CERTIFICATES

12. The Authority shall, within three (3) years of publishing these regulations, publish on its website the minimum energy performance benchmarks for sectors of the economy based on existing best practices. Thereafter, the Authority shall review and publish the National energy consumption indices annually.

13. Every designated facility shall, during each energy audit exercise, establish its energy performance indicator in accordance with Kenya Standard, KS ISO 50006 or any other subsequent or replacement standards.

14. (1) Where a designated facility is consuming energy above the benchmarks established under regulation 12, such facility shall, submit;

(a) A detailed energy audit report compiled by an accredited energy auditor;

(b) A detailed remedial plan of action to reduce energy consumption to acceptable levels, and

(c) A commitment to implement the approved remedial plan within two (2) years of its approval. Such remedial plan as in paragraph 14 may include the purchase of energy savings certificates or equivalent energy efficiency trading scheme as set out in the Fifth Schedule.

(d) The Authority may inspect facilities for purposes of obtaining data to verify compliance with the benchmarks and issue a written notification to the facility in case of noncompliance.

(2) The failure to submit a detailed energy audit report, a detailed remedial plan and the failure to implement such a plan on approval by the authority shall be an offence.

15. The Authority may, upon application by a designated facility issue an energy savings certificate.

(1) An application for an energy savings certificate shall be accompanied by the information and documentation specified in the Sixth Schedule.

(2) The Authority shall within forty-five (45) days of receiving the application approve or reject it giving reasons for rejection.

(3) The Authority may issue a designated facility:

(a) White Certificate if the facility's energy performance indicator is better than the published best indicator for the sector by twenty five percent (25%).

(b) Green Certificate when the facility's energy performance indicator meets the published allowable benchmark for the sector.

(4) An energy savings certificate shall indicate the number of tradable credits determined from the annual energy saved from implementation of energy saving measures as per the guidelines in the Fifth Schedule.

(5) The authority shall maintain a register of all designated facilities issued with energy savings certificates.

PART VI - ACCREDITATION OF ENERGY AUDITORS, ENERGY MANAGERS, ENERGY AUDIT FIRMS, AND ENERGY SERVICE COMPANIES

16. (1) A person shall not-

(a) carry out an energy audit under these regulations,

(b) undertake measurement and verification of energy performance, or;

(c) be employed or contracted as an energy manager as required under these regulations,

unless he or she is accredited as an energy auditor or energy manager by the Authority.

(2) A person shall be qualified to be accredited as an energy auditor if he or she holds the qualifications and experience set out in the Seventh Schedule.

(3) A person shall be qualified to be accredited as an energy manager if he or she holds the qualifications and experience set out in the Seventh Schedule.

(4) The Authority may, on receipt of an application for accreditation of an energy auditor, grant the applicant one of the following categories of accreditation certificates and the accreditee be entitled to undertake work within the scope indicated along the category: -

(a) Category EAMV - undertake energy audits of designated facilities classified by the Authority as either medium or high energy users and undertake measurement and verification of energy performance.

(b) Category EA1 - undertake energy audits of designated facilities classified by the Authority as either medium or high energy users.

(c) Category EA2 - undertake energy audits of designated facilities classified by the Authority as medium energy users.

(5) Applications for accreditation as an energy auditor and/ or energy manager shall be in the form set out in the Eighth Schedule and shall be accompanied by proof of payment of the application fees set out in the Ninth Schedule.

17. (1) No person shall engage in business as an energy audit firm unless it is accredited by the Authority.

(2) The Authority may, on receipt of an application grant the applicant one of the following classes of energy audit firm licenses and the accreditee shall be entitled to undertake audits within the scope indicated along the category: -

(a) EAF1 - Authorised to undertake energy audits of designated facilities classified by the Authority as either medium or high energy users and have in its employment at least one category EAMV or EA1 accredited energy auditor.

(b) EAF2 - Authorised to undertake energy audits of designated facilities classified by the Authority as medium energy users and have in its employment at least one category EA2 accredited energy auditor.

(3) Applications for accreditation as an energy audit firm shall be in the form set out in the Eighth Schedule and shall be accompanied by proof of payment of the application fees set out in the Ninth Schedule.

(4) An energy audit firm that conducts energy audits that are beyond its scope commits an offence.

18. (1) No person shall engage in business as an ESCO without accreditation by the Authority.

(2) The Authority may, on receipt of an application grant the applicant an ESCO license and the accreditee shall be entitled to: -

- (a) undertake audits of designated facilities classified by the Authority as either medium or high energy users;
- (b) develop, design, finance and build or implement energy conservation projects whose compensation is directly linked to actual energy savings.

(3) The company shall have in its employment at least one category EAMV accredited energy auditor.

(4) Applications for accreditation as an ESCO shall be in the form set out in the Eighth Schedule and shall be accompanied by proof of payment of the application fees set out in the Ninth Schedule.

19. (1) A designated facility and an ESCO shall enter an energy service contract to govern their relationship and setting out the obligations of each party prior to commencement of work.

(2) The energy service contract shall meet the requirements as to content set out in the Tenth Schedule.

(3) An accredited ESCO shall, within thirty (30) days of entering into an energy service contract, send a copy of the contract to the Authority for review to ensure compliance with this regulation 19.

(4) The Authority shall within twenty one (21) days communicate, in writing, to energy service company (ESCO) where it finds that the contract does not meet the minimum requirements set out in these regulations.

20. (1) The Authority shall examine all applications for accreditation and shall, where it is satisfied that a person possesses the qualifications set out in these regulations for accreditation as-

- (a) an energy auditor;
- (b) an energy manager;
- (c) an energy audit firm, or;
- (d) an energy service company

issue an appropriate accreditation certificate.

(2) The Authority shall cause an applicant for energy auditor's certificate, including applicants for upgrading, to be examined in such a manner as it may determine and upon any matter or thing in connection with the application for the purpose of ascertaining the applicant's qualification and suitability for grant of the class of certificate to which the application relates.

(3) Accreditation certificates under this part shall be in such form as the Authority may, from time to time, determine.

(4) Issuance of accreditation certificates shall be subject to payment of the accreditation fees set out in the Ninth Schedule.

21. (1) Applications for accreditation under these regulations shall be made electronically or in any other manner that the Authority may, from time to time prescribe.

(2) The Authority shall process all applications and communicate the outcome to the applicants no later than: -

- (a) Sixty (60) days from the date of receipt of the application for accreditation of energy auditors and energy managers.
- (b) Thirty (30) days from the date of receipt of application for accreditation of energy audit firms and energy service companies.

(3) Accreditation certificates issued under this part shall be valid for a period of three (3) years.

22. (1) An application for renewal of an accreditation certificate shall be made at least thirty (30) days before the expiry date of the current certificate.

(2) An accreditee who wishes to renew their accreditation shall demonstrate to the Authority accumulation of at least thirty (30) credit points through Continual Professional Development as outlined in the Eleventh schedule.

(3) Where the Authority is satisfied that an applicant has continuously met the conditions of the current accreditation, and has obtained the requisite continuous professional development credit points, the Authority shall renew the certificate subject to payment of the renewal fees set out in the Ninth Schedule.

(4) If the application for the renewal of a certificate has been made before its date of expiry but has not been dealt with by the Authority before the date of expiry, that accreditation shall remain valid until the application for renewal is finalised, and any renewal in such case shall be deemed to have commenced from the day the accreditation certificate would have expired before the renewal thereof.

(5) Where, upon application, it is shown to the satisfaction of the Authority that an accreditation certificate has been lost, destroyed or defaced, the Authority may issue a duplicate certificate of accreditation subject to payment of the replacement fees specified in the Ninth Schedule.

23. (1) An accreditee who wishes to upgrade from one category of accreditation to another shall make an application to the authority for such an upgrade at least two (2) years after issuance of the current accreditation certificate.

(2) Where the Authority is satisfied that an accreditee has met the required experience for the accreditation category for which an upgrade is sought, it shall approve the upgrading of the accreditation.

(3) The Authority shall approve upgrading of an energy audit firm's accreditation from one category to the other where the firm demonstrates that it has in its employment an energy auditor with the required category of accreditation.

(4) Upgrading of accreditation shall be subject to the accreditee paying the accreditation fees for the new category as specified in the Ninth Schedule.

24. (1) The Authority may suspend or revoke any accreditation certificate issued under these regulations where it is satisfied that an accreditee has breached the provisions of these regulations or any conditions attached to the accreditation.

(2) The Authority shall, prior to suspending or revoking an accreditation under this regulation, by notice in writing afford the accreditee an opportunity to show cause why the accreditation should not be suspended or revoked.

(3) A notice to show cause issued hereunder shall contain sufficient information to enable the accreditee discern the specific incidences of non-compliance in issue.

(4) An accreditee shall be entitled to appear before the Authority with or without representation to show cause why his accreditation should not be suspended or revoked.

(5) Any accreditation certificate issued and is not renewed for six (6) months after expiry, unless the accreditee has before expiry of the accreditation informed the Authority in writing of the intention and reasons not to renew the accreditation, shall not be eligible for renewal and will require the accreditee to apply for the accreditation anew.

25. The Authority shall maintain and publish on its website and/or any other medium, a register of all accredited energy auditors, energy managers, energy audit firms and energy service companies, and the status of their accreditation certificates.

26. All certificates of accreditation offered under these regulations shall comply with the local content requirements.

27. Every accredited energy audit firm or energy service company shall take out and maintain professional indemnity insurance cover with a licensed insurance company of a value determined by the Authority.

28. Every accredited energy auditor, energy audit firm or energy service company shall submit information regarding energy audits carried out and/or energy conservation projects implemented in such intervals and in such manner as the Authority may prescribe.

Part VII -- Powers of Inspection and Compliance Orders

29. The Authority or its agent may carry out inspection, in relation to the compliance with these regulations, in accordance with section 11 of the Act.

30. (1) Where the Authority finds that any provisions of these regulations have been contravened by an accredittee, or that a condition has arisen which may lead to the contravention of these regulations, the Authority may issue a compliance order compelling the person to comply with the regulations.

(2) A compliance order issued under regulation 30(1) shall state—

- (a) the specific provisions which have been or are likely to be contravened;
- (b) the measures which should be taken to rectify the contravention; and
- (c) the period within which the order shall be complied with.

PART VIII - OFFENCES AND PENALTIES

31. (1) A person who undertakes employment as an energy manager or undertakes business as an energy auditor, energy audit firm or energy service company without accreditation by the Authority commits an offence and shall, upon conviction be liable to a maximum fine of one million shillings.

(2) An owner of a designated facility who denies the Authority or its agent access to a designated facility for purposes of checking or enforcing compliance with these regulations commits an offence and shall upon conviction be liable to a maximum fine of one million shillings.

(3) Where a person is charged with offences under this regulation, he may request the Authority to compound the offence and prescribe a fine to be paid and upon payment of such fine, the Authority shall withdraw any criminal complaint against the person.

(4) Where the Authority compounds an offence and the person charged with committing the offence pays the prescribed penalty, the Authority shall withdraw the criminal complaint against the person.

32. (1) An accredittee who is found to be guilty of any of the offences listed below shall be liable to the fine or penalty indicated beside the offence.

Act	Regulation	Description of Offence	Penalty
188(2)		Provision of false information to the Authority	A fine not exceeding ten million Kenya shillings or to imprisonment for a term not exceeding two years or to both
		Providing inaccurate or incomplete information to the authority	A fine not exceeding one hundred thousand Kenya shillings
5 (3)		Failure to designate an energy manager	one hundred thousand Kenya shillings per default
5 (4)		Failure to keep records of information	A fine not exceeding one million Kenya shillings, or to a term of imprisonment of one year, or to both
6 (5)		Failure to audit and/or submit an audit report within the stipulated time	A fine not exceeding one million Kenya shillings, or to a term of imprisonment of one year, or to both
6 (11)		Failure to grant access	A fine not exceeding fifty thousand Kenya shillings for each day or part thereof that the obstruction occurs

7 (2) Carries out an energy audit/services without a valid certificate of accreditation

A fine not exceeding five hundred thousand Kenya shillings or to a term of imprisonment not exceeding six months or to both such fine and imprisonment

9 Failure to take out professional indemnity

fifty thousand Kenya shillings

13 (4)

A penalty not exceeding thirty thousand Kenya shillings for each day or part thereof that the breach continues.

(2) Where an accredittee or designated facility has previously been penalised for an offence and commits another such offence, the fine payable shall be two (2) times the amount provided for such an offence.

(3) Payment of penalties or fines in 32(1) above shall not absolve or indemnify an accredittee from any obligations to compensate a consumer.

(4) Any fines or penalties which are not paid shall be a civil debt recoverable summarily.

(5) The fines or penalties in 32(1) above are without prejudice to the Authority's right to suspend or revoke the accredittee's certificate.

PART IX - COMPLAINTS, DISPUTES AND APPEALS

33. Any complaints and/or disputes between a designated facility owner or a consumer and an accredittee under these regulations or between two or more accredittees shall be referred to the Authority for resolution in accordance with the Energy (Complaints and Disputes Resolution) Regulations 2012 or any replacement of the same.

34. An accredittee, owner of a designated facility, or consumer who is dissatisfied or aggrieved by a decision of the Authority shall lodge an appeal with the Energy and Petroleum Tribunal.

PART X - TRANSITION AND REPEAL

35. The transition provisions set out in the Twelfth Schedule shall apply.

36. The Energy (Energy Management) Regulations, 2012 are repealed.

SCHEDULES

FIRST SCHEDULE

GUIDELINES FOR PREPARATION OF AN ENERGY MANAGEMENT POLICY

1. An Energy Management Policy shall include—

- (a) A commitment to improve energy efficiency and conservation with clear targets;
- (b) A commitment to comply with the Act and these Regulations;
- (c) A commitment to provide resources necessary to achieve energy efficiency and conservation;
- (d) A commitment to establish and implement a strategic plan for energy efficiency and conservation;
- (e) A commitment to train staff to ensure competence in energy efficiency and conservation;

2. The owner of the designated facility shall ensure that the policy is endorsed by the top management of the designated facility.

3. The owner of the designated facility shall ensure that the policy is communicated to all staff.

SECOND SCHEDULE

GUIDELINES FOR ENERGY AUDIT REPORT

- 1. Cover Page

- Report title
- Name of client (company for which the facility has been audited)
- Physical location of the facility
- Date of report (Month and year)
- Name and address of Lead Auditor and/or energy audit firm or energy service company.

2. Page 2

- Quality Assurance Declaration Form

3. Page 3

- Audit team members and their roles.

4. Executive Summary

All information in the Executive Summary should be drawn from the detailed information in the full report. The Executive Summary should contain a brief description of the audit, including but not limited to:

- Name of client, location of facility audited and dates of the audit
- Objectives of audit
- Methods, tools used, and the areas audited
- Status of implementation of previous audit recommendations where applicable
- Summary of energy use and consumption, which must include energy utilization index
- Summary of recommended energy conservation measures, annual energy savings and cost savings using the table format below:

S No.	Recommended Measure	Estimated Implementation Cost	Estimated annual energy savings (kWh)	Estimated Annual Monetary Savings	Estimated annual CO ₂ reduction (kg)	Discounted Payback period	Internal Rate of Return (IRR)	Discounted Return on investment (ROI)	Net Present Value (NPV)

2									
Total									

(c) Summary of other recommendations (e.g. Alternative Energy sources)

S No.	Recommended source	Estimated Implementation Cost	Estimated annual energy supply (kWh)	Estimated Annual Monetary Savings	Estimated annual CO ₂ reduction (kg)	Discounted Payback period	Internal Rate of Return (IRR)	Discounted Return on Investment (ROI)	Net Present Value (NPV)
1									
2									
Total									

- Suggested implementation plan

5. Introduction

- Brief description of the processes at the facility;
- Objectives of the energy audit;
- Scope of audit.

6. Methods and tools used

The method section shall contain the following;

- The procedure used for collection and analysis of the secondary data
- Process used for prioritization and obtaining the inventory of energy consumption equipment and systems
- The list of data collection and measurement tools, and instruments used
- A declaration of the error/accuracy and status of calibration of the equipment
- Procedure used for primary data collection
- Relevant variables provided by the organisation e.g. operating parameters and production data.
- Method used for analysis of the facility's energy performance and determination of energy performance indicators
- Criteria for identification and ranking of opportunities for energy efficiency and conservation measures
- The financial criteria and technical/operational limitations and assumptions. All the assumptions made in taking measurements, calculations, and financial analysis.

7. Energy consumption, historical data analysis and establishment of baseline

- (y) Inventory of key energy consuming equipment and systems, with their ratings and annual time of operation (may be annexed);
- (z) Review of energy, production and service level data for the baseline period (at least 12 months preceding the audit);
 - (aa) Description of systems or equipment audited, their capacities and ratings, design and operating conditions;
 - (bb) Establishment of baseline energy consumption data such as the energy efficiency index (EEI – kWh/m²/year) of buildings, defined as the amount of energy consumed annually per Gross Floor Area (GFA) of the building or specific energy intensity (kWh/unit of production);
 - (cc) Heat and mass balance where applicable;
 - (dd) Comparison of consumption data with the energy balance.

8. Identified Energy Saving Measures and/or Alternative Energy Solutions

- (i) Brief description of the present situation and shortcomings identified
- (ii) Pictures and maps showing the locations of the instruments and sensors in use during the audit
- (iii) Recommended energy saving measures with clear and detailed calculations of the projected annual energy and cost savings, estimated investment cost and the financial appraisal for each measure using life-cycle-costing. All the data used should be supported by primary and/or secondary sources and the assumptions must be stated.
- (iv) Alternative energy solutions.

9. Energy Investment Plan

- (i) A description of resource allocation for implementation of the energy efficiency and conservation measures recommended in the energy audit report. This should detail the time frame and required resources and anything else which is relevant for the project.
- (ii) Summary of targets for the measures to include: projected annual kWh savings, estimated cost savings, estimated investment cost and investment indicators such as discounted payback period, discounted return on investment (ROI), internal rate of return (IRR) and net present value (NPV). All the data used should be supported by primary or secondary sources and the assumptions must be stated.

10. Monitoring and verification

Explain the monitoring and verification process to be used after implementation for assessment of the recommended energy conservation measures.

- *Measures implemented and cost of implementation*
- Details of measures implemented;
- Description of systems or equipment modified, their capacities and ratings, design conditions, equipment schedules, including information such as the type of systems, type of controls, type and number of auxiliary equipment, etc.
- Milestone chart showing the timeline of implementation;
- Cost breakdown of each measure in table format, with reference to the payment documents.
- *Measurements and Calculations*
- Details of the measurement and verification system adopted to measure and compare actual savings to the savings projected in the detailed audit report;
- Formulae and key data used for calculations;
- Detailed instrumentation plan;
- Parameters monitored and duration of monitoring of each parameter;
- Dates of data collection and logging;
- Performance of systems or equipment;
- Findings and observations.
- *Savings Achieved*
- Summary of the measures implemented, the projected and actual annual kWh savings, and the projected and actual annual cost savings. This should be normalized using cumulative sum (CUSUM) analysis
- Statement by the organisation on whether or not the implementation meets the organisation's savings target stated in the audit report.
- *Appendices*

Information with significant importance, which cannot be presented as a part of the main report (because of number of pages, quality of presentation, etc.) shall be presented as appendices.

- Data plots of performance of systems or equipment improved
- Data plots of energy consumed vs. time before and after implementation on the same graph, showing the improvement
- Energy efficiency of major equipment compared against benchmarks set during the detailed audit
- Current energy bills.
- *General Notes to the Report*
- (i) Documentation – All numbers related to the results should be supported by information showing how they were derived. This includes all energy savings, cost savings and financial appraisal tools.
- (ii) All calculations in the report should be checked for mathematical accuracy.
- (iii) International system of units (SI) units must be used in all parts of the report.
- (iv) Grammar and style – The report should be in English, legible, paginated and written in proper prose. The language should be clear, concise and understandable.
- (v) All graphs and plots should be properly labelled and should indicate the dates when the readings were taken. These should first be introduced in the text, then discussed and cross referenced.
- (vi) The report should be printed on both sides to save paper and either book or spiral bound.
- (vii) Reference to all the appendices should be made in the main report
- (viii) A hard and soft copy of the report shall be submitted to the Authority.

- (ix) Citation, referencing and plagiarism – Proper and accurate citations and referencing should be indicated for all materials and works attributable to other sources. Clearly identify and cite (according to academic conventions) any borrowed numbers, ideas, or material and document all source material. Self-plagiarized reports shall not be admissible.

ENERGY EFFICIENCY TRADING SCHEME

Trading scheme

Guidelines for determination of tradable credits

SIXTH SCHEDULE

INFORMATION AND DOCUMENTATION TO ACCOMPANY APPLICATIONS FOR ENERGY SAVINGS CERTIFICATE

- (i) An energy management policy approved by the authority.
- (ii) Records of data relating to energy consumption as in regulation 6 for a period of 5 years prior to the application for energy saving certificate.
- (iii) Letter of appointment for facility energy manager.
- (iv) Latest/current energy audit report approved by the Authority.
- (v) Energy investment plan with proof of receipt from the Authority.
- (vi) Annual reports on the implementation of the energy investment plan.
- (vii) Report from an accredited energy manager or energy auditor, that includes proof that the applicant's energy performance indicators are equal or better than the prescribed benchmark indices as set out in regulation 12.
- (viii) Any other information that the Authority may from time to time prescribe.

SEVENTH SCHEDULE

QUALIFICATION AND EXPERIENCE FOR ACCREDITATION

Part I: Energy Auditor – Minimum Academic Qualifications and Professional Experience

To be accredited as an Energy Auditor an applicant must have a minimum of the following combinations of academic and professional qualifications, and experience.

Qualification/ experience	Minimum requirement
Academic (Education)	A Bachelor of Science or Technology or Engineering degree or Higher National Diploma in Electrical, Mechanical, Chemical, Mechatronic, or Energy Engineering or any other relevant degree from a recognized University. The relevant degree must have course units in thermodynamics, fluid mechanics, electrical machines and circuits and network theory.
Professional or post graduate	Have a relevant energy management certification from a body recognised by the Authority or Post Graduate Diploma in Energy Management or Master of Science degree in Energy Management from a recognised University.
Experience	Have conducted at least five (5) energy audits under the supervision of an accredited auditor that are NOT walk-through audits.

Part II: Categories of Energy Auditor Accreditation

(a) Category EAMV Auditor

A holder of a category EAMV auditor accreditation certificate shall be authorized to conduct audits, and develop, design, and build or implement energy conservation projects of all facilities designated by the Authority.

An applicant for a category EAMV auditor accreditation certificate shall be required to have:

- (i) Met all the qualifications in Part I of the Seventh Schedule;
 - (ii) Have certification in measurement and verification from a body recognized by the Authority;
 - (iii) Conducted at least five (5) energy audits, two (2) of which must have been of facilities designated as high energy users as specified in these regulations, and;
 - (iv) Carried out measurement and verification of at least one energy conservation project.
- (b) Category EA1 Auditor

A holder of a category EA1 auditor accreditation certificate shall be authorized to conduct audits of all facilities designated by the Authority.

An applicant for a category EA1 auditor accreditation certificate shall be required to have:

- (i) Met all the qualifications in Part I of the Seventh Schedule and;
 - (ii) Conducted at least five (5) energy audits, two (2) of which must have been of facilities designated as high energy users as specified in these regulations.
- (c) Category EA2 Auditor

A holder of a category EA2 auditor accreditation certificate shall be authorized to conduct audits of designated facilities classified by the Authority as medium energy users.

An applicant for a category EA2 auditor accreditation certificate shall be required to have:

- (i) Met all the qualifications in Part I of the Seventh Schedule and;
- (ii) Conducted at least five (5) energy audits, two (2) of which must have been industrial facilities.

Part III: Energy Manager –Minimum Academic Qualifications and Professional Experience

To be accredited as an Energy Manager an applicant must have:

- (a) A minimum of any one of the following qualifications.

<i>Qualification</i>
Bachelor's degree or Higher National Diploma or Diploma in Engineering, Physical Sciences or any related field and energy management certification from a recognised institution OR
An accredited energy auditor

- (b) Attended trainings by recognised trainers in at least two of the following aspects: financial engineering, energy management, project management, measurement & verification, appliances energy efficiency, and report writing.

Accreditee	Application fees (KSh.)	Accreditation fees (KSh.)	Renewal fees (KSh.)	Replacement fees (KSh.)
Energy Auditor Category EAMV	1,000	2,500	2,000	500
Energy Auditor Category EA1	750	2,000	1,500	500
Energy Auditor Category EA2	500	1,500	1,000	500
Energy Manager	250	1,000	750	500

2. To be accredited as an energy audit firm or energy service company, the following fees shall apply:

Accreditee	Application fees (KSh.)	Accreditation fees (KSh.)	Renewal fees (KSh.)	Replacement fees (KSh.)
Energy Audit Firm Category EAF1	750	2,000	1,500	1,000
Energy Audit Firm Category EAF2	500	1,500	1,000	1,000
Energy Service Company	1,000	3,000	2,500	1,000

TENTH SCHEDULE – ENERGY SERVICE CONTRACTS

Energy Service Contracts shall at least have:

1. Client Details

- Physical address
- Postal address
- Email address
- Phone Number

2. Details of the Energy Service Company

- Physical address
- Postal address
- Email address
- Phone Number

3. Terms of the contract

- Scope of the work;
 - Setting of energy measurement baseline
 - Energy baseline period
 - Measurement and verification protocol to be applied (*how to measure energy and financial savings*)
 - Target savings
 - Mode of payment:
 - Whether profits sharing and profit formula
 - payment from savings (*state percentage for ESCO and Client*)
 - Payment period (how long will the ESCO earn from the project)
- Dispute Resolution Mechanism
- Exit clause:
 - In this clause the client and the ESCO should state all possible situations that can lead to one party terminating the contract.
 - The exit clause should state the losses likely to be incurred by each party and who will bear the cost.

ELEVENTH SCHEDULE

CONTINUAL PROFESSIONAL DEVELOPMENT

The accreditee shall accumulate a minimum of ten (10) credit points per year and thus, thirty (30) points at the expiry of the accreditation as follows:

- Attending relevant trainings or seminars or workshops; 0.2 credit points per contact hour
- Giving relevant seminar or training or workshop as a resource person; 0.5 credit points per contact hour
- Presenting a paper on a relevant topic at a conference or publishing a paper in a journal; each paper 2 credit points
- Project credit points earned through experience gained from:
 - Conducting energy audits or measurement and verification of energy savings according to the category of accreditation as follows.

Type of audit	Project credit points
Walk-through audit	2
Medium energy consumption facility	5
High energy consumption facility	10

The project credit points shall account for a minimum of 25 points.

TWELFTH SCHEDULE – TRANSITIONAL CLAUSES

(a) All energy auditor and audit firm licenses issued by the Authority under the Energy (Energy Management) Regulations, 2012 shall become invalid on expiry.

(b) Holders of the existing licences shall be transitioned to the new categories under the following conditions:

i) Payment of the renewal fees.

ii) The accreditation categories shall be as follows:

Accreditee	Old Licence Class	New Accreditation Category
Energy Auditor	A	EAMV
	B	EA1
Energy Audit Firm	A	EAF1
	B	ESCO
		EAF2

(c) The Authority may verify the details of energy audits provided before transitioning the applicant to a new category of accreditation.

(d) The Authority may waive the requirement for experience in measurement and verification in the first instance under energy auditor category EAMV.

(e) The fines in regulation 32(1) shall apply for any falsified records.

(f) The application for transition shall be processed within thirty (30) days from the date of application.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF KUTULO/MALBE
WATER PAN AND IRRIGATION SCHEME PROJECT IN
KUTULO SUB COUNTY, MANDERA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Chief Officer, Department of Irrigation, Mandera County Government, is proposing to construct a water pan and Irrigation Scheme Project on a parcel of land located at Kutulo/Malbe Village, Kutulo Sub County, Mandera County. The proposed project will entail construction of 200,000 cubic metres water pan for irrigation of a 1000 acres' land, irrigation installation, intake works at the water pan and farm house, Mandera County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Air Pollution	<ul style="list-style-type: none"> • Prohibit idling of vehicles at site during excavation. • Spraying water on dusty materials/workplace. • Regular maintenance of construction plant and equipment. • Enclosing the site where possible. • Wetting all active construction areas as and when necessary to lay dust. • Appropriately cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of freeboard. • Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction sites; and • Sweep when necessary (with physical sweepers) all paved access roads, parking areas and staging areas at construction sites.

<i>Impact</i>	<i>Proposed Mitigation Measures</i>	<i>Impact</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> The engine size of the construction equipment shall be the minimum practical size. The number of construction equipment operating simultaneously shall be minimized through efficient management practices. Construction equipment shall be maintained in tune per the manufacturers specifications. Vehicle idling time shall be minimized; and Equipment shall be properly tuned and maintained. 		<ul style="list-style-type: none"> Put up simple instructions on how to handle fires, products spills LPG incidents, armed robbery and product contaminations. A fire evacuation plan must be posted in various points of the project site including procedures to take when a fire is reported. All workers must be trained on fire management and fire drills undertaken regularly. A fire assembly point must be identified and labeled accordingly.
Oil and chemical spills	<ul style="list-style-type: none"> Proper storage, handling and disposal of oil and wastes from machinery. Discourage servicing of machinery and vehicles on site except on containment area. 	Visual intrusion	<ul style="list-style-type: none"> Use of commercial bill boards to keep construction activities out of sight from the immediate neighborhood. Expedition of construction as far as is technically viable so as to minimize adverse visual impact. Landscaping and gardening to restore biodiversity and aesthetic property of the project.
Soil Erosion and contamination	<ul style="list-style-type: none"> Remediate contaminated soil. Landscaping. Ensure management of excavation activities. Control activities especially during rainy conditions. Provide soil erosion control and conservation structures where necessary. Proper disposal of excavated loose soil. If contaminated land is identified further investigate and develop a remediation plan. Develop appropriate management and disposal methods for contaminated soils and other materials. Dispose of contaminated soils to authorized facilities on-site or off-site in accordance with disposal permits. Design fuel, oil and chemical storage areas in accordance with Kenyan Standards. If dispersive soils are necessary to be incorporated as construction material, undertake appropriate treatment of the soil first. Undertake appropriate measures required to stabilize the soil moisture content of shrink and swell soils. Manage works during the wet season and erosive rainfall events bearing in mind that mud slips can occur and can be hazardous. Appropriately manage works and avoid increasing the risk of erosion. Manage soils that are at risk of becoming waterlogged. Manage acidic and alkaline soils. Rehabilitate disturbed areas once construction is completed. Develop and implement erosion and sediment control management plan. 	Occupational Health & Safety risks	<ul style="list-style-type: none"> Ensure proper waste collection and disposal. CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED KOROMEY IRRIGATION SCHEME
PROJECT IN KOROMEY VILLAGE, MANDERA EAST SUB
COUNTY, MANDERA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Chief Officer, Department of Irrigation, Mandera County Government, is proposing to construct an Irrigation Scheme Project on a parcel of land located at Koromey Village, Mandera East Sub-County, Mandera County. The proposed project will entail construction of 225 cubic metres masonry tank, drip irrigation installation, intake works at river Daua, access road and flood protection works in Mandera County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Air Pollution	<ul style="list-style-type: none"> • Prohibit idling of vehicles at site during excavation. • Spraying water on dusty materials/workplace. • Regular maintenance of construction plant and equipment.

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> • Enclosing the site where possible • Wetting all active construction areas as and when necessary to lay dust. • Appropriately cover all trucks hauling soil, sand and other loose materials or require all trucks to maintain at least two feet of freeboard. • Pave, apply water when necessary, or apply (non-toxic) soil stabilizers on all unpaved access roads, parking areas and staging areas at construction sites; and • Sweep when necessary (with physical sweepers) all paved access roads, parking areas and staging areas at construction sites. • The engine size of the construction equipment shall be the minimum practical size. • The number of construction equipment operating simultaneously shall be minimized through efficient management practices. • Construction equipment shall be maintained in tune per the manufacturers specifications; • Vehicle idling time shall be minimized; and • Equipment shall be properly tuned and maintained.
Oil and chemical spills	<ul style="list-style-type: none"> • Proper storage, handling and disposal of oil and wastes from machinery. • Discourage servicing of machinery and vehicles on site except on containment area.
Soil Erosion and contamination	<ul style="list-style-type: none"> • Remediate contaminated soil. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated loose soil. • If contaminated land is identified further investigate and develop a remediation plan. • Develop appropriate management and disposal methods for contaminated soils and other materials. • Dispose of contaminated soils to authorized facilities on-site or off-site in accordance with disposal permits. • Design fuel, oil and chemical storage areas in accordance with Kenyan Standards. • If dispersive soils are necessary to be incorporated as construction material, undertake appropriate treatment of the soil first. • Undertake appropriate measures required to stabilize the soil moisture content of shrink and swell soils. • Manage works during the wet season and erosive rainfall events bearing in mind that mud slips can occur and can be hazardous. • Appropriately manage works and avoid increasing the risk of erosion. • Manage soils that are at risk of becoming waterlogged.

<i>Impact</i>	<i>Proposed Mitigation Measures</i>	<i>Impact</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> • Manage acidic and alkaline soils. • Rehabilitate disturbed areas once construction is completed. • Develop and implement erosion and sediment control management plan. 		<ul style="list-style-type: none"> • Where possible encourage the use of environmentally friendly fuels such as lead-free fuels. • Provide adequate parking facilities within the premises. • Prohibit parking of construction vehicles along access road. • Firm to deploy adequate security personnel to guide traffic, parking and movement within the compound. • Install heavy truck turning signs at safe distance along pipeline road (during the construction period for transporting construction materials).
Fire Risks	<ul style="list-style-type: none"> • To enhance health and safety preparedness among workers. • Ensure equipment is in good working condition. • Put up emergency response contracts. • Put up Emergency Response Procedures notification instructions. • Put up simple instructions on how to handle fires, products spills LPG incidents, armed robbery and product contaminations. • A fire evacuation plan must be posted in various points of the project site including procedures to take when a fire is reported. All workers must be trained on fire management and fire drills undertaken regularly. • A fire assembly point must be identified and labeled accordingly. 	Noise and vibrations	<ul style="list-style-type: none"> • Construction activities to be restricted to daytime. • Workers in the vicinity involved in high level noise to wear respective safety and protective gear i.e. earplugs. • Low noise selection of machinery. • Enclose the site. • Use low noise equipment. • Install portable barriers to shield compressors and other small stationary equipment where necessary. • Use of quiet equipment (i.e. equipment designed with noise control elements). • Limit pick-up trucks and other small equipment to a minimum idling time and observe a common sense approach to vehicle use, and encourage workers to shut off vehicle engines whenever possible.
Visual intrusion	<ul style="list-style-type: none"> • Use of commercial bill boards to keep construction activities out of sight from the immediate neighborhood. • Expedition of construction as far as is technically viable so as to minimize adverse visual impact. • Landscaping and gardening to restore biodiversity and aesthetic property of the project. 		<ul style="list-style-type: none"> • Provision of appropriate personnel protective equipment.
Occupational Health & Safety risks	<ul style="list-style-type: none"> • Ensure proper waste collection and disposal. • Provide first AID kit at site. • Sensitize residents/workers on environmental management. • Eliminate breeding of mosquitoes. • Workers should be trained on occupational health and safety and first Aid administration. • Train staff on petroleum product handling. • Sensitize workers on HIV and AIDS. • Encourage residents to maintain high standards of personal cleanliness; Keep the premises and its environment (surroundings) clean always. • Investigate cause of an accident at the workplace and keep record of accidents that occur at the workplace. • Review cause of an accident and develop response, such as variation of OHS plans and strategy or risk awareness to all employees. • Implement controls as stated in the OHS strategy. • Construction activities should be done only during the day. • Place sign posts at strategic point to notify public of the development. • Put speed caution labels to avoid accidents.
