LAKE BOGORIA NATIONAL RESERVE MANAGEMENT PLAN, 2019–2029

IN EXERCISE of the powers conferred by section 44(3) of the Wildlife Conservation and Management Act, 2013, the Cabinet Secretary for Tourism and Wildlife gazettes the Plan in the Schedule hereto.

SCHEDULE

The Lake Bogoria National Reserve Management Plan (hereinafter referred to as "the Plan") defines the principles and strategies that Lake Bogoria National Reserve's stakeholders have designed to address conservation, tourism development and management, community partnership, wildlife security, and operational issues in Lake Bogoria National Reserve and its adjacent areas.

The Plan emphasizes that all activities within the Lake Bogoria National Reserve shall be implemented in accordance with the Plan and the Wildlife Conservation and Management Act, 2013.

The Plan is a dynamic document that shall be subject to periodic reviews, depending on emerging issues and new knowledge.

The Plan addresses threats to Lake Bogoria National Reserve's conservation values through the following management intervention measures—

- (a) implementing the Zoning scheme outlined in the Plan; and
- (b) implementing management actions under the five management programmes.

The Plan's zoning scheme and management programmes are outlined in the following sections:

1. Zoning Scheme

The Lake Bogoria National Reserve zoning scheme provides a dual framework aimed at supporting management of the protected area and the regulation and promotion of multiple land uses across the area. To achieve this, the Reserve and its immediate adjacent area have been divided into seven land use zones (High Use Zone, Low use zone, Wilderness Zone, Restricted Zone, Livestock Grazing Zone, Utility Zone, and Influence Zone) and four management sectors.

2. Management Programmes

The Plan has four management programmes (Ecological Management Programme, Tourism Development and Management Programme, Community Partnership and Outreach Programme, and Protected Area Operations Programme).

2.1 Ecological Management Programme

The purpose of the Ecological Management Programme is to ensure that ecological systems critical to sustenance of the Reserve and its species of conservation concern are understood, restored and conserved. The management objectives that have been designed to achieve the programme purpose focus on improving management of important habitats; protecting forests and river systems in the greater Lake Bogoria National Reserve landscape in collaboration with other stakeholders; and monitoring and understanding ecological trends and threats.

2.2 Tourism Development and Management Programme

The purpose of the Tourism Development and Management Programme is to make the Reserve an outstanding tourist destination offering premium visitor experience and variety while supporting

conservation and local communities. The management objectives that have been designed to achieve this purpose focus on: diversifying the tourism product in the Reserve to give a variety of activities and experiences; improving visitor administration and management; intensifying and modernizing marketing of the Reserve to give its unique features more considerable publicity and tourism value; exploiting and widening investment opportunities area coverage to endear the destination to more people and boost revenue generation; and developing and upgrading tourism-support infrastructures in the Reserve to ease management, visitation and enjoyment.

2.3 Community Partnership and Outreach Programme

The purpose of the Community Partnership and Outreach Programme is to ensure that community support for conservation and participation in conservation-compatible land uses across the greater Lake Bogoria National Reserve landscape is enhanced. The management objectives that have been designed to achieve this purpose focus on: strengthening community communication and collaboration mechanisms; reducing Human-Wildlife Conflict incidences; enhancing community benefits from the Reserve; promoting sustainable conservation-friendly land uses in the greater Lake Bogoria National Reserve landscape; and improving community understanding and awareness of the Reserve.

2.4 Protected Area Operations Management Programme

The purpose of the Protected Area Operations Programme is to ensure that operational systems and structures are effectively and efficiently supporting the achievement of the Reserve's purpose and delivery of its management programmes. The management objectives that have been designed to achieve this purpose focus on: formalizing and strengthening institutional collaborations; improving performance and motivation of Reserve staff; improving infrastructure, transport and communications to support Protected Area management and tourism development; mobilizing resources for effective management; and enhancing security of Lake Bogoria National Reserve.

Increased solid and liquid waste	• Proper disposal of construction waste in designated and approved sites by the Kiambu County Government. • Provision of waste management facilities such as waste bins on designated areas. • Engage the services of NEMA registered waste collectors to dispose the waste at designated areas. • Use of an integrated solid waste management system through a hierarchy of options: source reduction, recycling, composting and reuse. • Channel all effluent to the Effluent Treatment Plant (ETP) on site
Fire outbreaks	• Install firefighting equipment and inspect them regularly. • Provide fire assembly points to account for the occurrence. • Provide emergency numbers at strategic points for the Kiambu County fire brigade. • Adapt effective emergency response plan and sensitize the workforce on the same.
