THE COMPETITION ACT

(No. 12 of 2010)

RETAIL TRADE CODE OF PRACTICE

IT IS notified for general information that the Competition Authority of Kenya has issued the Retail Code of Practice set out in the Schedule for use by all persons undertaking activities under the Act.

PART I—INTERPRETATIONS

Interpretation

(1) In this Code unless the context otherwise requires—

- (a) "Act" means the Competition Act No. 12 of 2010
- (b) "Authority" means the Competition Authority of Kenya established under section 7 of Competition Act.
- (c) "category buyer" means in relation to any individual Supplier, an employee (or employees) within a Retailer's Buying Team, who manages the Primary Category buyer (or Primary Category buyers) for that supplier (or is otherwise at a higher level than the Primary Category buyer within the management structure of the retailer)
- (d) "damage" means Goods which become unfit for sale subsequent to them being delivered to retailers
- (e) "de-list" means to cease to purchase goods for resale from a supplier.
- (f) "Code Compliance Officer" means the person who, from time to time will intervene or oversee the procurement, payment process and supplies returns.
- (g) "good complete supply chain practice" means any compensation or inducement in any form (monetary or otherwise) and includes mutually agreed contractual terms.
- (h) "Head of Purchasing" means, in relation to any individual supplier, the employee or employees within a retailer's Buying Team who are responsible for overseeing from time to time for the day-to-day buying functions of the retailer in respect of that individual supplier
- (i) "joint business plan" means an agreement defining agreed terms of a certain agreed time for as far as product volumes, rebates, agreed share of shelf positioning and payment movement of goods by both parties for business growth and development and supply chain efficiency.
- (j) "purchase department" means those employees of a retailer whose role from time to time includes at least one of the following: direct involvement in buying goods for resale the interpretation and application of the provisions of the Code, the management of any or all of those employees described above provided that it does not include the Code Compliance Officer who shall be nominated from the retailer's marketing department as non-interested party in the procurement process.
- (k) "promotion" means any offer for sale through a mutually agreed mechanism, whether or not accompanied by some other benefit to consumers and that is intended to subsist only for a specified period.
- (l) "reasonable notice" means a period of notice, the reasonableness of which will depend on the circumstances of the individual case, including—

- (i) the duration of the Supply Agreement/joint business plan to which the notice relates, or the frequency with which orders are placed by the retailer for relevant goods;
- (ii) the characteristics of the relevant goods including durability, seasonality and external factors affecting their production;
- (iii) the value of any relevant order relative to the turnover of the Supplier in question;
- (iv) the overall impact of the information given in the notice on the business of the supplier, to the extent that this is reasonably foreseeable by the retailer;
- (m) "retailer" means any person carrying on a business in Kenya for actual retail of goods for the retail market as a supermarket, hypermarket or self-selection store.
- (n) "retail trade dispute settlement committee" means the suppliers and retailers Trade Disputes Settlement Committee as established under section 18 of the code.
- (o) "shrinkage" means losses that occur after goods are delivered to a retailer's premises and arise due to theft, damage, internal accounting error, internal loss or any other internal aspect of the retailer's chain.
- (p) "supplier" means any person carrying on (or actively seeking to carry on) a business in the direct supply to any retailer of goods for resale in the Kenyan market, and includes any such person established anywhere in the world.

(2) Compliance with the Code does not exclude any person from, or restrict the application of the Competition Act, No. 12 of 2010, Laws of Kenya which shall be the primary governing law for purposes of this Code.

PART II—FAIR AND ETHICAL DEALING

2. Principle of Fair Dealing

(1) A retailer shall at all times deal with its suppliers fairly and lawfully. Fair and lawful dealing will be understood as requiring the Retailer to conduct its trading relationships with suppliers in good faith, without distinction between formal or informal arrangements, without duress and in recognition of the suppliers' need for certainty as regards the risks and costs of trading, particularly in relation to production, delivery and payment issues.

(2) A retailer may require particular actions on the part of a supplier if the relevant Supplier does not agree, whether or not in response to a request or suggestion from the retailer, to undertake an action in response to ordinary commercial pressures. Ordinary commercial pressures will include but are not limited to external exigencies which affect profitability of a retailer. Where those ordinary commercial pressures are partly or wholly attributable to the retailer, they will only be deemed to be ordinary commercial pressures where they do not constitute or involve duress (including economic duress), are objectively justifiable and transparent and result in similar cases being treated alike. The burden of proof will fall on the Supplier to demonstrate that, on the balance of probabilities, an action was not required by the retailer.

(3) A supplier shall at all times deal with its retailers fairly and lawfully. Fair and lawful dealing will be understood as requiring the supplier to conduct its trading relationships with retailers in good faith, without distinction between formal or informal arrangements, without duress and in recognition of the retailers' need for certainty as regards the risks and costs of trading, particularly in relation to stocking levels cash flow and product movement.

(4) Any signatory to this code shall not engage in unethical practice during listing, that being the process of entering into or renewing agreements for supply of goods for a given period or in the discharge of any of its functions in the code.

(5) Trade confidentialities shared between a supplier and a retailer in the normal line of business, and as articulated in the supplier agreement or Joint Business Plan, shall not be disclosed except upon the lapse of a year from the date they were revealed, or when required under law for purposes for dispute settlement. The only confidential information should be information which is commercially sensitive and/or information whose disclosure would adversely affect the competitive position of a firm.

PART III—VARIATION

3. Variation of Supply Agreements/Joint Business Plans and Terms of supply

(1) Recorded Supply Agreements/Joint Business Plans shall be mandatory in the Supplier Retailer relationship under this code and shall include terms to provide for the following—

- (a) the terms of payment;
- (b) the payment date;
- (c) the interest rate payable on late payment;
- (d) the conditions for termination and variation of the contract with reasonable notice; and
- (e) the mechanism for the resolution of disputes.

(2) Subject to paragraph 3(3), a retailer must not vary any Supply Agreement/Joint Business Plan retrospectively, and must not request or require that a supplier consent to retrospective variations of any Supply Agreement.

(3) A retailer may make an adjustment to terms of supply which have retroactive effect where the relevant Supply Agreement sets out clearly and unambiguously—

- (a) any specific change of circumstances (such circumstances being outside the retailer's control) that will allow for such adjustments to be made; and
- (b) detailed rules that will be used as the basis for calculating the adjustment to the terms of supply.

(4) If a retailer has the right to vary a Supply Agreement unilaterally (as provided in clause 3(3) above, it must give reasonable notice of any such variation to the supplier.

(5) Suppliers shall communicate to the retailer on any anticipated shortages and supply constraints on confirmed and/or agreed orders in accordance to the performance terms as stipulated in the supply agreement and or joint business plan.

(6) In the event that a supplier has not communicated possible shortfall to the retailer, any unfulfilled supply case fills, without reasonable justifications as agreed in the Supply Agreement or Joint Business Plan, shall attract reasonable loss claim. The value of the loss claim shall be agreed by both parties.

4. Changes to Supply Chain Procedures

(1) A Retailer must not directly or indirectly require a Supplier to change significantly any aspect of its supply chain procedures during the period of a supply Agreement or Joint Business Plan, unless that retailer gives reasonable notice period agreed by both parties, of such change to that supplier in writing. In event that the retailer does not give reasonable notice, such changes shall attract reasonable loss claim agreed by both parties

PART IV—PRICES AND PAYMENTS

5. No Delay in Payments

(1) A retailer shall pay a supplier for goods delivered to that retailer's specification in accordance with the relevant supply Agreement or Joint Business Plan. Any anomalies in the documents should be notified to the supplier within 7 days and action for the same should be resolved within the following 7 days by the supplier.

(2) In the case of deliveries of fresh and perishable goods, anomalies in documents should be notified within 24 hours or at the earliest possible opportunity and action for the same should be resolved within the following 7 days by the supplier.

(3) A retailer shall pay any undisputed amount in the Statement of Account after the clarifications, in accordance to the terms stipulated in the Supply Agreement or Joint Business Plan as issues of any disputed amounts are being sorted out between the supplier and the retailer.

(4) Disputed invoices should be settled within 30 calendar days from date of statement once amicably agreed by both parties.

(5) Disputes arising as a result of delayed payments or dispute claims shall be handled by the Retail Trade Dispute Settlement Committee established under section 18 of this code.

(6) A retailer shall pay interest for delayed payments. The interest rate payable shall be agreed by the retailer and supplier in their Joint Business Plan or Supplier Agreement.

6. No Obligation to Contribute to Marketing Costs

(1) Unless otherwise provided for in the relevant supply Agreement or Joint Business Plan or mutually agreed between the retailer and the supplier, a retailer must not, directly or indirectly, require a supplier to make any payment towards that retailer's costs of—

- (a) category buyer visits to new or prospective suppliers;
- (b) artwork or packaging design;
- (c) consumer or market research;
- (d) the opening or refurbishing of a store or;
- (e) hospitality for that retailer's staff; and
- (f) listing a product.

(1) A supply Agreement must not include provisions under which a supplier makes payments to a retailer as compensation for shrinkage unless otherwise proved that the supplier was negligent.

(2) Supplier should assist retailer in training in product knowledge and handling to reduce shrinkage.

(3) Any wrong and non-conforming barcoding will be resolved as per the Supply Agreement and or Joint Business Plan.

(4) Any wrong and non-conforming barcoding will result in a penalty to the supplier as agreed in the supply and or Joint Business Plan (JBP).

8. Payments for Damage

(1) Damages are inevitable as part of retail trade

(2) A retailer must not directly or indirectly require a supplier to make any payment to cover any damages of that supplier's goods incurred at that retailer's stores unless—

- (a) such damages are due to the negligence or default of that supplier, and the relevant supply Agreement/JBP sets out expressly and unambiguously what will constitute negligence or default on the part of the supplier; or
- (b) the basis of such Payment is set out in the Supply Agreement/JBP where the agreement is applicable an agreed percentage shall suffice and anything over and above shall be borne by the retailer.

9. Limited Circumstances for Payments as a Condition of Being a supplier

(1) A retailer must not directly or indirectly require a supplier to make any payment as a condition of stocking or listing that supplier's goods.

(2) Notwithstanding the provisions of paragraph (1) above, payment may be required if it—

- (a) is made in relation to a promotion; or
- (b) is made in respect of goods which have not been stocked, displayed or listed by that retailer during the preceding 365 days in 25 per cent or more of its stores, and reflects a reasonable estimate by that retailer of the risk run by that retailer in stocking, displaying or listing such new products.

10. Compensation for Forecasting Errors

(1) A retailer shall fully compensate a supplier for any cost incurred by that supplier as a result of any written forecasting error in relation to products attributable to that retailer unless—

- (a) The retailer has prepared those forecasts in good faith and with due care, and following consultation with the supplier; or

(b) The supply Agreement/JBP includes an express and unambiguous provision that full compensation is not appropriate.

(2) A retailer must ensure that the basis on which it prepares any forecast has been communicated to the supplier.

11. Payments for Better Positioning of Goods

(1) A retailer must not directly or indirectly require a supplier to make any Payment in order to secure better positioning or an increase in the allocation of shelf space for any goods of that supplier within a store unless such payment is made in relation to a promotion.

12. Promotions

(1) Where a retailer directly or indirectly requires any payment from a supplier in support of a promotion of one of that supplier's products, a retailer must only hold that promotion after reasonable notice has been given to that supplier in writing. For the avoidance of doubt, a retailer must not require or request a supplier to participate in a promotion where this would entail a retrospective variation to the Supply Agreement/JBP.

(2) Where a retailer wishes to do an internal promotion, the retailer shall give reasonable prior notice to the supplier of the promotion, allowing the supplier the chance to either decline or accept to participate in the promotion if it has not been taken care of in the Supply Agreement/JBP.

(3) The payments for promotions shall be as mutually agreed between the suppliers and retailers.

13. Due Care to be Taken when Ordering for Promotions

(1) A retailer must take all due care to ensure that when ordering goods from a supplier at a promotional wholesale price, not to over-order.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MINING OF TITANIUM MINERALS
WITHIN NYARI SUB- LOCATION, SOKOKE LOCATION,
GANZE WARD IN GANZE SUB-COUNTY, KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003,

the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Valencia Mining Company Limited proposes to carry out mining for Titanium Minerals in Nyari Sub- location, Sokoke Location, Ganze Sub- County in Kilifi County.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Mitigation Measures
Impact on natural resources/Loss of terrestrial vegetation and land degradation and soil erosion	- Control erosion by lowering slopes, minimizing un-vegetated areas and installing cut-off drains, exit drains to direct water from the site and reduce flow velocities, and by sediment traps to minimize sediment discharge from the site. - Re-vegetate all disturbed area around the site with fast growing grasses and native species and vegetation to prevent soil erosion. - Provide measures for long-term run-off and erosion control, harness runoff for process water. - Provide for a buffer zone between the site, road and homesteads. - Limit/avoid impact to terrestrial and aquatic biodiversity. - Compliance to Forest Conservation and Management Act and the Wildlife Conservation and Management Act, Water Act, 2016 and related regulations. - Implement the progressive rehabilitation plans as guided by the Kilifi County Environment Committee and NEMA. - Landscaping to leave a final landform visually compatible with the surrounding Natural landscapes.
Air pollution	- Minimize dust through strict enforcement of onsite speed controls. - Ensure that access road to the site is sprinkled with water regularly. - All workers should be provided with adequate PPEs. - All trucks and machinery should be in good serviceable condition. - Design and maintain safe systems of work and pollution prevention measures. - Comply with provisions of Air quality Regulations (2014) and Public Health Act.
Public health and occupational health and safety impacts;	- Implement a Health, Safety and Environmental (HSE) Management Plan and Policy. - Ensure strict compliance to OSHA 2007, Public Health Act and WIBA provisions. - Carry out pre-employment health check and monitoring for all workers. - Workers must wear PPE when handling hazardous substances and have fire safety compliance. - Implement procedure for reporting incidents, accidents and dangerous occurrences. - Install Site safety awareness and signage, employ safe systems of work. - Design and display on-site emergency preparedness and evacuation procedures. - Restrict un-necessary access of public to the mine site in order to avoid accidents.

<i>Impact</i>	<i>Mitigation Measures</i>	<i>Impact</i>	<i>Mitigation Measures</i>
	- All access to the hazardous areas should be secured with a fence and warning notices. - Practice good site management and avoid steep cliffs in the sections adjacent to the public road and residential premises. - Provide a buffer zone adjacent to the neighboring residential premise and the roads. - Carry out risk mapping for all trades and have permit to work for hazardous work. - Leave the decommissioned sites in a condition that ensures the safety of the public. - Comply to the recommendations on task force of mining and quarrying regarding all operations and guidelines issued from time to time by lead agencies. - Comply with the recommendations of the County Environment Committee.		- visitors of areas with high noise levels. - Machines which vibrate should be mounted on heavy, rigid bases to prevent vibrations. - Comply to Noise and Excessive Vibrations Pollution (Control) Regulations, 2009 and Occupational Safety and Health Act, 2007 provisions/rules.
Water pollution and degradation and associated ground water contamination	- Ensure no modifications of water courses occur in the mining area. - No hazardous materials should be stockpiled within area prone to surface/ground water contamination. - Hazardous materials should be stored above flood level and should be at least 40 meters from any water body or sensitive sites. - Water containing hazardous pollutants as fuel should be discharged into conservancy tank for removal from site by licensed hazardous waste handlers. - Comply to the provisions of Water Quality Regulations (2006) as regards waste water management and the Water Act, 2016 and the Public Health Act.	Increased traffic and associated impacts and nuisances	- Restrict unauthorized entry of vehicles and undue parking inside the site and restrict unauthorized parking of the vehicles along the access road and on the slopes. - Provide warning signals and speed limit indicators to vehicles moving inside the site. - Ensure all vehicles used for the project are in good working condition, road worthiness both legally and commensurate to their intended use. - Take all precaution to safe guard the safety of motorized traffic and none motorized traffic.
Generation of waste water from process water used in mineral processing	- Plant should be equipped with latest pollution control technologies. - Put in place efficient storm water and waste water management infrastructure. - Hazardous materials waste be managed by licensed handlers. - All fuels and oil should be stored appropriately. - Prevent spills and collect and dispose spillages appropriately as per spill containment procedures. - Install a reticulation system to recycle process water. - Sanitary waste water should be disposed as per Water Quality Regulations (2006).	Solid waste generation	Compliance to Waste Management Regulations, 2006 and provisions issued by the Country Government of Kilifi on solid waste management.
Noise and excessive vibrations	- Provide workers with appropriate PPEs such as earplugs and earmuffs. - Minimize noise and vibration in the project site and surrounding areas. - Ensure machineries are kept in good working condition. - Conduct audiometric test for workers, risk assessment, health and safety audit. - Use of natural dampers to attenuate noise. - Use safe (quiet equipment i.e. equipment designed with noise control elements). - Noise should be checked by occasional maintenance of the plant. - Provide clear signage warning employees and	Social impacts	- Compliance to provisions of Public Health Act. - Create awareness on STIs among workers and area residents and ensure regular health and medical camps are carried out. - Provide equal opportunities for all without discrimination and respect local culture. - Create awareness on drugs and substance abuse. - Avoid physical and economic displacement or keep them at minimum wherever unavoidable formulate and ensure resettlement action plan implementation. - Have a gender mainstreaming policy at work place. - Have trained security personnel to man the site. - Formulate a community grievances/complaints redress and liaison committee.
		Compaction of roads, tracks and other areas	- Regular Rehabilitation of access roads and tracks. - Highly compacted areas such as loading areas and stockpile pads should have special treatment, such as deep ripping or removal of compacted material, prior to re-spreading of topsoil during rehabilitation/decommissioning.

The full report of the proposed project is available for inspection during working hours at:

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, P.O. Box 30126-00100, Nairobi.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL ASSESSMENT (SEA) REPORT FOR THE
PROPOSED VIPINGO MIXED USE DEVELOPMENT MASTER
PLAN, KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

IN LIGHT of the provisions of section 57 A of the Environmental Management and Coordination Act (EMCA), 1999, regulations 42 and 43 of Environmental (Impact Assessment and Audit) Regulations Legal Notice No. 101 of 2003, the National Environmental Management Authority (NEMA) has received a Draft Strategic Environmental Assessment Report for the Proposed Vipingo Mixed Use Development Master Plan, Kilifi County. The SEA findings are also expected to integrate the existing sectoral plans and programs to establish sustainable economic zone development mechanisms.

Vipingo Development Limited is the PPP owner. The Proposed Vipingo Development Mixed Use Master Plan is to be developed on 10,254 acres of land between Mtwapa and Kilifi Town in Kilifi County. Vipingo Development Limited intends to develop a master plan supported by the following basic facilities: controlled mixed-use development, security, water, power, emergency services, health facilities, education facilities, walkability and parking sustainability and urban management.

The Strategic Environmental Assessment (SEA) objective for the Proposed Vipingo Mixed Use Development Masterplan is to present strategic recommendations that will guide environmental and socio-economic planning during implementation of the Vipingo Mixed Use Masterplan.

Possible impacts	Mitigation Measures
Traffic and transport	Tarmacking all major roads to enhance movement in all-weather and to avoid dust generation.
	- Provision of adequate vehicular circulation space and parking areas. - Adoption of non-motorized transport (NMT) program and facilities including cycling, walking, use of wheelchairs, scooters, hand carts, skates, skateboards amongst others. - Provision of pedestrian walkways along all roads within the development. - Paving all pedestrian walk ways with robust, durable, and non-slippery materials. - Provision of all necessary street furniture along all roads within the development to accommodate users (including the disabled, elderly, and children) and to enhance security. - Provision of bollards in appropriate areas to prevent vehicles from encroaching into the pedestrian domains. - Provision of street lights to provide sufficient light for both pedestrian areas and carriage ways. - Provision of trees along pedestrian walkways for shading and that require minimum maintenance; preferably indigenous for ecological and cultural advantages. - Ensure Installation and maintenance of all construction signs, signals, markings, and other devices used to regulate traffic, including posted speed limits, warnings of sharp turns, or other special road conditions. - Development of a traffic management plan and compliance to Traffic Act, 2014.
Greenhouse gases emissions	- Use of renewable sources of energy. - Retention of green spaces/landscaped spaces as carbon sinks. - Adoption of green buildings technology. - Adoption of efficient transport system. - Continually seek avenues for energy conservation as international best practices evolve. - Annual air quality monitoring. - Ensure compliance of the Environmental Management and Coordination (Air Quality) Regulations, 2014.
Socio- economic concerns	- Maximize the recruitment of locals where possible and have a Labour Management Plan to ensure workers' labour rights including health and safety and are protected. - Develop community awareness programmes to enhance cohesion between project employees and the local community. - Consult with the public and the locals during implementation of proposed developments. - Sensitize sisal workers about the proposed mixed-use development and allow for smooth transition.

Possible impacts	Mitigation Measures
	- Develop and implement a Livelihood Restoration Plan (LRP) for the sisal plantation workers whose career will be affected during execution of the proposed Vipingo Mixed Use Development Master Plan. Develop and implement a grievance redress mechanism (GRM) to address concerns of the locals. - Establish a corporate social responsibility (CSR) plan to support key community needs / facilities such as provision of water access to the community at a subsidized rate including improvement programs to surrounding school's (such as Rea Vipingo and Shauri Moyo). - Develop a policy for local partnerships with NGOs, national and county government agencies such as Kilifi-Mariakani Water and Sewerage Company (KIMAWASCO) on water supply and learning institution such as Kenya Medical Training College (KMTTC). - Ensure public facilities including roads, parks within Vipingo development are aligned with the master plan and protected for accessibility / use by the public.

The full report of the proposed project is available for inspection during working hours at:

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RESIDENTIAL APARTMENTS DEVELOPMENT ON PLOT L.R. NO. 330/511 ALONG ARGWINGS KODHEK ROAD, KILIMANI, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, City Oasis Investment Limited proposes to develop residential apartments comprising three semi-detached 15-storey blocks of apartments with 431No. one bed roomed apartments and 48No. two bed roomed apartments totaling 479No. units, three

basement floors for parking, guard house, protected dustbin cubicles, sewer, and lifts on Plot L.R. No. 330 /511 along Argwings Kodhek Road, Kilimani, and Nairobi City County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>	<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Soil Disturbance	- Control earthworks and compact loose soils. - Ensure the geo-technical survey is conducted before commencement of any excavations. - Install drainage structures properly. - Landscaping on project completion. - Control and manage excavation activities. - Control activities especially during rainy conditions. - Provide soil erosion control and conservation structures/means where necessary. - Ensure standard appropriate practices on the provided gardens.		- composting and reuse, will facilitate waste handling. - Ensure segregation of waste (organic and inorganic) at source. - Provide clearly marked dustbins cubicles to serve the specified use. - Ensure that wastes generated are efficiently managed through recycling, reuse and proper disposal procedures. - Engage services of a registered NEMA waste handler to dispose the waste regularly at approved disposal points.
Increased water demand	- Proper installation of drainage structures commensurate with the new development. - Install cascades to break the impact of water flowing in the drains. - Ensure efficiency of drainage structures through proper design and maintenance. - Provide gratings to the drainage channels.	Oil pollution	- Proper storage, handling and disposal of new oil and used oil wastes as per waste regulations. - Maintain plant and equipment to avoid leaks. - Maintenance of construction vehicles should be carried out in the contractor's yard (off the site). - Provide oil interceptors along the drains leading from car park and potentially oil risk areas.
Liquid waste	- Ensure sanitary facilities are kept clean always through regular cleaning. - Ensure regular maintenance of foul water drainage works at the premises to prevent clogging and fore-stall breakdowns. - Frequent monitoring of the internal drainage system.	Air pollution	- Enclose the site with dust-proof nets during construction. - Water should be sprayed during the construction phase of excavated areas during dry conditions. - Control speed and operation of construction vehicles. - Prohibit idling of vehicles. - Ensure sound condition of construction machinery and equipment - Engage sensitive construction workers.
Increased energy use	- Solar energy will be used as an alternative source of energy. - Use energy efficient appliances such as LED bulbs for lighting. - Switch off electrical appliances when not in use. - Regular maintenance of all the electrical components. - Regular inspection and maintenance of the solar panels.	Water resources	- Management of water usage. Avoid unnecessary wastage. - Recycling of water at the construction phase where possible. Make use of roof catchments to provide water i.e. for general purposes.
Noise pollution	- Erect suitable barriers to control noise. - Sensitize drivers of construction machinery on effects of noise. - Maintain plant equipment (if present). - Construction activities to be restricted to daytime. - Workers in the vicinity of or involved in high-level noise to wear safety and protective gear. - Work to be confined between 8 a.m. and 5 p.m. weekdays and 8 a.m. to 1 p.m. on weekends. There should be no construction works on Sundays.	Public health, occupational health and safety.	- Train staff/workers on occupational health and safety. - Provide full protective gear and workmen's compensation cover in addition to the right tools and operational instructions and manuals during construction. - Adopt sound housekeeping practices. - Sensitize residents on environmental management. - Design of sewerage system should be as provided in the plans. - Post strategically the Occupational Safety and Health Act, 2007 Abstract and provide material safety data sheets. - Post clear warning signs e.g. 'No unauthorized use of machines', ensure there are guards on moving parts etc. - Provide fully equipped First Aid kits and train staff on its use. Ensure adherence with the legal requirements -OSH Act, 2007.
Solid waste	Use of an integrated solid waste management system through a hierarchy of options: source reduction, recycling,	Fire safety and	Install firefighting equipment as provided

preparedness	elsewhere in the report. Conduct training on firefighting, evacuation and emergency response - Sensitize the residents on fire risks i.e. conduct regular fire drills. - Adapt effective emergency response plan. - Maintain service firefighting machinery regularly. - Provide emergency numbers at strategic points.
Record keeping	Collection and analysis of relevant environmental data of the site throughout the project cycle.

GAZETTE NOTICE No. 5745

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED HOSPITAL DEVELOPMENT ON PLOT L.R. NO. BUTSOTSO/SHIKOTI/18683 LOCATED IN EMUHAHONDO VILLAGE, LURAMBI SUB-LOCATION, KAKAMEGA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenneth Odongo Alwora proposes to establish a private hospital and its associated facilities with a main objective of providing modern health/medical services that is secure, comfortable and meets the required competitive standards on plot L.R. No. Butsotso/Shikoti/18683 in Emuhondo Village, Lurambi Sub-location, Kakamega County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Mitigation measures
Increased storm water, runoff and soil erosion	- Surface runoff and roof water shall be harvested and stored in underground reservoir for reuse. - A storm water management plan that

minimizes impervious area infiltration by use of recharge areas and use of detention and/or retention with graduated outlet control structure will be designed.	
Increased solid waste generation	- Use of an integrated solid waste management system i.e. through a hierarchy of options: 1. Source reduction 2. Recycling 3. Composting and reuse 4. Combustion 5. Sanitary land filling. - Through accurate estimation of the sizes and quantities of materials required, order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials. - Ensure that damaged or wasted construction materials including cabinets, doors, plumbing and lighting fixtures, marbles and glass will be recovered for refurbishing and use in other projects. - Donate recyclable/reusable or residual materials to local community groups, institutions and individual local residents or home owners. - Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time. - Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements. - Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste.
Dust emission	- Ensure strict enforcement of on-site speed limit regulations. - Avoid excavation works in extremely dry weathers. - Sprinkle water on graded access routes when necessary to reduce dust generation by construction vehicles. - Personal Protective equipment to be worn. - Construction materials on site to be covered to prevent to be blown off by wind.
Exhaust emission	- Vehicle idling time shall be minimized. - Alternatively fueled construction equipment shall be used where feasible equipment shall be properly tuned and maintained. - Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points.
Noise and vibration	- Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used. - Sensitize construction drivers to avoid gunning of vehicle engines or unnecessary hooting especially when passing through sensitive areas such as churches, residential areas and schools. - Ensure that construction machinery are kept in good condition to reduce noise generation. - Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels.

Increased energy consumption	The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work.	Sensitize occupants to use energy efficiently.
High water demand	- Ensure electrical equipment, appliances and lights are switched off when not being used. - Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy.	- Promptly detect and repair water pipe and tank leaks. - Management to conserve water e.g. by avoiding unnecessary toilet flushing. - Ensure taps are not running when not in use.
Minimize occupational health and safety risks	- Promptly detect and repair of water pipe and tank leaks. - Ensure taps are not running when not in use. - Install a discharge meter at water outlets to determine and monitor total water usage. - Proper recycling of water from other uses for sprinkling dusty pavements.	- Install water conserving taps that turn-off automatically when water is not being used. - Install a discharge meter at water outlets to determine and monitor total water usage.
Personal Protective Gear (PPG)	- Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises. - Construction of a perimeter wall around the project area.	Implement all necessary measures to ensure health and safety of the workers and the general public during operation of the hospital facility as stipulated in OSHA, 2007.
Health and safety impacts	Suitable overalls, safety footwear, dust masks, gas masks, respirators, gloves, ear protection equipment etc should be made available and construction personnel must be trained to use the equipment.	Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises.
Fire protection	Implement all necessary measures to ensure health and safety of workers and the general public during operation of the housing project as stipulated in OSHA, 2007.	Chemical disinfection; Wet thermal treatment; Microwave irradiation; Safe burial on hospital premises; Sanitary landfill; Incineration (Rotary kiln; pyrolytic incinerator; single-chamber incinerator; drum or brick incinerator).
Sewage disposal	- Firefighting equipment such as fire extinguishers should be provided at strategic locations such as stores and construction areas. - Regular inspection and servicing of the equipment must be undertaken by a reputable service provider and records of such inspections maintained. - Fire escape routes and assembly point to be marked. - Signs such as "NO SMOKING" must be prominently displayed within the premises, especially in parts where inflammable materials are stored.	Chemical disinfection; Wet thermal treatment; Microwave irradiation; Encapsulation; Safe burial on hospital premises; Incineration (Rotary kiln; pyrolytic incinerator; single-chamber incinerator; drum or brick incinerator).
Energy resource utilization	- Provide adequate and safe means of handling sewage generated at the facility i.e. septic tanks. - Conduct regular inspections for drainage pipe blockages or damages and fix appropriately. - Ensure regular monitoring of the sewage discharged from the project to ensure that the stipulated sewage/effluent discharge rules and standards are not violated.	Sanitary landfill; Encapsulation; Discharge to sewer; Return expired drugs to supplier; Incineration (Rotary kiln; pyrolytic incinerator); Safe burial on hospital premises as a last resort.
Water consumption	- Switch off electrical equipment, appliances and lights when not being used. - Install occupation sensing lighting at various locations such as storage areas which are not in use all the time. - Install energy saving fluorescent tubes at all lighting points within the facility rooms instead of bulbs which consume higher electric energy. - Monitor energy use during the operation of the project and set targets for efficient energy use.	Return expired drugs to supplier; Chemical degradation; Encapsulation; Inertization; Incineration (Rotary kiln, pyrolytic incinerator).
Minimization of health and safety impacts	Return unused chemicals to supplier; Encapsulation; Safe burial on hospital premises; Incineration (Pyrolytic incinerator; facility will have permits for disposal of general chemical waste (e.g. sugars, amino acids, salts) to sewer systems.	Radioactive waste should be managed according to national requirements and current guidelines from the International Atomic Energy Agency. IAEA (2003). Management of Waste from the Use of Radioactive Materials in Medicine, Industry and Research. IAEA Draft. Safety Guide DS 160, 7 February 2003.
General safety and security	Safe storage site designed for final disposal of hazardous waste. Waste should not be burned, incinerated, or landfilled. Transport to specialized facilities for metal recovery.	Halogenated plastics such as PVC should be separated from general health care facility waste to avoid disposal through incineration and associated hazardous air emissions from exhaust gases (e.g. hydrochloric acids and dioxins). Disposal as part of domestic waste. Food waste should be segregated and composted. Component wastes (e.g. paper, cardboard, recyclable plastics [PET, PE, PP], glass) should be segregated and sent for recycling where available.
Infectious wastes		
Sharps		
Pharmaceutical waste		
Genotoxic / cytotoxic waste		
Chemical waste		
Radioactive waste		
High content of heavy metals waste		
General healthcare waste

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
