INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Bus Rapid Transport (BRT) project is located in the North-East of Nairobi. It is the first stage of a BRT network and serves a 12.4 km long corridor referred to as BRT Core Line 3. It starts from Kenyatta Hospital progresses down Haile Selassie Avenue to the Central Business District (CBD), continues on Race Course Road to Ring Road Ngara to Juja Road and then onto the end at Dandora. The project comprises 10 main components. These are bus running ways, bus stations, bus depot, station access supporting infrastructure including pedestrian bridges where needed, fare collection and validation systems, bus fleet (110-articulated buses), interchange stations for feeder bus services, Park & Ride facilities, a BRT control room, and a real time passenger information system. The project concept integrates road traffic management with the needs of non-motorized transport modes (NMT) and a full integration of the BRT into the streetscape and urban living environment, including new pedestrian walkways and crossings, cycle lanes, parking spaces and green spaces.

The following are the anticipated impacts and proposed mitigation measures:

Potential Impacts	Mitigation Measures
Risk of road traffic accidents during construction phase	- The Contractor will prepare a Traffic Management Plan, including deploying banksmen at all active construction sites to manage flow of vehicles. - Issue notices/advisories of pending traffic inconveniences and solicit tolerance by local residents before the commencement of construction works. - Erect appropriate traffic warning signs informing road users of ongoing construction activities, speed limit signs instructing drivers to reduce speed, and, diversion signs will be placed along the road sections used for the BRT construction. - As far as possible, transport of construction materials will be scheduled for off-peak traffic hours. This will reduce the risk of traffic

Potential Impacts

Mitigation Measures

	- congestion and possible accidents on the road sections. - Proper planning with regards to transportation of construction materials as per vehicle load specifications in order to reduce the number of trips per hauling vehicle. This will help to reduce potential accidents significantly. - Erection of signs ahead of the works warning motorists of the heavy/construction units entering the road sections along the Right of Way
Deterioration of ambient air quality	- The Project RoW road, material haul/access roads and diversion roads across settlements and active construction sites will be sprayed with water at least twice a day to suppress dust from material hauling vehicles. - Haulage materials such as marram, sand, and hardcore shall be sprinkled with water and hauling trucks covered with tarpaulin to prevent possible dust emissions. - Engines of machineries, vehicles and equipment will remain switched off when not in use to minimize the concentration of exhaust fumes. - The Contractor shall properly tune engines of equipment to ensure complete combustion of fuel and so minimize exhaust fumes. - The Contractor shall provide workers with dust masks and ensure that they are used properly at all times while on site. - Stockpiles of fine materials (e.g., sand and concrete) must be wetted or covered with tarpaulin during windy conditions. - Regular inspection and maintenance of construction equipment. - Solid waste generated during the course of implementing the Project will be collected and disposed of to NEMA approved dumping site by a duly registered waste handler as opposed to open burning. - The Contractor must comply to the requirements of EMC (Air Quality) Regulations, 2014. - The Contractor/Proponent are advised to undertake an air quality assessment and apply for an air quality permit before commencing the Project.
Potential displacement and loss of properties	- All the Project Affected Persons (PAPs) to be affected by the proposed BRT Project MUST be informed of the Project activities in advance. - All PAPs identified during the social economic and census survey will be fairly compensated at full replacement cost. - The vulnerable PAPs such as People Living With Disabilities (PLWD), and elderly should be granted resettlement assistance.
Generation of solid waste	A Waste Management Plan will be prepared by the Contractor for the construction and post-construction (demobilization) phases of the Project.

Potential Impacts	Mitigation Measures	Potential Impacts	Mitigation Measures
	- Special attention will be given to minimizing and reducing the quantities of solid waste produced during site preparation/ clearance, excavation and construction activities. This will be achieved by reusing existing materials to prevent further extraction. - Solid waste generated during the course of implementing the Project will be collected and disposed of to NEMA approved dumping site by a duly registered waste handler as opposed to open burning. - Reusable inorganic waste (e.g., excavated sand/soils) will be stockpiled away from drainage features and used for in filling where necessary. - Skips and bins will be strategically placed within the campsite and emptied regularly. The skips and bins at the campsite should be adequately designed and covered to prevent access by vermin and minimize odour. - Construction waste to be managed in accordance with national standards. Hazardous waste such as spent transformer oil should be collected/disposed through an authorized dealer. - The Contractor is expected to comply with the requirements of EMC (Waste Management) Regulations, 2006.		Consumers to be informed prior to any interruption to services.
Potential oil spills and other hazardous wastes	- All used oil and oil containers must be disposed in an enclosed metal container - Vehicle inspection and engine maintenance should be conducted on concrete slab surfaces to prevent potential oil leakage in cases of spills. - Oil spills must be cleaned immediately. This can be achieved by applying sawdust powered on oil spill surfaces to absorb the spills. The contaminated saw dust must be disposed of appropriately. - The Contractor to develop hazardous waste tracking form which must be regularly updated. - Secondary containment measures in areas where fuels, oils, lubricants and construction materials such as cement are stored and loaded or unloaded, including fuelling points should be installed.	Occupational Health and Safety Hazards - workers	- Formulation and implementation of safety policy for the proposed Project. - The Contractors must employ full time health and safety officer to manage all the accidents and safety concerns on site. - Advise workers and visitors to take precautions not to cause any effect on their own health or to the health of other persons. - Machines and equipment should only be operated by duly trained and qualified personnel. - Erect appropriate signs on construction sites to warn workers of safety requirements as regards to machines with moving parts and other equipment at site. - Provide fully furnished First Aid Box and have a trained person to handle site emergencies and incidences. - Display in the campsite telephone numbers of first aiders, HSE officer and ambulances or provide a site vehicle to specifically transport the injured to hospital. - Provide fire-fighting equipment at the campsite. Display emergency call numbers that can be used in case of a site fire. - Provide washing (enclosed bathroom) and toilet facilities at site with both drinking and washing water. The number of workers engaged determines the number of the toilets and bathrooms provided. These facilities should be adequate and fit for use for all genders both at the campsite and along the construction site. - Ensure the Project areas are marked and appropriate signage used to warn the public of the ongoing Project. - Enforcing adherence to safety procedures and preparing contingency plan for accident response. - The Contractor will on a timely basis provide all employees with basic safety and protective gears (PPEs) such as hard helmet, hard gloves, goggles, overalls, and steel capped safety shoes. Worn out PPEs will be replaced promptly.
Waste water generation	- Design and install a septic tank system for human sanitary purposes at the campsite. - Undertake regular water quality testing in NEMA accredited laboratories. - Avoiding alignments that are susceptible to erosion, such as those along or crossing steep slopes. - Preventive measures for runoff, erosion and sediment control.		- All machinery used on site must be properly maintained, regularly serviced and inspected before use. - Place warning signs for hazardous or flammable substances and ensure chemicals are stored safely and Material Safety Data Sheets are made available educating workers on the same. - Excellent housekeeping standards should be maintained on site and at construction stores.
Disruption of public utilities	- A Utility Management Plan will be prepared by the Contractor and implemented prior to the construction phase. - The Proponent to consult the service providers in case of any relocation exercise.		Ensure that provision for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the Directorate of Occupational Health and Safety Services (DOSHS) are in place.

<i>Potential Impacts</i>	<i>Mitigation Measures</i>
Occupational Health and Safety Hazards – General Public	• Implement precautions to ensure that objects (e.g., equipment, tool, debris, precast sections, etc.) do not fall onto or hit people, vehicles and properties in adjoining areas. • Fencing of construction sites and regular patrols to restrict public access. • Prior to excavation work, barricade areas to be excavated. • Strictly impose speed limits along residential areas and where other sensitive receptors are located. • Educate drivers on safe driving practices to minimize potential accidents. • An Emergency Preparedness and Response Program must be prepared by the Contractor and must include an identification of areas where accidents and emergency situations may occur, communities and individuals that may be affected, response procedures, provision of equipment and resources, designation of responsibilities, communication, including that of potentially affected communities and periodic training to ensure an effective response. • A Security Personnel Program must be prepared by the Contractor to manage and control potential security risks. • Contractor to develop a Waste Management Plan. • Hazardous Substances Management Program.
Spread of HIV/AIDS and CoVID-19	• Develop HIV/AIDS awareness programmes or initiatives to target the construction workers, institutional communities and the general members of the community, particularly the youths; with the objective of reducing the risks of exposure and the spread of HIV virus in the Project area. • Develop appropriate training and awareness materials for Information, Education and Communication on HIV/AIDS. • Develop an intervention strategy compatible with the construction programme to address success of the HIV/AIDS prevention and provide peer educators for sustainability in collaboration with other stakeholders. • Integrate monitoring of HIV/AIDS preventive activities as part of the construction supervision. Basic knowledge, attitude and practices are among the parameters to be monitored, and particularly on provision of condoms, status testing and use of Antiretroviral (ARVs). • Provide Covid -19 mitigation and control, the Contractor will: Provide adequate hand washing sites and enough sanitizers on site. Provide masks and ensure that social distancing is maintained where possible.
Gender Based Violence (GBV)	• Contractor will prepare a GBV Prevention and Response Plan and ensure its implementation.

<i>Potential Impacts</i>	<i>Mitigation Measures</i>
	• Contractor to prepare and enforce a No Sexual Harassment and Discrimination Policy in accordance with national laws. • Contractor to engage services of local CSOs or sub-contract a contractor to educate all workers and nearby communities and stakeholders on preventing and responding to sexual harassment and GBV ahead of any Project related works. • Display at the noticeboard, emergency numbers and hotlines for prompt reporting GBV and sexual offences cases. • Strategies such as male involvement will be employed in preventing and responding to GBV and sexual harassment. • Establish partnerships with relevant government agencies and NGOs to ensure survivors of GBV and sexual offences access survivor centred services such as medical care, psychosocial support, legal redress, safety, etc, as and when necessary. • Provision of gender disaggregated facilities - separate bathing, changing, sanitation facilities for men and women. • The Contractor to set up an easy to access Grievance Redress Mechanism for the workers and the general public to lodge complaints on GBV cases. • Liaise with the administration units (County and Sub-County Governments, Police, DO, Chiefs, etc.) to provide regular surveillance and patrols to protect workers and unacceptable behavioural interaction of local communities and workers.
Potential damage to public and private properties	• Monitor construction activities to ensure public and private property is not damaged. • The Contractor should obtain an underground utility map from Nairobi County Government to help in locating ground utilities like waterlines, sewer lines, internet cables, etc, in order to minimize destruction of such utilities. • All damaged properties as a result of implementing the Project will be repaired to their initial status before the damage.
Removal and disturbance of flora along ROW and diversion corridors	• Minimize unnecessary clearing of vegetation along the ROW. • Prevent vegetation trampling by restricting access. • Only clear areas marked for construction activities. • Proponent to develop tree planting programme to replant all trees cut.

The full report of the proposed project is available for inspection during working hours at:

- (a) The Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, P.O. BOX: 30126-00100, Nairobi.

THE NATIONAL GOVERNMENT
(THROUGH)
THE MINISTRY OF DEVOLUTION AND THE ASALS
AND
THE NAIROBI CITY COUNTY GOVERNMENT

FURTHER ADDENDUM TO THE DEED OF TRANSFER OF FUNCTIONS
AGREEMENT

THIS further addendum to the deed of transfer is made on this 8th day of March two thousand and twenty two.

- (i) The National Government of the Republic of Kenya Through the Ministry of Devolution and The Asals (The "The National Government") On The First Part; and,
- (ii) The Nairobi City County Government, ("The County Government") whose Registered Office is at City Hall, off City Hall Way, Nairobi on the other part.

(Each a "party" and together the "parties")

RECITALS AND DECLARATION OF COMMON INTENT

WHEREAS, the parties executed the Deed of Transfer of Functions Agreement from the Nairobi City County Government to the National government (the Deed) on 25th February 2020;

WHEREAS, Article 9.1 of the Deed provides that the Deed shall become effective twenty-one (21) days from the date of execution and remain in force for an initial renewable period of twenty-four (24) months from the date of execution;

WHEREAS, the Deed has been subjected to public participation as contemplated in Article 10.1 thereof;

WHEREAS, Article 10.2 of the Deed provides, inter alia, that the Deed, together with any amendments as may be necessitated by public participation, constitute the entire Agreement between the parties;

WHEREAS the Report recommended the extension of the term of the Deed of Transfer Agreement between the Nairobi City County Government and the National Government;

WHEREAS, Article 10.3 of the Deed provides, inter alia, that no variation or addition thereto and no waiver of any provision thereof shall be valid unless in writing signed by a duly authorized officer of both of the parties;

WHEREAS the parties seek to foster effectiveness and secure continuity in the delivery of service for public good;

NOW THEREFORE, having regard to the foregoing and having considered the views and comments collated during the public participation exercise, the parties enter into this Further Addendum to the Deed of Transfer of the functions and solemnly agree as follows.

ARTICLE 1: DEFINITIONS

- 1.1 The words and expressions used herein bear the same import and meaning as defined in the Deed.
- 1.2 Deed of Transfer of Functions means the Deed of Transfer of Functions Agreement signed between the National Government and the Nairobi City County Government on the 25th February 2020.

ARTICLE 2: APPLICATION OF THE FURTHER ADDENDUM TO THE DEED

- 2.1 This Further Addendum to the Deed supplements and modifies the provisions of the Deed and Addendum to the Deed as further specified herein-below.

ARTICLE 3: DURATION OF THE DEED OF TRANSFER OF FUNCTIONS

- 3.1 Further to Article 9.1 of the Deed of Transfer of Functions, the duration of the transferred functions is extended by a further period of six (6) months from 25th February 2022 to 24th August 2022.
- 3.2 Upon expiry of the Deed of Transfer of Functions as stated herein above, there shall be hand over period of three (3) months to ensure continuous service delivery.

- 3.3 The parties herein shall within seven (7) days of assumption of office of the Governor from a Joint Committee to oversee the handover process.

- 3.4 Save as herein above provided, all other terms and conditions contained in the Deed of Transfer of Functions and the Addendum thereto shall remain the same.

ARTICLE 4: GENERAL

- 4.1 No variation or addition to this Further Addendum to the Deed and no waiver of any provision shall be valid unless by consent of both parties in writing signed by a duly authorized officer of both of the parties. In the event of variation or addition, all the terms of this Further Addendum to the Deed shall apply to such variation or addition except as may otherwise be expressly provided therein.
- 4.2 No forbearance or indulgence by either party in enforcing any term or condition of this Further Addendum to the Deed shall prejudice or restrict that party's rights or powers herein and no waiver of any breach shall operate as a waiver of any subsequent or continuing breach.
- 4.3 This Further Addendum to the Deed may be amended, supplemented or modified only by a written instrument duly executed by or on behalf of each party hereto and expressed in a common document.

ARTICLE 5: GOVERNING LAW AND DISPUTE RESOLUTION

- 5.1 The provisions of Articles 11.1 and 11.2 of the Deed shall apply, with the necessary modifications, to this Addendum to the Deed.

IN WITNESS whereof this Further Addendum to the Deed of Transfer has been executed by the duly authorized representatives of the parties the day and year first written above.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya
