The county should undertake a staff a rationalization exercise, with a view to increasing productivity, while it explores on long-term strategic solutions to manage the soaring wage bill.
2. There is a need for budget provision for the Assumption of the Office of Governor Committee in the financial year before general elections take place for purpose of smooth operations and transition.
3. The state department of devolution in collaboration with IGRTC alongside other stakeholders need to move with speed on the exercise of verification and validation and subsequent presentation of their recommendations to county governments to settle the issue of pending bills.
4. The city counties to revive discussions on city financing, a special allocation to address unique challenges faced by these counties notably bloated wage bill, pending bills, waste management, city infrastructure among others.
5. The county government to push for revision of the current revenue allocation formula to include new parameters that will take into account the floating population, the urban index and the blue economy sector.
6. While there is an upward trajectory in own source revenue collection the County Government of Mombasa needs to develop a long-term resource mobilization strategy, with a view to realizing its full potential. This will enable the County meet its operational and development expenditures while reducing over reliance on the equitable share from the National Government.
7. The County of Mombasa being a port city needs to revive negotiations with Kenya Ports Authority on having a stake at the Port.
8. The County Government of Mombasa needs to develop a framework on how to get a share of revenue from undersea fibre cable providers.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measure</i>
Noise pollution	- Observe normal working hours during noisy construction works (00800 to 1700) hours. - Ensure that all generators and heavy duty equipment are insulated or placed in enclosures. - Sensitize drivers to avoid unnecessary gunning of vehicle engines. - Workers to wear ear muffs if working in noisy section. - Erecting signs and notifying other users of noisy activities. - Using equipment with low noise ratings or noise reduction technologies such as for the generators.
Construction waste	- Making available suitable facilities for the collection, segregation and safe disposal of the wastes. - All construction materials left over at the end of construction should be used in other projects or sold.

<i>Impacts</i>	<i>Mitigation Measure</i>
	- Ensure proper handling and storage of construction materials to reduce damage. - Accurately estimate the sizes and quantities of materials required to reduce amounts left. - Excavated waste should be re-used or backfilled.
Air/dust pollution	- Enclosing the structures under construction with dust proof nets. - Using efficient machines with low emission technologies for the ones that burn fossil fuels. - Regular maintenance and services of machines and engines. - Use of clean fuels e.g. unleaded and de-sulphurized fuels.
Oil spills and leaks	- Machinery should be well maintained to prevent oil leaks. - Contractor should have a designated area where machinery servicing and maintenance is carried out and that is protected from rain water. - All oil products should be stored in a site store and handled carefully.
Drainage and Storm- water	The drainage system should ensure that surface flow during pump testing is drained suitably to control flooding within the site.
Vegetation loss	- Designate access route and parking zones for construction lorries and vehicles delivering raw materials. - Landscape the site after the activity.
Increased water demand	- Provide information signs on means and needs to conserve water. - Promote re-cycling and re-use of water as much as possible. - Sensitize the occupants to conserve water by avoiding unnecessary wastage. - Detect and repair broken pipes promptly. - Install water storage tanks.
Solid waste generation	- Waste should be properly segregated and separated. - Provide litter bins. - Ensure regular waste collection. - Making available suitable facilities for the collection, segregation and safe disposal of the wastes. - Creating adequate facilities for the storage of materials and chemicals and controlling access to these facilities.
Demand for electricity	- Energy conservation measures to be practiced. - Lights to be switched off when not in use. - Service solar panels regularly. - Ensure standby general is functional. - Install power meters to monitor power use.
Fire hazards and accidents	- Keep well stocked and functional first aid box. - Ensure proper storage of inflammables at the site. - Maintain fire-fighting equipment and ensure that they are regularly inspected. - Create awareness among employees on proper safety measures.

<i>Impacts</i>	<i>Mitigation Measure</i>
Occupational health and safety	- Provision of PPEs to all and replacing the PPEs on wear and tear. - Placing readable signs alerting people of flammable hazardous petroleum materials. - Servicing equipment and machine to ensure efficiency. - Providing fire-fighting equipment. - Delineating fire and emergency assembly.
Insecurity	- Construction of a perimeter wall and have a barrier which is manned all the time. - Install security alarms. - Partnership with the neighbors and police in community policing. - Round the clock security for the facility. - Adequate lighting and an alarm system installed at strategic points.

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or county Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or county Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or county Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
