THE ENVIRONMENTAL MANAGEMENT AND CO ORDINATION ACT

(No 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RESIDENTIAL APARTMENTS ON PLOT L R NO 209/8879/7 AND 8 LOCATED ALONG OLOITOKTOK ROAD IN KILELESHWA AREA, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project

The proponent, Pinecrest Properties Limited proposes to construct an eighteen (18) storey (2No basements, ground floor 2No podium levels plus 18No upper floors) residential block comprising 252No Units (216No one bedroom and 36No two bedroom), 118No parking bays), gym swimming pool, associated facilities and amenities on Plot L R No 209/8879/7 and 8 located along Oloitoktok Road in Kileleshwa area Nairobi City County

"The following are the anticipated impacts and proposed mitigation measures

Impact

Mitigation Measures

Soil erosion

 Obtain an excavation permit before the excavation works from Nairobi City County

Impact

Mitigation Measures

- Avoid unnecessary excavations and other soil disturbances that can predispose it to the agents of erosion especially during rainy/wet conditions
- Use of soil erosion control structures on prone areas within the site
- Level the project site to reduce run-off velocity and increase infiltration of storm water into the soil

Air pollution •

- Screen the entire site to control and arrest construction related dust
- Regular sprinkling of water on the work areas to prevent fugitive dust violations
- Provision of appropriate PPE to the workers such as gas masks and goggles when working in a dusty environment
- Regular maintenance of the machinery to minimize the generation of hazardous gases
- Monstor the air quality levels as per the EMCA (Air Quality) Regulations

Noise and excessive vibrations

- Construction activities will be carried out during day at the specified time
- Use of noise suppressors or stiencers or noise shields on noisy equipment
- The contractor will endeavour to use equipment installed with noise abatement devices as much as practicable
- Switch off the construction machinery and vehicles when not in use
- Provision of appropriate PPE to the workers such as earmoffs when working in a noisy environment
- Monitor the noise and vibration levels at the site as per the EMCA (Noise and Excessive Vibrations) Regulations

Solid waste

- Provision of clearly marked dustbins within the project site
- Segregation of waste at the source before final
- Engage the services of a licensed waste transporter to dispose of the waste at designated disposal sites

Liquid waste •

- Channel all liquid waste to the existing trunk sewer system
- All manholes on drive ways and parking areas will be constructed with heavy duty covers set and double sealed airtight as approved by specialists
- Frequent monitoring of the internal reticulation system and ensuring that any blockages and damages are fixed expeditiously
- Provision of adequate and appropriate sanitary facilities to the construction workers

Water demand

- Drill a borehole to supplement the existing NCWSC water supply
- Provision of adequate centralized underground tank for water storage
- Install water efficient fixtures/fittings that turn-off automatically when not in use
- Encourage water reuse/recycling during the project cycle
- Monitor the consumption of water on monthly basis

Energy demand

Apply for connection permits from KPLC and EPRA as appropriate

Impact

Mitigation Measures

- Install a 630 KVA transformer for energy supply within the development
- Install a 105 KWp grid tied Solar PV system for green energy supply within the development
- Install a 500KVA generator as an alternative back up for the development
- Install energy efficient fixtures/fittings within the development
- Turn off machinery and equipment when not in use
- Monitor the consumption of energy on monthly

Traffic congestion

- Undertake a Traffic Impact Assessment (TIA) and ensure adherence of its recommendations
- Engage traffic marshals to control traffic in and out
- Ferry building materials during the off peak hours
- Install warning/informative signs at strategic point within the project site
- Provision of a separate entry and exit points within the development to ease the traffic flow in and out of the project site

Health and safety of workers

- Register the site as a workplace with DOSHS
- Provide adequate and appropriate PPE to the workers within the site such as safety boots overalls helmets, goggles earmuffs, masks gloves
- Adapt a suitable Emergency Response Plan (ERP) to manage occurrence of anticipated hazards during the construction phase
- Establish a Health and Safety committee during the construction phase
- Induct and train all construction workers on OHS procedures
- Ensure provision of safe drinking water for the workers within the site
 - Regular monitoring and evaluation of the safety of

Impact on fauna

ter!

- Ensure that potentially contaminated runoff from site is directed through oil traps before final disposal into the environment
- Avoid dumping spoil and waste into the Kirichwa
- Limit vegetation clearing to the designated areas and planting of trees after construction works

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SUGAR FACTORY SITE LOCATED ON PLOT L R NO KERICHO/KAPLELARTET/3030 KAPLELARTET LOCATION IN SOIN CONSTITUENCY KERICHO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co ordination (Impact Assessment and Audit) Regulations 2003 the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project

The proponent Kericho Primelands Sugar Factory proposes to install a 1250 ted vacuum pan sugar processing mill for the production of 138 MT/day The company plans to expand the factory capacity to 2500TCD after four years of its operation. The project will be located on plot LR No Kericho/Kaplelartet/3030 in Kaplelartet Location Soin Constituency of Kericho County

The following are the anticipated impacts and proposed mrtigation

Environmental Impact Mitigation Measures Proposed

Increased demand of raw materials

- Construction materials will be sourced from licensed quarries and local suppliers who use environmentally friendly processes in their operations
- Accurate budgeting and estimation of

Environmental Impact Mitigation Measures Proposed

actual construction maternal requirements to ensure that the least amount of material necessary is ordered and to ensure that the amount of construction materials left on site after construction is kept minimal

Ensuring that damage or loss of materials at the construction site is kept minimal through proper handling

Dust and air pollution

- Watering all active construction areas as and when necessary to lay dust
- A speed limit of 10km/hr shall apply to all construction vehicles on the site
- Rehabilitation of disturbed areas once completed
- Materials transport equipment will be cleaned on a regular basis
- Planting appropriate trees shrubs and flowers to compensate for emission

Generation of construction and domestic wastes

- Use of durable, long lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time
- Construction waste will be recycled or reused to ensure that materials that would otherwise be disposed of as waste are diverted for productive uses
- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements
- Consider the use of recycled or refurbished construction materials where feasible
- On operation the developer shall provide adequate domestic waste receptacles on site and ensure safe transportation to designated disposal sites by licensed waste handlers
- An effluent treatment plant has been proposed to manage all liquid wastes from the premises, and Contract registered waste disposal expert to transport and dispose waste from site

Noise and vibration

- Restriction of the work hours during the construction phase from 7 a m to 6 p m Monday to Saturday
- machinery used during construction shall be maintained in a sound mechanical condition
- Limit pick-up trucks and other small equipment to a minimum idling time and observe a common-sense approach to machine use and encourage workers to shut them off whenever possible

Increased vehicular along Sondu Kusumu mad

- Construction vehicles to enter and leave the site through designated paths only
- Posting traffic warning signs on both approaches to the construction site to warn other road users of traffic risks
- Strict adherence to speed limits near the construction area of 10 km/hr
- Clearly parking spaces, installation and maintenance of traffic guide signage

Environmental Impact Mitigation Measures Proposed

Increased energy demand

- Sensitization of staff to conserve nonrenewable fossil energy by switching off machinery and equipment when they are not being used
- Proper planning of transportation of materials to ensure that fossil fuels(diesel petrol) are not consumed in excessive amounts unnecessarily
- Monitoring energy use during construction/welding and operation and setting targets for reduction of energy use
- Installation and use of energy efficient welding and lighting equipment during construction and operation respectively

Occupational and public hazards and accidents

- Provision of appropriate Personal Protective Equipment (PPE) to construction workers
- Barricading the construction area and appropriately and iposting public warnings
- Provision of appropriate onsite sanitary convenience for workers
- Establishing leneargency procedures against hazards and ensuring the workers stay aware/educated on following them and commensurate to the magnitude and type of emergency by conducting regular drills and involving the neighbouring business people
- Adherence to the Occupational Health and Safety rules and regulations supulated in the Occupational Safety and Health Act. 2007
- Providing firefighting equipment and in easily accessible areas as well as ensuring site personnel are well trained to use them as well as maintain them regularly.

Increased Water demand

- Employing water conservation techniques and only using the required amounts of water to prevent wastage
- Implementing water conservation
 techniques such as having faucets with dead man tap openers

Soil disturbance and erosion

- Levelling the disturbed site areas to reduce run-off velocity and increase infiltration of rain water into the soil
- Construction vehicles will be restricted to designated paths to avoid soil compaction within the proposed Project
- stockpiling materials shall not be done along the road

Food insecurity

 The proponent will ensure that sugarcane farming does not replace maize farming which is the main food crop in the area. This will be done in collaboration with relevant county government departments.

Use of improper seed

 The proponent will provide short maturing and high yield sugar varieties to enable farmers get their financial benefits in a short time

Improper land , preparation

 The proponent will sensitize the farmers on the most appropriate methods of good land preparation including soil conservation.

Environmental Impact Mitigation Measures Proposed

Cane spillage

Sensitization of sugarcane loaders on proper sugarcane loading to avoid inconvenience other road users. The proponent will also institute measures of collecting all the spilled cane on the feeder roads.

Influx of factory workers

Employment priority will be given to the local people within the factory area

HIV/AIDS

The proponent in partnership with the Ministry of health and county government will undertake sensitization campaigns against the spread of HIV/AIDS among the factory works and with local community members

Exposure to Corona virus

- The Health and Safety Officer who will be in charge of sensitization of workers on Covid 19 shall be stationed at the site
- Body temperatures of workers and any other personnel visiting the site shall be taken on arrival at the site and when they leave for home using non-contact infrared thermometer
- Administrative controls to aid in site worker separation and reducing people idensity shall be put in place
- Hand washing station shall be provided at site entrance. The station shall be supplied with soap and clean running water at all times.

THE ENVIRONMENTAL MANAGEMENT AND CO ORDINATION ACT

(No 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED INCINERATOR PLANT ON PARCEL NOS NTIMA/NTAKILA/7535, 7404 AND 7405 IN GIANTUNE AREA IN IMENTI NORTH SUB COUNTY MERU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co ordination (Impact Assessment and Audit) Regulations, 2003,

the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project

The proponent Scorpio Solutions Limited, intends to develop a waste handling facility by installing an incinerator plant with a capacity to handle approximately 150kgs/hr of hazardous waste. The facility will comprise an incineration plant, waste handling and sorting yard and waste holding point on parcel Nos Ntima/Ntakila/7535, 7404 and 7405 in Giantune Area in Imenti North Sub County Meru County

The following are the anticipated impacts and proposed mitigation measures

Anticipated Impacts

Proposed Mitigation Measures

- Solid waste.
- Use of an integrated solid waste management system through a choice of options such as recycling reuse, combustion and sanitary land filling
- Comprehensive biological organic matter management
- Ensure that construction materials left over at the end of construction are used in other projects rather than being disposed
- Ensure that damaged or wasted construction materials including timber are recovered for refurbishing and use in other projects
- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements
- Purchase of delicate construction materials such as cement incrementally to ensure reduced spoilage of unused materials
- Use construction materials that have minimal or no packaging to avoid the generation of excessive packaging waste

Noise and vibration

- Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used, to avoid gunning of vehicle engines or hooting especially when passing through sensitive areas such as churches schools residentialiareas and hospitals
- Ensure that construction machinery is kept in good condition to reduce noise generation
- Ensure that all generators and heavy-duty equipment are in sound proof rooms or placed in enclosures to minimize ambient noise levels
- The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work
- Use machines that are equipped with noise reduction devices such as mufflers
- Provide workers with ear muffs especially those working in high noise concentration areas

Adverse activities

- construction Provide for a landscaping programme
 - Ensure construction activities are confined to an actual demarcated area to avoid spillover effects
 - Remove and dispose properly excess excavated soil and other wastes
 - Rip off all compacted areas

Anticipated Impacts

Proposed Mitigation Measures

- Valuation of the project to ensure that the design optimizes the use of construction materials
- Proper supervision of construction personne!

Air quality

- The stack of the incinerator will be raised above 4 M high
- Enclosing the structures under construction with dust proof nets
- Using efficient machines with low emission technologies for the ones that burn fossul fuels
- Regular maintenance and services of machines and engines
- Use of clean fuels e g unleaded and desulphurized fuels
- Fit a rain cap on top of the stack
- Fit the fuel tank with an on/off valve or tap or a simple push button valve with a spring return

Increased water demand

- Provide information signs on means and needs to conserve water
- Promote re-cycling and re-use of water as much as possible
- Sensitize the occupants to conserve water by avoiding unnecessary wastage
- Detect and repair broken pipes promptly
- · Install water storage tanks

Vegetation and animal • disturbance

- Trees should be planted at surtable locations so as to interrupt slight lines (screen planting) between the adjacent area and the development
- Implement an appropriate re vegetation program to restore the site to its original

Demand for electricity

- Energy conservation measures to be practiced
- Lights to be switched off when not in use
- Service solar panels regularly
- Ensure standby general is functional
- Install power meters to monitor power use

Occupational health and safety

- Provision of PPEs to all and replacing the PPEs on wear and tear
- Placing readable signs alerting people of flammable hazardous petroleum materials
- Servicing equipment and machine to ensure efficiency
- Providing fire-fighting equipment
- Delineating fire and emergency assembly

Fire hazards accidents

Keep well stocked and functional first aid hox

- Ensure proper storage of inflammables at the site
- Maintain fire-fighting equipment and ensure that they are regularly inspected
- Create awareness among employees on proper safety measures
- Provide fire extinguishers near the incinerator

Anticipated Impacts

Proposed Mitigation Measures

Key healthcare staff should have basic training in fire control

Increased pressure on • Implementing available utilities

- conservation techniques
- · Using only the required amounts of water during normal operations
- Creating awareness through signs of conservation of water and electricity
- Using natural light during the day for lighting purposes

Misuse or inability to use installed equipment

- Provide requisite training from the beginning
- Have qualified personnel to handle the machinery

Incidents accidents and dangerous occurrences -

- Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place
- document prominently an appropriate SHE policy for construction works
- Ensure that items are not stored/stacked against weak walls and partitions

The full report of the proposed project is available for inspection during working hours at

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, PO Box 30126-00100, Nairobi
- Director-General NEMA, Popo Road, off Mombasa Road, PO Box 67839-00200, Nairobi
