COUNTY GOVERNMENT OF KISUMU

KISUMU COUNTY PUBLIC SERVICE BOARD

ANNUAL REPORT FOR 2021

STATEMENT BY THE BOARD CHAIRMAN

The year 2021 marked the second year of the implementation of the Board's Strategic Plan 2020-2024. Driven by the need to achieve its objectives, the Board proactively adapted to the unprecedented challenges posed by the Covid-19 pandemic by realigning itself accordingly in order to actualise its work plan.

Moreover, priority was given to building institutional capacity, enhancing performance, promotion of values and principles enshrined in the Constitution and strengthened collaboration with various partners and stakeholders.

Key milestones achieved included conducting a baseline survey on compliance with values and principles of governance and public service in line with Articles 10 and 232 of the Constitution of Kenya 2010, hiring of sign language interpreters as part of the County Government's efforts to integrate persons with disabilities and strengthening the adoption of technology in the Board's operations. In addition to that, the Board partnered with various stakeholders to undertake a number of activities in line with its mandate.

On behalf of the Board, I extend my gratitude to His Excellency the Governor of Kisumu County and His Excellency the Deputy Governor for their unwavering support, the County Assembly, County Executive Committee Members, Chief Officers and all other stakeholders for their cooperation with and contribution to the Board's achievements.

Finally, I wish to appreciate the Board members and secretariat staff for their commitment towards ensuring that the Board delivers on its mandate.

MW. CHARLES BABU KARAN

Board Chairman.

EXECUTIVE SUMMARY

During the period under review, the Board carried out various activities through its five committees; Recruitment, Selection and Capacity Development Committee, Human Resource Audit and Performance Management Committee, Finance and Information Assets Committee, Discipline, Ethics and Governance Committee and Agenda and Implementation Committee.

The Board successfully completed the recruitment of 148 officers during the period. Out of this number, 102 officers were hired for the Department of Health and Sanitation and the rest for other departments. The number is inclusive of 39 officers engaged for implementing partners in Health Sector. The Board absorbed 16 Afya Halisi staff in accordance with the Memorandum of Understanding between the County Government of Kisumu and the JHPIEGO Corporation (for USAID) Program. A total of 195 Kisumu City cleaners had their terms converted from Casual to term contracts during the period. The Board also conducted suitability interviews for Medical Officers and converted their contractual terms of engagement from 6 months to 3 years. In addition, the Board renewed contracts for 133 officers and confirmed appointment of 43 officers into permanent and pensionable.

The number of employees at the Kisumu County Public Service stood at 4,964 as at 31st December 2021 comprising 54% female and 46% male. During the period under review, twenty-six (26) officers exited the County Public Service. Out of this, nineteen (19) retired from Service, one (1) resigned and six (6) died while in service. There were a total of ninety-five (95) officers who were set to leave the County Public Service between July 2021 and June 2022 on attainment of the mandatory retirement age.

The Board issued advisories to the County Executive on compliance with biennial Declarations of Income, Assets and Liabilities (DIALs) for the 2019-2021 period and ultimately coordinated the submission of declarations by all relevant officers beginning 1st November 2021. In terms of policy development and formulation, the Board commenced the development of a Service Charter. Significant strides were made in the promotion of values and principles provided for under Articles 10 and 232 of the Constitution of Kenya. Notably, the Board conducted a baseline survey on the status of compliance with the values and principles within the County Public Service. The Board presided over and finalized various disciplinary cases. The Board also processed and participated in a number of court matters with significant outcomes including the reinstatement of twelve workers in compliance with court orders requiring the implementation of mediation agreements. The Board continued to prioritize cooperation and consultation with the County Executive in disciplinary and court matters.

In sheer commitment to fulfillment of constitutional requirements for affirmative action, the Board successfully recruited seven sign language interpreters who were strategically deployed. Further, the Board submitted an ethnic audit report to the National Cohesion and Integration Commission, which depicted an impressive, unprecedented representation of over twenty-eight (28) Kenyan ethnic communities and Counties within the Kisumu County Public Service.

The Board was unable to accomplish most of the activities scheduled in its strategic plan and annual plan due to constant insufficient budgetary allocation. Nevertheless, through the available funds from the County Treasury and partnerships with Lap Fund and CPF, the Board was able to facilitate its activities and procure goods and services. It is important to note that the Board did not have any adverse audit queries during the period.

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, National Water Harvesting and Storage Authority proposes to construct a zoned earth fill embankment dam of 30m height and 182m crest length. The dam will incorporate a horizontal drainage blanket and inclined chimney drain. The spillway has capacity of 159m³/s which represents the probable maximum flood flow. The river diversion capacity is 24.64m³/s based on 5 years ARI with conduits to locate flows, treatment works and reticulation system with a capacity 3975m³/day. The daily release capacity of the reservoir is 2650 m³/s. The project will be located across Nzeeu River, Part of Kabonge Village, North East of Kitui Town, Kitui County.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation Measures
Loss of aquatic organisms	• Ensure recommended water quality standards in the tail water are adhered to as per the provisions of NEMA Water Quality Regulation. • Ensure no observable aquatic organism is destroyed during construction. • Key stakeholders to enhance public awareness and participation in conservation activities. • Enforcement of Wildlife Act, 2013 and EMCW (wetlands, Riverbanks, Lake Shores, and Sea Shore Management) Regulations, 2009.
Loss of vegetation	• Introduce vegetation strips to unproductive land to compensate for what will be cleared. • Identify endangered species of trees to be planted in other places where they will not be affected. • Consider re-vegetation around the upstream points and along the rivers. • Plant more trees in the dam reserve areas to increase vegetation. • Encourage local people in catchment areas to plant more vegetation. • Reinstate the site after construction and rehabilitation activities.
Water pollution	• The contractor to prepare an Integrated Waste Management plan during construction and operation period of the schemes.

<i>Impacts</i>	<i>Mitigation Measures</i>	<i>Impacts</i>	<i>Mitigation Measures</i>

Excessive noise and vibrations	• Workers using drilling equipment to be provided with specialized anti- vibrating gloves. • Switching off vehicles and machines when not in use. • Machines and equipment to be fitted with silencer in the site for construction should be hoarded off. • An improvised rock breaking system should be adopted by use of Ammonium Nitrate. • Avoiding unnecessary hooting. • Workers to be provided with Personal Protection Equipment. • Machines to be serviced to reduce generation of noise and vibrations. • Warnings to be issued to the locals in case of any unusual noise, the noisy activities should be restricted to daytime. • Ensure that noise and vibration standards are observed.		• Planting of trees in the project catchment areas to minimize soil erosion. • Where there is intense soil erosion, gabions should be built as a measure to reduce soil erosion. • There should be intensive re-vegetation on bare grounds after construction. • Compaction of loose soils after excavations and reuse of materials for refill. • The canal design to adopt sub critical flow velocity to avoid erosion.
Dust emission	• The access roads to be watered during the construction period. • Plant more vegetation for carbon sequestration limit the speed on dusty roads. • Workers to use masks when working in dusty conditions.	Siltation, eutrophication and sedimentation	• Re-using of excavated materials as fill or for other works. • Compacting of loose soil and planting of grass to hold the soil.

Increased energy demand	• Identify and use areas/equipment/systems having minimum energy consumption. • Install energy efficient lighting in common areas such as staircases and driveways. • Use alternative energy e.g. solar power for water heating, and security lights. • Install water heating systems as per the Solar Water Heating Regulations, 2012.
Traffic and obstruction along access road	• Ensure that the Entry/Exit to the project site is located where it will cause minimal traffic along adjacent roads. • Ensure all construction vehicles to and from the construction site use the designated Entry/Exit to the project site. • All transportation of construction raw materials and excavated materials are to be conducted at traffic off peak hours. • Sensitize truck drivers to avoid unnecessary road obstruction. • Cover all trucks hauling soil, sand and other loose materials to avoid spillage and dust emissions that may interfere with smooth monitoring.
