DIRECTORS' COMMENTARY

GENERAL INFORMATION

The African Export-Import Bank (the Bank) is a multilateral trade finance institution, established in October 1993. It commenced lending operations in September 1994. The Bank's mandate is to promote, finance and facilitate intra and extra-African trade, while operating commercially. The Bank is headquartered in Cairo, Egypt and is located at No. 72 (B) El Maahad El Eshteraky Street, Heliopolis, Cairo 11341, Egypt. In addition, the Bank has regional offices in Harare (Zimbabwe), Abuja (Nigeria), Abidjan (Cote D'Ivoire) and is currently setting up a regional office in East Africa. The Bank has 4 classes of shareholders, class A (African Governments and/or associated institutions and African Multilateral institutions e.g African Development Bank), class B (African financial institutions and private investors), class C (non-African institutions) and class D (any investor). Class A, B and C shares are partially paid 40% upon subscription while class D shares are fully paid. Class D shares were created in 2012 to facilitate the Bank's entry in to the equity capital market. In October 2017 the Bank listed Depository Receipts on the Stock Exchange of Mauritius backed by class D shares.

REVIEW OF FINANCIAL PERFORMANCE

The Bank implements its programmes and facilities through 5 year strategic plans and began implementing its 5th Strategic plan, dubbed "Impact 2021, Africa Transformed", in 2017. The strategy is anchored on 4 pillars namely, Improving Intra-Africa Trade, Facilitating Industrialization and Export development, Strengthening Trade Finance Leadership and Improving Financial Soundness and Performance. The Board of Directors (the Board) is pleased to report that the financial performance in 2017 exceeded projections for the year. The results achieved reflected the wisdom of an emphasis in smart implementation of the Bank's developmental agenda. It was also driven by the re-organisation initiated in 2016 which strengthened client relations and risk management functions of the Bank, resulting in higher client engagement and operating efficiency levels. The proceeds of shareholders equity injection, including the Depository Receipts listing in October 2017, significantly improved the Bank's equity levels providing additional capacity for future growth. Attributable earnings amounted to US\$220.5 million (2016: US\$ 165 million), a 34% growth rate compared to prior year. A strong (24%) increase in interest and similar income arising from growth in average loans and advances portfolio by 22% drove the observed increase in net income. In addition, the Bank maintained high operating efficiency levels reflected in low cost to income ratio of 18% (2016: 18%) on the back of higher revenues and well managed expenses growth. The Return on Average Assets (ROAA) and Return on Average Equity (ROAE) were satisfactory and in line with internal targets at 1.87% (2016: 1.75%) and 11.76% (2016: 11.41%) respectively.

In-line with expectation, the Bank's total assets grew by 1.6% from US\$11.73 billion as at 31 December 2016 to US\$11.91 billion as at 31 December 2017 explained mainly by a strong increase in Bank and Cash balances of US\$ 3.2 billion (2016: US\$1.27 billion). The significant growth in liquidity arose from its successful implementation of the Bank's Central Bank Deposits Programme (CENDEP). The winding down of the Bank's 2-year Countercyclical Trade Liquidity Facility (COTRALF) programme was the main reason for the marked reduction in loans and advances which closed the year at US\$8.3 billion (2016: US\$10.1 billion). Despite lower loan portfolio, asset quality remained high with NPL ratio of 2.5% (2016: 2.4%) while loan loss coverage ratio stood at 141% (2016: 133%) well above the minimum target of 100%. The Bank's total liabilities declined slightly by about 3% year-on-year to US\$ 9.79 billion (2016: US\$ 10.10 billion) as at 31 December 2017. The main reason for the decrease in total liabilities was the customer deposit accounts which decreased by US\$ 1.63 billion as cash collaterals backing certain loans reduced as the loans were repaid. Borrowing balance went up by 16% from US\$ 6.14 billion in 2016 to US\$ 7.11 billion in 2017. The increase in borrowings supported the growth in the loan book throughout the year. The Bank's Shareholders' funds at US\$2.12 billion grew by 30% year on year on the back of capital injections and internally generated capital arising from of higher profitability. The Bank closed the period with a strong capital adequacy ratio of 26%, up from 23% in 2016.

OUTLOOK

As African economies continue to recover from the commodity induced shocks, with GDP growth rate expected to grow to 4%, in 2018 many suffered during 2015-2016, the Bank sees opportunities for participating in the recovery by supporting its clients in its member states to rebuild their businesses and regain market share. The Bank will also continue to intervene in support of those countries yet to fully achieve recovery. From a developmental perspective, the Bank will continue to focus on promoting and financing Intra-African trade, promoting Industrial and Export development in Africa and expanding access to trade finance across Africa.
