## AFRICAN EXPORT-IMPORT BANK ABRIDGED UNAUDITED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2019

### DIRECTORS COMMENTARY

This communique is issued pursuant to SEM Listing Rules 11.3 and 12.20 and section 8.8 of the Securities Act of Mauritius 2005.

### GENERAL INFORMATION

The African Export-Import Bank (the Bank) is a multilateral trade finance institution, established in October 1993. It commenced lending operations in September 1994. The Bank's mandate is to promote, finance and facilitate intra and extra-African trade, while operating commercially. The Bank is headquartered in Cairo, Egypt and is located at No. 72 (B) El Maahad El Eshteraky Street, Heliopolis, Cairo 11341, Egypt. In addition, the Bank has regional offices in Harare (Zimbabwe), Abuja (Nigeria), Abidjan (Cote D'Ivoire) and is currently setting up a regional office in East Africa. The Bank has 4 classes of shareholders, class A (African Governments and/or associated institutions (e.g Central Banks) and African Multilateral institutions (e.g African Development Bank), class B (African financial institutions and private investors), class C (non-African institutions) and class D (any investor). Classes A,B and C shares are partially paid 40% upon subscription (with 60% remaining as "callable capital") while class D shares are fully paid. Class D shares were created in 2012 to broaden the source of equity capital to include equity capital markets. In October 2017 the Bank listed Depository Receipts linked to Class D shares, on the Stock Exchange of Mauritius.

### REVIEW OF FINANCIAL PERFORMANCE

The Directors are pleased to report that the unaudited financial performance for the three months ended 31 March 2019 was ahead of prior year performance and in line with expectation. The Bank achieved a 28% growth in Attributable Income year on year, amounting to US\$69 million (2018: US\$54 million). The reported profits were driven by a strong growth in operating income which increased by 66% to reach an amount of US\$132 million (2018: US\$79 million). The strong growth in operating income was on the back of a significant increase in total revenues which grew by 59% to reach an amount of US\$240.71 million (2018: US\$151.17 million). The major driver of this significant growth was interest and similar income which grew by 56% from US\$150 million to US\$ 235 million by the end of March 2019 compared to same period last year. Supporting this quickening in operating income growth was a solid growth of about 50% in loans and advances in line with planned targets.

With regard to the implementation of the Bank's current 5-year strategy (Impact 2021-Africa transformed) which focuses on four key pillars namely, Improving Intra-Africa Trade, Facilitating Industrialisation and Export Development, Strengthening Trade Finance Leadership and Improving Financial Soundness and Performance. All key performance indicators were in line with expectation and in some cases exceeded set targets.

Operating expenses recorded a relatively modest increase of 14% in the first quarter of 2019 to levels of US\$ 20.93 million (2018: US\$18.37 million) due to implementation of planned capacity enhancements, in order to support the various strategic initiatives being pursued by the Bank in line with strategy. However, cost to income ratio remained satisfactory compared to industry, at a level of 16% (2018: 23%). This was achieved on the back of higher revenues and contained expenses growth. The Return on Average Assets (ROAA) and Return on Average Equity (ROAE) reflected the comparatively better performance and were in line with internal targets, at 1.92% (2018: 1.86%) and 10.6% (2018: 10%) respectively.

Total assets of the Bank grew by 33% to close the period within planned target band, at US\$15 billion (2018: US\$11 billion). The observed increase was driven by a strong business generation capacity of the Bank, which saw a solid growth in loans and advances balances from US\$8 billion as at 31 March 2018 to US\$12 billion as at 31 March 2019. The Bank, with a strong liquid assets to total assets ratio of 18% as at 31 March 2019, has ample liquidity to fund the planned disbursements in the 2nd quarter of the year and beyond to ensure that targeted annual business volumes are achieved. Asset quality remained satisfactory and within the strategic plan tolerance level, with the non-performing loans (NPL) ratio at 2.74% (2018: 2.7%). The good NPL outcome reflected effective credit risk management practices.

In line with the growth in total assets, total liabilities of the Bank grew by 36% and stood at US\$ 12.4 billion (2018: US\$ 9.1 billion) as at 31 March 2019. This was largely attributable to a 31% increase in borrowing balance to fund the growth in the loan book. The Bank's shareholders' funds also grew sharply by 35% to close the period at US\$2.63 billion (2018: US\$2.19 billion). This growth was primarily driven by achieved profits over the same period and capital injections in line with the strategic plan to sustain planned business growth. Capital adequacy ratio remained strong at 23% (2018: 26%).

The Bank closed the first quarter ended 2019 with a healthy financial standing reflected in satisfactory profitability levels, high asset quality, solid liquidity and strong capital levels to support both existing and future business volumes. Expectations are that the Bank will grow its Attributable Income by year-end in line with the full year targets whilst maintaining a sustainable balance between a strong capital base, business growth and profitability to deliver sustainable returns to its shareholders.

#### **NET ASSET VALUE ("NAV")**

The NAV per share at 31 March 2019 amounted to US\$51,913 (2018: US\$46,187), equivalent to US\$5.19 (2018: US\$4.62) per Depository Receipt (DR).

#### **DIVIDENDS**

The Bank's dividend policy has remained the same with dividends declared and paid once a year based on annual audited accounts and after approval by shareholders at the Annual General Meeting. During the March 2019 Board meetings, the Directors proposed a dividend appropriation amounting to US\$68,970,000 (2017: US\$57,534,000), subject to approval by the shareholders at the next Annual General Meeting to be held in June 2019. The proposed dividend per Depository Receipt is US\$ 0.252 (2017: US\$0.226). The March 2019 financial statements do not reflect the dividend payable, which will be accounted for in equity as an appropriation of retained earnings in the year ending 2019 after approval by shareholders.
