Priority Data: 24th December 2008, CHILE -

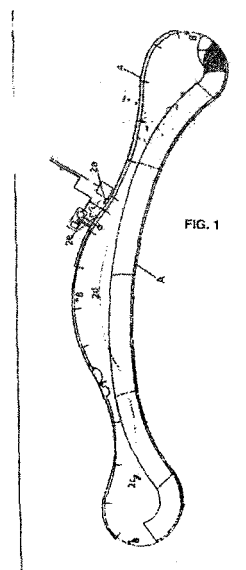

Date of Grant: 26th November 2009

Title of Invention: EFFICIENT FILTRATION PROCESS OF WATER IN A
TANK FOR RECREATIONAL AND ORNAMENTAL
USES, WHERE THE FILTRATION IS PERFORMED
OVER A SMALL VOLUME OF WATER AND NOT
OVER THE TOTALITY OF THE WATER FROM THE
TANK

Abstract:

The present invention comprises an efficient filtration process of water from a tank for recreational and ornamental uses, where the filtration is performed over a small volume of water and not on the totality of the water from the tank; the process comprises the following steps: (a) emitting ultrasonic waves in the tank; (b) adding a flocculant agent to the water; (c) covering the tank bottom with a suctioning device which suctions a water flow with flocculated particles, discharging to a collecting effluent line; (d) filtering the effluent flow of the suctioning device from said collecting effluent line; and (e) returning the filtered flow to the tank. The present invention additionally comprises a suctioning device used in said efficient filtration process.

International Patent Classification: B01D, E04H, C02F

Applicant

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or, when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Management's Responsibilities for Compliance

In addition to the responsibility for the preparation and presentation of the financial statements described above, management is also responsible for ensuring that the operations of the Association of Urban Authorities are conducted in accordance with the provisions of laws and regulations, including compliance with the provisions of laws and regulations that determine the reported amounts and disclosures in an entity's financial statements.

Auditor's Responsibilities

In addition to the responsibility to express an opinion on the financial statements described above, I am also responsible to report to the Association whether:

- (a) I have obtained all the information and explanations which to the best of my knowledge and belief were necessary for the purpose of the audit;
- (b) the activities, financial transactions and information reflected in the financial statements are, in all material respects, in compliance with the laws and authorities which govern them; and
- (c) satisfactory management measures have been taken to ensure that resources are procured economically and utilised efficiently and effectively.

I performed procedures, including the assessment of the risks of material non-compliance, to obtain audit evidence to discharge the above responsibilities.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Opinion on Compliance

Local Government Act

I have obtained all information and explanations I have required for the purpose of the audit.

In my opinion, based on my examination of the accounts in all material respects:

- (a) the activities, financial transactions and information reflected in the financial statements are in compliance with the Local Government Act; and
- (b) satisfactory management measures have been taken to ensure that resources are procured economically and utilised efficiently and effectively.
